Re: Boards and Commissions Applications

Dear Honorable Governor and Team,

Thank you for taking the time to review my resume.

Professionally, I have spent a decade in the hospitality industry, devoting and dedicating my life to serving my community and neighbors.

I have been through many ups and downs, and am thankful to have seen what hard work, commitment, but more so working together for a greater cause and mission, can magically do. Nothing comes easy, I have humbly learned. And luckily, I can attest and bear witness to the truth that with vision, belief and purpose, we can definitely accomplish our goals. I have tediously mastered the art of improving every day, having the livelihoods of others at stake quickly teaches you the importance to making today better than yesterday.

Growing up, and watching my entrepreneurial parents take on new projects sparked my love for small businesses. So, I tirelessly worked my way through restaurants and hotels, until I was finally able to own my own business. It has been a beautiful journey for me, where I have learned, "the best way to find yourself to is lose yourself in the service of others."

Personally, I have always spent my free time getting involved with organizations that help inspire and empower our local communities. Gratefully, I have lived in several different cities, and grown close to many different people.

It seems as though serving on a board for my local government, for my governor, and for my neighbors, is a true calling for me. It would be an honor and I hope to be able to make a difference with you.

Thank you for your time and consideration.

All the best,

Min Kim
