A BILL FOR AN ACT

RELATING TO PUBLIC SAFETY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

	DE IT ENACTED DI THE DEGISDATURE OF THE STATE OF HAWAII.		
1	SECTION 1. In response to the governor's plan to address		
2	the State's budget shortfall by, among other things, closing the		
3	Kulani correctional facility, a senate ad hoc committee reviewed		
4	and assessed the impact that the imminent reduction in		
5	government services would have on Hawaii's communities, inmates,		
6	and the State's correctional system.		
7	Information gathered in briefings held in Hilo and Kailua-		
8	Kona on Hawaii Island and at the state capitol, revealed that:		
9	(1) The Kulani correctional facility, in operation since		
10	1946, is a minimum security facility situated on eight		
11	thousand acres outside Hilo, Hawaii. The facility		
12	houses adult male felons serving the last four years		
13	toward their tentative parole date;		
14	(2) The facility is the only department of public safety		
15	facility that is a mandatory work camp, requiring all		
16	inmates to work full time. Unlike other facilities		
17	that have only limited vocational training in mostly		

unskilled positions, Kulani correctional facility

18

 offers a wide range of educational training and occupational skills programs focusing on mechanical repair and maintenance, construction, heavy equipment operation, computer work, and horticulture and conservation. Inmates use these skills in community service projects, helping Hawaii Island communities with projects that would otherwise be unaffordable;

(3)

The Kulani correctional facility is the only department of public safety facility with a sex offender treatment program for minimum-custody sex offenders who are neither violent nor mentally challenged and are willing to work. The sex offender treatment program is one of the most successful in the nation. Treatment providers attribute this success to the facility's unique provision of treatment in an environment where inmates must also work and function responsibly with minimum supervision. Options for inmate transfer to other facilities with sex offender treatment are limited and would involve, for example, housing minimum-custody inmates in medium-security

facilities, which conflicts with the standards of the

H.B. NO. 415 H.D. 2 S.D. 2

1		American Correctional Association and the department
2	j	of public safety's policy and procedures;
3	(4)	Discontinuing the programs offered by the Kulani
4		correctional facility will significantly impede
5		present and future inmates from completing their
6		prescriptive programs. Since completion of a
7		prescriptive program is a requirement for parole
8		eligibility, this will force inmates to remain in
9		incarceration longer. It may also impede their
10		successful reentry into society upon release;
11	(5)	While the Kulani correctional facility is a one
12		hundred sixty-bed facility, it has housed up to two
13		hundred twenty inmates without operational problems;
14	(6)	Since 2000, the facility has received state capital
15		improvement project funding of \$8,136,937; and
16	(7)	As a result of the facility's closure, local vendors
17	,	will lose tens of thousands of dollars of sales in
18		goods and services, causing a detrimental economic
19		ripple effect for businesses throughout the island of
20		Hawaii.
21	The	legislature finds that the information gathered by the
22	senate ad	hoc committee raises questions about the wisdom of
	HB415 SD2	LRB 10-2349.doc

- 1 closing the Kulani correctional facility. The State has made a
- 2 significant capital investment in this facility and its closure
- 3 would severely impede the department of public safety's ability
- 4 to meet the needs of present and future inmates, its own
- 5 policies, and accepted corrections standards and would result in
- 6 numerous adverse impacts to Hawaii Island communities.
- 7 The Community Safety Act of 2007 requires the department of
- 8 public safety to develop a comprehensive and effective offender
- 9 reentry system plan for adult offenders exiting the prison
- 10 system. That Act further requires the department to develop
- 11 comprehensive reentry plans and curricula for individuals
- 12 exiting correctional facilities to reduce recidivism and
- 13 increase a person's successful reentry into the community.
- 14 Kulani correctional facility played a pivotal role in the
- 15 reentry system, by preparing qualified inmates for their
- 16 eventual return to the community by providing job training,
- 17 treatment programs, and graduated exposure to the community.
- 18 Moreover, Kulani correctional facility's programs were
- 19 coordinated and articulated with those at the Hawaii community
- 20 correctional center/Hale Nani, the reentry point for Hawaii
- 21 island inmates, thereby enhancing the effectiveness of reentry
- 22 on the island of Hawaii.

HB415 SD2 LRB 10-2349.doc

1 The legislature further finds that the closure of this 2 facility with its unique and needed programs, when considered with the fact that six of nine Hawaii correctional facilities 3 4 are under capacity, raises the question of the cost-5 effectiveness of the department of public safety's policy of 6 contracting with Corrections Corporation of America to house a 7 substantial number of Hawaii inmates in mainland private prisons 8 at significant cost to the State and to the detriment of Hawaii 9 inmates whose consideration for parole has and will be delayed due to the absence at these facilities of programs needed by the 10 inmates to complete their prescriptive programs. 11 The department of public safety's own study, presented to 12 13 the legislature in 2008, indicated that a significant number of 14 inmates housed in medium security prisons on the mainland and at the medium security federal detention center should have been 15 classified as minimum or community security. These inmates 16 17 could have been housed at Kulani correctional facility and other 18 underused facilities in Hawaii. Instead, the department chose to pay a private vendor and the federal government an additional 19 cost to house Hawaii inmates. 20 21 The purpose of this Act is to require an audit of the

department of safety's contracts with Corrections Corporation of

22

- 1 America and the federal detention center in Honolulu, which
- 2 focuses on a comparison, in terms of quality of programming,
- 3 costs, and economic benefit to the State, of housing Hawaii
- 4 inmates in mainland facilities and in the federal detention
- 5 center, with housing Hawaii inmates in Hawaii facilities
- 6 operated by the State.
- 7 SECTION 2. The auditor is directed to conduct a financial
- 8 and management audit of the department of public safety's
- 9 contracts with Corrections Corporation of America and the
- 10 federal detention center in Honolulu, which focuses on a
- 11 comparison, in terms of quality of programming, costs, and
- 12 economic benefit to the State, of housing Hawaii inmates in
- 13 mainland facilities and the federal detention center in
- 14 Honolulu, with housing Hawaii inmates in Hawaii facilities
- 15 operated by the State. The auditor is directed to, among other
- 16 things:
- 17 (1) Address the closure of the Kulani correctional
- facility as part of its analysis in conducting this
- 19 comparison; and
- 20 (2) Make a recommendation on whether the continued housing
- of Hawaii inmates in mainland facilities and in the
- federal detention center in Honolulu is advisable, in

1	view of the explicit requirements of the Community
2	Safety Act of 2007 and its subsequent amendments.
3	SECTION 3. The auditor shall report its findings and
4	recommendations to the legislature no later than twenty days
5	prior to the convening of the regular session of 2011.
6	SECTION 4. This Act shall take effect on January 1, 2050.

Report Title:

Corrections; Kulani Correctional Facility; Corrections Corporation of America; Ad Hoc Committee

Description:

Directs the auditor to conduct a financial and management audit of the Department of Public Safety's contract with the Corrections Corporation of America and the federal detention center in Honolulu. Effective 1/1/2050.
