HOUSE OF REPRESENTATIVES TWENTY-SEVENTH LEGISLATURE, 2014 STATE OF HAWAII

H.C.R. NO. 123

HOUSE CONCURRENT RESOLUTION

REQUESTING THE EMPLOYEES' RETIREMENT SYSTEM TO REVIEW AND EVALUATE ITS ACTUARIAL METHODS AND ASSUMPTIONS.

1 WHEREAS, the Employees' Retirement System of the State of 2 Hawaii serves over one hundred fifteen thousand active members, 3 retirants, beneficiaries, and inactive vested members, both 4 within and outside the State, and currently pays approximately 5 \$1,100,000,000 in annual pension benefit payments to more than 6 forty-one thousand retirants and beneficiaries; and

8 WHEREAS, in its Report to the Board of Trustees on the 88th 9 Annual Actuarial Valuation for the Year Ending June 30, 2013, 10 the Employees' Retirement System reported a funded ratio of 11 sixty per cent (based on smoothed assets), an actuarial accrued 12 liability of \$21,244,000,000, and an unfunded actuarial accrued 13 liability of \$8,495,000,000; and

WHEREAS, in its investment performance report for the third quarter of 2013, dated September 30, 2013, the Employees' Retirement System reported investments and assets of approximately \$13,000,000,000, which could be used to pay the \$21,244,000,000 of actuarial accrued liability; and

21 WHEREAS, in determining costs and liabilities, actuaries 22 use assumptions about the future, such as rates of salary 23 increase, probabilities of retirement, termination, death and 24 disability, and an investment return assumption; and

26 WHEREAS, in addition to the actuarial assumptions,
27 actuaries also make use of an actuarial funding method to
28 allocate costs to particular years; and

30 WHEREAS, according to the Employees' Retirement System, the 31 actuarial method used in its valuation is the Entry Age 32 Actuarial Cost Method; and

H.C.R. NO. 123

1 WHEREAS, according the Employees' Retirement System, the 2 assumptions used in its valuation included the following: 3 4 Economic assumptions, including assumptions regarding 5 (1)such factors as investment return, payroll growth 6 7 rate, and salary increase rate; 8 (2) Demographic assumptions, including assumptions 9 regarding such factors as post-retirement mortality 10 rates, pre-retirement mortality rates, disability 11 rates, termination rates, and retirement rates; and 12 13 (3) Other assumptions, including assumptions regarding 14 such factors as marriage, age difference between 15 spouses, various elections that members may make, 16 administrative expenses, the timing of various events 17 that are relevant to eligibility and payment of 18 benefits, etc.; and 19 20 WHEREAS, it is necessary to both understand the potential 21 impact of the actuarial methods and assumptions used and to 22 ensure that the actuarial methods and assumptions used are 23 current and appropriate, as current and future members, 24 retirants, beneficiaries, and inactive vested members are 25 depending on the sustainability and solvency of the Employees' 26 Retirement System; now, therefore, 27 28 BE IT RESOLVED by the House of Representatives of the 29 Twenty-seventh Legislature of the State of Hawaii, Regular 30 Session of 2014, the Senate concurring, that the Employees' 31 Retirement System is requested to hire and work with a 32 33 consultant to review and evaluate the actuarial methods, assumptions, and other components that impact the funding of the 34 Employees' Retirement System; and 35 36 BE IT FURTHER RESOLVED that the Employees' Retirement 37 38 System is requested to report its findings on the methodology and assumptions currently used to estimate future pension 39 benefit payments and recommendations on the contribution rates 40 and other funding sources to ensure the sustainability and 41 solvency of the Employees' Retirement System; and 42 43

H.C.R. NO. 123

BE IT FURTHER RESOLVED that certified copies of this 1 Concurrent Resolution be transmitted to the Chairperson of the 2 Board of Trustees and to the Administrator of the Employees' 3 Retirement System of the State of Hawaii. 4 5
