
A BILL FOR AN ACT

RELATING TO AN AIRPORT CORPORATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the economic well-
2 being of the State is substantially dependent on the efficient
3 development, management, and operation of its airports and air
4 transportation infrastructure. The legislature further finds
5 that responsibility for Hawaii's airport planning, management,
6 marketing, and capital development functions is currently
7 distributed among a number of agencies, including the department
8 of transportation's airports division, Hawaii tourism authority,
9 department of budget and finance, department of human resources
10 development, board of land and natural resources, department of
11 health with respect to environmental concerns, and the office of
12 Hawaiian affairs with respect to ceded land issues, among
13 others. Furthermore, key decision-making is vested in the state
14 legislature, which is only in regular session for part of each
15 year which imposes a constraint to responsiveness and causes
16 delay to key capital improvement program decisions. Distributed
17 responsibility and involvement by multiple agencies, sometimes

1 with conflicting goals and priorities, results in delayed
2 decision-making, inefficiency, and reduced effectiveness.

3 The legislature believes that coordinated planning and
4 development of air transportation would be achieved more
5 effectively by a single entity having overall consolidated
6 jurisdiction for the State's airport infrastructure.

7 The legislature further finds that the establishment of an
8 independent airport corporation would assist in the achievement
9 of the following important statewide objectives:

- 10 (1) Maximizing the contribution of the state airports
11 system to Hawaii's economy;
- 12 (2) Ensuring dedicated, expert airport leadership,
13 management continuity, and year-round decision-making,
14 consistent with industry best practices;
- 15 (3) Improving administrative efficiency by streamlining
16 administrative processes;
- 17 (4) Accelerating the planning and delivery of the airports
18 system's capital improvement program;
- 19 (5) Increasing the financial flexibility and strength of
20 the airports system;
