

SENATE COMMITTEE ON WAYS AND MEANS  
BIENNIAL BUDGET REQUESTS FOR FISCAL YEAR 2011-2013

JANUARY 6, 2011

TESTIMONY OF THE DEPARTMENT OF BUDGET AND FINANCE

**MISSION STATEMENT**

The Department of Budget and Finance's (DB&F) mission is to enhance long-term productivity and efficiency in government operations by providing quality budget and financial services that prudently allocate and effectively manage available resources.

**ECONOMIC IMPACT**

The contraction of the general fund tax revenues beginning in 2007 has required the DB&F to reprioritize operational functions, implement staff reductions, and reduce operating expenditures. Staff reductions and other budget reductions/restrictions have had an impact on the effectiveness of the Department.

The reduced professional staffing levels in the Budget, Program Planning and Management Division have required the Division to reprioritize key areas of workload to best fit and address its most critical needs, issues, and priorities on a case-by-case basis. It has become increasingly more difficult for the Division to conduct the necessary systematic and continuous reviews and analyses of the finances, organization, and operational methods of each department and agency of the Executive Branch.

The loss of key senior level Administrative and Research Office (ARO) staff has directly impacted the ability of the Office to effectively support all of the budget, fiscal, and personnel requirements of the DB&F programs and attached agencies. In certain key areas, there currently is no backup staff available to cover for vacation and sick leaves and should there be

any further loss in the current level of filled and budgeted staffing, the ability to maintain critical operations could be at risk.

Budget constraints have also restricted the ability to replace or enhance the Department's computer equipment. Servers and desktops are beyond their recommended and/or expected life cycles. Due to their ages, maintenance contracts are not available for the servers. Limited server capacity limits the implementation of certain software that would make the Department more efficient.

With respect to the Financial Administration Division, the reduced staffing levels in the Division have severely impacted the ability of the Division to effectively manage and administer its functions. The Division has had to reprioritize a number of functions due to the abolishment and/or vacancy of a number of positions. In order to ensure that critical functions are being performed, tasks have been redistributed and assigned amongst the remaining depleted workforce. This has compromised some of the Division's ability to perform all of its responsibilities on a timely basis. Any further reduction in resources would jeopardize the ability of the Division to perform essential statewide services.

#### ALTERNATIVES CONSIDERED

The Department has, and continues, to re-evaluate its programs' expenditures and revenue generators while closely monitoring its core mission, however, management does believe that human capital and resource levels are excessively thin and any additional reductions in staffing and/or program expenditures will jeopardize the Department's ability to fulfill its core mission.

### DEPARTMENT-WIDE BUDGET SUMMARY

The Department's operating budget request as submitted for FY 2012 and FY 2013 adjusts fixed costs and includes only the most critical requirements for the long term sustainability of our core departmental programs and attached agencies. Prioritization of budget requests for programs funded by special and trust funds reflects support of activities that are income enhancing, statutorily mandated, and energy related initiatives that position the State for a sustainable future. Table 10, Budget Decisions, details our Department's requests and the Executive level funding decisions. Additional items will be submitted for consideration via a Governor's Message during the 2011 Legislative Session. A preliminary list of the DB&F Operating Budget Requests to the New Administration is provided as Table 7.

In the current fiscal year, the Department's appropriation totals \$1.64 billion (all means of financing) and the following table summarizes the Department's FY 2011 appropriations, transfers, restrictions and allocations.

Please note that 97.3% of the budget request (\$1.6 billion) is for non-discretionary statewide expenses (debt service, retirement system, health fund, witness fees, and court-appointed counsel), and \$44.77 million or 2.7% is for expenses associated with direct departmental operations.

Table 1 provides a departmental summary of the FY 2011 allocations. As reflected in Table 17, there were no intra departmental transfers to other programs in FY 2010 and for FY 2011 to date. Table 4 reflects that no restrictions have been imposed during FY 2011 to date and therefore no restriction amounts have as yet been carried over in the biennium budget request.

The Department's Biennium Budget request (all MOF) does represent a net increase of \$151.14 million in FY 2012 and \$289.56 million in FY 2013 compared against the FY 11 appropriation funding levels in Act 180, SLH 2010. In FY 2012 and FY 2013, respectively, General funds are increased by \$150.53 million and \$288.94 million, Special funds are increased by \$0.23 million and \$0.23 million, Trust funds are increased by \$0.16 million and \$0.16 million. Other funds are increased by \$0.22 million and \$0.22 million again, as compared to the FY 11 appropriations. No adjustments are proposed for Inter-departmental Funds in either year of the biennium. Requested funding levels for the biennium are as reflected in the following table:

- The Department's biennium budget request currently includes the following adjustments for the fixed cost programs:
1. The budget requests for the BUF 721, BUF 725, and BUF 728, Debt Service Payments programs, reflects additional funding of \$71.2 million in the FY 2012 and \$175.36 million in FY 2013 above the FY 11 debt service appropriation levels in Act 180, SLH 2010.
  2. The budget requests for the BUF 741, BUF 745, and BUF 748, Retirement Benefits Payments programs, reflects additional funding of \$36.3 million in FY 2012 and \$41.9 million in FY 2013 for pension accumulation (PA) above the FY 11 appropriation

levels in Act 180, SLH 2010. Social security/Medicare requirements are also increased by \$33.7 million in FY 2012 and \$20.59 million in FY 2013. Funding requirements are based on actual payroll through June 30, 2008.

3. The budget requests for the BUF 761, BUF 765, and BUF 768, Health Premium Payments programs, reflects additional funding of \$7.89 million in FY 2012 and \$49.67 million in FY 2013 above the FY 11 appropriation levels in Act 180, SLH 2010.

The Department-Wide Summary Information detailing the FY 2012 and FY 2013 Biennium Budget requests at the Department level is reflected in the following attachments Table 1 – Department-Wide Summary Information (by MOF), and by program ID in Table 3 - Program ID Totals. Table 5 - Biennium Budget Reductions, and Table 10 - Biennium Budget Adjustments, summarize the adjustments that relate to requested FB 11-13 funding levels.

The Department's CIP request reflects statutory obligations and includes a total of \$75 million in general obligation bond authorization in both FY 2012 and FY 2013. Included is \$45 million in each year of the biennium for the State Educational Facilities Improvement (SEFI) special fund. The State is required to credit the requested amounts to the SEFI special fund. Without this G.O. bond authorization, general excise tax revenues will be used in lieu of the bond funds to credit the SEFI special fund, in accordance with Section 237-31, Hawaii Revised Statutes (HRS). \$30 million in each year of the biennium is requested for the Hawaiian Home Land (HHL) Trust Fund. The G.O. bond fund authorization for transfer to the HHL Trust Fund is in accordance with Act 14, SpSLH 1995. The State is required to make twenty annual deposits of \$30 million

to the Trust Fund to settle claims against the State. Table 18 summarizes the

Department's CIP request for FB 11-13.

As reflected in Table 9, the Department has no emergency funding requests for FY 2011.

The Department does not have expenditures exceeding federal funds ceiling in FY 2010 or

FY 2011 (Table 16).

Table 11, All Positions Vacant as of November 30, 2010, includes a listing of program vacancies as of November of 2010. Programs have been impacted by the requirements regarding the filling of vacancies and continue to address only the most critical activities given current fiscal conditions, exercising fiscal prudence and redistributing workload among existing staff as necessary.

This concludes the department-wide budget summary.

The following are more detailed descriptions of the fifteen programs in the DB&F. Each Administratively Attached Agency is present to elaborate on their individual budgets should there be questions on details or operations. The nine new programs covering fixed cost and entitlement payments (BUF 721, BUF 725, and BUF 728 -Debt Service Payments; BUF 741, BUF 745, and BUF 748 -Retirement Benefit Payments; BUF 761, BUF 765, and BUF 768 -Health Premium Payments), will be discussed in conjunction with related core programs. The program sequencing has been grouped as follows:

The DB&F's fifteen programs are aligned functionally, as follows:

BUF 101, which is the Departmental Administration and Budget Division program;  
BUF 115, our Financial Administration program;

\*BUF 141, the Employees' Retirement System;  
\*BUF 143, the Hawaii Employer-Union Trust Fund;

\*Administratively Attached Agencies/Programs

The first two programs are the Department's direct programs, comprised of the Director's Office, the Administrative and Research Office, the Budget, Program Planning and Management Division (collectively BUF 101), and the Financial Administration Division (BUF 115). The next four programs annotated with asterisks are agencies administratively attached to the Department. There are also nine programs which cover payments for non-discretionary cost items placed under separate program designations.

Table 2 includes the major functions of the Department and are prioritized based on the Department's direct programs versus those that are administratively attached and serve separate and distinct purposes. Table 2 also lays out the criteria used to measure performance for these functional areas and summarizes the major activities related to each of the identified functional areas.

VI. Proposed Lapses of Capital Improvements Program Projects:

None.

The next three programs are BUF 761, BUF 765, and BUF 768, HEALTH PREMIUM PAYMENTS programs.

I. Introduction

- A. These programs were established by the Legislature to separately identify funds available for the payment of employer contributions for State government employee health benefits. These amounts were previously reflected as part of the BUF 943, Health Premium Payments program.
- B. This program includes employer contributions for health and life insurance benefits provided by the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) and the Hawaii State Teachers Association (HSTA) Voluntary Employees' Beneficiary Association (VEBA) Trust as authorized by Act 245, SLH 2005. The proposed FB 11-13 total General Obligation (G.O.) bond debt service request (MOF A) is \$564.1 million in FY 2012 and \$668.3 million in FY 2013. The requirements support GO CIP projects included in the Executive Biennium Budget request. The G.O. bond debt service reflects an increase above the FY 11 appropriation amounts in Act 180, SLH 2010, by \$71.2 million in FY 12 and \$175.4 million in FY 13. These increases are due: 1) primarily to previous refunding/restructuring of debt service to provide budget relief in prior periods; and 2) to the additional bonds being issued to fund ongoing CIP. These increases in G.O. bond debt service requirements was expected and incorporated into prior and current financial plan projections.

The next three programs are BUF 741 BUF 745, and BUF 748, RETIREMENT BENEFIT PAYMENTS.

I. Introduction

- A. This program was established by the Legislature to separately identify funds available for the payment of employer contributions for State government employee retirement benefits. These amounts were formerly reflected as part of the BUF 941, Retirement Benefit Payments program.
- B. This program includes employer contributions for pension accumulation and social security/Medicare. General fund appropriations for the Department of Education (DOE) and the University of Hawaii (UOH) are transferred at the beginning of each fiscal year and included in this program as interdepartmental transfer funds. Pension accumulation contributions are based on a percentage of payroll as stipulated in Chapter 88, Hawaii Revised Statutes. Social Security/Medicare contributions are federally mandated and based on assessment rates of 6.2% for social security and 1.45% for Medicare.

Act 177, SLH 2007 ("Act 177"), and Act 183, SLH 2007 ("Act 183"), mandated the restructuring, among other things, of the Commission's ("PUC") and Department of Commerce and Consumer Affairs, Division of Consumer Advocacy's ("DCA") operations, respectively. The Legislature found that adequate staffing and resources were essential for the PUC and DCA to effectively accomplish agency objectives and enacted Act 130, SLH 2010, which authorized sufficient funding for the operations and staffing of the PUC and DCA (pursuant to Act 177), inclusive of the restoration of the eleven (11) PUC positions and ten (10) DCA positions abolished or not funded by Act 162, SLH 2009, in FY 2010. This request represents the estimated costs of additional staff, equipment, and related operational costs to fully implement Act 177 and Act 183.
