## **TESTIMONY IN SUPPORT OF SB 273 SD1 RELATING TO IDENTIFICATION CARDS**

Hawaii Youth Services Network (HYSN), a statewide coalition of youth-serving organizations, supports SB 273 SD1 Relating to Identification Cards.

Lack of legal identification is a serious barrier to obtaining employment or services for persons who are homeless. Driver licenses are required for many jobs. Without identification, a person may be unable to enroll in school, obtain public assistance, rent an apartment, or obtain mental or physical health treatment.

When the individual cannot provide proof of address, date and place of birth, occupation, or social security number it is very difficult to obtain a driver license.

Allowing qualified professionals to provide documentation via a sworn statement is a reasonable and appropriate way to remedy the situation. This bill facilitates efforts to help homeless persons leave the streets for safe and appropriate living situations and to become more self-sufficient.

Thank you for this opportunity to testify.

Sincerely,

Judith F. Clark, MPH

IDENTIFICATION CARDS**

**Senate Committee on Judiciary and Labor

Hon. Maile S.L. Shimabukuro, Vice Chair**

**Wednesday, March 4, 2015, 9:15 AM

Honorable Chair Keith-Agaran and committee members:

I am Kris Coffield, representing the IMUAlliance, a nonpartisan political advocacy organization that currently boasts over 300 local members. On behalf of our members, we offer this testimony in support of SB 273, SD 1, relating to identification cards.

Over the past three years, Honolulu Mayor Kirk Caldwell and the Honolulu City Council have enacted several ordinances aimed at “compassionately disrupting” homelessness on O’ahu. The most prominent of these ordinances are recently enacted sit-lie bans, which were originally implemented in high commerce areas like Waikiki, but have been expanded to commercial properties located in all regions of O’ahu, including windward and leeward towns and, most recently, malls bordered by businesses. Additionally “obstruction” ordinances target property stored on sidewalks and houseless persons remaining in parks after operating hours. These city ordinances amount to an unconstitutional criminalization of the homeless. Councilmembers have stated that the new laws do not specifically target the homeless, but rather anyone engaging in obstructive activity.

Many judges and legal experts around the country have repeatedly argued that these laws are selectively enforced against the homeless in the form of unannounced property raids, which constitute an unconstitutional violation of the Fourth Amendment's search and seizure protections. For clarity, the Fourteenth Amendment provides that:

“The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.”

Again for clarity, the terms “search” and “seizure” were concisely summarized in the majority opinion to *United States v. Jacobsen*, 466 U.S. 109 (1984), which declared that Fourth

Amendment, “protects two types of expectations, one involving 'searches', the other 'seizures'. A *search* occurs when an expectation of privacy that society is prepared to consider reasonable is infringed. A *seizure* of property occurs where there is some meaningful interference with an individual's possessory interests in that property.” According to these understandings, When law enforcement, without notice, raid a homeless encampment and usurp—and often destroy—homeless people's belongings, including basic government documents and identification, the city is infringing homeless people's civil rights.

During property raids, homeless people's government-issued documents are often confiscated, documents that are necessary for employment applications, housing applications (including entrance into Housing First programs), travel, and identity verification. In December of 2014, homeless provider agencies reported that of 540 homeless people were listed as potentially eligible for the state or city's Housing First programs, only 62 had a picture ID that proving their identity and granting admittance into the program. Thus, 478 homeless families and individuals can't clear the first hurdle to getting into housing. Additionally, it was reported last July in *Civil Beat* that our state's jails are destroying homeless people's ID cards, purportedly because of “liability concerns.” It can take months to replace ID cards and cost up to \$100 or more to replace government documents, including those necessary to re-obtain an ID. The Department of Public Safety's own mental health administrator, Mark Mitchell, said that homeless people's ID cards are being discarded regularly, telling *Civil Beat* that homeless people's identification cards are being tossed unless he calls and specifically requests a waiver for a mentally ill inmate, further claiming that about one-third of all the inmates he sees for mental health issues are homeless. Once released, these mental health patients are unable to get medical assistance because those services often require an ID.

In effect, we're forcing houseless people into a pernicious cycle. To replace a state ID, a homeless individual has to get a social security card. To get a social security card, however, they have to have a identification and state documents that require identification for obtainment. Birth certificates, for example, often must be notarized. Notarization requires ID. In Hawaii, we already allow attorneys to obtain birth certificates for clients. Physician-signed medical records, too, can sometimes be used to document a person's ID. Thus, the approach taken by this bill of allowing legal, medical, and advocacy professionals to help the houseless regain basic documents is merely an innovative expansion of existing practices and values.

At a Senate Human Services and Housing Committee Hearing on this measure, the State Department of Transportation argued that the bill complicates federal REAL ID compliance, essentially maintaining that 9/11 trumps our need to help Hawai'i's homeless population. In response, we note that as of 2014, 22 states have passed laws and resolutions banning and/or restricting REAL ID implementation. Additionally, 40 states have introduced and/or passed bills and resolutions opposing the REAL ID program. Finally, states have only become compliant with REAL ID, according to the Department of Homeland Security, once the program—originally intended to create a national ID—was pared back through the introduction of a “material

compliance checklist” in 2008. Since then, REAL ID deadlines have been repeatedly pushed back, requirements watered down, and pushback steadily grown, leaving the state of the program in a continuing state of flux, if not wholly in doubt.

It is our opinion that houseless assistance should not be held hostage to vague security threats. Instead, we encourage you to pressure city officials to stop stealing people's government-issued identification. In light of the continuance of such theft, however, we urge you to pass this bill allowing the examiner of drivers to accept a sworn statement from a victim services organization, attorney, member of the clergy, or medical or health professional as documentary evidence of a homeless person's address, date and place of birth, occupation, or social security number. This will minimize the services and everyday living disruption for homeless people needing to re-obtain confiscated ID cards. If REAL ID is deemed to be a concern, we encourage you to sunset this bill's provisions in 2017, allowing for two years worth of data gathering on the usefulness of revising state identification statutes to help the houseless and time to see what further changes are made to federal REAL ID requirements.

Mahalo for the opportunity to testify in support of this bill.

Sincerely,  
Kris Coffield

**RE: TESTIMONY IN STRONG SUPPORT OF SB273 SD1  
RELATING TO IDENTIFICATION CARDS**

Dear Committee on Judiciary and Labor:

The Pacific Alliance to Stop Slavery (PASS) strongly supports **SB273 SD1**. PASS has been helping the houseless population in Kakaako for the past year. We attest that the existing laws that are utilized to “sweep” the sidewalks and parks of homeless persons are extremely harmful to this vulnerable community.

These laws criminalizing the poverty make it exponentially difficult for social services to maintain contact with the houseless to direct them toward permanent housing. These City-run sweeps or “raids” on homeless encampments result in the unconstitutional confiscation and disposal of identification documents such as social security cards, birth certificates, state identification cards, driver’s licenses, and marriage licenses, all of which are documents needed to obtain and maintain benefits, housing, housing first, employment, and medication for serious medical conditions.

Once these documents are disposed of in City raids, it is nearly impossible for the houseless to receive a re-issuance of their identification cards. This measure would help hundreds of houseless obtain their much-needed identification to be able to obtain the benefits and help that they deserve to exit out of poverty.

The Department of Transportation stated in the last hearing that passing SB273 SD1 will threaten Hawaii’s compliance with the Federal REAL ID Act of 2005. I would like to remind the committee that 19 states have passed laws or resolutions opting out of the REAL ID Act due to questions about it constitutionality and high costs of implementation, including the State of Hawaii<sup>1</sup>.

**SCR 31 SD1 of 2007** clearly cites the many reasons that the Hawaii State Legislature passed this resolution opposing the implementation of, and supporting the repeal of, the Federal REAL ID Act of 2005, [http://www.capitol.hawaii.gov/session2007/Bills/SCR31\\_SD1\\_.pdf](http://www.capitol.hawaii.gov/session2007/Bills/SCR31_SD1_.pdf)

“...the Legislature of the State of Hawaii opposes the institution of a national identification card and the implementation of the Real ID Act of 2005, particularly those provisions that:

- (1) Violate the rights and liberties guaranteed under the Hawaii State Constitution or the United States Constitution, including the bill of rights; and
- (2) Create unfunded mandates for the State without any plan for financial subsidization for implementation...”

Without successfully changing our state law alleviating the difficulty in obtaining state identification, our houseless problems will not be solved.

RE: SB273 IDENTIFICATION CARDS

IN Strong Support

Aloha Judiciary and Labor Chair, Vice Chair and Committee Members

As President of Rainbow Family 808, a group of Straight, LGBT families focused on peace and justice through education, we strongly SUPPORT SB 273 on behalf of all our families.

As a Master Level Social Worker since 1999 and a resident since 1981, it has been unbelievable to watch a state that put family first, turn into a state that treats one population with such disdain and disrespect to the point of criminalization and persecution. Where has the Aloha Spirit gone?

Everyone needs legal personalized Identification cards to survive in today's world. The current No Sit-No Lie Ban in our state is a disgrace to the host culture, and humanity in general. This is one law that gives the Houseless a small start on returning them some of their humanity.

Thank you for this opportunity and responsibility to testify on this important Bill. Please pass SB273 as quickly as possible. Our Houseless are not a people without a county but rather a people without a roof over their heads.

Aloha !

We stand on our testimony in FULL SUPPORT of SB273.

In Brief :

Myself as the Executive Directory of a non profit organization, that has helped **thousands** of people in Hawaii, was told that i am "Not Qualified" to get a state ID because all of my mail goes to a PO Box. The State refuses to provide me a state ID.

If it is this difficult for someone with resources to get a state ID, then how much more difficult is it for someone who lacks those same resources ?

Comments: I support SB273 and urge its passage. In my experience assisting an unsheltered houseless individual in the Chinatown/Downtown area, I found out that an ID was key to achieving his immediate goal: to get into a sheltered place so he could sleep and have some measure of security in order to get his life back together. The shelter required a TB test, and the health clinic also needed an ID. But my friend did not have an ID; it had been taken along with most of his other possessions not to be seen again. SB273 provides a reasonable route for people like my friend to once again get an ID and thereby access to services needed to turn around their life situations. Please pass this bill. Thank you for your consideration and the opportunity to comment.

Comments: SB273 (S JDL Hearing 3/4/2015) Aloha Mai, Esteemed Chair Keith-Agaran, Vice-Chair Shimabukuro, and members of the Senate Committee on Judiciary and Labor: As a life-long resident of Hawai'i, I am writing to express my **STRONG SUPPORT** of SB 273 SD1 "Relating to Identification Cards", which "Allows the examiner of drivers to accept a sworn statement from a victim services organization, attorney, member of the clergy, correctional institution staff, or medical or health professional as documentary evidence of a homeless person's address, date and place of birth, occupation, or social security number." Having worked in social services as early as 1989 through the the early 2000's, I have witnessed the profound effects of houselessness and lack of domicile on individuals, families, and most tragically, youth. One of the most ironic of "Catch-22"s in being or serving the undomiciled is the fact that once one becomes undomiciled, one can no longer obtain employment, financial assistance, enroll in health insurance and education, or even access basic government assistance, all essential to breaking the cycle of undomiciled status, because the most basic requirement for all of these is a valid form of identification. Worse, our current identification documents require not only evidentiary documentation of domicile, but also of birth date and location (i.e., birth certificate). However, 1) being undomiciled renders the first impossible to fulfill, and 2) if one no longer has a valid identification, either through seizure, loss, damage, or loss of domicile, one cannot obtain a birth certificate. This leads to an irreconcilable inability to provide basic identification necessary for access to all other fundamental, essential services, and therefore, creates an institutionalized barrier to undomiciled individuals and families obtaining safe, affordable housing and the ancillary services necessary to support them. SB 273 SD1 offers a reasonable way of providing undomiciled persons access to that most essential of documents, a basic identification card. I respectfully request that the members of the Committee vote in support of SB 273 SD1. Me ke aloha pumehana, Ms. Kahana H.

Comments: I strongly support SB273 which will allow houseless persons to be able to obtain their IDs after they've been unconstitutionally confiscated and disposed of by the City. This is a very important and crucial bill. Currently, the requirements to replace identification cards are beyond the means of most houseless individuals. However, without IDs, these individuals can not apply for work or services. I've spoken to several houseless individuals who have suffered through these raids and have had their identification taken away and disposed of despite their requests to the authorities not to do so. Until the City stops these activities, we need the State to step in and protect the houseless, and therefore are in critical need of bills such as SB273 for Identification Cards, as well as SB1014, the Houseless Bill of Rights. Mahalo for this opportunity to testify, Sherry Pollack Ahuimanu

I support SB273 which will allow houseless persons the ability to obtain their IDs after they've been unconstitutionally confiscated and disposed of by the City during so-called "enforcements" on poverty. Without proper identification (such as Social Security card, Hawaii State ID, birth certificate, health insurance card, etc.) houseless people are prevented from gaining employment, health care, and other necessary services.

Please cease criminalizing poor and helpless families living in tents because the City fails to provide affordable housing. Thank you.

Respectfully submitted,

Sylvia Pope-Young
