A BILL FOR AN ACT

RELATING TO THE HAWAII HEALTH SYSTEMS CORPORATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

- 1 SECTION 1. The legislature finds that the Hawaii health systems corporation is the fourth largest public hospital system 2 in the nation and operates public health care facilities that 3 4 provide essential safety-net hospital and long-term care 5 services throughout the State. Due to rapid change taking place in the health care industry and the impending implementation of 6 7 national health care reform, the legislature acknowledges that the corporation's governing board of directors (board) must have 8 9 the appropriate flexibility and autonomy needed for the community hospitals to compete and remain viable. 10 The current board includes the five regional chief
- 11
- executive officers serving as ex-officio, voting members. 12
- regional chief executive officers have been instrumental in 13
- 14 bringing additional expertise to the board during the time of
- transition from a single corporation board to a multi-level 15
- board system. In light of the successful establishment of the 16
- regional system boards, the significant challenges imposed by an 17

H.B. NO. 1073

- 1 ever-changing and complex health care environment, the time
- 2 required to serve on the corporate board, and the desire for
- 3 additional community participation, the legislature finds it
- 4 appropriate to replace the regional chief executive officers on
- 5 the board with community members from each of the regional
- 6 systems. The regional chief executive officers will continue to
- 7 participate in the corporation's board meetings, along with the
- 8 president and chief executive officer, as invited staff.
- 9 In addition, the director of health is currently an ex-
- 10 officio, nonvoting member of the board. In order to increase
- 11 the input of the administration and further the implementation
- of public health policies, the director of health will be given
- 13 voting rights. In order to create an uneven number of board
- 14 members for voting purposes, an additional member shall be
- 15 appointed by the Governor and serve as an at-large member.
- The purpose of this Act is to affirm the State's commitment
- 17 to provide quality health care for the people of our State, by
- 18 amending the corporation's board structure in line with
- 19 considerations consistent with the provisions of Act 290,
- 20 Session Laws of Hawaii (SLH) 2007, and Act 182, SLH 2009, while
- 21 improving the accountability and sustainability of the health
- 22 system. The proposed amendments will build on the excellent

H.B. NO. 1073

- 1 progress made by the regional systems to coordinate service
- 2 delivery and improve the health of the island communities. The
- 3 corporation's new board structure will support clear and
- 4 consistent roles for all regional systems and create a more
- 5 balanced multi-board tiered system. Equally important, the
- 6 amendments will create an opportunity for more participation on
- 7 the board by community members, and enable them to strengthen
- 8 the board's focus on quality care and services responsive to the
- 9 needs of their communities. The amendments will enable the
- 10 health system to move forward as a region-focused health system,
- 11 thereby advancing the delivery of health care services,
- 12 improving flexibility, and promoting collaboration with other
- 13 health service organizations.
- 14 SECTION 2. Section 323F-3, Hawaii Revised Statutes, is
- 15 amended by amending subsections (a) and (b) to read as follows:
- "(a) The corporation shall be governed by a [twelve-
- 17 member] thirteen-member board of directors that shall carry out
- 18 the duties and responsibilities of the corporation other than
- 19 those duties and responsibilities relating to the establishment
- 20 of any captive insurance company pursuant to section 323F-7
- 21 (c)(20) and the operation thereof.
- (b) The members of the corporation board shall be

Report Title:

Hawaii Health Systems Corporation; Board of Directors

Description:

Amends corporation board composition to add an at-large member appointed by the Governor, give voting rights to the ex-officio Director of Health member, and replace the regional chief executive officer ex-officio voting members with community members from the respective regional system boards.

HB1073

JUSTIFICATION SHEET

DEPARTMENT:

Health

TITLE:

A BILL FOR AN ACT RELATING TO THE HAWAII

HEALTH SYSTEMS CORPORATION.

PURPOSE:

To enhance the State's commitment to provide quality health care for the people of our state by amending the composition of the Hawaii health systems corporation board.

MEANS:

Amend chapter 323F-3, Hawaii Revised Statutes, to add one (1) additional board member appointed by the Governor to serve as an at-large member, to give the director of health an ex officio member of the board voting rights, and to replace the regional chief executive officer members with corresponding regional community members. As a result the total board membership is increased to 13 (all voting) from 12 (11 voting). All community board members would be appointed by the respective regional system boards.

JUSTIFICATION:

The regional chief executive officers (RCEOs) have provided expertise to the corporation's board over the past two years; however, that expertise can be provided by the RCEOs attending and participating in the meetings without being voting members. Conflicts of interest have arisen with the RCEOs on the corporation's board, as they report to the regional system boards, which tend to have regional goals rather than system-wide goals. In addition, the RCEOs are extremely busy and serving as voting members on the HHSC board and its various committees adds a great deal of additional work that takes the RCEOs away from their primary duties. Having more community members on the board furthers the goal of prior legislation to enhance community input into HHSC especially since all board members, except the director of health, are

appointed by the regional system boards. Giving the DOH Director voting rights will enhance input from the administration and public health policy makers. The additional at-large member appointed by the Governor is intended to create an uneven number of members.

Impact on the public: This amendment is important to the continued mission of HHSC. The ability of the State's community-hospital system to respond to the health care needs of both the regions and system would continue to be upheld, including the State's ability to provide safety-net services, by allowing each regional system board to appoint the community board members.
