
A BILL FOR AN ACT

RELATING TO THE MARITIME INDUSTRY GRANT PROGRAM.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. Ship repair and boat construction are critical
2 maritime industries in the State. Ship repair capability
3 ensures the safe and timely operation of ships and barges
4 supplying the State. Without this capability, many ships are
5 required to travel to the mainland for dry docking and repair,
6 which reduces revenues for the State. The ship repair industry
7 provides the State with well-paying industrial and technical job
8 opportunities in critical industrial services, including the
9 repair of engines and generators, welding and metal fabrication,
10 ventilation and air conditioning, and critical servicing of oil
11 product transfer buoys. However, ship repair companies in
12 Hawaii have a significant competitive cost disadvantage with
13 mainland and foreign ship repair entities due to higher labor
14 and material shipping costs. Sustaining and supporting a strong
15 maritime repair industry are critical to the quality of life,
16 prosperity, and security of the State.

1 Hawaii's boatbuilding and ship repair industries consist of
2 establishments that are primarily engaged in operating small
3 shipyards, which are fixed facilities with dry docks and boat
4 fabrication facilities and equipment. Shipyard activities
5 include ship construction; repair; conversion and alteration;
6 production of prefabricated ships, boats, and barge sections;
7 and other specialized maritime-related services. Hawaii's
8 boatbuilding and ship repair industries use local manufacturing
9 and other trades outside the shipyard, providing vital jobs that
10 are economically beneficial to Hawaii.

11 The purpose of this Act is to enhance maritime productivity
12 and workforce development by establishing a maritime industry
13 grant program.

14 SECTION 2. The Hawaii Revised Statutes is amended by
