A BILL FOR AN ACT

RELATING TO BIOSECURITY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the unchecked spread

2 of invasive species is one of the greatest threats to Hawaii's

3 economy, natural environment, and the health and lifestyle of

4 Hawaii's people. Invasive pests can cause millions of dollars

5 in crop losses, the extinction of native species, the

6 destruction of native forests, the spread of disease, and the

7 quarantine of exported agricultural crops.

8 Island ecosystems are particularly vulnerable to the

9 destructive power of invasive pests. On Guam, the accidental

10 introduction of the brown tree snake has resulted in widespread

11 devastation. Without natural predators or competition for food,

12 brown tree snake populations have grown exponentially, causing

13 mass extinction of endemic birds. Where there were once bird

songs, the forests of Guam are now silent and home to as many as

15 fifteen thousand snakes per square mile. The introduction of

16 just one new pest like the brown tree snake could change the

17 ecological character of the Hawaiian islands forever.

14

| 1 | Despite the State's ongoing efforts to detect and eradicate |
|----|---|
| 2 | invasive species, Hawaii's fragile island ecosystem is |
| 3 | constantly at risk from insects, disease-bearing organisms, |
| 4 | snakes, weeds, and other invasive pests. The coconut rhinoceros |
| 5 | beetle, little fire ant, coffee berry borer, coqui frog, and |
| 6 | other introduced invasive species, are disrupting the delicate |
| 7 | balance of island ecosystems, crowding out native species, and |
| 8 | reducing the biodiversity of Hawaii. |
| 9 | The department of agriculture has created a biosecurity |
| 10 | program to fight invasive species on several fronts by: |
| 11 | (1) Administering pre-entry measures to minimize the risk |
| 12 | of invasive pests entering the State; |
| 13 | (2) Conducting port-of-entry inspections to detect and |
| 14 | quarantine or destroy pests upon arrival; and |
| 15 | (3) Administering post-entry measures to mitigate the |
| 16 | establishment of pests in the State. |
| 17 | The department of agriculture has also supported the growth |
| 18 | of Hawaii's agriculture industry by attempting to reduce the |
| 19 | State's dependency on imported agricultural products that may |
| 20 | contain pests. The legislature further finds that the |

department of agriculture's biosecurity program is vital to the

21

H.B. NO. 4424 H.D. 1

- 1 public's health and welfare, and the department must fully
- 2 execute its comprehensive strategy to control and prevent
- 3 increasing invasive species threats entering and spreading
- 4 throughout the State. While inspections are critical, building
- 5 local capacity to increase the State's ability to stop the entry
- 6 of high-risk products would enhance our ability to mitigate and
- 7 manage invasive species. This is vitally important not only to
- 8 protect our fragile environment, but to grow our local
- 9 agricultural industries and to increase levels of self-
- 10 sufficiency and sustainability.
- 11 The legislature further finds that the lack of adequate
- 12 resources has seriously undermined the plant quarantine branch's
- 13 functionality and has resulted in the compromise of the
- 14 effectiveness and efficiency of the quarantine and biosecurity
- 15 programs.
- The purpose of this Act is to:
- 17 (1) Reaffirm the legislature's finding that the
- implementation of the department of agriculture's
- 19 biosecurity program is vital to the State;
- 20 (2) Authorize the department of agriculture to establish
- or participate in private-public partnerships to

| 1 | | enhance the biosecurity program and quarantine |
|----|-----------------|--|
| 2 | | inspection process; provided that department employees |
| 3 | | perform the actual inspections; |
| 4 | (3) | Require the department of agriculture to establish |
| 5 | | parameters and construction requirements for |
| 6 | | biosecurity facilities; and |
| 7 | (4) | Appropriate moneys to enable the department of |
| 8 | | agriculture to complete the implementation of the |
| 9 | | biosecurity program to include import replacement and |
| 10 | | pest management programs. |
| 11 | SECT | ION 2. Section 150A-53, Hawaii Revised Statutes, is |
| 12 | amended t | o read as follows: |
| 13 | " [+] | §150A-53[4] General actions to achieve objectives. |
| 14 | <u>(a)</u> To a | chieve the objectives of the biosecurity program, the |
| 15 | departmen | t shall plan for and, within available legislative |
| 16 | appropria | tions[7] or through funding from other sources, |
| 17 | implement | the following: |
| 18 | (1) | Work with government agencies and agricultural |
| 19 | | commodity exporters of other states and countries to |
| 20 | | establish pre-entry inspection programs under which |

| 1 | | inbo | und cargo into the State is inspected at the ports |
|----|-----|------|--|
| 2 | | of d | eparture or other points outside the State; |
| 3 | (2) | Esta | blish, operate, or participate in operating port- |
| 4 | | of-e | ntry facilities where multiple government agencies |
| 5 | | may | inspect, quarantine, fumigate, disinfect, destroy, |
| 6 | | or e | xclude as appropriate, articles that may harbor |
| 7 | | pest | s or exclude articles that are prohibited or |
| 8 | | rest | ricted without a permit, with the goals of: |
| 9 | | (A) | Performing inspections in an efficient, |
| 10 | | | effective, and expeditious manner for the |
| 11 | | | government agencies involved and for cargo |
| 12 | | | owners, carriers, and importers; [and] |
| 13 | | (B) | Providing for the proper and safe storage and |
| 14 | | | handling of cargo, especially agricultural and |
| 15 | | | food commodities, awaiting inspection; and |
| 16 | | (C) | Establishing or participating in private-public |
| 17 | | | partnerships to enhance the biosecurity program |
| 18 | | | and quarantine inspection process with on-port |
| 19 | | | and off-port facilities, including inspection and |
| 20 | | | treatment facilities, transitional facilities, |
| 21 | | | and concolidation and doconcolidation facilities. |

| 1 | | provided that actual access to snipping documents |
|----|-----|--|
| 2 | | is limited to shipping companies and department |
| 3 | | personnel; provided further that actual |
| 4 | | inspections shall be performed only by department |
| 5 | | employees and not private contractors or their |
| 6 | | <pre>employees;</pre> |
| 7 | (3) | Develop, implement, and coordinate post-entry measures |
| 8 | | to eradicate, control, reduce, and suppress pests and, |
| 9 | | as appropriate, eradicate or seize and dispose of |
| 10 | | prohibited or restricted organisms without a permit |
| 11 | | that have entered the State; |
| 12 | (4) | Collaborate with relevant government agencies, |
| 13 | | agricultural commodity importers, and other persons to |
| 14 | | examine and develop joint integrated systems to better |
| 15 | | implement the biosecurity program; |
| 16 | (5) | Improve cargo inspection capabilities and methods, |
| 17 | | including enhancement of the content and submission |
| 18 | | requirements for cargo manifests and agricultural |
| 19 | | commodity ownership and movement certificates; |

| 1 | (6) | Promote the production of agricultural commodities in | | | | |
|----|--|---|--|--|--|--|
| 2 | | the State to reduce cargo shipments of imported | | | | |
| 3 | | commodities into the State; and | | | | |
| 4 | (7) | Provide public education on the negative effects of | | | | |
| 5 | | pests and prohibited or restricted organisms without a | | | | |
| 6 | | permit, to the environment and economy of the State. | | | | |
| 7 | <u>(b)</u> | The department shall establish parameters and | | | | |
| 8 | construct | ion requirements for biosecurity facilities that | | | | |
| 9 | provide for and ensure the safety of agricultural and food | | | | | |
| 10 | commoditi | es consumed by Hawaii residents, including for cold | | | | |
| 11 | storage f | acilities established by private-public partnerships to | | | | |
| 12 | preserve | the quality and ensure the safety of the commodities | | | | |
| 13 | arriving | at the State's airports and harbors." | | | | |
| 14 | SECT | ION 3. There is appropriated out of the general | | | | |
| 15 | revenues | of the State of Hawaii the sum of \$ or so | | | | |
| 16 | much ther | eof as may be necessary for fiscal year 2016-2017 for | | | | |
| 17 | the biose | curity program of the department of agriculture; | | | | |
| 18 | provided | that the sum appropriated shall be used for the | | | | |
| 19 | following | projects: | | | | |

| 1 | (1) | Import replacement of high risk crops and the |
|----|-----------|---|
| 2 | | development of systems management to enhance pest |
| 3 | | management practices; |
| 4 | (2) | Development of quarantine treatment options; |
| 5 | (3) | Development and implementation of diagnostics to |
| 6 | | quickly and reliably identify new and evolving pests |
| 7 | | and diseases; |
| 8 | (4) | Improvement of productivity of inspection capacity; |
| 9 | | and |
| 10 | (5) | Public and agriculture industry education activities. |
| 11 | The | sum appropriated shall be expended by the department of |
| 12 | agricultu | re for the purposes of this Act. |
| 13 | SECT | ION 4. Statutory material to be repealed is bracketed |
| 14 | and stric | ken. New statutory material is underscored. |
| 15 | SECT | TION 5. This Act shall take effect on July 1, 2050. |

Report Title:

Department of Agriculture; Biosecurity Program; Private-Public Partnerships; Appropriation

Description:

Requires DOA to establish or participate in private-public partnerships to enhance the biosecurity program and quarantine inspection process. Requires the department of agriculture to establish parameters and construction requirements for biosecurity facilities. Appropriates funds. Effective 7/1/2050. (SD2)
