EMPLOYMENT HISTORY

COUNTY OF MAUI, DEPARTMENT OF ENVIRONMENTAL MANAGEMENT
WASTEWATER RECLAMATION DIVISION

MAY 2008 TO PRESENT**WASTEWATER TREATMENT OPERATIONS MANAGER**

Currently oversee the supervision of the operation and maintenance of 5 wastewater treatment facilities under the ownership of the County of Maui. Responsibilities include supervision of facility management staff, development of facility performance reports, personnel evaluations, review and confirmation of compliance reporting data for all 5 plants sent to the State of Hawaii Department of Health, annual budget projections for the division, scheduling of major equipment and infrastructure repairs, rehabilitation and upgrades and provision of training for operational staff to ensure compliance and manpower sustainability.

MAY 2006 TO MAY 2008**WASTEWATER TREATMENT PLANT SUPERVISOR,
LAHAINA WASTEWATER RECLAMATION FACILITY**

As plant supervisor, responsibilities included overseeing the daily operations and maintenance of the 9 MGD Grade IV activated sludge water reclamation facility. Staff supervision included 16 operations, maintenance and instrumentation staff. Duties included compliance with operation permits requirements issued by the State of Hawaii Department of Health and Department of Environmental Protection Agency, supervision of deep well injection sites and water reuse facilities for golf course irrigation, and responsibility for weekly, monthly and yearly reporting.

MAY 2002 TO MAY 2006**ASSISTANT WASTEWATER TREATMENT PLANT OPERATOR**

Assistant Wastewater Treatment Plant Operator as part of a 16 member team to properly and appropriately operate and maintain a Grade IV water reclamation facility. Major duties include observations and record keeping of process laboratory and associated equipment, repair and replacement of infrastructure, equipment and components of these equipment and machinery.

HALE MAHAOLU EHA – WASTEWATER TREATMENT PLANT, MAKAWAO, MAUI, HI

SEPT 2006 TO PRESENT**WWTP OPERATOR – HALE MAHAOLU EHA**

Provide services to ensure a small wastewater treatment facility is in compliance with all operational permits and requirements. Duties include observation of all equipment and its components, repair and replacement of equipment and its components and perform process laboratory record keeping.

U.S. NAVY – SAN DIEGO

AUG 1990 TO SEPT 1994**NUCLEAR PROPULSION PLANT MECHANICAL OPERATOR**

Enlisted into the Surface Ship Nuclear Propulsion Plant Mechanical Operator Training Program. Major duties included the basic attainment of knowledge in the field of Nuclear Engineering and propulsion, mechanical maintenance and repair and the tools required, and more importantly the proper operation of nuclear fission, reactor principles and safety precautions and policies.

Immediately after Naval Basic Training, attended Machinist's "A" School to learn the basic theories and practices of a mechanical repairman including air conditioning, desalination, associated metal work, piping and valves and associated tools and their uses. Upon completion of "A" School, attended the Naval Nuclear Power School. This school consisted of 24 weeks of detailed education in chemistry, metallurgy, reactor principles, mathematics and physics.

After successful completion, attended Naval Nuclear Prototype Training. This additional 24 week training course utilized the previous school education into a hands on approach on an actual nuclear propulsion plant while under the strict observation and instruction of certified operators, supervisors and managers.

Upon certification and commission as a mechanical operator, assigned to a surface combatant ship and became a lead mechanical operator for one of two nuclear propulsion plants, where major responsibility was the proper operation and maintenance of the forward reactor propulsion plant.

VIRGIL A. VIERNES JR.

EDUCATION AND TRAINING

UNIVERSITY OF HAWAII, MANOA

KINESIOLOGY AND LEISURE SCIENCE: Earned sixty five credit hours towards a Bachelors of Science degree with the emphasis of Athletic Training. Along with the required formal academic classroom sessions, performed on-the-job training through the internship program at the Mililani High School, Wai'anae High School and University of Hawaii athletic programs.

MAUI COMMUNITY COLLEGE

ASSOCIATES of ARTS Degree: General education with eighty four (84) credit hours. Completed program to earn two year degree to transfer to the University of Hawaii, Manoa.

UNITED STATES NAVY

NUCLEAR POWER PROPULSION: Earned the Naval Enlisted Code of a Surface Ship Nuclear Propulsion Plant Mechanical Operator. Formal educational program operated by the U.S. Navy to educate and train the four different specialties (Mechanical Operator, Electrical Operator, Electronic Operator and Propulsion Plant Officer) needed to safely operate a nuclear reactor propulsion plant.

ACCOMPLISHMENTS

State of Hawaii Department of Health
Board of Certification of Wastewater Treatment Plant Operators
July 2010 to Present

Departmental Employee of the Year: July 2004 – June 2005
County of Maui
Department of Public Works and Environmental Management

WEFTEC Operations Challenge
Four Time Participant
2003 @ Los Angeles, CA; 2004 @ New Orleans, LA; 2005 @ Washington, D.C.; and 2006 @ Dallas, TX

HWEA Operations Challenge
Five Time Participant
County of Maui, 2003 through 2007

Certified Grade IV Wastewater Treatment Plant Operator, November 2006
State of Hawaii
