NEIL ABERCROMBIE  
GOVERNOR

RICHARD C. LIM  
INTERIM DIRECTOR

Telephone: (808) 586-2355  
Fax: (808) 586-2377

Statement of  
**RICHARD C. LIM**  
**Interim Director**

Department of Business, Economic Development & Tourism  
before the

## SENATE COMMITTEE ON WAYS AND MEANS

Wednesday, January 5, 2011  
9:00 AM

State Capitol, Conference Room 211

Informational Budget Briefing

Chair Ige, Vice Chair Kidani and Members of the Committee. Thank you for this opportunity to testify on my department's budget.

### **Mission Statement**

To achieve a Hawaii economy that embraces innovation and is globally competitive, dynamic and productive, providing opportunities for all Hawaii's citizens.

In particular, DBEDT will serve as an advocate for renewable energy development, a resource for analytic data, and a facilitator for export business. DBEDT will also foster planned community development, create affordable workforce housing units in high-quality living environments, and promote innovation sector job growth.

It will work with the legislature, the private sector, and the community to develop strategies and policies that are aligned with the Governor's New Day in Hawaii plan, and implement these strategies in a transparent and collaborative process.

### **Economic Impact**

Hawaii's economy continues to recover from the current recession, although the recovery process is expected to be slower than in previous business cycles.

### **Hawaii Economic Conditions**

Based on expectations of recovery in the U.S. and the global economy, DBEDT's most recent forecast (released on November 18, 2010) paints a more optimistic picture than the previous forecast. The most encouraging signs that the recovery is on-going are in tourism. Visitor arrivals are expected to increase 7.7 percent for 2010 and 4.1 percent

in 2011. Led by tourism, job growth is expected to go from a negative 0.4 percent for 2010 to 1.1 percent for 2011. Beyond 2011, the gradual recovery is expected to continue with modest job growth of around 1.2 percent for 2012. Visitor arrivals are expected to increase 3.5 percent in 2012. Hawaii's real GDP growth in 2012 is expected to reach 1.9 percent. The gradual recovery should continue into 2013, assuming national and international economic conditions continue to improve.

Two major areas of growth and activity in Hawaii's economy in 2010 have been in areas of DBEDT focus: creative industries and renewable energy.

In the area of creative industries, in particular film, television and digital media production, Hawaii generated \$407 million worth of production expenditures. Three big-budget films — "Pirates of the Caribbean: On Stranger Tides," "Battleship" and "Journey 2: The Mysterious Island" — as well as TV shows "Hawaii Five-0" from CBS and "Off the Map" from ABC contributed heavily. The 2010 amount is a 77.7 percent increase from the \$229 million generated in 2007, the previous record year and a three-fold increase over the spending in 2009. DBEDT estimates that the economic impact, as wages work their way through the community, is \$638.9 million. In addition, that film production work created about 3,300 jobs. The creative sectors, as a whole, have increased 10 percent since the department began tracking these sectors in 2002. Overall, the creative sectors number 44, 000 and contribute an estimated \$4 billion to Hawaii's GDP annually.

In the energy area, there is rapid growth due to changes in regulations and continued incentives. In 2010, DBEDT surveyed 161 private and public entities in Hawaii. The survey indicated that investments for 2009 amounted to \$345 million; for 2010, were projected to exceed \$900 million; and for 2011, were projected to reach \$1.2 billion. And, the Green Workforce Report estimated that over 11,000 green jobs have been created in Hawaii, many associated with the transformation to clean energy.

### **Hawaii State Fiscal Conditions**

The revenue picture for the State is also improving. Fiscal year 2009 was a difficult year for the State with a \$440 million, or 9.5 percent, decrease in General Fund revenues. General Fund revenue conditions improved since the second half of FY 2010, ending the fiscal year with a 3.9 percent increase.

During the first four months of FY 2011 (July through October), State General Fund revenue decreased by 5.7 percent, mainly due to the release of the delayed individual income tax refund. Reflecting economic activities, general excise tax increased 6.3 percent during the first four months of FY 2011 as compared with the same period in FY 2010.

According to the Council on Revenues' December 29, 2010 forecast, if refunds are not again delayed, General Fund revenues will grow at a modest rate of 3.0 percent for FY 2011.

Despite these positive economic trends, another significant budget deficit is forecasted, dampening the probability of a return to pre-recession and pre-RIF funding and staffing levels for DBEDT.

### **Impact on DBEDT Programs**

At DBEDT, RIF and budget cuts in FY 2010 reduced total positions by 45 positions, a 24 percent reduction. More significantly, general funded positions declined from 124.5, to 69.5, a 55 position or 44.2 percent decline. At the same time, General Funds appropriations fell by 49 percent, from \$11,236,808 to \$5,727,950.

The reduction in resources has forced DBEDT to focus on key areas while managing to satisfy statutory mandates. Nonetheless, many DBEDT programs and initiatives (discussed below) have been impacted by the RIF and fiscal conditions during the last two years.

The current economic conditions tightened credit for most economic development activities. The lack of credit has hampered construction and new economic investment/activity in both the Kakaako and Kalaeloa Community Development Districts. As a result, there are only a few new development projects being initiated in Kakaako and Kalaeloa. The availability of State General Funds and/or Capital Improvement Projects (CIP) to underwrite public improvement projects has also been a limiting factor on development.

The economic recession and the scale-back and sun-setting of the Act 221 investor tax credits has severely hampered the fund raising ability of Hawaii's entrepreneurs. HSDC does not have the financial resources to expand its investment program as its existing investment portfolio is illiquid and the economic recession has limited its ability to realize distributions from its investments. The lack of follow-on capital may result in companies either failing or moving to the mainland where capital sources are more readily available.

Departmental programs that manage existing facilities have had mixed results. The State's technology incubation centers (BED143/TE and BED146/EL) have witnessed an increase in occupancy while the foreign trade zones (BED107/BA) have seen a slight decline in tenant activity at their warehouse facilities combined with an increase in office occupancy resulting in stable revenues.

The current economic climate has been exceedingly difficult for many NELHA tenants. Only one water bottling company is in operation out of four plants. Farmers – fish, seaweed, etc – are barely surviving. Most report their business down as much as 50 percent. NELHA has reduced staff from 33 in 1995 to 17 at present. Expenses have been curtailed. At the Hawaii Film Studio (BED 150), while tenancy has been at full capacity for calendar year 2010, in FY 2011, due to budget restrictions, the tenants have now been required to cover basic repair and maintenance.

The large cuts due to the RIFs and reductions in budgets have negatively affected all general funded programs. In particular:

- BED 100 Strategic Marketing & Support Division (SMSD): Programs such as the Small Business Regulatory Review Board (SBRRB), Enterprise Zone (EZ), Community Based Economic Development (CBED), Disaster Loan, and the Hawaii Capital Loan legacy program have all been impacted. Division professional staff of eleven (11) have been reduced down to four (4) actual bodies in the division.
- BED 144 Office of Planning (OP): Six general funded positions were cut in OP. The Legislature restored two positions without funding. At the same time, OP has not experienced a decline in approvals for projects as a result of economic conditions. There has not been a decline in the number of land use petitions filed.
- BED 105 Creative Industries Division (CID): During the 2009 reduction-in-force, a total of three positions were eliminated from CID/FIB. In addition, there were secretarial retirements and in the legislative session, \$241,498 was cut from the budget. This reduction in capacity occurred while the film industry activity was growing, placing a strain on resources.
- BED 130 Research and Economic Analysis Division (READ): The 2009 State reduction in-force (RIF) resulted in the loss of 4 positions in READ including the only Librarian position. It has also resulted in READ not having a secretary position.
- BED 142 Director's Office/ Administrative Services Office (DO/ASO): The 2009 RIF in ASO resulted in a reduction of 7 positions from 29 to 22. In addition, during this same timeframe, 3 other positions were abolished. This has negatively impacted the division's ability to effectively provide support services to all DBEDT divisions and attached agencies. Also, in the Director's office, the Deputy Director position, Private Secretary, Information Director, Secretary, Tourism Liaison and Administrative Assistant were either abolished, or transferred out of DBEDT. This reduction in the Director's office, down to two remaining positions, has placed a significant strain on resources.

DBEDT was fortunate to have ARRA federal funding for the initiation of the Hawaii Clean Energy Initiative. As that federal money for renewable energy is phased out, we will be seeking barrel tax funding to fill in the gap of this high growth industry.

Because the RIF process involved difficult choices and subsequent employee "bumping" resulted in significant staff changes, DBEDT anticipates that some form of reorganization may be necessary to rebalance the workload in several DBEDT offices and divisions.

Unlike other DBEDT programs, tourism has seen increases in funding in FY11 due to increases in the Transient Accommodations Tax and in visitor spending. The discussion of activities and challenges of the Hawaii Tourism Authority will not be included in this presentation.

## **Alternatives Considered**

DBEDT has worked very hard to attract Federal money to fund our key programs. Federal Funds in DBEDT increased from \$22,282,112 in FY 2009 to \$30,978,994 in FY 2011, a 39 percent increase.

### **BED 100 Strategic Marketing & Support Division (SMSD)**

SMSD successfully competed for a \$250,000 ARRA grant that provides capacity building and training to community non-profits, and is currently on track for the completion of this project by September, 2011. SMSD, under an agreement with the Dept. of Health, will deploy to organizations \$600,000 of grant funds for community environmental project on the Leeward coast of Oahu.

SMSD will continue to grow the community-based economic development program by seeking funding from outside sources to provide for grants and technical assistance.

Investment attraction activities have been outsourced and joint oversight of the contract and marketing is shared with the Hawaii Strategic Development Corp. The annual Asia-Pacific Clean Energy Summit and Expo, which was started by SMSD, has been taken over by the Strategic Industries Division.

Beijing and Taiwan Offices expenses have been reduced and salaries maintained at 2008 levels for Beijing Executive Director and the Taiwan Executive Director, with no adjustments made for significant declines in the value of US dollar against the Chinese RMB or Taiwan NT dollar. Review of whether to close one of the overseas offices is being undertaken.

### **BED 103 Land Use Commission (LUC)**

As a regulatory agency, the LUC is dependent on general funds. However, the LUC has shifted most of its meeting room costs, court reporter costs, publication costs, and sound technician costs to the regulated private sector in an effort to cut expenses.

### **BED 105 Creative Industries Division (CID)**

In order to improve efficiency of the film permitting process, CID worked collaboratively with the Department of Land and Natural Resources and eHawaii.gov to develop an online permitting system for open and accessible state lands. The pilot will be ready for testing in the first quarter of 2011, with expansion to encompass annual permits, as well as inclusion of other state departments, budget permitting. Additional metrics and information will be gathered to assist the ongoing work with READ on data gathering to track workforce, production expenditures, etc.

DBEDT is required by statute to maintain and operate the Hawaii Film Studio. Without the necessary resources in FY 2011, the program negotiated an agreement with the

existing tenant to cover the costs of repairs and maintenance, in order to provide a safe and operational facility.

The Office of Aerospace Development was awarded \$100,000 in federal funds through a NASA grant to develop a multinational model for a sustainable human settlement beyond low-Earth orbit. To advance model development, these funds are being applied to support international aerospace meetings in Hawaii; our State's participation in strategic meetings at NASA field centers and corporate headquarters on the U.S. Mainland; and the formation of a Pacific International Space Alliance (headquartered in Hawaii).

### **BED 107 Foreign Trade Zone 9 (FTZ)**

The Foreign-Trade Zone was awarded \$3 million in federal funds in FY 2010. It is seeking to use these funds to construct additional office space due to the success of its existing office.

### **BED 120 Strategic Industries Division (SID)**

Over the last two years, due to budget shortfalls State General Funds were replaced with Petroleum Violation Escrow (PVE) funding. In addition, SID has generated additional revenues for the State by applying for Federal funds under ARRA. Four awards for \$37 million for energy projects have been awarded to the State. To date, 33 companies are utilizing "Energy" federal stimulus funds granted to DBEDT's State Energy Office. To-date, \$59.8 million in competitive ARRA energy grants have been awarded to private companies for energy projects in Hawaii. In addition, these private companies bring with them a cost-share of \$19.7 million in additional monies.

However, Petroleum Violation Escrow (PVE) funds will be depleted by June 30, 2011; ARRA awards terminate April 30, 2012 (for SEP); and September 20, 2012 (for EECBG). Consequently, the reliance on thirty-nine (39) administrative and program support positions will be dependent on the Energy Security Special Fund (ESSF), as a funding source.

### **BED 130 Research and Economic Analysis Division (READ)**

READ had been working with the Hawaii Tourism Authority and the Strategic Industries Division in pooling resources in collecting, processing and maintaining databases for tourism data and energy data. The partnership will continue into the future.

### **BED 143 High Technology Development Corporation (HTDC)**

HTDC has continued to apply for and receive federal funds and manage its operations efficiently. General funds have been reduced by 20 percent as of FY 2011 from

FY 2009. HTDC was successful in leveraging US Economic Development Administration grants totaling \$100,000 to pursue more effective means of business incubation.

In FY 2010, the Manoa Innovation Center nurtured almost 50 companies as physical or virtual tenants, boasting a success rate of 70 percent, which is significantly higher than the national average small business survival rate of 30 percent.

Through the Manufacturing Extension Partnership program, which received a federal grant for \$437,000, HTDC has reached out to traditional sectors to provide assistance in exporting and in the adoption of technology.

The Hawaii Center for Advanced Transportation Technologies has attracted \$6 million in federal funds due to its successful track record in installing a hydrogen fuel station for the military.

#### **BED 144 Office of Planning (OP)**

The Office of Planning (OP) has applied for additional federal grant funds. In FY 2010, OP successfully applied for \$1.25 million from the Coastal and Estuarine Land Conservation Program (CELCP), National Oceanic and Atmospheric Administration (NOAA), for the acquisition of the Lapakahi Marine Life Conservation District parcel. As a result, this coastal area with valuable aquatic resources will be protected. OP submitted two grant applications to NOAA for \$3.5 million and \$237,093 to implement the Ocean Resources Management Plan and support sub-regional ocean partnerships. The selection of award recipients for these funds is pending. OP also submitted a grant application for \$100,000 to the Economic Development Administration to develop a strategy to increase food security in Hawaii.

Over approximately the past two years, two positions have been shifted from general funds to federal funds.

#### **BED 145/VC Hawaii Strategic Development Corporation (HSDC)**

HSDC has reduced its staff count to one person and has managed its portfolio to minimize fees and expenses to maximize the early return of capital. However, the amounts are small. HSDC will apply for a US Treasury Department, Small Business Jobs Act grant program to obtain \$13 million (to be leveraged to \$26 million) which can be used to increase its venture investments and to create a loan program for dual-use and knowledge-intensive companies..

#### **BED 146 Natural Energy Laboratory of Hawaii Authority (NELHA)**

The Board of Directors has forgiven significant amounts of money due on rent and seawater allocations (+\$1.5 million); is subsidizing as much as \$300,000 annually in seawater to an aquaculture company; and has adopted a labor wage allocation policy that will increase NELHA's operating losses by as much as \$400,000 annually. NELHA

currently does not have significant general funds. Alternatives, such as restructuring NELHA to run in a self-sufficient manner by charging appropriate fees and rents is under consideration.

### **BED 150 Hawaii Community Development Authority (HCDA)**

HCDA has sought to reduce its expenditure of general funds, maximize returns on its management of agency holdings and assets and promote economic development and new investment within the Kakaako and Kalaeloa Community Development Districts to ensure that the agency is a part of the solution. HCDA is currently operating without the benefit of a general fund appropriation having shifted the funding for four positions previously funded by general funds to its revolving fund during the last legislative session.

Efficient administration of the agency's zoning rules will allow nearly \$150 million in new construction to be started in FY 2010.

An Invitation for Bids to operate the Fisherman Wharf Restaurant facilitation has been issued to increase the return from this iconic location.

### **BED 151 Aloha Tower Development Corporation (ATDC)**

Funding and staffing were eliminated in FY 2010. DBEDT is currently considering various alternatives given the lack of resources.

### **BED 160 Hawaii Housing Finance Development Corporation (HHFDC)**

The HHFDC received \$19.6 million in Neighborhood Stabilization Program (NSP) funding in FY 2010 and \$5 million in FY 2011. HHFDC also received \$47,831,149 in LIHTC Section 1602 Program funding in FY 2010. Additional federal funding for the HOME Program (\$3 million in FYs 2010-12) and the National Foreclosure Mitigation Counseling (NFMC) program funding of \$464,993 in FY 2010 and \$200,000 in FY 2011 along with an additional \$8,861,610 of Tax Credit Assistance Program (TCAP) funding bring the total Federal funds for FY 2010-12 at \$91,957,752.

In closing, I would like to thank the Committee for their time and I look forward to working with the Legislature to continually improve Hawaii's economy for its citizens.

1A	<p>Planning and redevelopment of Community Development Districts (Kakaako and Kalaeloa)</p> <p>Administer master plan, administrative rules, zoning codes for both development districts. Process and act on a timely basis development permit applications submitted to the agency.</p> <p>Administer and maintain master plan and related administrative rules for relevant areas of the separate community development districts (Kakaako Mauka/Makai and Kalaeloa).</p> <p>This function will establish the preferred future use and communities located within the Kakaako and Kalaeloa Community Development Districts. Development projects reviewed and implemented will produce needed public facilities, reserved housing and economic activity within each development district and community.</p>	<p>Review Honolulu Seawater development permit/BED 150 KA. Conduct public hearing in accordance with 206E-5.6 HRS of development permits issued between July 2006 and December 2010 by the HCDA Executive Director/BED 150 KA.</p> <p>Ratify and implement Kakaako Makai Area Master Plan. Solicit, receive and review developer proposals for conformance to the ratified Makai Area Master Plan/BED 150 KA.</p> <p>Finalize, promulgate and administer Kakaako Mauka Administrative Rules/BED 150 KA.</p> <p>Finalize the promulgation and administer Kalaeloa Administrative Rules/BED 150 KL.</p> <p>Coordinate with the DOT, the review and approval of development plans for the GSA's FBI headquarters facility project at Kalaeloa/BED 150 KL.</p>	BED150 KA BED150 KL	§206E-1~22, §206E-31~33, §206E-191~199, HRS
1B	<p>Manage/Partially Underwrite Halekauwila Place Affordable Rental Unit Development Project.</p> <p>Secure development lot for another mixed use affordable rental housing project in Kakaako. These projects will provide the region with needed affordable rental units and construction activities.</p>	<p>Manage and finance pre-development activities. Includes preparation of design/development drawings, construction document and other documents. Ensure that Project Eligibility Review, Chapter 343/Environmental Assessment and project entitlement activities are completed (e.g., historic sites review, arborist review, Chapter 201H application)/BED 150 KA.</p> <p>Monitor and support project financing activities (e.g., low income housing tax credit, conventional construction loan, other alternate methods of construction/project financing)/BED 150 KA.</p> <p>Locate, purchase and land bank a development lot in the Kakaako Community Development District for a future mixed use affordable rental housing project/BED 150 KA.</p>	BED150 KA	§206E-1~22, §206E-31~33, HRS

**Department of Business, Economic Development and Tourism**  
**Priority List of Functions - By Program**

Table 2

Pri #	Description of Function	Activities	Prog ID(s)	Statutory Reference
1C	Acquire land and develop specifications for a RFP to accommodate development of a mixed use affordable housing project in Kakaako Mauka in partnership with the Hawaii Housing Finance and Development Corporation (HHFDC). The acquisition of an appropriate development parcel in Kakaako will create an opportunity for additional affordable housing and public facilities to be developed in the urban core of Honolulu.	Manage and prepare Lot 40 (30,000 sf parcel located between Waimanu and Kawaihao Streets) for development of a mixed use affordable rental project/Revolving Funds/BED 150 KA. Work in conjunction with HHFDC/BED 160HF to acquire a development lot which adjoins the recently purchased Lot 40/BED 150 KA.	BED150 KA	§206E-1~22, §206E-31~33, HRS
2A	Coordinate, Manage and Backstop Infrastructure Improvement Projects in the Kalaeloa Community Development District. Completion of these projects will allow the Kalaeloa Community Development District to offer necessary utility and infrastructure facilities which in turn will create new economic investment and development activity in the region.	Coordinate with Hawaiian Electric Company (HECO) the implementation and construction of the Enterprise Road Infrastructure Project/Revolving Fund/BED 150 KL. Develop specifications, cost estimates and construction plans for a Renewable Energy Interconnection Project in the KCDD. Plan and generate specifications to connect renewable energy facilities located to the east and west of Coral Seas Road with the HECO grid located in the northern regions of the KCDD/Revolving Funds/BED 150 KL.	BED150 KL	§206E-1~22, §206E-191~199, HRS
2B	Coordinate and Manage Kakaako 5 Year Planning and Improvement Projects. Completion of these projects will create or repair essential public facilities, recreational areas and/or infrastructure within the Kakaako Community Development District.	Manage and complete CIP and Revolving Fund projects authorized for Kakaako Mauka and Makai. These projects include: Kewalo Basin Harbor Repair/Revolving Fund; Kakaako Makai (i.e., Kewalo Basin Park, Gateway and Waterfront) Parks Repair and Improvement/Revolving Fund; repair and renovation of Mother Waldron Neighborhood Park/BED 150 KA; and Queen/Kamakee Intersection Traffic Signal Project/BED 150 KA.	BED150 KA	§206E-1~22, §206E-31~33, HRS
2C	Administer and manage the tenants and facilities at the Kewalo Basin Harbor. Effective management of the harbor facilities will ensure that Honolulu's small boat commercial fishing, excursion and tour industry will have safe and efficient facilities from which to operate.	Utilize a contract harbor agent to manage day-to-day operations and promote tenant relations/Revolving Funds/BED 150 KA. Maintain fiscal records and accountability for all submerged lands (harbor waters) operations to ensure that revenues and costs related to the operation of the harbor are transparent to the tenants, the general public and the Legislature/Revolving Funds/BED 150 KA.	BED150 KA	§206E-1~22, §206E-31~33, HRS

<b>TOTALS</b>										<b>1,855 C</b>	<b>1,855 C</b>		<b>3,710 C</b>
<b>PROJECT INFORMATION AND JUSTIFICATION (use back if necessary):</b>													
<b>a. Total Scope of Project.</b> Projects, programs and activities relating to the redevelopment of Kakaako and Kalaeloa Districts, including long-range planning efforts, enforcement of regulatory provisions, participation in planning, design and construction of infrastructure improvements, and developments programs to plan and oversee all public facilities projects and facilitate private development efforts. The HCDA is also responsible for managing and													
<b>b. Identification of Need and Evaluation of Existing Situation.</b> Kakaako has been identified as underdeveloped and underutilized. Much of the infrastructure system in central Kakaako is 50 to 60 years old and inadequate for development requirements. A master plan for the Kakaako Wakai Area is being completed. Implementations of the plan will require dedicated planning and development staff. Kakaako offers an opportunity to address the need for more housing, parks and new commercial and industrial space in urban core Honolulu with proper planning, implementation and infrastructure improvements. As for Kalaeloa, HCDA completed a Master Plan (approved by the Governor in August 2006) highlighting the opportunity for affordable workforce housing in a mixed-use environment designed to provide greater connectivity to the Kapolei region, attract jobs, and serve as center for innovation, technology, and sustainability. The next phase in the planning process involves the preparation and promulgation of District Plan and Rules, which is currently undergoing. The agency is also managing district infrastructure improvement projects for power/electricity, telecom and cable communications. In addition photovoltaic (solar) power generating facilities are being established and will need to be managed.													
<b>c. Alternatives Considered and Impact if Project is Deferred.</b> Infrastructure improvements for about one-fourth of Kakaako are complete. Deferring future improvements will delay development opportunities. In particular, deferring planning and redevelopment of the Makai area will result in further deterioration of State-owned properties and the delay of economic and other benefits. Development incentives must be actively pursued. Given that development of Kalaeloa cannot occur without District Plan and Rules in place, no other alternatives were considered. Deferral of these projects will prevent development in Kalaeloa.													
<b>d. Discuss What Improvements Will Take Place When Project Completed (including benefits to be derived and/or deficiencies this project intends to correct).</b> District-wide infrastructure improvements will allow and encourage development opportunities. In particular, development of Kakaako Makai and the Kewalo Basin Harbor will have been initiated. Additionally, more housing, commercial and industrial space, parks, and other community and waterfront facilities will be developed.													
<b>e. Impact Upon Future Operating Requirements (show initial and ongoing funding requirements by cost element, including position count, means of financing, fiscal year).</b> Currently, HCDA has 19 authorized positions funded by general obligation bond funds (Plans element). Additional staff may be needed as the number of projects and responsibilities increase.													
<b>f. Additional Information:</b>

# NATURAL ENERGY LABORATORY OF HAWAII AUTHORITY

An Attached Agency of the Department of Business, Economic Development & Tourism, State of Hawaii

Statement of  
**RON BAIRD**  
**CHIEF EXECUTIVE OFFICER**  
Natural Energy Laboratory of Hawaii Authority  
before the

## SENATE WAYS AND MEANS COMMITTEE

January 5, 2011  
10:00 A.M.

State Capitol, Conference Room xxx

in consideration of

## BUDGET BRIEFING FOR FISCAL 2001 -2012

Good morning, Chair Ige, Vice-Chair \_\_\_\_\_ and members of the Senate Ways and Means Committee. I am Ron Baird and have had the pleasure of being the Chief Executive Officer and Executive Director of the Natural Energy Laboratory of Hawaii Authority, located at Kailua-Kona for nearly six years.

The prime directive I was given when arriving at NELHA was to make it self-sufficient, which was generally described as not requiring any operating funds from the State Treasury. I am happy to say that overall has been the case for the past five years. It should be noted, however, that NELHA recently adopted a new accounting method for seawater labor as a percentage of all labor costs. Recognizing that NELHA has subsidized a tenant for about \$300,000 of seawater annually for the past two years, this may lead to a depletion of the NELHA Special Fund within several years.

NELHA's capital assets, largely paid for over the past 36 years by General Fund appropriations, have a replacement value in today's dollars of perhaps \$250 million. These assets are the most respected and unique set of large-scale deep sea pipeline in the world. However, age has caught up with much of their capabilities and capacities. In particular,

- One major deep seawater pipeline is in danger of a "catastrophic failure",
- Another's subsea pumps have failed, and
- The entire delivery system is in need of expansion to continue economic development of the area.
- The state "inherited" as many as nine pipelines over the years installed by private businesses that subsequently closed down. Last year, parts of two of these pipelines floated to the surface, creating a public safety hazard. All need to be extracted from the ocean as quickly as possible as their anchors, tie-downs, or other means of securing them to the seafloor are rotting away. These represent a public safety hazard and this task should have been provided for years ago.

- The Department of Transportation is widening the Queen Ka'ahumanu Highway passing NELHA to accommodate current and future increased volumes of traffic. HDOT plans to make NELHA a right-in, right-out exit only. This severe restricted access will necessitate more than 2,200 vehicles per day, including the trucks that handle all the exported products produced at NELHA, traveling miles to make U-turns before beginning their journey from or to NELHA. It will also likely render NELHA undesirable to future tenants. To access a signalized interchange under current HDOT plans will require an E.I.S., construction of internal roads (needed in any event to expand NELHA development and tenant capabilities), and accessing a planned interchange about a mile away. Funds for these activities are an extremely high priority as are pipeline repairs and removals.

NELHA therefore is requesting the appropriation of \$20.525 million for fiscal 2011-2012 and \$6.0 million for fiscal 2012-2013. I quickly note that over \$8 million of this year's request simply replaces appropriations that had expired due to great procurement difficulties and delays.

In order of urgency, the capital improvement funds requests are as follows:

- Construct repairs to 40" pipeline mooring system: \$3,500,000
- Plan and removal of abandoned offshore pipelines: \$ 750,000
- Construct upgrades to seawater distribution system: \$5,000,000
- Comprehensive environmental impact statement: \$2,000,000
- Construction of frontage road and intersection: \$6,500,000
- Airport connector road: \$6,000,000  
(fiscal year 2012)
- Security system upgrades: \$ 375,000
- 250 KW photovoltaic array: \$2,000,000
- Complete construction of Gateway Energy Center: \$ 400,000

NELHA's mission was never more important to Hawaii's energy and economic future. Thank you for your sincere consideration of these requests, especially in view of today's economic conditions. Rest assured, they all will create numerous job opportunities.

Thank you very much for your consideration of my testimony and if you have any questions, I would be happy to take and answer them now to the best of my ability. Thank you again for your time.
