February 8, 2011

Dear Sirs,

I am submitting a resume for your review, with hopes of your consideration for the Elevator Mechanics Licensing Board. I feel that serving on this board will help to preserve public safety by ensuring that competent Elevator Mechanics install and service elevators and escalators as well as other related equipment.

I would use my years of experience in the different aspects of the elevator industry. These experiences include the installation of new elevators and escalators in new buildings and Modernization of older elevators in existing occupied buildings. Also, Managing crews of elevator constructors, along with working together with General Contractors, Sub-Contractors, Owners, Building Managements, Consultants and of course Inspectors.

With newfound experiences as a NEIEP Instructor and serving on the Joint Apprenticeship Committee, I will use what I'm learning for the needs of the people and their safety.

Thank you for your attention and consideration. Please feel free to contact me if you wish to discuss further.

Mahalo,

Lawrence T. Morinaga

Lawrence T. Morinaga
