

STATE OF HAWAII
DEPARTMENT OF HUMAN SERVICES

P. O. Box 339
Honolulu, Hawaii 96809-0339

February 21, 2016

TO: The Honorable Angus L.K. McKelvey, Chair
House Committee on Consumer Protection and Commerce

FROM: Rachael Wong, DrPH, Director

SUBJECT: **HB 2311 - RELATING TO REPORTING DEATHS TO STATE AGENCIES**
Hearing: Monday, February 22, 2016; 2:30 p.m.
Conference Room 325, State Capitol

DEPARTMENT'S POSITION: The Department of Human Services (DHS) strongly supports this Administration bill that will continue the provision that allows the Department of Health (DOH) to share death information with other state agencies, specifically the dates of death.

PURPOSE: The purpose of this bill authorizes the Department of Health to continue to disclose, including through electronic means, lists of names of persons whose deaths have been recorded by DOH, to state agencies that maintain official lists of persons and are prohibited by federal law from sharing information from the lists.

The date of death is important to the DHS Medicaid program as the date is necessary to stop capitation payments to the contracted managed care health plans on behalf of the deceased. The Department is often not notified of the death of an individual until weeks or months after the fact. When notified, unless the death certificate is provided, the closure of a case is done prospectively. The proposed extension will allow DHS to obtain the actual date of death and recover payments made to the managed care plan back to the respective date.

Based upon the last time a match was conducted, the average capitation rate was \$822 per month. The Department of Health was able to match 399 Medicaid recipients to

death certificates in their system. This bill will allow the DHS to continue our efforts to improve program integrity and save money for the Medicaid program.

Regarding the provision of a sunset date of July 1, 2018, the DOH and DHS are in the process of executing a Business Associate Agreement in compliance with the Health Insurance Portability and Accountability Act (HIPAA). The Department understands that once the agreement amongst State agencies is executed, the requested statutory provision to share death or other vital statistic information will no longer be necessary.

Thank you for the opportunity to testify on this measure.

DEPARTMENT OF BUDGET AND FINANCE
STATE OF HAWAII
TO THE HOUSE COMMITTEE ON CONSUMER PROTECTION AND COMMERCE
ON
HOUSE BILL NO. 2311

February 22, 2016, 2:30 p.m.

RELATING TO REPORTING DEATHS TO STATE AGENCIES

Chair McKelvey, Vice Chair Woodson, and Members of the Committee:

The Hawaii Employer-Union Health Benefits Trust Fund (EUTF) Board of Trustees strongly supports this Administration bill that will continue to allow the EUTF to receive death information from the State Department of Health in order to timely terminate Medicare Part B premium reimbursements paid to deceased retirees and to deceased spouses of retirees. The EUTF reimburses Medicare Part B premiums paid by Medicare retirees and their Medicare spouses. Most retirees and spouses of retirees are reimbursed \$104.90 per month (which is expected to rise in the future) at the end of each quarter. Since the passage of Act 27, Sessions Laws of Hawaii 2014, the EUTF has terminated Medicare Part B premium reimbursements to 238 deceased retirees and deceased spouses of retirees using the death information from the State Department of Health during the period January 1, 2010 through September 30, 2015. The estimated annual savings to the State and counties is \$300,000.

Thank you for the opportunity to testify.

EUTF's Mission: We care for the health and well being of our beneficiaries by striving to provide quality benefit plans that are affordable, reliable, and meet their changing needs. We provide service that is excellent, courteous, compassionate, and informative.
