

MAR 10 2016

SENATE CONCURRENT RESOLUTION

ENCOURAGING THE DEPARTMENT OF EDUCATION TO REVIEW FINLAND'S
EDUCATION MODEL AND INCORPORATE MAJOR ATTRIBUTES OF THE
MODEL INTO HAWAII'S EDUCATIONAL SYSTEM.

1 WHEREAS, Finland was not succeeding educationally in the
2 1970s; and
3

4 WHEREAS, Finland rebuilt its education system and, since
5 2000, has consistently ranked high in the Programme for
6 International Student Assessment study, which compares national
7 educational systems internationally; and
8

9 WHEREAS, the Finnish National Board of Education states
10 that the main objective of Finnish education policy is to offer
11 all citizens equal opportunities to receive education; and
12

13 WHEREAS, the Finnish system focuses on learning rather than
14 testing; therefore, there are no national tests for students in
15 basic education and, instead, teachers are responsible for
16 assessment in their respective subjects on the basis of the
17 objectives included in the curriculum; and
18

19 WHEREAS, teachers in Finland are highly trained and
20 required to have obtained a Master's degree, which is provided
21 as free higher education; and
22

23 WHEREAS, the only national examination in Finland, the
24 matriculation examination, is held at the end of general upper
25 secondary education and its results are commonly used in
26 determining admission to higher education; and
27

28 WHEREAS, Finland has focused governance based on the
29 principle of decentralization since the early 1990s by allowing
30 education providers to be responsible for practical teaching
31 arrangements, as well as the effectiveness and quality of the
32 education provided, and allowing local authorities to determine

1 how much autonomy is passed on to schools, including budget
2 management, acquisitions, and recruitment; and
3

4 WHEREAS, most education and training in Finland is
5 publically funded, there are no tuition fees at any level of
6 education, and basic education school materials, school meals,
7 and commuting are provided free of charge; and
8

9 WHEREAS, the United States has consistently ranked lower
10 than Finland in the Programme for International Student
11 Assessment study; and
12

13 WHEREAS, the average National Assessment of Educational
14 Progress score of students in Hawaii has been consistently below
15 the national average; and
16

17 WHEREAS, an improved education system in Hawaii will lead
18 to improved careers and opportunities for the children and youth
19 of Hawaii; now, therefore,
20

21 BE IT RESOLVED by the Senate of the Twenty-eighth
22 Legislature of the State of Hawaii, Regular Session of 2016, the
23 House of Representatives concurring, that the Department of
24 Education is encouraged to review Finland's education model and
25 incorporate, to the greatest extent possible, the major
26 attributes of the system into Hawaii's educational system; and
27

28 BE IT FURTHER RESOLVED that certified copies of this
29 Concurrent Resolution be transmitted to the Chairperson of the
30 Board of Education and Superintendent of Education.
