Commerce, Consumer Protection, and Health

Department: Education

Person Testifying: Kathryn S. Matayoshi, Superintendent of Education

Title of Bill: SB 2612 RELATING TO SCHOOL PSYCHOLOGISTS.

Purpose of Bill: Requires the licensure of school psychologists in both the public and private sectors of employment.

Department's Position:

The Department of Education (Department) supports the intent of SB 2612 to require the licensure of school psychologists in both the public and private sector of employment.

The Department is willing to meet with stakeholders to discuss how to better align with best practices and attract applicants.

Respectfully, we defer to the Department of Commerce and Consumer Affairs as to the implementation of the licensure.

Thank you for this opportunity to provide testimony.

Position: Support HB1937 and SB2612

Chairs Baker, Kidani, Vice Chair Harimoto

The Hawaii Association of School Psychologists (HASP) supports HB1937 and SB2612 with the following proposed amendments. All proposed changes are in red.

- 2 Definitions

"Practice of school psychology" means the application of principles, methods, and procedures of measurement, prediction, evaluation, testing, counseling, consultation, and instruction related to and consistent with the national standards articulated by the National Association of School Psychologists **or its successor**.

"School psychologist" means a professional licensed by the department as a school psychologist who provides school psychological services consistent with the national standards articulated by the National Association of School Psychologists **or its successor**. "School psychologist" includes a school psychologist-doctoral and a school psychologist-specialist.

-8 Application for licensure as a school psychologist

(Page 7, line 11):

~~(1) A master's degree or doctoral degree from an accredited educational institution in school psychology or in an allied field related to the practice of school psychology that includes, or is supplemented by, graduate level coursework in school psychology comprising a minimum of sixty semester hours in the following course areas, with a minimum of three semester hours in each course area as indicated below:~~

(1) A master's-level degree, specialist-level degree, or doctoral degree from an organized program of study in school psychology within an accredited educational institution comprising a minimum of sixty semester hours in the following course areas, with a minimum of three semester hours in each course area as indicated below:

(Page 10, line 18):

OR

(b) An individual who:

(1) Holds current, unencumbered certification as a nationally certified school psychologist or holds a valid license **or credential** in school psychology in another state or United States territory prior to the effective date of this Act; **for those already employed as a school psychologist in Hawaii, an out of state license or credential that has been expired for no more than 10 years from the effective date of this Act will also be accepted.**

or

(2) ~~Has met the above degree and internship requirements and~~ Has passed the School Psychology Praxis examination per the specifications of NASP ~~examination~~ after January 1, 2000, and before July 1, 2014; and

(3) Within one year of the effective date of this Act, applies for licensure and pays the applicable license fee, shall be deemed to have met the requirements of this section.

(c) For an applicant who graduated from an accredited educational institution as specified in subsection (a)(1) before July 1, 2007, the department shall also deem the following to be acceptable:

(1) For practicum ~~and~~ intern experience, written certification from an official of the institution of higher education attesting that the applicant has completed the academic terms, graduate credit hours, and supervised client contact hours in subsection (a)(2) and that the applicant's practicum intern experience is equivalent to a mental health graduate level practicum program in school psychology; and

(2) For post-graduate experience, written certification from ~~an officer and~~ the school psychology supervisor of the agency ~~or an individual from the agency that has the authority to attest to practicum and intern experience~~ at which the applicant has earned experience attesting that the applicant has completed the hours of experience and supervision in subsection (a)(2) and that the applicant's post-graduate experience is equivalent to the practice of school psychology.

~~For school psychology supervisors, the license requirements under subsection (a)(2) and (a)(3) shall not apply.~~

The Hawaii Association of School Psychologist asks that you support HB1937 and SB2612 to ensure that all children in Hawaii are afforded the same protection of a licensed and credentialed professional working in their scope of practice.

Respectfully Submitted:

Hawaii Association of School Psychologists (HASP) believes that licensure is important for all professionals that are entrusted to care for students, especially those with special needs. HR 465 protects the professional integrity of the term “psychology” by ensuring that nonlicensed individuals cannot practice psychology. This public protection ensures that specialized training and expertise is required to practice psychology. Currently, School Psychologists are ‘exempt’ from having to have licensure to practice in the educational setting (HR465) and have had no credentialing in the state of Hawaii. Hawaii is the only state in the nation that allows this. This exemption has allowed individuals who do not have graduate training in school psychology and who do not meet the nationally accepted certification standard to practice “psychology” within the educational setting. We are asking the legislators support HB1937 and SB2612 in that it nullifies that exemption and ensures that students receive services from highly qualified and licensed professionals.

Graduate training in school psychology and a supervised internship aligns with the Practice Model set forth by the National Association of School Psychologists (NASP). The Practice Model outlines the professional expectations of respecting the dignity and rights of all persons and maintaining professional competency and integrity in professional relationships to foster and maintain the public's trust. Our practice model outlines the training of school psychologists that requires them to be forthright about their qualifications, competencies, and roles. We work in full cooperation with other professional disciplines to meet the needs of students and families and avoid multiple relationships that diminish their professional effectiveness. We maintain the public trust by respecting law and encouraging ethical conduct. When untrained and unqualified persons are employed as a ‘school psychologist’ under this current exemption in HR 465, but do not meet the graduate level training requirements, the integrity of the profession is compromised and the public is not protected. The training of school psychologist is unique in that we have extensive training in cognitive, academic, emotional and adaptive assessment practices and training to ensure these measures are fair, reliable and valid. When these assessments are not administered as they were designed, the students are not being fairly assessed, which can result in inaccurate results. The research is clear that students who are identified with special learning needs are at a higher risk for a number of negative outcomes, such as dropping out of school, qualifying for lower-level jobs, or becoming involved in criminal activity. We ask that you help protect our students by only allowing trained individuals, who have met the standards put forth in HB1937 and SB2612 to be entrusted with this work in the educational setting.

Hawaii Association of School Psychologist asks that you support HB1937 and SB2612 to ensure that all children in Hawaii are afforded the same protection of a licensed and credentialed professional working in their scope of practice.

**TESTIMONY ON SENATE BILL NO. 2612, RELATING TO SCHOOL
PSYCHOLOGISTS.**

TO THE HONORABLE MICHELLE N. KIDANI, CHAIR,
TO THE HONORABLE ROSALYN H. BAKER, CHAIR,
AND MEMBERS OF THE COMMITTEES:

My name is May Ferrer, Executive Officer for the Board of Psychology,
Professional and Vocational Licensing Division, Department of Commerce and
Consumer Affairs ("Department"). The Department appreciates the opportunity to
submit testimony on Senate Bill No. 2612, Relating to School Psychologists.

The purpose of Senate Bill No. 2612 is to establish a school psychologist licensing program within the Department to be administered by the Director of Commerce and Consumer Affairs.

Senate Bill No. 2612 creates a new chapter in the Hawaii Revised Statutes (“HRS”) to regulate school psychologists. Section 26H-6, HRS, requires that new regulatory measures being considered for enactment be referred to the State Auditor for a sunrise analysis. Referral is required to be made by concurrent resolution that identifies a specific legislative bill to be analyzed. The statute further requires that the analysis shall set forth the probable effects of regulation, assess whether its enactment is consistent with the legislative policies of the Hawaii Regulatory Licensing Reform Act, and assess alternative forms of regulation.

Therefore, this bill should be deferred until a sunrise analysis on this measure is conducted by the Auditor.

For the Committees’ information, the Board of Psychology will have an opportunity to review this measure at its February 19, 2016 meeting, after which time it may provide additional comments.

Thank you for the opportunity to provide comments on Senate Bill No. 2612.

Testimony in SUPPORT of SB2612

Honorable Chair Baker, Chair Kidani, Vice-Chair Harimoto and members of the committees,

Thank you for the opportunity to submit testimony in support of SB2612 to ensure licensure of ALL psychologists, including those in school settings.

As a Licensed Behavior Analyst, I am aware of the need to have highly qualified personnel working with Hawaii's keiki that are in need of these services.

Please malama our keiki and support licensure for ALL Psychologists!

Thank you,
Lara Bollinger, M.S.Ed, BCBA, LBA
Honolulu, HI

Position: Support HB 1937, SB2612 and SB2613

I am writing in support of bills HB1937, SB2612 and SB2613 from the perspective of a school psychologist, military spouse, and parent of a child with special needs. As a school psychologist, I believe a licensure and national certification incentive program encourages higher professional standards and ongoing professional development. As a military spouse, we frequently move to new locations for short periods of time. As a result, finding employment as a school psychologist in a timely manner can be difficult and costly. Finding employment in the current system in Hawaii has been less rigorous professionally, but more difficult and time consuming than other states in which we have lived. I believe the adoption of a licensure and national certification incentive program will provide a more efficient and effective way to employ and retain well-trained and highly qualified school psychologists. In addition, the national certification incentive makes Hawaii salaries more competitive on the national landscape. As a parent of a child with special needs, a licensure and national certification incentive program reassures me that a highly qualified and well-trained professional is working with my child. Currently, Hawaii is the only state without a way to license or credential school psychologist, thus compromising the integrity of the profession in our state. On behalf of school psychologists and the children and families of Hawaii, please consider adopting the proposed bills for all our benefit and protection.

Respectfully Submitted,
Nicole Hoelz, M.A., Ed.S.
School Psychologist
