
Matt McDermott Resume

several rural historic preservation projects. These projects had the challenging task of balancing archaeological resource preservation with the development of the archaeological resources for “eco-tourism.” Mr. McDermott’s M.A. thesis combined his extensive experience in Hawaiian archaeology with his interest in geoarchaeology and paleoenvironmental reconstruction in a historical ecology research focus. Mr. McDermott used detailed stratigraphic observations from a transect of test excavations, along with the results of various analyses on collected samples, including AMS ¹⁴C dating, palynomorph identification, micro-charcoal particle quantification, and various sedimentological analyses, including particle size analysis, to investigate the apparent paucity of traditional Hawaiian archaeological deposits along the Kīhei, Maui coastline.

Skills and Qualifications:

As an undergraduate, while in graduate school, and subsequently Mr. McDermott has continued to work in cultural resource management. For CSH, Mr. McDermott prepares scopes of work and cost proposals, and manages diverse cultural resource management projects, including archaeological field inspection, inventory survey, data recovery, monitoring, resource preservation, burial treatment, cultural impact assessment, and oral testimony collection. Mr. McDermott works closely with private landowners and land developers, as well as State Historic Preservation Division personnel, Federal agencies, Hui Malama, Office of Hawaiian Affairs, Kamehameha Schools, and the Hawai‘i and O‘ahu Island Burial Councils.

Mr. McDermott has a deep working understanding of the ramifications and compliance requirements of federal, as well as Arizona and Hawaii state, historic preservation and environmental legislation. Mr. McDermott has years of experience facilitating historic preservation consultation between various private clients, federal agencies, Native American Tribes, Native Hawaiian organizations, and state and municipal agencies. As a project director for EcoPlan Associates, Inc., in Mesa, Arizona (2002-2004), Mr. McDermott reviewed Arizona Department of Transportation historic preservation documents for content and compliance with applicable Arizona state and federal legislation. Mr. McDermott has extensive experience consulting with Native American and Native Hawaiian organizations and individuals regarding the treatment of human remains and the identification and treatment of traditional cultural properties. He has made public presentations, representing both private clients and municipal, state, and federal government agencies, to describe the historic preservation procedures and research results associated with various publicly and privately funded projects. Mr. McDermott has written scores of historic preservation documents. He has experience conducting ethnographic interviews and historical research, as well as documenting and evaluating the significance of historic buildings and structures. He has experience in archival research, lithic and ceramic analysis, artifact conservation, Global Positioning System (GPS) mapping, Geographic Information System (GIS) data manipulation, site preservation and stabilization, geoarchaeology, sediment coring and analysis, and paleoenvironmental reconstruction.

Select Recent and Related Project Experience:

Honolulu Authority for Rapid Transit’s (HART) Honolulu Rapid Transit Project (H RTP). O‘ahu

Company/Agency: PB Americas, CH2MHill, HART

Project Dates: 2006 – On-going

Duties: Working as sub consultants to first PB Americas, later CH2MHill, and also directly for HART, CSH has been the only archaeological consulting firm for this 5.3 billion dollar rail transit project through 20 miles of O‘ahu’s archaeologically sensitive South Shore. Mr. McDermott has been CSH’s project manager and principal investigator for the H RTP since its inception if 2006. He directed the production of the project’s archaeological technical reports to support the Federal

Matt McDermott Resume

Transportation Administration's Alternatives Analysis and the H RTP's Environmental Impact Statement. He supported the H RTP's National Historic Preservation Act Section 106 consultation that resulted in the project's Programmatic Agreement. Mr. McDermott oversaw the archaeological inventory survey of all four of the H RTP construction sections. Through consultation with HART, the State Historic Preservation Division, Native Hawaiian organizations and individuals, the Office of Hawaiian Affairs, and the O'ahu Island Burial Council, he developed the appropriate archaeological mitigation measures for the H RTP, including archaeological monitoring programs, archaeological data recovery programs, and burial treatment programs. He worked closely with HART and Native Hawaiian organizations and individuals to develop a Native Hawaiian cultural monitoring program for the H RTP. Working with HART he developed and implemented the H RTP's cultural sensitivity training and historic preservation orientation program that is a requirement of the H RTP Programmatic Agreement.

Ward Neighborhood Master Plan Development, Kaka'ako, O'ahu

Company: Victoria Ward, Limited / Howard Hughes Corporation

Project Dates: 2010 – On-going

Duties: The Ward Neighborhood Master Plan entails the development of 60 plus acres of urban Honolulu, with street and utility improvements, multiple high-rise residences, and commercial and park/recreation spaces. As the development's archaeological Principal Investigator, Mr. McDermott has worked closely with the project proponents, the State Historic Preservation Division, the Native Hawaiian Community, and the O'ahu Island Burial Council to provide appropriate historic preservation services. This includes literature reviews and archaeological sensitivity predictive models, archaeological inventory survey plans and surveys, and archaeological mitigation programs, including preservation, burial treatment, data recovery, and monitoring. To date, Mr. McDermott has either authored or served as the principal investigator for approximately 20 different reports and plans related to this development project.

Kālia-Ft. DeRussy Wasterwater System Improvements (KDWSI), Waikiki, O'ahu.

Company: Group 70 International / Hilton Worldwide

Project Dates: 2011 – On-going

Duties: The KDWSI project involves installation of a new sewer line through the archaeological sensitive area of Kālia, Waikīkī. Land jurisdiction includes federal U.S. Army lands (Ft. DeRussy) and lands belonging to the City and County of Honolulu. Working with the U.S. Army Garrison Hawai'i, the project proponents, Native Hawaiian organizations and individuals, the O'ahu Island Burial Council, and the State Historic Preservation Division, Mr. McDermott served as the archaeological project manager and principal investigator for this project. This involved preparing archaeological investigations to support the project's state and federal historic preservation review. These studies and associated consultation among stakeholders also supported the project's compliance with the Native American Graves Protection and Repatriation Act (NAGPRA), with the development of a NAGPRA Plan of Action. Mr.

Matt McDermott Resume

McDermott oversaw the preparation of the project's archaeological mitigation measures, including an archaeological monitoring program, and helped facilitate the development of the project's Native Hawaiian cultural monitoring program.

Ala Moana Center Expansion / Park Lane Development, Honolulu, O'ahu

Company: General Growth Properties
Project Dates: May 2012 – On-going
Duties: Mr. McDermott is responsible for the archaeological historic reservation services related to these large-scale improvements to this largest open-air shopping mall in the U.S. Services include a literature review and predictive model, archaeological inventory surveys, and archaeological monitoring programs.

Update of Integrated Cultural Resource Management Plans (ICRMPs) for Multiple U.S. Army Installations in the Republic of South Korea

Company: Element Environmental, LLC
Project Dates: June – July 2011
Duties: Along with personnel from Elemental Environmental, LLC and Beautiful Environmental Construction Co., Ltd., Mr. McDermott toured U. S. Army Garrison Daegu and Humphreys installations in the Republic of South Korea. Extant cultural resources, including indigenous cemeteries, archaeological sites, and World War II and Cold War military sites were inspected. Preservation measures were reviewed at these sites and the ICRMPs were updated for the U. S. Army Corps of Engineers, pursuant to Department of Defense requirements.

State of Hawai'i Department of Education Non-compliant Cess Pools Project

Company: CH2MHill
Project Dates: March 2006 – 2009
Duties: Mr. McDermott consulted with State Historic Preservation Division personnel to determine the appropriate historic preservation scope of work for the wastewater system improvements for 49 schools through out the State of Hawai'i. As part of this project, archaeological literature review and field inspection documents are prepared for different groups of schools. These documents assess the potential that the wastewater improvements will affect archaeological resources. Based on these assessments, various additional studies, including monitoring plans and reports, and archaeological inventory survey investigations, are carried out.

Hau'ula Community Park Wastewater System Reconstruction Project, Hau'ula, O'ahu

Company: Kennedy/Jenks Consultants / City and County of Honolulu
Project Dates: 2006 – On-going
Duties: Mr. McDermott was responsible for Historic Preservation Services including an archaeological inventory survey and mitigation measures, including a burial treatment program and an archaeological monitoring program.

Matt McDermott Resume

State of Hawai'i Department of Transportation Lihue, Kaua'i Airport Expansion

Company: Wilson Okamoto Corporation
Project Dates: January 2006 – 2008
Duties: Mr. McDermott directed the fieldwork and is supervising the report production for an archaeological inventory survey of the airport expansion area. This document will support the project's Hawai'i State and Federal Environmental Impact Statement.

Cultural Resource Inventory and Management Plan for Kamehameha Schools, He'eia, O'ahu Parcels

Company: Kamehameha Schools
Project Dates: January 2005 – December 2005
Duties: Mr. McDermott directed the inventory and cultural resource recording, and wrote the comprehensive cultural resource management plan, for the approximately 60-acre project area along He'eia Stream.

Archaeological and Cultural Resource Services Related to the Ordnance Clearance of Kaho'olawe Island

Company: Parsons UXB Joint Venture operating for the U.S. Navy
Project Dates: 1998 – 2001
Duties: As a Project Director for CSH, Mr. McDermott assisted with the development and implementation of procedures and data recording and report writing for this multi-year, multi-task project.

On-Call Historic Preservation Consultant

Company: Arizona Department of Transportation (ADOT)
Project Dates: March 2002 – December 2004
Duties: As a Project Director for EcoPlan Associates, Inc., Mr. McDermott implemented numerous task orders to prepare cultural resource assessments, Section 106 consultation, cultural resource inventory surveys, testing, and data recovery for projects located throughout the state of Arizona. This required a familiarity with diverse archaeological and living cultural traditions, including Paleoindian, Archaic, Ancestral Pueblo, Mogollon, Salado, Hohokam, Hopi, Navajo, and Tohono O'odham, among many others. It also required the documentation and National Register eligibility evaluation of historic Euroamerican properties, including early transportation routes and historic roads, mining sites, and World War II properties. For ADOT, Mr. McDermott reviewed for sufficiency cultural resource survey reports prepared by other ADOT consultants. He ghost wrote letters for ADOT's project-related historic preservation consultation with various Native American tribes, federal agencies, and state and municipal consulting parties.

On-Call Historic Preservation Consultant

Company: City of Phoenix (COP)
Project Dates: March 2002 – December 2004
Duties: As a Project Director for EcoPlan Associates, Inc., Mr. McDermott implemented numerous task orders to perform cultural resource monitoring, inventory survey,

Matt McDermott Resume

testing, and National Register eligibility assessments throughout Phoenix. This position required a working familiarity with prehistoric Hohokam features, particularly irrigation canals and residences, and material culture, particularly the Hohokam ceramic tradition for the Salt River Valley. Mr. McDermott provided the COP with guidance related to the implementation of COP improvement projects within Phoenix's National Register listed Historic Residential Districts.
