THE SENATE TWENTY-SIXTH LEGISLATURE, 2011 STATE OF HAWAII S.B. NO. 595 S.D. 2 H.D. 1

A BILL FOR AN ACT

RELATING TO PHYSICIANS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. Doctors are critical components of our society,
providing a very important service to everyone in the State, and
it is the job of the legislature to ensure that the State
provides the best quality of life possible for all of its
residents. Addressing the needs and concerns of health care
providers is a key step toward keeping Hawaii healthy.

7 Over the years, a number of doctors have retired or left 8 Hawaii, especially the neighbor islands, citing reasons that 9 include high medical malpractice insurance rates, low insurance 10 reimbursement rates, and the high cost of living. Hawaii has 11 been unable to replace these doctors in a manner that provides 12 Hawaii residents with timely access to adequate health care.

Furthermore, in addition to the general shortage of doctors in Hawaii, many of the remaining physicians are reluctant to accept and treat medicaid patients, making it even more difficult for this particular population to receive medical services on a regular and emergency basis.
