Dear Chair Oshiro, Vice Lee and members of the Committee;

It is admirable the legislature is acting to prevent harbor disrepair by offering commercial leases for revenue. Accomplishing this at the Ala Wai though, presents conflict. There is a harbor deed encumbrance and two executive orders designating land use. The documents supporting these reservations are attached as Exhibits.

It is critical that Waikiki have an attractive shoreline. In the legislatures allowances to the State for Ala Wai development, attention to the guidelines of the Coastal Zone Management Act are in question. Concerns on water intensity use and preservation of scenic open space, seem unchallenged.

Ala Wai Harbor under Presidential Order

In 1928 President Calvin Coolidge proclaimed the waters off Waikiki for public use by Presidential Proclamation. (Exhibit A) Most of the Ala Wai is within the surveyed area. (Exhibit B) The terms of a proclamation constitute federal law. To permit leasing of the public land, our legislature must get an act of congress similar to Public Law 199. (Exhibit C) This act serves example how leasing of land under proclamation is granted.

Ala Wai Harbor under Governor's Order

Similarly, there is a governor's order over the harbor for public use. (Exhibit D) The boundaries are shown mapped. (Exhibit E)

Further, with regards to your bills to lease Ala Wai land, clearly public use is designated by the two executive orders. Leasing does not constitute public land use; rather revenue. In these cases it is the land not its collectible revenue that was intended for the public. Therefore, leasing is out of compliance with orders and permission must be sought ultimately from congress.

Ala Wai Court Ordered Land Side Restrictions

HB1566, Page 8 line 3 The legislature gives State authority to occupy up to 56 commercial berths adjacent to Holomoana Street. *There is no Holomua St., is this an error?* A deeded encumbrance over the harbor does not permit commercial vessels in these berths. (Exhibits F, G) The Ala Wai restriction was accepted by the State in trade for Holomoana Street given by waterfront developer Ala Moana Properties Limited. The buildings Ilikai Marina, Waikiki Edition Hotel, and the Ilikai, have the restrictive covenant attached to their property deeds. The legislature must get their approval to change and make an allowance to dock commercial vessels.

As a resident in the bordering dwellings, relief from commercialism is appreciated. Occupants benefit from clean air and quiet interface commercial vessels rarely provide. Already, boat engine fumes get trapped against my building and drift into its interior. The Environmental Protection Agency recommends management of pollution next to buildings. Commercial vessels next to our buildings are an invitation for dangerous exhaust fumes. The minimal distance to berths is shown by photograph. (Exhibit H)

Development Approval Required by the Coastal Zone Management Act

A change in water use intensity is considered development under the C.Z.M.A. It would be subject to Environmental Council approval before the legislature's act could be implemented. Busy commercial vessels using the harbor poses safety concerns for surfers, divers, paddle boarders, canoes and junior sailors.

(Ordinances of the City and County of Honolulu, Section 25-1.3, (1)(D) 2)

Hb1566 Adverse to Goals of Coastal Zone Management Act

The Ala Wai is a scenic area without statute protection. There is planned genius in the scale and uniformity of the harbor. Hotel and office space, invited by HB1566, would clutter the horizon and the impression of lands end. If we manage Ala Wai features as warehouse commodities, the value of its innate beauty will be lost. Office space is not coastal dependent and encouraged to be located inland. The bills appear to circumvent coastal management objectives the State has adopted.

HRS 205A-2, b (3), c-3 (d)

Not sure these points have merit. They are submitted for the committee's consideration whether to approve bills HB1566 & 1312.

Thank you,

R.M.
