### I. Background and Summary

This section shall clearly and concisely summarize and highlight the contents of the request in such a way as to provide the State Legislature with a broad understanding of the request. Please include the following:

1. A brief description of the applicant's background;  
The Boy Scouts mission is to prepare young people to make ethical and moral choices of their lifetimes by instilling in them the values of the Scout Oath and Law. The Aloha Council embodies this mission through our vision to positively impact the lives of Hawaii's youth through Scouting's leadership development and outdoor education programs. Providing safe and attractive camps is an essential component of our program model. Improvements are needed in order to maintain and expand our outdoor programs.

Aloha Council operates three camp properties to offer a variety of camping experiences and locations to 13,000+ Scouts across Hawaii as well as non-Scout campers. The Aloha Council-owned camps to be improved include Camp Pupukea on Oahu, Camp Alan Faye on Kauai and Camp Honokaia on the Island of Hawaii. The camps currently lack adequate camping, shower and program facilities. As the camps have not had major physical updates since the 1960s, improvements to the camps have been a goal for years. The facilities are worn and we believe physical improvements will have an immediate positive impact on attendance at all camps.

Scouts learn by doing – and those are the lessons that tend to impact lives well into adulthood. The camping tradition, integral to the Scout experience, teaches teamwork and self-sufficiency while opening a door to the wonders of nature for young people growing up in an urban setting. The value of outdoor activities cannot be overstated: youth learn about themselves and their abilities, when they are outside of their day-to-day surroundings. Yet, Aloha Council camp attendance is not meeting expectations and research demonstrates getting youth involved in outdoor activities continues to be a challenge.

In the 2013 Recreation Participation Report published by the Outdoor Foundation, data supports the notion that to ensure healthy, active communities and a future for outdoor conservation, America's young people must be engaged in outdoor participation. Nationwide efforts to reconnect youth to the outdoors are critical to

reaching more young people, increasing accessibility of outdoor recreation for all Americans and educating future outdoor enthusiasts about the diversity of the nation's backyard.

Key findings of the report include:

- Introducing outdoor recreation and physical activities early in life has a lasting effect. Among adults who are current outdoor participants, 75% had physical education and 42% enjoyed outdoor activities in elementary school.
- Camping participation for youth ages 6 and older was lower than other outdoor recreational activities.
- Youth who do not participate in outdoor activities say they are not interested in the outdoors.

2. The goals and objectives related to the request;

Camping and the outdoor experience are at the heart of Scouting. The Aloha Council has a strategic commitment to respond to current youth and family needs and bringing them all to our camps. Therefore, we have launched the Developing Leaders for Life Capital Campaign to ensure the quality of our facilities and the continuation of our programs. Our campaign goal is to raise \$10 million to improve camp facilities to increase camp attendance among older scouts, and add camp facilities and amenities to attract more Cub Scout (ages 6-10), family members, and non-Scout campers.

The most heavily used of these properties is Boy Scout Camp Pupukea which has operated since 1966 on a former military camp property. Some of the structures were built in the 1940's while others were built in the 1960's and early 1970's. In 2010, the EPA condemned 13 outdoor toilet "cesspools" which added urgency to the need for upgrades on the property. With this condemnation, a master plan was developed for the property which we will soon receive approval from Hawaii Department of Land and Natural Resources. The EPA mandate also affected Camp Alan Faye (5 outdoor toilets) and Camp Honokaia (11 outdoor toilets).

Our vision is that Aloha Council' Camps will serve as a premier outdoor program resource to families and the community throughout Hawaii. In order to achieve this vision, we must upgrade toilet and shower facilities, bringing them into compliance with the EPA and department of Health regulations. In addition, we plan to add facilities designed for families and a broader segment of the community. Finally, in order to continually attract our membership to our camps, we will make program upgrades including rehabilitating the pool at Pupukea, shooting sports facilities at all camps, and adventure/challenge courses at all camps.

Support from the state of Hawaii will enable the Aloha Council to complete the most critical improvements to the facility that includes replacing toilet and shower facilities at all three camps, renovating the pool complex at Camp Pupukea on Oahu, and providing expanded program facilities at all camps.

The estimated cost of this phase of the plan is \$5.5 million with \$2 million coming from the State of Hawaii, \$2 million from private contributions, and the final \$1.5 million matched by a community foundation.

3. The public purpose and need to be served;

For the Boy Scouts 12,000 plus children and families living in Hawaii:

Renovations to our camps will allow them to continue to operate in accordance with State and Federal Regulations. It will establish facilities that will serve the next generation of young people by providing outdoor education facilities, summer camps, leadership training centers, and day camp facilities year round. It will become a more desirable choice for Scout Packs to utilize in their year round activities.

Summer Camp is a weeklong summer camp experience for the Scouts. They sign up for different merit badges of their own choosing that include: swimming, lifesaving, camping, cooking, pioneering, orienteering, wilderness survival, Indian lore, environmental science, forestry, astronomy, leatherwork, woodcarving, basketry, archery, rifle shooting, shotgun shooting, first aid, emergency preparedness, weather, geology, soil and water conservation, composite materials, disabilities awareness and Hawaiiana.

The Council holds Adult Leader Training for its volunteers to train them on the outdoors, Boy Scout educational methods, communications, leadership and camping. NYLT is a National Youth Leadership Training for our Scouts where they learn leadership, communication, presentation methods, conflict resolution, team building skills and more. Wood Badge is an advanced adult leader training offered over a one-week period. It focuses on leadership, mentorship, ideals of scouting, communications, diversity, conflict resolution, childhood development and more.

Day Camp is a Fun Cub Scout program that develops our Scouts' creativity and physical fitness. It is a 2-3 day program where each day they participate in different events, crafts, skills, games and storytelling around a particular theme. Units also camp independently year-round and create their own programs utilizing the facilities that are available.

For the general public:

Renovated camp properties will allow them to be utilized by school groups, churches, and adult retreats. The options for camping are limited, especially on Oahu where the number of campgrounds designed for youth is small. Aloha Council makes its camps available to community groups throughout the year as a part of our outreach to the community.

The improvements to our camps will also add jobs and provide much needed work for the construction industry across the islands. The types of projects envisioned will be perfect for small to mid-sized contractors who have not been able to benefit from the construction boom in Kaka'ako and other places where large scale condominium and hotels are being constructed.

4. Describe the target population to be served; and  
Our target population is youth ages 6-20, their leaders and families.
5. Describe the geographic coverage.  
The geographic coverage is the State of Hawaii. Approximately 12,000 Scouts and their families from Oahu, Kauai, Maui, and Hawaii Island utilize the Camps. The Camps are also utilized by hundreds of other Scouts from throughout the country and Pacific region. In addition, the Camp is utilized by various nonprofit organizations as stated above.

## **II. Service Summary and Outcomes**

The Service Summary shall include a detailed discussion of the applicant's approach to the request. The applicant shall clearly and concisely specify the results, outcomes, and measures of effectiveness from this request. The applicant shall:

1. Describe the scope of work, tasks and responsibilities;  
The Capital Improvements are being managed by a six-member advisory committee. The Aloha Council volunteer President is Arnold Martines, Senior Vice President, Central Pacific Bank, who, along with Jeff Sulzbach, Aloha Council Scout Executive/CEO, will oversee the physical improvements to the camps funded by the Developing Leaders for Life, Capital Campaign. The Developing Leaders for Life Capital Campaign's goal is to raise \$6 million for improvements at Camp Pupukea, Camp Honokaia, and Camp Alan Faye; and \$1 million to establish a maintenance endowment fund by 2018.

The Council has just completed the planning process, which included architectural renderings, environmental studies, secured use permits as the council-owned properties are located on State of Hawaii Forestry land, and consultation with officials in preparation for application of building permits. We are ready to begin construction in 2015. Planning began in 2011 with the engagement of

professional architects, engineers, and consultants to develop a master plan for the council properties. The Pupukea Master was approved by Hawaii Department of Land and Natural Resources. All land is owned by Aloha Council. The improvements are part of a 25-year master plan and are intended to serve the next generation of young people. Implementation of the improvements will take place over a 3-5 year period. The phases are of improvements and major improvements are listed.

2. Provide a projected annual timeline for accomplishing the results or outcomes of the service;

Phase 1 (2015-2016)

1. Remove non-compliant structures and bring camps into compliance with EPA and Health Department requirements at all camps.
2. Build family camp area for Cub Scout Camping and two shower facilities at Pupukea.
3. Maintain and enhance existing facilities including lodges at all camps, pool at Pupukea, and Scout Service Centers.
4. Provide funds for program equipment at all camps.

Phase 2

1. Add shower facilities to Honokaia and Alan Faye.
2. Add shower facilities at Pupukea in Cub Scout family camp and Boy Scout camp areas.
3. Replace and expand shooting sports facilities
4. Construct program pavilions at Pupukea and expand program areas.
5. Complete required infrastructure improvements at Pupukea including a well which is required by the board of water supply.
6. Add climbing program facilities and other program features to camps.
7. Service Center maintenance.

Phase 3

1. Staff Housing at Pupukea
2. Maintenance endowment fund
3. Program areas enhancement

3. Describe its quality assurance and evaluation plans for the request. Specify how the applicant plans to monitor, evaluate, and improve their results; and

A committee of construction professionals from some of Hawaii's largest construction and consulting companies will oversee the work along with council staff. A professional architect and contractors will handle day-to-day responsibilities.

The Executive Board Vice President for Properties is Corey Matsuoka, an engineer for SSFM. He and the construction team will constantly monitor and evaluate improvements.

4. List the measure(s) of effectiveness that will be reported to the State agency through which grant funds are appropriated (the expending agency). The measure(s) will provide a standard and objective way for the State to assess the program's achievement or accomplishment. Please note that if the level of appropriation differs from the amount included in this application that the measure(s) of effectiveness will need to be updated and transmitted to the expending agency.

The measure that accurately assesses the effectiveness of this grant will be the finished construction project. The respective county's planning departments will approve all buildings. These properly permitted structures will bring many of the camps' existing buildings up to current County Code and safety requirements. All buildings will also be ADA compliant.

### III. Financial
