## HOUSE CONCURRENT RESOLUTION

---

RECOGNIZING THE HISTORIC SUCCESS OF COMMUNITY STEWARDSHIP UNDER THE TRADITIONAL KONOHIKI FISHING RIGHTS SYSTEM IN SUSTAINING AN ABUNDANT NEARSHORE ENVIRONMENT AND A THRIVING POPULATION AND CULTURE, AND URGING THE STATE TO SUPPORT THE DEVELOPMENT, ADOPTION, AND IMPLEMENTATION OF CULTURALLY-GROUNDED, COMMUNITY-DRIVEN FISHERIES MANAGEMENT PROPOSALS TO STEWARD, RESTORE, AND PERPETUATE OUR NEARSHORE RESOURCES AND MAINTAIN AND PROTECT ASSOCIATED CULTURAL TRADITIONS AND VALUES.

1 WHEREAS, traditional Native Hawaiian resource management  
2 has been long-renowned for sustainably supporting a thriving  
3 population of up to a million inhabitants in the Hawaiian  
4 islands, prior to documented Western contact; and  
5

6 WHEREAS, traditional ocean tenure played a key role in  
7 Native Hawaiian communities' ability to sustain themselves both  
8 physically and spiritually, notwithstanding the inherently  
9 limited land resources of an island setting; and  
10

11 WHEREAS, the success of traditional resource management  
12 relied on ahupuaa tenants' intimate connection to and knowledge  
13 of their place, including their nearshore waters and ecosystems,  
14 as well as on the oversight of alii and their regional resource  
15 managers, or konohiki; and  
16

17 WHEREAS, the first written laws of the Kingdom of Hawaii  
18 sought to reflect the traditional system of ocean tenure and  
19 stewardship, providing tenants and konohiki with exclusive  
20 rights of access to their nearshore ahupuaa waters; and  
21

22 WHEREAS, these laws established what came to be known as  
23 konohiki fishing rights, and allowed Native Hawaiian tenants and  
24 konohiki to continue stewarding the nearshore resources they had  
25 known and depended upon for generations; and  
26

## H.C.R. NO. 6

1 WHEREAS, legal interpretations of konohiki fishing rights  
2 slowly eroded the authority of tenants and konohiki to manage  
3 their nearshore resources throughout the nineteenth century; and  
4

5 WHEREAS, the illegal overthrow of the Hawaiian Monarchy set  
6 the stage for the subsequent annexation of Hawaii to the United  
7 States, which occurred without the consent of the Hawaiian  
8 people; and  
9

10 WHEREAS, the Organic Act establishing Hawaii as a Territory  
11 of the United States sought to abolish konohiki fishing rights,  
12 declaring the waters of Hawaii as "free to all citizens of the  
13 United States, subject . . . to vested rights" registered in  
14 accordance with that Act; and  
15

16 WHEREAS, the Territory's subsequent actions led to all but  
17 a handful of konohiki fishing rights to be condemned or declared  
18 abandoned by Statehood, removing a critical layer of protection  
19 for many nearshore fisheries relied upon by ahupuaa tenants  
20 since time immemorial; and  
21

22 WHEREAS, the abolishment of konohiki fishing rights thus  
23 facilitated the degradation and depletion of fisheries  
24 throughout the islands, undermining the ability of many Native  
25 Hawaiians to maintain their cultural and subsistence ways of  
26 life, their connection to their communities and places, and  
27 their cultural identity; and  
28

29 WHEREAS, for decades, the State of Hawaii has struggled to  
30 adequately manage our nearshore marine resources, and thereby  
31 protect the cultural practices and lifestyles that rely upon  
32 these resources; and  
33

34 WHEREAS, the continued degradation and depletion of our  
35 nearshore fisheries also undermine our islands' food security  
36 and resilience to climate change, as well as the economic,  
37 recreational, and ecological interests of Hawaii's residents  
38 generally; and  
39

40 WHEREAS, notwithstanding the abolishment of the konohiki  
41 fishing rights system, a number of rural, kipuka communities  
42 continue to maintain an intimate understanding of and connection

## H.C.R. NO. 6

1 to their nearshore areas, and carry on the community-driven  
2 stewardship practices and harvesting traditions that konohiki  
3 fishing rights once protected throughout the islands; and  
4

5 WHEREAS, these kipuka communities have now expressed an  
6 interest to engage more formally with the State, in proposing  
7 culturally-grounded and community-driven fisheries management  
8 proposals, including community-based subsistence fishery  
9 management area proposals, that can much more effectively  
10 protect, maintain, and perpetuate the resources of their  
11 nearshore waters, and ensure the continuation of cultural and  
12 subsistence traditions, values, and lifestyles for generations  
13 to come; and  
14

15 WHEREAS, the success of such culturally-grounded,  
16 community-driven fishery management area proposals can inspire  
17 other communities to develop an intimate knowledge of their own  
18 nearshore areas, and work toward the restoration of their local  
19 resources and place-based traditions; and  
20

21 WHEREAS, the broader restoration of community-based marine  
22 resource management will improve the health of our nearshore  
23 environment, increase the food security of our residents, and  
24 sustain the cultural values and traditions that have long  
25 informed our shared understandings and unique social fabric;  
26 now, therefore,  
27

28 BE IT RESOLVED by the House of Representatives of the  
29 Twenty-ninth Legislature of the State of Hawaii, Regular Session  
30 of 2017, the Senate concurring, that the Legislature recognizes  
31 the historic success of community-driven stewardship under the  
32 traditional konohiki fishing rights system in sustaining an  
33 abundant nearshore environment and a thriving population and  
34 culture throughout our islands; and  
35

36 BE IT FURTHER RESOLVED that the Department of Land and  
37 Natural Resources is urged to support the appropriate  
38 development, adoption, and implementation of culturally-  
39 grounded, community-driven fishery management proposals that  
40 seek to apply kipuka communities' intimate knowledge of their  
41 nearshore waters to steward, restore, and perpetuate their

# H.C.R. NO. 6

resources and maintain and protect their cultural traditions and values; and

BE IT FURTHER RESOLVED that certified copies of this Concurrent Resolution be transmitted to the Governor, the Attorney General, the Chairperson of the Board of Land and Natural Resources, and the Chairperson of the Board of Trustees of the Office of Hawaiian Affairs.
