H.B. NO.1189

Report Title:

Transportation; Motorcycles; Mopeds; Mufflers; Noise Control

Description:

Clarifies the prohibition on the modification of the exhaust system of a motorcycle or moped that amplifies or increases the noise emitted by the muffler originally installed on the motorcycle or moped. Effective July 1, 2013.

H.B. 1189 RELATING TO TRANSPORTATION

House Committee on Transportation

The Department of Transportation (DOT) supports HB 1189 provided it is modified.

We have concerns about the proposed amendment to subsection (a) of 291-24, HRS, because there are many mopeds and motorcycles with aftermarket mufflers that do not have numbers on them, and there are mopeds and motorcycles that have the EPA certification label missing. We recommend considering grandfathering mopeds and motorcycles up to a certain year, and requiring mopeds and motorcycles after that year to have mufflers that meet the original manufacturer's specifications.

Thank you for the opportunity to provide testimony.

Comments: The noise of unmuffled motorcycles is so loud I cannot hear the TV in my own living room. I rode motorcycles for many years, tens of thousands of miles. It is not necessary to make so much noise.
