Dear Governor Ige:

The reason for my special interest in applying for the opportunity to sit on the Natural Area Reserves System Commission as the hunter representative, is a love for hunting and caring and wanting to help in every and any way possible. I can and have been doing this for years on Moloka'i. I have been on the Commission for a full term (4 years) and am very interested in serving a second term as the hunter representative on the Commission.

I have hunted all my life. As you probably know, residents of Moloka'i hunt for subsistence, and not just for recreation. I bring this important perspective to the table and speak for others with similar concerns. I am also the first person from Moloka'i to sit on the NARS Commission. I very much enjoy working with the other commissioners and have learned a lot from them.

Sincerely,
