Comments: We oppose this measure because it is a waste of legislative time. On January 11, 2016, President Obama signed into law the "Child Nicotine Poisoning Prevention Act of 2015". This law already requires "child safe" bottles. Further legislation at the State level is pointless.

Comments: I oppose these proposed labeling requirements because this bill is redundant, as federal labeling requirements already require the more important proposed labeling requirements in this bill. Having different labeling requirements than those on a federal level will make importing of goods from other states very difficult if not impossible when it comes to compliance with this proposed law.

Comments: I strongly oppose SB2688. The Federal Government has already passed a measure to cover the concerns this law addresses. Hawaii is currently the only State that has a 21 year old restriction on the sale, use and possession of Vaping products. With this law you will make it very difficult for local businesses to sell vapor products. You will hurt the small businesses that pay GET. You will cause local entrepreneurs to be discouraged and not go forth with business ventures. Local vapor liquid makers will need to spend large amounts of money to comply with a senseless law that will ultimately be superseded by Federal regulations. Support local business and entrepreneurs by opposing SB2688. Aloha and Mahalo Michelle Johnston Sub Ohm Vapes LLC Kailua-Kona, HI
