

# GM845

Measure Title: Submitting for consideration and confirmation as the Chief Information Officer of the Department of Accounting and General Services, Gubernatorial Nominee, TODD NACAPUY, for a term to expire 12-3-2018.

Report Title: Chief Information Officer of the Department of Accounting and General Services

EXECUTIVE CHAMBERS  
HONOLULU, HAWAII

David Y. Ige  
Governor

Testimony on GM 845  
Confirmation of Todd Nacapuy  
Chief Information Officer, Office of Information Management

Governor David Y. Ige

SENATE COMMITTEE ON ECONOMIC DEVELOPMENT AND TECHNOLOGY

April 15, 2015  
2:45 p.m., Room 016

Chair Wakai, Vice Chair Slom and committee members:

I respectfully request your support in confirming the appointment of Todd Nacapuy as the Chief Information Officer of the Department of Accounting and General Services. He is currently the senior technical account manager at Microsoft responsible for all Premier Commercial services in Hawai'i. Mr. Nacapuy has both breadth and depth of experience in application development, infrastructure acquisition, project management, system re-engineering/improvement, enterprise-wide implementation IT strategy and systems planning. He earned a BA in Finance and Accounting from Seattle University and he studied at the Cisco Network Academy (Bellevue Community College) and the Microsoft Career Management Academy (Microsoft Services University).

This administration is committed to reshaping the culture of government by embracing and accelerating change. I'm confident that Todd Nacapuy will support our department employees in this effort. Together, we can build a better home for our keiki, kupuna, and all the residents of Hawai'i.

Mahalo for your consideration.

Governor's Message 845

Submitting for consideration and confirmation as the Chief Information Officer of the Department of Accounting and General Services, Gubernatorial Nominee, TODD NACAPUY, for a term to expire 12-3-2018.

Wednesday, April 15, 2015  
2:45 p.m. Rm 016, State Capitol

Testimony of Leonard Hoshijo, Deputy Director  
Department of Labor and Industrial Relations (DLIR)

Chair Wakai, Vice Chair Slom and Members of the Committee—

I am testifying in **strong support** of Mr. Todd Nacapuy's confirmation as the State's Chief Information Officer (CIO). Mr. Nacapuy has the breadth of experience in several large technology companies required to enable him to help lead the State's Information Technology transition

The DLIR has endeavored to improve businesses processes to both more efficiently serve and provide access to the public. Several significant projects are under way and the Legislature appears to be poised to provide funding to begin moving the Workers' Compensation program from a paper intensive system to a paperless system similar to the judiciary. The success of this and other projects in the department will require the support of the State CIO. Mr. Nacapuy has the experience and qualifications to fully support the DLIR and the other departments of the executive branch at this critical juncture.

I urge you to confirm Mr. Nacapuy as the State's Chief Information Officer and enable him to serve as a valuable asset to state government, and in turn, to the people of Hawaii.

DAVID Y. IGE  
GOVERNOR

STATE OF HAWAII  
DEPARTMENT OF TRANSPORTATION  
869 PUNCHBOWL STREET  
HONOLULU, HAWAII 96813-5097

April 15, 2015  
2:45 p.m.  
State Capitol, Room 016

**G.M. 845**

**Submitting for consideration and confirmation as the Chief Information Officer of the Department of Accounting and General Services, Gubernatorial Nominee, TODD NACAPUY, for a term to expire 12-3-2018.**

Senate Committee on Economic Development and Technology

The Department of Transportation (DOT) strongly supports the confirmation of Todd Nacapuy as Chief Information Officer (CIO).

Mr. Nacapuy received his Bachelor of Arts in Finance and Accounting from Seattle University and continued his studies at the Cisco Network Academy and the Microsoft Career Management Academy.

Mr. Nacapuy has been the Senior Infrastructure Specialist for Electronic Documentation System responsible for monitoring and optimizing all Web services within the Navy and Marine Corps network for the Pacific. He is currently the Senior Technical Account Manager for Premier Commercial Services for Microsoft in Hawaii.

We believe Mr. Nacapuy will be a constructive influence in coordinating multidepartment efforts to implement application development, infrastructure acquisition, project management, re-engineering/improvement, vendor selection management, enterprise-wide implementation, and IT strategy and systems planning for the State of Hawaii. If confirmed, Mr. Nacapuy will bring all of his credentials to bear to ensure that the State's IT initiatives are balanced with regard to the most serious risks we face as a state, and that critical gaps are addressed methodically but aggressively, as Hawaii residents appropriately expect. Mr. Nacapuy will have no shortage of issues and problems to tackle, but we are confident that he will provide a strong and effective leadership as CIO.

Thank you for the opportunity to provide testimony.

Memorandum

To: The Honorable Glenn Wakai, Chair  
The Honorable Sam Slom, Vice Chair  
Senate Committee on Economic Development and Technology

From: Rachael Wong, DrPH, Director

Subject: **GM845:** Submitting for consideration and confirmation as the Chief Information Officer of the Department of Accounting and General Services, Gubernatorial Nominee, TODD NACAPUY, for a term to expire 12-3-2018.

Hearing: 2:45 PM, Wednesday, April 15, 2015  
Conference Room 016, State Capitol

I am writing **in support** of the confirmation of Mr. Todd Nacapuy as the State's Chief Information Officer (CIO). I know Todd to be an innovator who is ethical, collaborative, and positive.

The Department of Human Services (DHS) provides empowering programs, services, and benefits to those in our community who are vulnerable, with the goals of expanding their capacity for self-sufficiency, self-determination, independence, healthy choices, quality of life, and personal dignity.

The DHS's federal oversight agencies--the Centers for Medicare & Medicaid Services (CMS), Food & Nutrition Services (FNS), and the Administration for Children & Families (ACF)--are jointly leading a national initiative for state human services agencies to improve services through technology and by building integrated eligibility systems. The objective of such integrated platforms is to streamline the eligibility and enrollment process for those who most need the assistance DHS provides. The ultimate goal is to more efficiently provide programs and services for Hawaii residents.

The CIO's efforts are necessarily integrated with our work at DHS, and we are invested in the State's IT success. I hope to work with Todd as the State CIO and for DHS to be a part of the solution.

Thank you for your serious consideration of Todd Nacapuy's confirmation as the State CIO. Please do not hesitate to contact me for more information.

GOVERNOR'S MESSAGE 845

SUBMITTING FOR CONSIDERATION AND CONFIRMATION AS THE  
CHIEFINFORMATION OFFICER OF THE DEPARTMENT OF ACCOUNTING AND  
GENERAL SERVICES, GUBERNATORIAL NOMINEE, TODD NACAPUY

Chair Wakai and members of the Committee, thank you for the opportunity to submit written testimony on GM 845. The Department of Accounting and General Services supports Mr. Todd Nacapuy's confirmation as Chief Information Officer (CIO).

I believe that Mr. Nacapuy has both the breadth and depth of experience in application development, infrastructure acquisition, project management, reengineering/improvement, vendor selection and management, enterprise-wide implementation IT strategy and systems planning, and corporate strategy to effectively serve as the CIO. Without reservation, I truly believe Mr. Nacapuy possesses the requisite professional and people skills necessary to serve the Office of Information Management and Technology and the people of Hawaii with honor and distinction.

Thank you for the opportunity to submit written testimony on this matter.

April 14, 2015

Senator Glenn Wakai, Chair  
and Committee Members on Economic Development and Technology

Subject: GM845 - Confirmation of Gubernatorial Nominee Todd Nacapuy as Chief Information Officer, State of Hawaii

Date, Time: Wednesday, April 15, 2015, 2:45 p.m.

Place: State Capitol, Conference Room 016

I am Burt Lum, Executive Director of Hawaii Open Data, a non-profit dedicated to advancing open data principles in Hawaii and creating collaborative environments that foster civic innovation. Formed in 2012, we focus on improving data accessibility and integrity in support of public/private collaboration, government transparency and civic engagement. I am also part of the Leadership Group for the Transform Hawaii Government Coalition. The Coalition advocates and supports the Statewide IT Transformation Plan. I submit this testimony as an individual.

**I strongly support Todd Nacapuy's** nomination to the position of Chief Information Officer, State of Hawaii.

I had the opportunity to work with Todd while he was the HMSA account manager for Microsoft and found him not only knowledgeable about Microsoft products and services but also understood the challenges of working in a large multi-vendor, multi-departmental environment. At HMSA there were multiple IBM systems, local and wide-area networks, OS and application suites, desktop and servers resources, disaster management, virtualization and cyber security. Todd supported all of these areas as the Microsoft representative and helped HMSA integrate these disparate systems.

I believe he will continue this skill and expertise into his new role as Chief Information Officer.

Thank you for the opportunity to submit testimony on this nomination.

Burt Lum

April 13, 2015

Aloha,

I am writing this testimonial in support of the nomination Todd Nacapuy for the CIO position.

I believe the Governor has selected the ideal person for the position. Todd encompasses a wide variety of skills pertinent to the position.

Being that he was self made and not raised with the so called "golden spoon" and raised in the North Shore of Oahu will help relate to the local people.

His experience working in the premier companies in their field at Boeing and Microsoft can help him implement systems to our state on incorporate a unified functional system that can help improve the IT services in Hawaii. His experience at Boeing and Microsoft would help soften any intimidation for someone taking the CIO position because I would imagine the number of employees at those companies would be similar to the number Todd would be responsible for.

Todd's relentless spirit, thick skin, and people skills will help him surgically repair our IT infrastructure to our islands and make the state IT departments the premier workplace and build jobs that can support the countless college graduates.

We are in desperate need for as many people in public office that truly care about serving the people of Hawaii, without a hidden agenda. I believe Todd will exceed any expectations of him to improve any IT services for the islands.

If you have any questions or concerns, please feel free to contact me on my cell at (808) 351-0876.

Mahalo,

A handwritten signature in black ink, appearing to read "Jordan T. Kam".

April 12, 2015

The Honorable Donna Mercado Kim, Senate President,  
and Members of the Senate  
Twenty-Eighth State Legislature  
State Capitol, Room 409  
Honolulu, HI 96814

Dear Senate President Kim and Members of the Senate:

I have the honor to submit the following testimony for Todd Nacapuy's nomination for the position of Chief Information Officer, Department of Accounting and General Services.

It is evident that Todd is a highly qualified technical professional with his background at EDS, and most recently, Microsoft, which only hires the top global talent. He also possesses extensive business knowledge from working with large clients on multi-million dollar projects. This combination of technical and business experience is what makes him a valuable asset for any team.

As he is used to working with large corporate clients, one may assume that he would overlook the smaller, locally-owned businesses, but for as long as I have known Todd, he has always been very generous with his time to help others with technical or business issues. Whether it is the large corporations or family-owned businesses, he always makes time to share his years of expertise to assist others.

It is this sense of giving that has driven his success, and what makes him an ideal candidate for this position.

Best Regards,

Derek Ichiyama

Project Manager/Web Developer  
Upspring Media

April 13, 2015

Aloha Senator Kim and Members of the Senate:

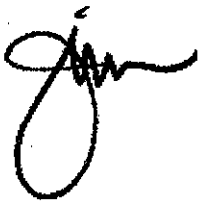

I am writing to support the appointment of Todd Nacapuy as Chief Information Officer of the Department of Accounting and General Services. I have been a part of Hawaii's IT sector for 25 years, working for Apple, Sun Microsystems, and currently as the Enterprise Account Executive for Microsoft. I testify today in a personal capacity.

Todd is a highly skilled IT professional who would have an immediate, positive impact on the strategy and implementation of the state's information systems. I have worked with Todd for the past 10 years at Microsoft and know him to be not just an exceptionally competent technologist, but also a manager capable of leading disparate constituencies and focusing them on a common goal.

As the largest software company in the world, Microsoft is a vast and complex organization and here in Hawaii, many of our large enterprises can sometimes seem equally byzantine. I have worked with Todd in many situations where he navigated the bureaucracies of both Microsoft and our clients and successfully aligned key resources for the successful outcome of large, strategic projects.

I have no doubt that if appointed, Todd Nacapuy would serve the people of Hawaii with distinction and I unreservedly support his appointment as Chief Information Officer of the Department of Accounting and General Services.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim', with a large, stylized loop at the end.

Comments: I am Director in the Microsoft Premier practice responsible for the delivery of Microsoft services in Southern California and Hawaii. In this capacity I have had the privilege of managing Todd Nacapuy over the last 14 months and I would like to offer my wholehearted and enthusiastic support for Todd's candidacy. Todd has been a leader on my team, routinely using business insights and his analysis of industry trends to improve IT and business operational efficiencies and help customers and Microsoft meet their organizational goals. He will be an asset to any organization and his ability to effectively set and champion strategic initiatives is a demonstrated strength.

Comments: April 12, 2015 State of Hawaii Senate Committee Senator Glenn Wakai, Chair Committee on Economic Development and Technology Re: Confirmation of Todd Nacapuy Dear Senator Wakai and Members of the Committee, This is a letter of support of Mr. Todd Nacapuy's nomination to the Chief Information Officer (CIO) position. I have known Todd since we were teenagers and I have watched him grow into a mature, competent, and responsible person. As a teenager, ambition and confidence came to him very naturally. Other attributes include being an innovative thinker, effective communicator, and masterful networker which were valuable skills during his tenure at Microsoft and DS. Even to this day, Todd maintains a priority to his community and strives for excellent service. While in high school he participated in student government and community service clubs. Today he donates his time to teaching fitness and wellness and helps to support individuals running for office. In the past he helped to build his high school's robotics program. Todd's skill set, enthusiasm, and commitment to anything he sets his mind makes him a perfect candidate for this CIO position. He will work diligently, be fiscally responsible, and bring the State of Hawaii to the forefront with technology and information management. Thank you for your time and allowing me to submit my testimony. Best regards, Stacy Tan

State of Hawaii  
Senate committee  
State Capitol  
Honolulu, Hawaii 96813

To Whom it May Concern:

This is a letter in support of Mr. Todd Nacapuy's nomination as the Chief Information Officer for the State of Hawaii. I have known Todd for about 11 years, have seen him interact socially as well as professionally, and think he would be a competent and valuable addition to your team.

Todd has the proper educational and experiential background to effectively lead this important position in our state. With his financial and accounting background in college, his analytical experience with Boeing, his IT background while with Cobweb, EDS, and Microsoft, and his small business and consulting experiences with various business connections, Todd will be able to apply a multi-pronged approach to achieving the State of Hawaii's Information Technology goals. Todd's greatest strength is his ability to see multiple sides of a problem, determine an appropriate action plan, then rally the necessary resources required to implement that plan. In addition, his goal-oriented nature drives him to overcome challenges along the way towards accomplishing his tasks.

Some may view his lack of direct political experience as a weakness, but I view it as a strength. He has been involved with some political campaigns and therefore has some familiarity with the public sector, but his private sector background gives him the mindset of fiscal accountability and efficiency. In addition, Todd has the requisite "people skills" to be able to communicate effectively with multiple constituencies in order to understand different perspectives and determine the proper course of action.

Finally, since I have known Todd, he has proven to be very generous when it comes to supporting things he believes in. Most recently, I know he gives a lot of his time to helping people achieve a healthy lifestyle through fitness and wellness training. It is this love for his Community and this State that makes this public service position enticing to him.

In conclusion, I believe Todd Nacapuy is a solid candidate for the Chief Information Officer position for the State of Hawaii. He will bring his diverse background, goal-oriented nature, and people skills to provide fiscally responsible and effective IT solutions for the People of Hawaii.

Sincerely,

Darin Shigeta, MBA

Testimony on GM 845  
Confirmation of **Todd Nacapuy**  
Chief Information Officer, Department of Accounting and General Services

SENATE COMMITTEE ON ECONOMIC DEVELOPMENT AND TECHNOLOGY  
Senator Glenn Wakai, Chair  
Senator Sam Slom, Vice Chair  
Wednesday, April 15, 2015  
2:45 PM  
Conference Room 016

Dear Chair Wakai, Vice Chair Slom and Members of the Committee,

I am writing in support of Governor David Ige's nomination of Todd Nacapuy for the position of Chief Information Officer for the State of Hawaii. I have known Todd for over twenty-five years, and have interacted with him both socially and professionally. I believe that he has the right business acumen to lead a team of IT professionals and contribute to the renovation and standardization of our State's IT infrastructure.

Todd's educational and professional background provides a solid, multi-faceted foundation for the position as the CIO. His college degrees in Accounting and Finance, as well as his work at Boeing as a cost analyst are instrumental to understanding and managing a multi-million dollar budget. His entrepreneurial experience at CobWeb and at Lanikai Cookie Company provides a business owner's perspective to the government sector. Finally, his work at EDS and Microsoft have provided an understanding of global network infrastructures and an appreciation for cultivating exemplary customer service skills and value-added services. This is extremely necessary when providing IT services to over 65,000 State of Hawaii employees and end-users of the State's websites and applications.

Although Todd does not have much experience in the government sector, he truly cares about the people of Hawaii. He volunteered at his alma mater Waialua High & Intermediate School when its robotics program was in its infancy stage. He also provided business-incubator support for Northshore.com, a former community business site. When he is not delving into the IT realm, Todd helps coach people into shape and living a healthy lifestyle at Egan's Fit Body Bootcamp.

Based on the above, I strongly support Todd Nacapuy's appointment as Chief Information Officer. He will bring a well-rounded perspective and experience to the State of Hawaii.

Sincerely,

*Charise M.A. Shigeta*

Charise M.A. Shigeta

Senator Glenn Wakai, Chair  
Committee on Economic Development and Technology

Re: GM 845

Dear Chair Wakai,

I am writing a letter of strong support for the appointment of Todd Nacapuy as the CIO for the State of Hawaii.

I have known Todd socially for nearly the last decade. During that period, we've talked frequently about challenges in our careers and I've come to value his judgement and opinion.

Aspects of his current position at Microsoft demonstrate his ability to be an effective CIO. Todd is very much a "people person." His charisma imbues him with the ability to motivate disparate groups into organizing towards a specific goal. I have always been impressed by his ability to navigate within large organizations, such as HMSA. It's not enough to have the knowledge of what an appropriate course of action is, managing the team to move together in that direction is often even more difficult. He's also shown that he has appropriate fiscal discipline while meeting multi-million dollar production goals. Also, IT is a modern, wide-ranging and expanding environment. Todd's diverse background includes working for a startup, working closely with our military, and a worldwide IT leader, which gives him an excellent understanding of the current state of informatics.

Todd is very focussed on his passions. Whether it's fly fishing, boot camp instruction, entrepreneurial activities, or IT, he brings a lot of motivation, energy and confidence. The combination of those characteristics with his IT and business experience would allow him to be an excellent CIO.

With warmest regards,

Andrew Tan MD

Testimony of Capsun M. Poe  
PO Box 29489  
Honolulu, HI 96820

To the Senate Committee on Economic Development and Technology  
Wednesday, April 15, 2015, 2:45 p.m.  
Conference Room 016

In Support of

GM 845, Submitting for consideration and confirmation as the Chief Information Officer of the Department of Accounting and General Services, Gubernatorial Nominee, TODD NACAPUY, for a term to expire 12-3-2018.

Aloha Chair Wakai, Vice Chair Slom, and Members:

I write today as an individual to express my support of GM 845 and the opportunity for Mr. Todd Nacapuy to serve as the Chief Information Officer of the Department of Accounting and General Services.

In the years that I have known Mr. Nacapuy, I have consistently found him to be a knowledgeable, capable, driven, and dedicated problem-solver, whether related to a technology matter or in his professional life. These are all qualities that will serve him well as the State's Chief Information Officer.

Additionally, Mr. Nacapuy's willingness to leave the private sector to focus on serving the State's IT needs and improving the State's IT infrastructure is also telling of his commitment to Hawaii's people.

Finally, I believe Mr. Nacapuy's private sector experience at Microsoft and EDS will allow him to navigate complex IT issues, opportunities, threats, and contracting. In turn, this will benefit the State by having a Chief Information Officer capable of procuring and completing large scale projects on time, on budget, all while ensuring taxpayers are getting a good value for tax dollars.

For these reasons, I ask and encourage you to pass GM 845 and confirm Mr. Nacapuy as the Chief Information Officer of the Department of Accounting and General Services.

Mahalo for the opportunity to testify.

April 11, 2015

To Whom It May Concern:

I have known Mr. Nacapuy for a little over three years. I would highly recommend that Mr. Nacapuy be confirmed for the CIO position for the following reasons:

1. His experience in enterprise systems, and architecture.
2. His architectural, and technical, experience in the Microsoft platform.
3. His vision for making a world class organization for IT for the State.
4. His passion, commitment, and dedication to make a difference for the State.
5. His ability to build a team, and inspire the team members to succeed.
6. His experience as a businessman, and understanding of balancing expenditures with profit.
7. His determination to work on problems until they are solved.
8. His understanding of the need to invest in the people, not only in terms of training, but also in terms of creating a positive working environment.

Thank you for taking the time to read this recommendation, and I hope you will confirm Mr. Nacapuy for the position of CIO.

Sincerely,

Michael Otsuji

COMMITTEE ON ECONOMIC DEVELOPMENT AND TECHNOLOGY  
Senator Glenn Wakai, Chair  
Senator Sam Slom, Vice Chair

Dear Committee Chairs,

It is a great honor and privilege for me to write this letter in support for the nomination of Todd Nacapuy as the Chief Information Officer of the Department of Accounting and General Services. I have known Todd as the go to "Microsoft Guy" for many years. He has exemplified a level of commitment of support and service for many of Hawaii's leading technology businesses and other local businesses that can serve as a model for others.

He is a leader by example and a truly respected professional in the technology community. Like Governor David Ige, Todd is a local boy that has big dreams for his home state. Yet he is also grounded and pragmatic in his methods due to his background in Finance and Accounting. He will work towards building a stronger technology economy that is in line with the mission and goals of the Committee of Economic Development and Technology and collaborate with Senate Committee Chairs, Wakai and Slom and its members. He has all the right business leadership and acumen, technology expertise and relationship skills to truly make a difference - a difference that will bring Hawaii to the leading edge of technology where innovation can create "true solutions" that make economic sense.

-Mark

Testimony provided in support of Todd Nacapuy's appointment to the position of CIO of the State of Hawaii (GM845).

I have been acquainted with Todd since 2005. At that time I was serving as Support Services Manager in the IT Department at Hawaii Medical Service Association (HMSA). My first impression of Todd was that he was a brash, noisy "bull in a china shop" who would make outlandish promises, then push himself to deliver on those promises. In the years since first meeting him, I cannot recall an instance in which Todd did not meet or exceed my expectations.

Over the last 10 years, I have noted Todd's maturation. Neither as brash nor as noisy as he once was, he has demonstrated his growth by showing a kinder, gentler side that, in my opinion, stems from the confidence born of a stellar track record. Never one to be lacking confidence, the manifestation of it has softened over the years and while I have not looked him in eye in nearly a year, I believe that the drive is still there.

The drive to achieve combined with the advancement of his interpersonal and leadership skills, leaves Todd on the precipice of greatness in the vanguard of a large organization. He need only step off that edge to begin his next great adventure. I believe that the State would benefit greatly, if it were his employer during this next phase of his career.
