A BILL FOR AN ACT

RELATING TO ECONOMIC DEVELOPMENT.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. (a) Following the 2009 legislative session, 2 the chairs of the senate committee on economic development and 3 technology and the house committee on economic revitalization, 4 business, and military affairs convened a technology caucus work 5 group to bring together industry stakeholders and interested 6 policymakers to develop recommendations for legislation to 7 enhance Hawaii's struggling economy. The work group provided a 8 forum to review the current status of Hawaii's science and 9 technology industry, identify state or county actions that 10 impede long-term growth and expansion of technology companies, and develop recommendations to address these impediments. The 11 12 work group also identified best practices supporting the growth 13 and development of science and technology industries in other 14 jurisdictions to aid in developing proposed suggestions for 15 future legislation.

16 This Act implements the recommendations of the technology 17 caucus work group.

S.B. NO. ²²⁹⁰ S.D. 1

1 The legislature finds that the State's past efforts to (b) 2 diversify Hawaii's economy are bearing fruit. A recent report on the innovation and technology sector of Hawaii's economy 3 4 published in October, 2008, by the Hawaii Science and Technology 5 Council, shows that in 2007 this sector had the same impact on 6 Hawaii's gross state product as the accommodations industry, 7 contributing \$3,000,000,000, or five per cent of the State's \$61,000,000,000 economy. Combined public and private tech-8 9 sector employment totaled 31,106 workers, nearly a three per 10 cent increase from 2002. The average annual salary for tech 11 workers was \$68,935 -- a salary fifty-seven per cent higher than 12 the state average of \$43,963.

13 The heavy impact of the current recession on Hawaii's 14 tourism industry highlights the critical need to continue 15 efforts to broaden the State's economic base. However, the current economy is making it increasingly difficult for the 16 17 State to support measures such as Act 221, Session Laws of 18 Hawaii 2001, a tax credit-based initiative designed to stimulate 19 tech industry growth. In addition, questions have been raised 20 about whether Act 221 included an adequate mechanism for 21 selecting companies to be funded, and whether the companies 22 funded by Act 221 -- which provided funding for early-stage SB2290 SD1.DOC *SB2290 SD1.DOC* *SB2290 SD1.DOC*

startups but lacked venture capital resources for further
 company growth -- were sustainable.

In 2003, the State of Utah, facing its own shortage of venture capital resources and the relocation out-of-state of a number of Utah's tech companies, successfully responded by enacting the Utah Fund of Funds Program. Iowa, Michigan, Oklahoma, and Ohio each implemented similar programs to improve the capital availability within their states and as a means to generate revenue.

10 The \$300,000,000 in financing for the Utah Fund of Funds 11 Program is invested in venture capital firms (vc firms). To 12 ensure profitable investments and the continued success of the 13 program the fund does not require investments in Utah companies 14 or that vc firms be located in Utah. Instead, it invests in vc 15 firms that are interested in looking for investment opportunities in Utah and commit their senior staff to working 16 17 closely with Utah companies and entrepreneurs. 18 Financing for the Utah Fund of Funds Program was provided 19 by a large institutional bank, and is backed by refundable, 20 transferable, contingent tax credits approved by the Utah 21 legislature. The program is structured to be financially selfsustaining, with profits from investments paying back 22 SB2290 SD1.DOC *SB2290 SD1.DOC* *SB2290 SD1.DOC*

1 financiers. Only in the case of a shortfall would the state be 2 required to place tax credit funds into the Utah Fund of Funds. 3 To date, twenty-eight Utah companies have received 4 investments from funds in the Utah Fund of Funds portfolio, 5 resulting in over one thousand high paying jobs. These 6 companies have raised over \$385,000,000 from investors, 7 \$135,000,000 directly from funds in the Utah Fund of Funds 8 portfolio. Finally, over three hundred seventy-five Utah 9 companies have had the opportunity to work with vc firms in the 10 Utah Fund of Funds portfolio. 11 This Act is based on the Utah Fund of Funds model, and 12 amends the state private investment fund, chapter 211G, Hawaii 13 Revised Statutes, to more closely conform to key aspects of the 14 model. Important components of this Act include: 15 The deferral of State liability for the cost of the (1) 16 program. Program capital will be obtained from 17 investors or a loan, and state tax credits will be 18 used as collateral and as a guarantee of investment or

19 loan obligations;

20 (2) The minimization of potential State liability for the
21 program. The private-sector focus in investment is

5

1		retained, allowing diversification and profitability
2		of investments;
3	(3)	The requirement that those overseeing and managing the
4		program possess expertise in venture capital
5		investment, investment management, and supervision of
6		investment managers and investment funds;
7	(4)	Giving state private investment fund managers the
8		flexibility to invest for profit by giving priority to
9		investments in high quality vc firms that have
10		demonstrated a commitment to the state;
11	(5)	Ensuring that Hawaii's companies are exposed to high
12		level managers of funds in the state private
13		investment fund portfolio and learn to become good
14		fundraisers; and
15	(6)	Using private vc firms to vet and select potentially
16		successful businesses in which to invest.
17	(c)	The purpose of this Act is to implement the
18	recommend	ations of the technology caucus work group, and
19	increase	the availability of venture capital for the State's
20	emerging	industries while minimizing State liability for program
21	costs by,	among other things:

 of tax credits authorized by this chapter may be made.

[(f)] (g) The tax credits issued or transferred pursuant
to this chapter, upon election by the taxpayer at time of use,
shall be treated as a payment or prepayment in lieu of taxes
imposed under chapter 235 or 241[-;], or section 431:7-202. Tax
credits used pursuant to this chapter shall be claimed as a
payment of tax or estimated tax for the purposes of chapter 235
or 241.

12 $\left[\frac{(q)}{(q)}\right]$ (h) If the tax credits under this section exceed the 13 taxpayer's income tax liability under chapter 235 or 241 for any 14 taxable year, or for any other reason is not claimed by a 15 taxpayer in whole or in part in any taxable year, the excess of the tax credit over liability, or the amount of the unclaimed 16 17 tax credit, as the case may be, may be carried over and used as 18 a credit against the taxpayer's income tax liability in any 19 subsequent year until exhausted, subject to:

20 (1) The deadline for the exercise of tax credits imposed21 by subsection (a); and

22 (2) The monetary limit imposed by subsection [(c).] (d)."
