To. All Concern

African American history, accomplishments, and presence in the infancy of our great nation, the United States of America, are core and matrix upon which built and fortified her foundation and pillars. African American history in our learning institutions can make for a better and stronger society as knowledge not only illuminates, it empowers all who partake. This resource will prove invaluable to the healing, bridging and uplift of past, present and future generations. Let not this puka go unfilled.

Sincerely

Subject: Please Send Your Testimony to support SCR No. 119 - Schedule for Tues. April 5 at 1pm in Rm 211

Dear Chair Tokuda and Members of committee:

The HAWAII Friends of Civil Rights strongly Support S.C.R.119 which urges U.H. Manoa to fill the African American Ethnic Studies faculty position. HFCR supports programs and policies that promote social justice, non-discrimination and equal access. We believe that the Manoa Campus has a special and important obligation to provide academic courses on the history and contributions of African Americans in Hawaii and the U.H. Students and the state of Hawaii deserves to have a full time faculty members teach these courses for the benefit, of our multicultural student body and our state. Please accept our appreciation for this resolution that expresses up-out for the values of diversity, equality, historical accuracy and scholarship. HFCR respectfully request you approve SCR119.

Sincerely

Denisa Thompson
