Comments: I am concerned that permanent resident cards are not a common form of ID and therefore may be easily faked. I'm not against the passage of this Bill but am concerned that authentication of this status is vulnerable to unintended consequences, which could potentially be severe. Might something be added to prevent my concern?

Comments: This bill simply sets in statute a prior court order confirming that permanent resident aliens have the same rights as citizens. HPD is already issuing the permits. Both bills contain a significant error and need amending. Existing statute allowing special short term permits for visiting aliens for hunting or target shooting is mistakenly repealed (lined through) and should be preserved.

Comments: Background checks should certainly be done to determine if an individual is not disqualified to own a firearm. However, given that this is providing a social benefit, the applicant should not pay for additional data searches, but such searches should be paid out of general funds. To do otherwise would be to place an obstacle in the way of the exercise of a Constitutionally enumerated right, and could be argued to have a chilling effect for those who wish to exercise that right.

Comments: There is no need for a resident, read legal alien to be denied the right to own a firearm. One can say that illegals by their very nature are criminals and should be disallowed, but someone who has jumped through the hoops and done it right should not be sanctioned. I believe that this has stood up in court and that legislation is necessary to remediate part 134 HRS. Thank you and Aloha Gordon Fowler
