HOUSE BILL NO. 1474  
RELATING TO AGRICULTURE

Chairperson Creagan and Members of the Committee:

Thank for the opportunity to testify on House Bill No. 1474, relating to industrial hemp. This bill establishes an industrial hemp special fund and provides that agricultural land utilized to grow industrial hemp shall qualify for the minimum dedication period and be assessed at the lowest percentage of fair market value. The department strongly supports this bill as it pertains to the establishment of an industrial hemp special fund and the minimum dedication period and assessment at the lowest percentage of fair market value for agricultural land utilized to grow industrial hemp. The department has been in discussion with representatives of the legislature and the Attorney General's office and respectfully requests that a portion of the bill be amended to include the language as written in House Bill 96, House Draft 1.

Thank you for the opportunity to testify on this measure.

TESTIMONY BY WESLEY K. MACHIDA

TO THE HOUSE COMMITTEE ON AGRICULTURE  
ON  
HOUSE BILL NO. 1474

RELATING TO AGRICULTURE

House Bill No. 1474 establishes the Industrial Hemp Special Fund (IHSF) to carry out the purposes of the Industrial Hemp Pilot Program (IHPP) by the Department of Agriculture (DOA) established through Act 228, SLH 2016. The IHSF would be funded through money appropriated through the Legislature, fees collected by the DOA for the purposes of the IHPP, and any interest or return earned from moneys in the special fund. This bill also requires each county to recognize the cultivation of hemp for the purposes of the pilot program as an agricultural product, use, and activity; specifies that any agricultural land used for cultivation of industrial hemp for the purposes of the pilot program shall qualify for the minimum dedication period and be assessed at the lowest percentage of fair market value; and limit the cultivation of industrial hemp to licensed owners, lessees, or occupiers of lands within the State agricultural land district.

While the Department of Budget and Finance does not take any position on the policies of the IHPP, as a matter of general policy, the Department of Budget and Finance does not support the creation of any special fund which does not meet the requirements of Section 37-52.3, HRS. Special funds should: 1) serve a need as

demonstrated by the purpose, scope of work and an explanation why the program cannot be implemented successfully under the general fund appropriation process;

- 2) reflect a clear nexus between the benefits sought and charges made upon the users or beneficiaries or a clear link between the program and the sources of revenue;
- 3) provide an appropriate means of financing for the program or activity; and
- 4) demonstrate the capacity to be financially self-sustaining. In regards to House Bill No. 1474, it is difficult to determine if the proposed special fund would be self-sustaining.

Thank you for your consideration of our comments.

**SUBJECT:** REAL PROPERTY, Mandated Property Tax Classification of Lands Growing Industrial Hemp

**BILL NUMBER:** HB 1474

**INTRODUCED BY:** CREAGAN, ING, THIELEN, DeCoite

**EXECUTIVE SUMMARY:** Requires that land used for cultivation of industrial hemp qualify for the minimum dedication period and least expensive classification for country real property tax purposes.

With the Hawaii Constitution having been amended to give all real property taxing power to the counties, the validity of this requirement is questionable.

**BRIEF SUMMARY:** Amends HRS chapter 141 to establish a new special fund called the industrial hemp special fund.

Amends HRS section 141-33 to provide that an industrial hemp licensee cultivated in accordance with the existing pilot program shall qualify as an agricultural product, use, and activity, and that any agricultural land used for cultivation of industrial hemp in accordance with the industrial hemp pilot program established pursuant to this part shall qualify for the minimum dedication period and the agricultural land shall be assessed at the lowest percentage of fair market value or other calculation provided for by ordinance for the effective period of the license.

**EFFECTIVE DATE:** Upon approval.

**STAFF COMMENTS:** Article VIII, section 3 of the Hawaii Constitution, adopted in the 1978 Constitutional Convention, provides that the taxation of real property in the State has been transferred to the several counties.

The bill requires the counties to give industrial hemp agricultural classification for real property tax purposes. The validity of this requirement is questionable in light of the Hawaii Constitution provision discussed above.
