A BILL FOR AN ACT

RELATING TO GARDENS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that school gardens
2 provide interactive, hands-on learning environments in which
3 students learn fundamental concepts about nutrition and obesity
4 prevention; composting and waste management techniques; and
5 cultural and historical aspects of the local food supply.
6 School gardens foster a better understanding and appreciation of
7 where food comes from, how food travels from the farm to the
8 table, and the important role of agriculture in the state and
9 global economy. School gardens enhance many subject areas,
10 including science, environmental education, mathematics,
11 reading, writing, art, nutrition, physical education, history,
12 and geography.

13 The legislature further finds that in addition to school
14 gardens, community gardens create welcoming and attractive
15 neighborhoods, while serving as an important outdoor
16 recreational opportunity for residents. Community gardens have
17 many benefits, including the promotion of healthy populations,
18 thereby reducing public health costs; the beautification of

1 neighborhoods and public spaces, which may increase property
2 values; and the general advancement of residents' health and
3 welfare by encouraging a sense of community.

4 The purpose of this Act is to authorize the department of
5 education and the Hawaii community development authority to
6 develop programs that provide incentives to establish gardens on
7 school campuses and within communities.

8 SECTION 2. Chapter 302A, Hawaii Revised Statutes, is
9 amended by adding a new section to be appropriately designated
10 and to read as follows:

11 "§302A- Gardening programs. Notwithstanding any other
12 provision of law, the department may develop programs that
13 provide incentives for the development of gardens on school
14 property; provided that the college of tropical agriculture and
15 human resources of the University of Hawaii at Manoa shall be
16 consulted regarding best practices in gardening, including
17 vertical gardening, aquaponics, and community gardening."

18 SECTION 3. Section 206E-4.5, Hawaii Revised Statutes, is
19 amended to read as follows:

20 "~~[+]§206E-4.5[+]—Urban gardening]~~ Gardening programs.
21 Notwithstanding any other provision of law, the authority may
22 develop programs that provide incentives for the development of

1 ~~[housing projects that incorporate urban gardening programs,]~~

2 gardening programs in:

3 (1) Housing projects;

4 (2) Communities; and

5 (3) Schools;

6 provided that the college of tropical agriculture and human
7 resources of the University of Hawaii at Manoa shall be
8 consulted regarding best practices in urban gardening, including
9 vertical gardening, aquaponics, and community gardening."

10 SECTION 4. Statutory material to be repealed is bracketed
11 and stricken. New statutory material is underscored.

12 SECTION 5. This Act shall take effect upon its approval.
