He is committed to environmental issues as demonstrated through his scholarship on taro and lei plants and his service as an expert witness in contested case proceedings. Mr. Teves has lived on the island of Molokai for the last thirty years, where he farms Hawaiian homelands, raising apple bananas and taro.

As affirmed by the records of votes of the members of your Committee on Energy and Environment that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.
