Introduction

On July 11, 2017, Act 178, SLH 2017 RELATING TO THE FEDERAL FUNDING POLICY STUDY, was signed into law by Governor David Ige. Act 178, SLH 2017 requires the Department of Budget and Finance (B&F) and the Governor to develop a Federal Funding Policy that reduces the dependence of state government on federal funds.

The development of a Federal Funding Policy will allow the Legislature and the Executive Branch to address what could be significant changes to traditional sources of federal funds for the state. Further, a Federal Funding Policy will require the Legislature and B&F to work together to address the following questions:

- How do we best track what is happening in Washington D.C.? Is there a common, trusted source of information?
- Can we properly identify potential impacts to state programs given anticipated changes in federal fund streams?
- How do we maintain flexibility at the State level to respond to changes in federal funding levels, including the option of discontinuing a program if federal funds are no longer available?
- How can we handle a major change in federal funding, such as if a major social benefit program is changed to shift costs to the state?

Act 178, SLH 2017 outlines the following process to develop the Federal Funding Policy Study:

- 1) The Department of Budget and Finance (B&F), Office of Federal Awards Management (OFAM), will provide data on federal fund use by the State.
(Due: February 1, 2018)
- 2) Based on the data, B&F will make policy recommendations to the Governor to include:
(Due October 1, 2018).
 - a) Principles guiding the extent of dependence of State Executive Departments on federal funds;
 - b) Conditions for the use of federal funds as the means of financing for state employees' salaries;
 - c) Circumstances under which the state government should continue programs or projects with state funds after federal funds are no longer available for those programs and projects; and
 - d) Measures and recommendations to protect the State government and residents of the State from the adverse effects of a slowed or reduced rate of federal funding for state programs and projects.
- 3) The Governor will review the findings and recommendations of the study and submit a report to the Legislature with a decision on whether to accept, reject, or modify B&F's recommendations.
(Due January 1, 2019).

This interim report meets Part 1 of the requirements of Act 178, SLH 2017 by:

- 1) Providing information on the actions taken pursuant to Act 178, SLH 2017;
- 2) Identifying the federal awards that State Executive Departments regularly received for State Fiscal Year 2017-2018 to pay for programs; and
- 3) Updating the table of actual expenditures for State Fiscal Year 2017.

Actions Taken Pursuant to this Act from July 11, 2017 to December 31, 2017

The prescience of the Legislature in passing Act 178, SLH 2017 is corroborated by events that have taken place this year in Washington D.C. There have been a variety of proposals by the Trump Administration and members of Congress to reduce federal funding levels or shift the cost of major federal-state programs to the state. These initiatives combined with the practice of Congress of funding federal programs for short periods of time by continuing resolutions (CR) have made predictions about future federal funding levels difficult and necessitates that B&F review policies for federal fund management.

The actions that B&F has taken in response to Act 178, SLH 2017 include:

- Review of the requirements of Act 178, SLH 2017;
- Discussion about legislative intent of the Act;
- Review of deadlines and reporting requirements;
- Assignment of responsibility for completing the Federal Funding Study;
- Review of existing B&F budgetary policies;
- Decision to adopt a policy of caution in response to requests to expand state programs using federal funds;
- Discussion of actions to be taken in case of a significant reduction in federal funds;
- Reviewing the federal award reporting requirements for the Federal Awards Management System (FAMS);
- Decision to provide access to the Federal Fund Information Service (FFIS.org) to WAM and FIN staff; and
- Decision to continue existing internal controls to make sure department expenditures do not exceed federal award amounts.

Federal Fund Awards State Executive Departments Regularly Receive to Pay for Programs and Projects

B&F utilizes the Federal Fund Information for States (FFIS) grants database, which reflects federal fiscal year allocations to each state for tracked programs, to compile a list of the “Major, Recurring Federal Awards” that State Executive Departments can expect to receive. The most current “Major, Recurring Federal Awards” list for Hawaii is based on the Federal Fiscal Year 2016 budget. The list is included in the appendix of this report.

State Executive Departments are required to submit a budget worksheet “Form FF” by Program ID, Organizational code and MOF and list all federal awards anticipated to be received which require federal fund ceilings. Awards included on the list of “Major, Recurring Federal Awards” are entered on Form FF using Method of Financing “N” (Federal Funds). All other federal awards use Method of Financing “P” (Other Federal Funds). Awards appropriated under Method of Financing “P” may also be recurring but because FFIS does not identify these awards as “Major, Recurring Federal Awards”, B&F does not as well. The awards amounts for MOF N and MOF P are totaled at the bottom of Form FF and provide the ceilings requests for a Program ID. Thus, review of the MOF N and MOF P appropriations ceilings in the budget bill will provide information on the amount of federal funding anticipated by a department as well as by individual program IDs.

To meet the requirements of this section, B&F is providing three sets of information to identify the federal funds that State Executive Departments regularly receive to pay for programs and projects:

- (1) A list of Major, Recurring Federal Awards that B&F expects State Executive Departments to receive in State Fiscal Biennium 2017-2019. This list is issued by B&F to identify awards that should be budgeted as Method of Financing “N.” To develop this list, B&F relies on information from the Federal Fund Information for States (FFIS.org). FFIS estimates that their data tracks over 90% of federal funds states can expect to receive.
- (2) Budgeted (Anticipated) Awards: Form FF FY 2017 Award Summary Report, Form FF FY 2018 Award Summary Report, and Form FF FY 2019 Award Summary Report are generated from the Federal Award Management System (FAMS) and shows the federal awards that departments have budgeted for using MOF “N” (Federal Funds) or MOF “P” (Other Federal Funds).
- (3) Awards Received: The Federal Award Listing is a report that is generated from the Federal Award Management System (FAMS) and shows federal awards that have been received by State Executive Departments (does not include awards received by UH and DOE).

Updated Amount of Federal Funds to Be Expended by the State Government for FY 2017 and 2018

Data from the State's accounting system FAMIS, shows federal funds expenditures of \$2,919,493,017 in SFY 2017, a 1% decline from expenditures of \$2,943,260,000 in SFY 2016.

Federal fund expenditures per state fiscal year have fluctuated in recent years. In 2010, because of increased spending from the American Recovery and Reinvestment Act (ARRA), total federal spending increased 24%. This increased spending was followed by a large drop of 21% in federal spending in SFY 2012. By SFY 2014, federal spending increased again due to the expansion of Medicaid under the Affordable Care Act. This spending pattern follows the federal spending pattern reported by other states.

According to data from the National Association of State Budget Officers (NASBO), *State Expenditure Report: Examining Fiscal 2015-2017 State Spending*:

"The level of federal funds to states has seen numerous shifts during the most recent recession and subsequent recovery. After growing a relatively modest 2.9 percent in fiscal 2007 and 2.4 percent in fiscal 2008, federal spending increased 19.3 percent in fiscal 2009 and 21.4 percent in fiscal 2010. This unusual increase in federal funds was due to the influence of spending from the American Recovery and Reinvestment Act (ARRA)...The swift wind down of ARRA funds led federal funding to grow only 1.0 percent in fiscal 2011, decline 9.8% in fiscal 2012 and decrease an additional 2.6 percent in fiscal 2013. Federal funds began to rise again in fiscal 2014, rising 3.4 percent, almost entirely related to Medicaid...In fiscal year 2015 federal funds to states rose 10.0 percent...However, in fiscal 2016 federal fund spending growth began to slow, increasing only 3.8 percent...In fiscal year 2017, it is estimated that federal funds to states increased 5.3 percent...Over the last five years, federal funds to state have seen a slight decline when excluding Medicaid."

Looking forward, the assumption is that because of the spending restrictions put in place by the Budget Control Act (BCA), federal spending will remain constant except for increases due to Medicaid spending. Therefore, an estimate for total federal spending in SFY 2018 by State Executive Agencies is obtained by multiplying the SFY 2017 expenditures of \$2,919,493 by 2.5% to arrive at \$2,992,480.

Conclusion

ACT 178, SLH 2017 requires B&F and the Governor to develop a Federal Funding Policy that reduces the dependence of state government on federal funds. The Federal Funding Policy will be developed in a three-stage process: an interim report due February 1, 2018, a report from B&F to the Governor due October 1, 2018, and a final report due to the Legislature by January 1, 2019.

This interim report documents the initial steps that B&F has taken to meet the requirements of ACT 178, SLH 2017, provides data on expected federal awards and forecasts SFY 2018 federal expenditures - \$2.992 billion.

In general, the Department of Budget and Finance concurs with the intent of ACT 178, SLH 2017 and looks forward to working with the Legislature to improve policies regarding federal fund management.
