HB1174, HD3, SD1, Relating to the University of Hawaiii

Monday, April , 2009, 9:30 am

Testimony in Support of HB 1174

To the Senate Ways and Means Committee

Dear Chair Kim and Members of the Ways and Means Committee

Please support House Bill 1174, which enables the Office of Mauna Kea Management and the University of Hawai'i to establish oversight of Mauna Kea. This bill will enable the University's Board of Regents to move forward with safeguarding Mauna Kea for future generations.

I am the Executive Officer of the Hawai'i Island Chamber of Commerce, an organization comprised of over 360 businesses and 720 member representatives. Our Chamber strongly supports passage of this bill as an effort to ensure the strength of our community and our economy. We believe that this bill will enable the University and the rest of the community to unite, finding a way to respect all religious, cultural, historical, scientific and recreational needs of our community.

Mahalo, Judi Steinman, PhD Executive Officer

Monday, 06 April 2009 9:30 a.m. - Conference Room 211

Presented to Senate Committee on Ways and Means

Chair Kim, Vice Chair Tsutsui, and members of the Committee on Ways & Means,

The Hawai'i Island Economic Development Board (HIEDB) respectfully submits this testimony strongly supporting HB 1174 HD3, SD1. This bill gives the University of Hawai'i the authority to promulgate administrative rules and establish a system for assessing and collecting fines for rules violations.

Astronomy is one of the major components of the Hawai'i Island economy. In addition to being a clean industry, it is a stable industry, but unlike the visitor industry it is not as sensitive to impacts of the volatility of economic conditions that occur outside the state. Astronomy also provides long term, stable, and highly skilled jobs for our local residents. It offers opportunities for local students to stay or come back to Hawai'i upon graduating from college.

However, HIEDB recognizes that astronomy on Mauna Kea must be conducted in the right way. It must be respectful of the cultural, spiritual, religious and environmental significance of the mountain. For over 30 years the University of Hawai'i did a poor job of managing the mountain. It ignored the concerns of the community and failed to follow through on recommendations to protect the resources. It was not until 2000 when the Board of Regents acknowledged the community's anger and decided that management needed to be based on the Island of Hawai'i. It established a new management structure composed of the Office of Mauna Kea Management (OMKM) and two advisory groups, the Mauna Kea Management Board and Kahu Ku Mauna (Guardians of the Mountain).

This new management entity has made a difference on how the mountain is managed. It established a ranger corps that monitors activities on the mountain on a daily basis and it initiated surveys and studies of the resources to gain a better understanding on how best to manage those resources. It began the long process of developing a comprehensive management plan that will give them much needed guidelines for protecting the resources from daily human activity as well providing guidelines for handling future development. But to be fully effective the comprehensive management plan needs rules to enforce the management strategies of the plan. Together the comprehensive management plan and administrative rules will provide the best course of action to protect and preserve the cultural and natural resources on the lands managed by the University. It will also provide measures for allowing astronomy to co-exist on Mauna Kea.

HIEDB strongly urges this committee to pass this bill. Mahalo for this opportunity to testify and express our support on behalf of HB 1174.

Respectfully Submitted,

•

Jacqui L. Harrer

RE:

IN SUPPORT OF HB 1174, HD3, SD1

Relating to the University of Hawaii.

Hearing: Monday, April 6, 2009, 9:30 a.m., Room 211

Dear Chair Mercado Kim, Vice Chair Tsutsui and the Senate Committee on Ways and Means:

For the Record my name is Buzz Hong the Executive Director for the Hawaii Building & Construction Trades Council, AFL-CIO. Our Council is comprised of 16-construction unions and a membership of 26,000 statewide.

The Council SUPPORTS the passage of <u>HB 1174, HD3, SD1</u> that authorizes the board of regents to charge fees and enter into lease agreements for the Mauna Kea Lands, adopt rules to regulate public and commercial activities on Mauna Kea lands, establish and collect administrative fines for violations; establishes a Mauna Kea lands management special fund for the University of Hawaii to manage Mauna Kea lands.

Thank you for the opportunity to submit this testimony in support of HB 1174, HD3, SD1.

Sincerely,

W. Hry 1 4g William "Buzz" Hong Executive Director From: Sent:

To: Subject:

Kahu Ku Mauna Council

Mauna Kea Management Board Office of Mauna Kea Management

Testimony in Support of HB 1174, HD3, SD1 Arthur Hoke, Jr. Member, Kahu Ku Mauna Council

Presented to **Senate Committee on Ways and Means**

April 6, 2009, 9:30 am

Email to: WAMTestimony@capitol.hawaii.gov

Chair Kim and members of the committee on Ways and Means.

Thank you for allowing me this opportunity to submit testimony before you on this very important matter concerning Maunakea, and the University of Hawaii.

On behalf of the full membership of **Kahu Ku Mauna**(Guardians of the Mountain), the group created by the 2000 Maunakea Master Plan, and charged with the specific responsibility of advising the Chancellor of UH-Hilo, the Office of Mauna Kea Management(OMKM), and the Mauna Kea Management Board(MKMB), on matters of Hawaiian Culture as they relate to Maunakea, are happy to submit our testimony in support of Administrative Rule Making Authority for the University of Hawaii at Hilo, thru OMKM & MKMB.

The current conditions with respect to the "Maunakea Science Reserve", a portion of the ceded lands atop Maunakea, is that to date, the University of Hawaii has only been given "the responsibility" to properly and diligently protect, preserve and manage, the cultural, natural, and historic resources found there, BUT they

have NEVER BEEN GIVEN the required AUTHORITY to ADEQUATELY and PROPERLY carry out the assigned responsibility.

The University has in the past sought "rule making authority", but to date, it has not been granted the right to promulgate the body of Administrative Rules necessary to adequately manage the resources found on the lands that comprise the Maunakea Science Reserve.

We urge you therefore, Chairs Kim and members of the Ways and Means committee, to favorably consider this legislation, pass it, and make it into the law necessary, so that in the future, this Legislature, Kahu Ku Mauna Council, and all of the other interested and concerned parties may assist the University in the promulgation of it's set of Administrative Rules, and then, watchfully hold the University accountable for the PROPER MANAGEMENT of our cherished resource, Maunakea.

Respectfully submitted,

ARTHUR HOKE, JR. for: Kahu Ku Mauna Council

The Senate Committees on Ways and Means April 6, 2009, 9:30 a.m. Conference Room 211

Statement of the Hawaii Carpenters Union In Support of HB1174, HD3, SD1

The Hawaii Carpenters Union is in strong support of H.B. 1174 for both the current preservation of Mauna Kea, and for future planning and management.

In the course of membership discussions on efforts towards a comprehensive management plan, we have become aware of current issues of damage to natural, Native Hawaiian and other structures, as well as safety and health problems. Rulemaking and jurisdiction for rule enforcement is needed.

The future of natural, cultural and scientific resources also depend on the ability to educate, inform and enforce for proper and respectful activity. The economic future of the Big Island, including for members of our union, will be directly affected if it is ever perceived that conditions do not provide for astronomy in co-existence with other activities.

As the University of Hawaii and the DLNR move to meet their responsibilities, H.B. 1174 provides an essential component, no matter what plans are eventually pursued. The Hawaii Carpenters Union urges its passage.

Testimony in Opposition to the University's Attempt to Control Mauna Kea (HB 1174 and the "Draft Comprehensive Management Plan")

Aloha Legislators,

I strongly oppose the University's plans for the future of Mauna Kea as outlined in HB 1174 and the University's latest development plan. Under the University's proposal, Mauna Kea would become a gated community for astronomers. Their management plan would "manage" public access by charging and regulating people visiting the summit and dictating when, how, and who may engage in traditional and customary cultural practices. At the same time, their management plan places no limits on the real threats to Mauna Kea: excessive telescope construction. The lands of Mauna Kea are ecologically unique and culturally significant that is why they are protected as a conservation district. Conservation -- not telescope construction -- must be focus of all activity there.

Instead of abiding by the laws that protect Mauna Kea, the University is attempting to change them. The University has introduced four bills to the State Legislature seek to transfer all management authority from the Land Board to the University. The proposal is outrageous given the University's history of destruction and desecration on the sacred summit. Multiple reports, audits, and lawsuits have confirmed that the University's telescope activities have violated the law and continue to destroy the natural and cultural resources of Mauna Kea. Just as one example, the Wekiu bug, which lives only on the high elevation cinder cones of Mauna Kea, has lost 90% of its habitat to telescope development. Despite all of the flaws of past Land Board mismanagement on Mauna Kea, changing the laws that protect Mauna Kea now will not help to better protect the public trust resources on Mauna Kea. Instead, handing management authority over to the University will only hasten the loss of Mauna Kea's unique resources.

On top of it all, the University of Hawaii is profiting from its abuse of Mauna Kea at the public's expense. Mauna Kea is ceded lands. These lands are to be held in trust for the people of Hawaii. The law requires that fair market rent be charged for the use of these lands. However, in the case of Mauna Kea, the University pays the state only \$1 a year. In exchange, the University receives millions in benefits from the foreign nations and corporations with telescopes on the summit. Especially in this time of economic crisis, the University owes the people of Hawaii back rent for 40 years of destruction and desecration on the summit of Mauna Kea.

For these reasons, I strongly urge to stand strong for Mauna Kea. Uphold the protections currently in place for this sacred place and work to ensure they are fully enforced.

Mahalo,

1174, HD3, SD1, Relating to the University of Hawaii

Monday, April 6, 2009, 9:30 am

Senate Ways and Means

Aloha Chair Kim and members of the Ways and Means Committee

I am Richard Ha of Hamakua Springs Country Farms and I am writing in strong support of HB 1174, HD3. SD1– the Rule-Making Bill, relating to the University of Hawaii

I am Richard Ha and I'm a native Hawaiian and a life-long Big Island farmer. We farm 600 acres at Pepeekeo. We have farmed bananas for 25 years and hydroponic vegetables for the last five. Over the years we have produced millions of pounds of food. We sell under the Hamakua Springs brand in the supermarkets. Nearly 70 of us work on the farm. We are concerned with food security and sustainability, especially since we sit out here on islands in the middle of the Pacific.

I would like to share with you how I came to be involved with issues related to Mauna Kea. Three years ago, when I was a new member of the Hawai'i Island Economic Development Board, the Thirty-Meter Telescope people inquired about siting their telescope on Mauna Kea and the HIEDB formed a special TMT committee. I had strong feelings about the way it should be done: It should be done right! So I volunteered to sit on that committee. Before that, I was just a banana farmer.

When you talk about Mauna Kea you automatically talk about the Hawaiian culture, and when you talk about that, you end up in Keaukaha, the oldest Hawaiian Homes community on the Big Island (75 years). I found that the elementary school there is the center of the Keaukaha community.

I went to see Kumu Lehua Veincent, principal of Keaukaha Elementary School, with what I thought was a good proposal: "The TMT wants to come to the Big Island; what happens if we can convince them to give some kids from the community five, full-ride scholarships to the best schools in the nation?"

Kumu Lehua listened, and then he asked me: "What about the rest?" I could feel my ears getting hot and I felt kind of stupid. Yes, what about the rest?

Also, because the TMT had intentions to do things for the community, I expected the community would be receptive. Instead, I found that the Keaukaha people were very wary, wanting to know: "What do you really want?" They had been promised things many times before.

In the meantime, the TMT board decided to deal directly with UH system. But having met and liked the people in the Keaukaha community and elementary school, I went back again and again to talk story.

One day, I offered to sponsor an excursion to my farm. In the course of that trip, I asked Kumu: "Eh, where you guys go on excursion?" He told me they did not go. "No more money." Instead, they walked around the neighborhood. I said: "What you mean?" He said, "The bus costs \$300 and we don't have enough money for all the classes."

I was shocked. How could this be? There were hundreds of millions of dollars' worth of telescopes on Mauna Kea and there was no evidence of any benefit to Keaukaha, the most Hawaiian of Hawaiian communities? This no can! We needed to do something.

So, myself, Duane Kanuha, Leslie Lang and Macario decided to copy the Adopt a Child template—where you pay \$20 a month and the child sends you a letter and a picture every so often. We decided to do an Adopt A Class project so each class could go on excursions.

We figured \$300 for the bus and \$300 for entry fees to 'Imiloa – the world-class Hawaiian culture astronomy museum. So for \$600, people could adopt one class and send them on excursion. In four months, we had all the classes going on excursions both semesters.

The idea was contagious. Gordon and Betty Moore heard about the project and donated money to send all classes on the Big Island, from kindergarden to high school – in all public, private and charter schools – to 'Imiloa. That was nearly three years ago. Now I hear they plan to expand this idea to the San Francisco Bay area.

And due to Kumu Lehua's leadership, Keaukaha Elementary, a perpetually low-achieving school, had two consecutive years of improvements and came off the No Child Left Behind non-performing list. It was the only elementary school on the Big Island to achieve this distinction. Now they are role models. Imagine that.

Kumu Lehua told me this story: He said a teacher recently came in to interview to see if she could teach at Keaukaha Elementary. He rolled his chair back and told me, "She said it was a career move!"

I have attended at least eight public hearings about Mauna Kea, and many regular meetings of the Keaukaha Community Association, as well as meetings of the Kanaka Council. I have friends on all sides of the issue.

I see myself as a bridge between the shiny shoe crowd and the rubbah slippah crowd. I think that if we all can move toward the center a bit, we can make this work for all of us and especially for future generations.

The TMT recently asked us for advice as to how they should proceed and we told them they must bring tangible benefit to the community. We suggested educational benefits that must benefit the whole community, not just an elite few. That was how the THINK fund was conceived.

The TMT has agreed to contribute a significant amount of money to a fund that would be administered by the Hawai'i Community Foundation. The THINK fund is not limited to just the TMT for funding. We hope other telescopes will also donate to this fund in the future.

The fund's governing board has not yet been determined. But we would like to see people selected who are respected in the community for having the larger community in mind. Previously, because viewing time was what was traded, there was no way for the community to directly share in the benefits of astronomy. But this way we can get direct benefit back to the community.

One of the most frustrating thing to the community is that control over Mauna Kea always seems to be from O'ahu. First it was the University of Hawai'i at Manoa, and now it is the effect of the Internet where one can

just press a button and submit testimony. The Office of Mauna Kea Management, which is under the control of the University of Hawai'i at Hilo, came about in 2000 because of frustration with O'ahu control.

This is a major point of distinction. Please consider that for Big Islanders, Mauna Kea is our kuleana. We want to control our own destiny.

The CMP, the Rule-Making and the TMT do not exist in a vacuum. I happen to believe that the current economic crisis is not the worse thing that will happen to us in the next few years. I think world oil prices will soon rise again and will be much higher than the \$147 per barrel we saw last summer.

It is not about us anymore. We need to start to think about the future generations.

It is no secret that I think that the TMT can bring benefit to the community. But when I first volunteered for the TMT committee, I insisted that it must be done right.

So we must malama Mauna Kea before we do anything else. And rule-making is one part of this important process. I strongly support HB 1174.

I started off by saying that we should not let the perfect be the enemy of the good. When I was a young boy, my dad told me: "There are a thousand reasons why, **no can**; I only looking for one reason why: **CAN**!"

Richard Ha

President,

Hamakua Springs Country Farms

April 5, 2009

Senator Donna Mercado Kim, Chair Senate Ways & Means 415 S. Beretania Street Honolulu HI 96813

Dear Senator Kim and Members of the Committee,

I am Mary Begier testifying today as an interested citizen speaking in support of HB1174, HD3, SD1.

I have lived and worked on Hawaii Island for the past 15 years. Having lived in Hawaii my entire adult life I have had many opportunities to hike Mauna Kea trail, to visit the observatories and visitor center. I've even gone tubing in the snow. During these recreational and educational experiences I've observed people doing things that did not seem quite pono to me but until recently there was no one to report these misdeeds too. Now that we have the Rangers its wonderful to have them as a resource if someone is up to mischief or in need of aid. I was surprised to learn how little authority they really have though.

I can see why the legislature and other concerned citizens may be frustrated with those responsible for managing our mountain. We can't not undo what has been done. My involvement in our community has shown me that that UH Hilo is very concerned that they manage this incredible resource properly. Please grant the Board of Regents the necessary powers so we can all move forward with respect for those who worship, play and work on our beautiful gift, Mauna Kea.

Thank you for the opportunity to testify in support.

PO Box 636 Pepeekeo, HI 96783 April 5, 2009

Senator Donna Mercado Kim, Chair Senate Committee on Ways and Means

Support of HB1174, HD3, SD1

This letter is to support granting rule-making authority to the University of Hawai'i for its leased lands on Mauna Kea.

The university's stewardship of Mauna Kea has vastly improved since the 2000 master plan was implemented. With the institution of UH Hilo's Office of Mauna Kea Management, whose mission is to achieve balance in the stewardship of the Mauna Kea Science Reserve, activities on the university's leased lands began to take place with considerable community oversight and involvement. The community-based Mauna Kea Management Board advises OMKM and the UH Hilo chancellor on stewardship issues. OMKM's Kahu Ku Mauna Council and Environment Committee also volunteer many hours to study stewardship issues and provide thoughtful input to OMKM and the board.

OMKM instituted the Mauna Kea ranger corps to help protect Mauna Kea's unique cultural and environmental resources. The rangers also help protect the health and safety of the public who venture into this highly challenging environment. Administrative rules and the ability to enforce them are critical for the rangers to do their jobs effectively. I believe the university has demonstrated the will and the capacity to employ rule-making authority for the public good.

We are fortunate to have many pristine resources remaining to us on Mauna Kea. Please give the University of Hawai'i the tools that are needed to preserve these resources for us and future generations.

Thank you for considering this testimony.

Sincerely,

Helen Rogers

In Favir of UH's Plan for Mauna Kea and H.B. 1174, HD 3

Testimony Opposing HB 1174 HD 3 4/6/2009 WAM room 211 Aloha Kakou Land Board Members and Senators,,

I am writing to urge you to support the University's plans for the future of Mauna Kea as outlined in H.B. 1174, HD 3 and the University's version of a "comprehensive management plan."

This is a clear plan with a great deal of benefit to the vasy majority of Big Island residents. Make sure that the small but vocal minority does not again have it's way against the wishes of the many.

Aloha,

Brian Crawford

In Opposition to UH's Plan for Mauna Kea and H.B. 1174, HD 3

Testimony Opposing HB 1174 HD 3 4/6/2009 WAM room 211 Aloha Kakou Land Board Members and Senators,,

I am writing to urge you to oppose the University's plans for the future of Mauna Kea as outlined in H.B. 1174, HD 3 and the University's version of a "comprehensive management plan."

The University's plan for Mauna Kea falls far short of being "comprehensive" or providing even basic "management" for the extremely fragile and sacred public trust resources of the summit. This plan fails to outline any actual activities, timelines, or goals for protecting endangered species and their habitats. It also fails to adequately protect the constitutional right to engage in traditional and customary practices and religious ceremony on the summit.

Rather, the plan seeks to give the University unprecedented control over the use of the summit with the passage of H.B. 1174. With this authority, the University proposes to construct at least 50 more telescopes (along with their gift shops, parking lots, and toxic chemical storage facilities) as outlined in its 2000 development plan, erect a gate at Hale Pohaku to limit public access to the sacred summit, and impose an approval process to limit cultural practice and religious observances.

The lands of Mauna Kea are ecologically unique and culturally significant that is why they are protected as a conservation district. Conservation -- not telescope construction -- must be basis of all decisions about this amazing and important place. Multiple reports, audits, and lawsuits have confirmed that the University's telescope activities have violated the law and continue to destroy the natural and cultural resources of Mauna Kea. Just as one example, the Wekiu bug, which lives only on the high elevation cinder cones of Mauna Kea, has lost 90% of its habitat to telescope development.

On top of it all, foreign telescope owners are profiting of the abuse of Mauna Kea at the public's expense. Mauna Kea is ceded lands. These lands are to be held in trust for the people of Hawaii. The law requires that fair market rent be charged for the use of these lands. However, in the case of Mauna Kea, foreign telescope owners pay the state only \$1 a year. In exchange, they receive millions for the sale of telescope time and contracts with defense-contractors. Especially in this time of economic crisis, at the very least these illegal and immoral rental agreements between the state and the foreign telescope owners should be renegotiated to ensure fair market rent is collected for the use of our public trust resources on the summit of Mauna Kea.

Despite all of the flaws of past Land Board absent-management on Mauna Kea, changing the laws that protect Mauna Kea now will not help to better protect our public trust resources. The Land Board must fulfill its legal obligations to actively management and protect the conservation district on the summit. To do this, the Land Board should not approve the University's plan for Mauna Kea and the Legislature should not pass H.B. 1174. Instead, profits from the use of Mauna Kea should be appropriated to the Department of Land and Natural Resources specifically to provide for enforcement of current laws and the development of an update to the 1995 management plan that is currently governing activities on the summit.

Mahalo,

Gini Newell 4 Sand Island Access Road Honolulu, HI 96817

Please Oppose HB 1741/SB 884 and HB 1174

The Land Conservation Fund, Natural Area Reserve Fund, and Rental Housing Trust Fund are supported by and for the people. They were established because the legislature could not be counted on to adequately fund these programs in the budget on a regular basis. Now, after a broad coalition of concerned citizens, organizations, and elected officials worked so hard to establish these funds and increase support for these programs, some legislators want to eliminate or raid these funds. Auwe!

Would be better if all the foreign telescopes on Mauna Kea paid their fair share to use our state lands. Why not force the State Land Board to renegotiate those illegal leases? Hawaii could easily make \$50 million a year from collecting fair rent payments.

Please do not raid these important special funds to balance the budget. Oppose HB 1741... and HB 1174 to transfer authority for Mauna Kea to the University of Hawaii. Neither of these bills make sense for the long-term benefit of Hawaii's people and public trust resources.

Testimony Opposing HB 1174 HD 3 4/6/2009 WAM room 211 Aloha Kakou Land Board Members and Senators,

I am writing to urge you to oppose the University's plans for the future of Mauna Kea as outlined in H.B. 1174, HD 3 and the University's version of a "comprehensive management plan."

The University's plan for Mauna Kea falls far short of being "comprehensive" or providing even basic "management" for the extremely fragile and sacred public trust resources of the summit. This plan fails to outline any actual activities, timelines, or goals for protecting endangered species and their habitats. It also fails to adequately protect the constitutional right to engage in traditional and customary practices and religious ceremony on the summit.

Rather, the plan seeks to give the University unprecedented control over the use of the summit with the passage of H.B. 1174. With this authority, the University proposes to construct at least 50 more telescopes (along with their gift shops, parking lots, and toxic chemical storage facilities) as outlined in its 2000 development plan, erect a gate at Hale Pohaku to limit public access to the sacred summit, and impose an approval process to limit cultural practice and religious observances.

The lands of Mauna Kea are ecologically unique and culturally significant that is why they are protected as a conservation district. Conservation -- not telescope construction -- must be basis of all decisions about this amazing and important place. Multiple reports, audits, and lawsuits have confirmed that the University's telescope activities have violated the law and continue to destroy the natural and cultural resources of Mauna Kea. Just as one example, the Wekiu bug, which lives only on the high elevation cinder cones of Mauna Kea, has lost 90% of its habitat to telescope development.

On top of it all, foreign telescope owners are profiting of the abuse of Mauna Kea at the public's expense. Mauna Kea is ceded lands. These lands are to be held in trust for the people of Hawaii. The law requires that fair market rent be charged for the use of these lands. However, in the case of Mauna Kea, foreign telescope owners pay the state only \$1 a year. In exchange, they receive millions for the sale of telescope time and contracts with defense-contractors. Especially in this time of economic crisis, at the very least these illegal and immoral rental agreements between the state and the foreign telescope owners should be renegotiated to ensure fair market rent is collected for the use of our public trust resources on the summit of Mauna Kea.

Despite all of the flaws of past Land Board absent-management on Mauna Kea, changing the laws that protect Mauna Kea now will not help to better protect our public trust resources. The Land Board must fulfill its legal obligations to actively management and protect the conservation district on the summit. To do this, the Land Board should not approve the University's plan for Mauna Kea and the Legislature should not pass H.B. 1174. Instead, profits from the use of Mauna Kea should be appropriated to the Department of Land and Natural Resources specifically to provide for enforcement of current laws and the development

of an update to the 1995 management plan that is currently governing activities on the summit.
