A BILL FOR AN ACT

RELATING TO PUBLIC FUNDS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

| 1 | | PART I |
|----|-----------|---|
| 2 | SECT | ION 1. The legislature finds that the State of Hawaii |
| 3 | is still | suffering from the global economic recession. While |
| 4 | some Hawa | ii businesses are showing modest signs of recovery, the |
| 5 | construct | ion industry, including construction workers, support |
| 6 | staff, an | d construction-support businesses, is still suffering. |
| 7 | The | legislature further finds that Hawaii is experiencing |
| 8 | the lowes | t interest rates on record and that there were |
| 9 | significa | nt savings from the State's most recent bond |
| 10 | authoriza | tion and issuance. In completing the bond transaction, |
| 11 | the State | : |
| 12 | (1) | Reduced debt service by saving \$59,000,000 on refunded |
| 13 | | outstanding debt; |
| 14 | (2) | Kept debt service for fiscal 2012-2013 at |
| 15 | | legislatively appropriated levels; |
| 16 | (3) | Restructured outstanding debt; |
| 17 | (4) | Normalized the State's debt service profile; |
| 18 | (5) | Built excess debt capacity from 2014 to 2019; |
| | 2012-0966 | SB2012 SD1 SMA.doc |

| 1 | (6) | Improved | the | State's | financ | cial | position; | and |
|---|-----|----------|------|---------|--------|------|-----------|-----|
| 2 | (7) | Garnered | a po | ositive | credit | rati | ing. | |

| 2 | (7) Garnered a positive credit rating. |
|----|---|
| 3 | The primary economic objective of the legislature this |
| 4 | session is to immediately stimulate direct and indirect job |
| 5 | creation to maintain and create local construction jobs for all |
| 6 | stages of construction, including employment for painters, |
| 7 | roofers, electricians, carpenters, architects, engineers, and |
| 8 | other consultants to generate more personal income growth. The |
| 9 | department of business, economic development, and tourism |
| 10 | estimates that the last advancement of \$1,800,000,000 in capital |
| 11 | improvement projects by the State resulted in the creation of |
| 12 | 12.9 direct and indirect jobs created for every \$1,000,000 |
| 13 | invested. |
| 14 | In contemplating capital improvement projects, the |

In contemplating capital improvement projects, the legislature finds that a main focus should include repair and 15 16 maintenance projects as well as those projects that address 17 health and safety concerns. Completion of those projects will 18 ensure the existence of well-maintained state facilities and 19 infrastructure, which are essential to maintaining a positive 20 business climate and strong economic foundation. Funding would be provided statewide and include efforts to eliminate current 21 22 repair and maintenance backlogs.

| 1 | The estimated backlog of repair and maintenance or capital |
|----|--|
| 2 | renewal and deferred maintenance projects for the department of |
| 3 | education, Hawaii state library system, University of Hawaii |
| 4 | system, University of Hawaii's athletic facilities, department |
| 5 | of accounting and general services, department of agriculture, |
| 6 | department of defense, department of health, Hawaii health |
| 7 | systems corporation, department of human services, department of |
| 8 | land and natural resources, department of public safety, and |
| 9 | judiciary is well over \$1,000,000. |
| 10 | Another priority of the legislature is to develop |
| 11 | sustainable and renewable energy resources, such as photovoltaic |
| 12 | technology, as well as initiatives to improve upon efficient |
| 13 | energy consumption. Investing in energy and information |
| 14 | technology initiatives throughout schools, hospitals, and office |
| 15 | buildings, would have significant impact and ultimately lead to |
| 16 | cost savings, alleviating the drain on general funds, and a |
| 17 | reduction of the State's carbon footprint. |
| 18 | The legislature also realizes that the procurement process |
| 19 | is lengthy and complicated, which adds considerable time to |
| 20 | completing capital improvements and repairs and maintenance in |
| 21 | the State's facilities and infrastructure. This Act requires |

procurements for goods, services, or construction for the repair

22

- 1 and maintenance or capital renewal and deferred maintenance

Report Title:

Capital Improvement Projects; General Obligations Bonds; Appropriation; Procurement

Description:

Issues general obligation bonds to fund the repair and maintenance or capital renewal and deferred maintenance projects of various departments, the University of Hawaii, Hawaii health systems corporation, and the judiciary. Requires that capital improvement projects authorized pursuant to this Act for goods, services, or construction less than \$1,000,000 to use section 103D-305, HRS, as the method for procurement. Requires procurements of less than \$1,000,000 to be conducted through an electronic system. Specifies that section 103D-701, HRS, shall not apply to capital improvement projects that are less than \$1,000,000. Provides for certain exemptions from county permitting, licensing, and certification requirements. (Proposed SD1)
