A BILL FOR AN ACT

RELATING TO MEDICAID ELIGIBILITY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

- 1 SECTION 1. The legislature finds that it is in the State's
- 2 best interest to ensure that patients waitlisted for long-term
- 3 care or other types of care receive appropriate medical care by
- 4 authorizing the department of human services to apply medicaid
- 5 presumptive eligibility to qualified waitlisted patients.
- 6 Action based on presumptive eligibility means that the
- 7 department of human services shall make a preliminary or
- 8 "presumptive" determination to authorize medical assistance in
- 9 the interval between application for assistance and the final
- 10 medicaid eligibility determination based on the likelihood that
- 11 the applicant will be eligible.
- On average, there are at any given time two hundred
- 13 patients in acute care hospital settings across the State who
- 14 are waitlisted for long-term care. Waitlisted patients are
- 15 those who are deemed medically ready for discharge and are no
- 16 longer in need of acute care services, but who cannot be
- 17 discharged due to various barriers, such as delays in medicaid

- 1 eligibility determinations, and therefore must remain in the
- 2 higher-cost hospital setting. Discharge timeframes for
- 3 waitlisted patients range from a few days to over one year.
- 4 This situation creates a poor quality of life for the patient,
- 5 presents an often insurmountable dilemma for providers and
- 6 patients, and causes a serious drain on the financial resources
- 7 of acute care hospitals, with ripple effects felt throughout
- 8 other health care service sectors.
- 9 The legislature further finds that regulatory and
- 10 government mandates create barriers to transferring waitlisted
- 11 patients. One such barrier is the delay in completing medicaid
- 12 eligibility determinations for waitlisted patients. Senate
- 13 Concurrent Resolution No. 198, adopted by the legislature in
- 14 2007, requested the Healthcare Association of Hawaii to conduct
- 15 a study of patients in acute care hospitals who are waitlisted
- 16 for long-term care, and to propose solutions to the problem.
- 17 The following is an excerpt from the resulting final report to
- 18 the legislature, addressing the critical problem of waitlisted
- 19 patients and the regulatory barrier of medicaid eligibility
- 20 determinations:
- 21 "Hawaii State Medicaid eligibility/re-eligibility
- 22 determinations:

| 1 | (a) | Presumptive eligibility/re-eligibility: The task |
|----|-----|--|
| 2 | | force is very concerned about the amount of time it |
| 3 | | takes to complete the Medicaid eligibility and re- |
| 4 | | eligibility process. Staff within hospitals, nursing |
| 5 | | facilities, etc. report spending a significant amount |
| 6 | | of time assisting families with Medicaid applications |
| 7 | | following up with families to ensure their compliance |
| 8 | | in submitting the required documentation to support |
| 9 | | the application, hand carrying applications to the |
| 10 | | Medicaid eligibility office, following up with |
| 11 | | eligibility workers on the status of applications, |
| 12 | | etc. They report that hand-carried applications are |
| 13 | | often misplaced, the time clock for eligibility does |
| 14 | | not start until the completed application is located |
| 15 | | within DHS, family members may be non-compliant in |
| 16 | | completing the necessary paperwork since the patient |
| 17 | | is being cared for safely and the facility has no |
| 18 | | option for discharging the patient, and the providers |
| 19 | | believe that they have taken on a beneficiary services |
| 20 | | role of assisting consumers that should be assumed by |
| 21 | | DHS. |

| 1 | | The Medicaid eligibility and re-eligibility |
|----|-----|--|
| 2 | | application process in Hawaii is obsolete and unable |
| 3 | | to handle the current volume. It relies on a paper- |
| 4 | | driven system that receives a high volume of |
| 5 | | applications per day. Delays in processing |
| 6 | | applications in a timely manner translates to delays |
| 7 | | in access to care for Medicaid beneficiaries. Acute |
| 8 | | care hospitals report that in many cases they have not |
| 9 | | been able to transfer patients to long term care |
| 10 | | because the delay in making a determination of |
| 11 | | Medicaid eligibility resulted in too long a delay in |
| 12 | | placement in a nursing facility or home and community |
| 13 | | based setting. By the time the Medicaid eligibility |
| 14 | | was approved, the bed in the long-term care |
| 15 | | facility/setting was taken. The direct labor hours |
| 16 | | involved in following up on the process negatively |
| 17 | | impact providers across the continuum. Many have |
| 18 | | hired outside contractors to assist in the application |
| 19 | | process. |
| 20 | (b) | Shifting responsibility for consumer assistance in |
| 21 | | completing the Medicaid application from the provider |

completing the Medicaid application from the provider

of service to the State Department of Human Services:

22

| 1 | | Providers have taken on the role of consumer services |
|----|-----|---|
| 2 | | representatives when patients/families need to submit |
| 3 | | applications for Medicaid eligibility or to reapply |
| 4 | | for eligibility. Often, providers end up spending |
| 5 | | hours to days "tracking down" required documentation |
| 6 | | to include with the Medicaid application and it has |
| 7 | | become labor intensive. Many have hired external |
| 8 | | organizations to assist in this process. Delays by |
| 9 | | patients/families in completing Medicaid applications |
| 10 | | result in bad debt and charity care incurred by |
| 11 | | providers and they have no recourse but to hold the |
| 12 | | family members accountable and/or discharge the |
| 13 | | patient due to non-payment. |
| 14 | (c) | Non-compliance by family members/guardians in |
| 15 | | completing Medicaid eligibility/re-eligibility |
| 16 | | applications: In other states (ex. Nevada), |
| 17 | | legislation has been passed to impose financial |
| 18 | | penalties on family members/guardians who did not |
| 19 | | actively participate in completing/submitting |
| 20 | | documentation for Medicaid eligibility/re-eligibility |
| 21 | | determinations when fraudulent activity was |
| 22 | | suspected." |
