

STATE OF HAWAII
DEPARTMENT OF HUMAN SERVICES
P. O. Box 339
Honolulu, Hawaii 96809-0339

March 14, 2013

MEMORANDUM

TO: The Honorable Mele Carroll, Chair
House Committee on Human Services

FROM: Patricia McManaman, Director

SUBJECT: **S.B. 400, S.D. 1 - RELATING TO HUMAN SERVICES**

Hearing: Thursday, March 14, 2013; 9:30 a.m.
Conference Room 329, State Capitol

PURPOSE: The purpose of S.B. 400, S.D. 1, is to require child care facilities, family child care homes, group child care centers, group child care homes, and infant and toddler child care centers that care for children one year of age or younger to develop, maintain, and implement safe sleep policies to prevent sudden unexpected infant deaths and sudden infant death syndrome. Makes certain requirements of operators.

DEPARTMENT'S POSITION: The Department of Human Services (DHS) acknowledges the efforts of the Legislature to seek measures to prevent the tragic deaths associated with sudden unexpected infant deaths and sudden infant death syndrome. However, we must respectfully oppose S.B. 400, S.D. 1, as written which would legislate specific program requirements for regulated child care providers which can be addressed through administrative rules.

We respectfully request for your consideration the deletion of proposed sections (b) through (e). The DHS believes that this revision would allow for the DHS to accommodate any changes to best practice and standards of care if these were in rules as opposed to statute. The body of knowledge related to sleep related deaths continues to grow as researchers continue to seek answers to sudden unexplained infant deaths.

Thank you for the opportunity to provide comments on this bill.

STATE OF HAWAII

House Committee on Human Services

S.B. 400, S.D. 1, Relating to Human Services

Testimony of Loretta J. Fuddy, A.C.S.W., M.P.H.
Director of Health

March 14, 2013

- 1 **Department's Position:** The Department of Health appreciates the intent of this bill and defers to the
2 Department of Human Services (DHS) for implementation.
- 3 **Fiscal Implications:** None to the Department of Health.
- 4 **Purpose and Justification:** This bill would require child care facilities, that care for children one year
5 of age or younger, to implement safe sleep policies. Sudden unexpected infant deaths (SUID) and
6 sudden infant death syndrome (SIDS) are preventable through safe sleep practices. One in five infant
7 deaths related to an unsafe sleep environment occurred while an infant was being cared for by someone
8 other than a parent. Research has shown that many child care providers are unaware of the association
9 between unsafe sleep environments and SUIDS/SIDS and were misinformed about risks and benefits of
10 safe sleep practices. Training on safe sleep practice is needed because over two-thirds of U.S. infants
11 receive care from non-parental childcare providers. It is important that we continue efforts to promote
12 safe sleep education and keep infants free from preventable injury and premature death. We respectfully
13 defer to the DHS who regulates child care providers.
- 14 Thank you for the opportunity to testify.

House Committee on Human Services
March 14, 2013 – 9:30am
Conference Room 329

**RE: IN STRONG SUPPORT OF SB 400 SD 1
RELATING TO HUMAN SERVICES**

Dear Chair Carroll, Vice Chair Kobayashi and members of the committee,

My name is Michelle Rho, a committee member of Safe Sleep Hawaii, and a staff member of Child & Family Service in the Parent Line and HomeReach Program funded by the Department of Health. Parent Line and HomeReach is a statewide program open to all of Hawaii's residents. Thank you for this opportunity to provide my testimony in strong support of SB 400 SD 1, Relating to Human Services.

Suffocation has been the leading cause of fatal injuries among healthy Hawaii keikis under the age of 1. The American Academy of Pediatrics recommends all infants under the age of 1 to sleep on their backs, in a safe sleeping environment. Although sleep related deaths are preventable, there is no formal policy that is in place to ensure that our young keikis are in a safe sleeping environment, positioned on their backs. **Hawaii is ONE of SEVEN states in the United States that does not regulate sleep positions in child care centers or family child care homes.**

By passing this measure, it will help prevent the occurrence of infants dying due to unsafe sleeping environments/positions. We strongly recommend you pass this measure. Thank you for your time and for the opportunity to express my support for SB 400 SD 1.

Aloha,

Michelle Rho

March of Dimes Hawaii Chapter

Re: In strong support of
SB400 SD1
Hearing: Committee on Human Services
Thursday, March 14, 2013 8:30am
Conference Room 329, State Capitol

Chair Carroll, Vice Chair Kobayashi, Members of the Committee:

I am writing to express support for SB 400 SD1, *which would require child care providers to develop, maintain and implement safe sleep policies for infants.*

For over 70 years, the March of Dimes has been a leader in maternal and child health. Our mission is to *improve the health of women of childbearing age, infants, and children by preventing birth defects, premature birth, and infant mortality.* March of Dimes is in the midst of a long-term Prematurity Campaign to increase public awareness of the problems of prematurity and to decrease the rate of premature birth worldwide

Sudden Infant Death Syndrome (SIDS) is the leading cause of death in babies between one month and one year old, and is most common among babies between two and four months old. Premature babies are at increased risk for SIDS. A study published in the January 2013 *Journal of Perinatology* found that extremely premature infants had a significantly higher risk of dying from SIDS than full term infants.

The American Academy of Pediatrics (AAP) reports that one in five SIDS deaths occurs while an infant is in the care of someone other than a parent. Many of these deaths happen when babies who are accustomed to sleeping on their backs at home are placed on their tummies for sleep by another caregiver. At the March of Dimes NICU Family Support Program at Kapiolani Medical Center for Women & Children, we provide families with infants in the Neonatal Intensive Care Unit the AAP's *Parent's Guide to Safe Sleep* that emphasizes "Tummy to Play and Back to Sleep." The guide also recommends that parents talk to their baby's caregivers about reducing the risk of SIDS through safe sleep.

Senate Bill 400 SD1 would ensure that all registered or licensed child care providers would have the policies in place to maintain safe sleep environments for infants in Hawaii. March of Dimes urges the Committees on Human Services and Health to pass SB 400 SD1.

Comments: To: Representative Mele Carroll, Chair Representative Bertrand Kobayashi, Vice Chair House Committee on Human Services March 14, 2013 – 9:30am House Conference Room 329 RE: IN STRONG SUPPORT OF SB 400 SD1 RELATING TO HUMAN SERVICES Dear Chair Carroll, Vice Chair Kobayashi and members of the committee, My name is Glenn Sakai and I am a proud grandfather to Jillian Fernandez, a 10 month old baby girl Prone Sleeping Position is one of the major risk factors associated with Sudden Unexpected Infant Death, more commonly referred to as SIDS. Sleeping on the back has been recommended by the American Academy of Pediatrics in 1992 to avoid SIDS. The incident of SIDS has declined considerably in those countries in which the back-to-bed recommendation has been adopted, the United States and New Zealand , among them. As you are well aware, Hawaii does not regulate child care facilities on safe sleep positions. Despite the decrease in SIDS, it remains the number one cause of infant mortality as reported by Dr. Mary Patinos, MD with our University of Hawaii 's Department of Pediatrics, John A. Burns School of Medicine. There is no greater loss of a child dying due to an unsafe sleeping environment especially when it is preventable. Thank you for your time and this opportunity to express my strong support of SB400.

RE: IN STRONG SUPPORT OF SB 400 SD1
RELATING TO HUMAN SERVICES

Dear Chair Carroll, Vice Chair Kobayashi and members of the committee,

My name is Nancy Kern. I currently work for the Department of Health, in the Injury Prevention and Control Section, as the Suicide Prevention Coordinator. I am providing this testimony, however, as a private citizen.

Thank you for this opportunity to provide my testimony in strong support of SB 400, Relating to Human Services.

I had a twin daughter, Colleen Kern, who died at the age of 4 months from Sudden Infant Death Syndrome (SIDS) in 1977. The sadness and despair experienced by my husband and myself from this loss was unimaginable.

Following Colleen's death, I worked for many years on efforts related to preventing SIDS in Hawaii, serving as president of the Hawaii SIDS Foundation for several years. One of our main priorities was to educate the public on the significance of placing babies to sleep on their backs.

From my personal perspective, SB 400, SD 1 should be passed, as research demonstrates that back-sleeping decreases the rate of SIDS deaths, and - therefore – would lessen the tragedy that afflicts families in Hawaii when they experience the death of their infant due to SIDS.

We all have a responsibility to ensure that all Hawaii's infants in child care facilities are placed down to sleep in a safe environment. This is a relatively small step to take for such a significant result: a safer environment for all babies who are cared for at child care centers statewide.

Thank you for seriously considering the passage of this bill and for caring for the health and well-being for our infants.

Aloha, Nancy Kern
