
A BILL FOR AN ACT

RELATING TO STATE BONDS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 PART I

2 SECTION 1. Declaration of findings with respect to the
3 general obligation bonds authorized by this Act. Pursuant to
4 article VII, section 13, of the state constitution, which
5 states: "Effective July 1, 1980, the legislature shall include
6 a declaration of findings in every general law authorizing the
7 issuance of general obligation bonds that the total amount of
8 principal and interest, estimated for such bonds and for all
9 bonds authorized and unissued and calculated for all bonds
10 issued and outstanding, will not cause the debt limit to be
11 exceeded at the time of issuance", the legislature finds and
12 declares as follows:

13 (1) Limitation on general obligation debt. The debt limit
14 of the State is set forth in article VII, section 13,
15 of the state constitution, which states in part:
16 "General obligation bonds may be issued by the State;
17 provided that such bonds at the time of issuance would
18 not cause the total amount of principal and interest

1 payable in the current or any future fiscal year,
2 whichever is higher, on such bonds and on all
3 outstanding general obligation bonds to exceed: a sum
4 equal to twenty percent of the average of the general
5 fund revenues of the State in the three fiscal years
6 immediately preceding such issuance until June 30,
7 1982; and thereafter, a sum equal to eighteen and one-
8 half percent of the average of the general fund
9 revenues of the State in the three fiscal years
10 immediately preceding such issuance." Article VII,
11 section 13, of the state constitution also provides
12 that in determining the power of the State to issue
13 general obligation bonds, certain bonds are
14 excludable, including "[r]eimbursable general
15 obligation bonds issued for a public undertaking,
16 improvement or system but only to the extent that
17 reimbursements to the general fund are in fact made
18 from the net revenue, or net user tax receipts, or
19 combination of both, as determined for the immediately
20 preceding fiscal year" and bonds constituting
21 instruments of indebtedness under which the State

incurs a contingent liability as a guarantor, but only to the extent the principal amount of those bonds does not exceed seven per cent of the principal amount of outstanding general obligation bonds not otherwise excluded under said article VII, section 13, of the state constitution.

(2) Actual and estimated debt limits. The limit on principal and interest of general obligation bonds issued by the State, actual for fiscal year 2017-2018 and estimated for each fiscal year from 2018-2019 to 2020-2021, is as follows:

<u>Fiscal</u>	<u>Net General</u>	
<u>Year</u>	<u>Fund Revenues</u>	<u>Debt Limit</u>
2014-2015	\$6,569,327,192	
2015-2016	7,075,981,186	
2016-2017	7,346,008,625	
2017-2018	7,511,556,000	\$1,294,464,549
2018-2019	7,712,224,000	1,352,568,658
2019-2020	8,033,135,000	1,391,803,632
2020-2021	(not applicable)	1,434,176,425

For fiscal years 2017-2018, 2018-2019, 2019-2020, and 2020-2021, respectively, the debt limit is derived by multiplying the average of the net general fund revenues for the three preceding fiscal years by

1 eighteen and one-half per cent. The net general fund
2 revenues for fiscal years 2014-2015, 2015-2016, and
3 2016-2017 are actual, as certified by the director of
4 finance in the Statement of the Debt Limit of the
5 State of Hawaii as of July 1, 2017, dated November 17,
6 2017. The net general fund revenues for fiscal years
7 2017-2018 to 2019-2020 are estimates, based on general
8 fund revenue estimates made as of March 15, 2018, by
9 the council on revenues, the body assigned by Article
10 VII, Section 7, of the State Constitution to make such
11 estimates, and based on estimates made by the
12 department of budget and finance of those receipts
13 that cannot be included as general fund revenues for
14 the purpose of calculating the debt limit, all of
15 which estimates the legislature finds to be
16 reasonable.

17 (3) Principal and interest on outstanding bonds applicable
18 to the debt limit.

19 (A) According to the department of budget and
20 finance, the total amount of principal and
21 interest on outstanding general obligation bonds,

1 after the exclusions permitted by article VII,
2 section 13, of the state constitution, for
3 determining the power of the State to issue
4 general obligation bonds within the debt limit as
5 of April 1, 2018, is as follows for fiscal year
6 2018-2019 to fiscal year 2024-2025:

7	Fiscal	Principal
8	<u>Year</u>	<u>and Interest</u>
9	2018-2019	\$774,585,675
10	2019-2020	786,230,762
11	2020-2021	721,950,216
12	2021-2022	706,734,112
13	2022-2023	688,397,734
14	2023-2024	674,529,233
15	2024-2025	635,077,597

16 The department of budget and finance further
17 reports that the amount of principal and interest
18 on outstanding bonds applicable to the debt limit
19 generally continues to decline each year from
20 fiscal year 2025-2026 to fiscal year 2037-2038
21 when the final installment of \$54,951,750 shall
22 be due and payable.

23 (B) The department of budget and finance further
24 reports that the outstanding principal amount of

1 bonds constituting instruments of indebtedness
2 under which the State may incur a contingent
3 liability as a guarantor is \$233,500,000, all or
4 part of which is excludable in determining the
5 power of the State to issue general obligation
6 bonds, pursuant to article VII, section 13, of
7 the state constitution.

8 (4) Amount of authorized and unissued general obligation
9 bonds and guaranties and proposed bonds and
10 guaranties.

11 (A) As calculated from the state comptroller's bond
12 fund report as of March 31, 2018, adjusted for:
13 (i) Appropriations to be funded by general
14 obligation bonds or reimbursable general
15 obligation bonds as provided in Act 49,
16 Session Laws of Hawaii 2017 (the General
17 Appropriations Act of 2017), to be expended
18 in fiscal year 2018-2019, adjusted for
19 additional appropriations provided in House
20 Bill No. 1900, H.D. 1, S.D. 2, C.D. 1 (the
21 Supplemental Appropriations Act of 2018);

(ii) Lapses as provided in House Bill No. 1900, H.D. 1, S.D. 2, C.D. 1 (the Supplemental Appropriations Act of 2018);

(iii) Appropriations to be funded by general obligation bonds or reimbursable general obligation bonds as provided in Act 195, Session Laws of Hawaii 2017 (the Judiciary Appropriations Act of 2017), to be expended in fiscal year 2018-2019, adjusted for additional appropriations provided in Senate Bill No. 2150, S.D. 2, H.D. 1, C.D. 1 (the Judiciary Supplemental Appropriations Act of 2018); and

(iv) Lapses as provided in Senate Bill No. 2150, S.D. 2, H.D. 1, C.D. 1 (the Judiciary Supplemental Appropriations Act of 2018); the total amount of authorized but unissued general obligation bonds is \$2,312,750,799. The total amount of general obligation bonds authorized in this Act is \$717,809,000. The total amount of general obligation bonds

1 previously authorized and unissued, as adjusted,
2 and the general obligation bonds authorized in
3 this Act is \$3,030,559,799.

4 (B) As reported by the department of budget and
5 finance the outstanding principal amount of bonds
6 constituting instruments of indebtedness under
7 which the State may incur a contingent liability
8 as a guarantor is \$233,500,000, all or part of
9 which is excludable in determining the power of
10 the State to issue general obligation bonds,
11 pursuant to Article VII, Section 13, of the State
12 Constitution.

13 (5) Proposed general obligation bond issuance. As
14 reported therein for the fiscal years 2018-2019, 2019-
15 2020, and 2020-2021, the State proposes to issue
16 \$505,000,000 in general obligation bonds during the
17 first half of fiscal year 2018-2019, \$475,000,000 in
18 general obligation bonds during the second half of
19 fiscal year 2018-2019, \$500,000,000 in general
20 obligation bonds during the first half of fiscal year
21 2019-2020, \$520,000,000 in general obligation bonds

1 during the second half of fiscal year 2019-2020,
2 \$500,000,000 in general obligation bonds during the
3 first half of fiscal year 2020-2021, and \$550,000,000
4 in general obligation bonds during the second half of
5 fiscal year 2020-2021. Generally, it has been the
6 practice of the State to issue twenty-year serial
7 bonds with principal repayments beginning in the third
8 year, the bonds payable in substantially equal annual
9 installments of principal and interest payment with
10 interest payments commencing six months from the date
11 of issuance and being paid semi-annually thereafter.
12 It is assumed that this practice will continue to be
13 applied to the bonds that are proposed to be issued.

14 (6) Sufficiency of proposed general obligation bond
15 issuance to meet the requirements of authorized and
16 unissued bonds, as adjusted, and bonds authorized by
17 this Act. From the schedule reported in paragraph
18 (5), the total amount of general obligation bonds that
19 the State proposes to issue during the fiscal years
20 2018-2019 to 2019-2020 is \$2,000,000,000. An
21 additional \$1,050,000,000 is proposed to be issued in

1 fiscal year 2020-2021. The total amount of
2 \$2,000,000,000 that is proposed to be issued through
3 fiscal year 2019-2020 is sufficient to meet the
4 requirements of the authorized and unissued bonds, as
5 adjusted, the total amount of which is \$3,030,559,799
6 reported in paragraph (4), except for \$1,030,559,799.
7 It is assumed that the appropriations to which an
8 additional \$1,030,559,799 in bond issuance needs to be
9 applied will have been encumbered as of June 30, 2020.
10 The \$1,050,000,000 that is proposed to be issued in
11 fiscal year 2020-2021 will be sufficient to meet the
12 requirements of the June 30, 2020, encumbrances in the
13 amount of \$1,030,559,799. The amount of assumed
14 encumbrances as of June 30, 2020, is reasonable and
15 conservative, based upon an inspection of June 30
16 encumbrances of the general obligation bond fund as
17 reported by the state comptroller. Thus, taking into
18 account the amount of authorized and unissued bonds,
19 as adjusted, and the bonds authorized by this Act
20 versus the amount of bonds proposed to be issued by
21 June 30, 2020, and the amount of June 30, 2020,

1 encumbrances versus the amount of bonds proposed to be
2 issued in fiscal year 2020-2021, the legislature finds
3 that in the aggregate, the amount of bonds proposed to
4 be issued is sufficient to meet the requirements of
5 all authorized and unissued bonds and the bonds
6 authorized by this Act.

7 (7) Bonds excludable in determining the power of the State
8 to issue bonds. As noted in paragraph (1), certain
9 bonds are excludable in determining the power of the
10 State to issue general obligation bonds.

11 (A) General obligation reimbursable bonds can be
12 excluded under certain conditions. It is not
13 possible to make a conclusive determination as to
14 the amount of reimbursable bonds which are
15 excludable from the amount of each proposed bond
16 issued because:

17 (i) It is not known exactly when projects for
18 which reimbursable bonds have been
19 authorized in prior acts and in this Act
20 will be implemented and will require the

1 application of proceeds from a particular
2 bond issue; and

3 (ii) Not all reimbursable general obligation
4 bonds may qualify for exclusion.

5 However, the legislature notes that with respect
6 to the principal and interest on outstanding
7 general obligation bonds, according to the
8 department of budget and finance, the average
9 proportion of principal and interest that is
10 excludable each year from the calculation against
11 the debt limit is 0.82 per cent for approximately
12 ten years from fiscal year 2017-2018 to fiscal
13 year 2026-2027. For the purpose of this
14 declaration, the assumption is made that 0.75 per
15 cent of each bond issue will be excludable from
16 the debt limit, an assumption that the
17 legislature finds to be reasonable and
18 conservative.

19 (B) Bonds constituting instruments of indebtedness
20 under which the State incurs a contingent
21 liability as a guarantor can be excluded, but

1 only to the extent the principal amount of those
2 guaranties does not exceed seven per cent of the
3 principal amount of outstanding general
4 obligation bonds not otherwise excluded under
5 subparagraph (A) of this paragraph (7); and
6 provided that the State shall establish and
7 maintain a reserve in an amount in reasonable
8 proportion to the outstanding loans guaranteed by
9 the State as provided by law. According to the
10 department of budget and finance and the
11 assumptions presented herein, the total principal
12 amount of outstanding general obligation bonds
13 and general obligation bonds proposed to be
14 issued, which are not otherwise excluded under
15 article VII, section 13, of the state
16 constitution for the fiscal years 2017-2018,
17 2018-2019, 2019-2020, and 2020-2021, are as
18 follows:

<u>Fiscal Year</u>	<u>Total amount of general obligation bonds not otherwise excluded by article VII, section 13 of the state constitution</u>
2017-2018	\$7,238,578,064
2018-2019	8,211,233,064
2019-2020	9,223,583,064
2020-2021	10,265,708,064

Based on the foregoing and based on the assumption that the full amount of a guaranty is immediately due and payable when such guaranty changes from a contingent liability to an actual liability, the aggregate principal amount of the portion of the outstanding guaranties and the guaranties proposed to be incurred, which does not exceed seven per cent of the average amount set forth in the last column of the above table and for which reserve funds have been or will have been established as heretofore provided, can be excluded in determining the power of the State to issue general obligation bonds. As it is not possible to predict with a reasonable degree of certainty when a guaranty will change from a contingent liability to an actual liability, it is assumed in conformity with

1 fiscal conservatism and prudence, that all guaranties
2 not otherwise excluded pursuant to article VII,
3 section 13, of the state constitution will become due
4 and payable in the same fiscal year in which the
5 greatest amount of principal and interest on general
6 obligation bonds, after exclusions, occurs. Thus,
7 based on such assumptions and on the determination in
8 paragraph (8), all of the outstanding guaranties can
9 be excluded.

10 (8) Determination whether the debt limit will be exceeded
11 at the time of issuance. From the foregoing and on
12 the assumption that all of the bonds identified in
13 paragraph (5) will be issued at an interest rate not
14 to exceed 5.75 per cent in fiscal years 2019 through
15 2021, it can be determined from the following schedule
16 that the bonds that are proposed to be issued, which
17 include all authorized and unissued bonds previously
18 authorized, as adjusted, general obligation bonds, and
19 instruments of indebtedness under which the State
20 incurs a contingent liability as a guarantor

authorized in this Act, will not cause the debt limit
to be exceeded at the time of such issuance:

Time of Issuance and Amount to be Counted Against <u>Debt Limit</u>	Debt Limit at Time of <u>Issuance</u>	Greatest Amount and Year of Highest Principal and Interest <u>on Bonds and Guaranties</u>
1st half FY 2018-2019 \$501,215,000	1,352,568,658	806,552,645 (2019-2020)
2nd half FY 2018-2019 \$471,440,000	1,352,568,658	806,552,645 (2019-2020)
1st half FY 2019-2020 \$496,250,000	1,391,803,632	829,332,457 (2021-2022)
2nd half FY 2019-2020 \$516,100,000	1,391,803,632	875,587,775 (2022-2023)
1st half FY 2020-2021 \$496,250,000	1,434,176,425	908,222,905 (2023-2024)
2nd half FY 2020-2021 \$545,875,000	1,434,176,425	957,695,717 (2023-2024)

(9) Overall and concluding finding. From the facts,
estimates, and assumptions stated in this declaration
of findings, the conclusion is reached that the total
amount of principal and interest estimated for the
general obligation bonds authorized in this Act, and
for all bonds authorized and unissued, and calculated
for all bonds issued and outstanding, and all
guaranties, will not cause the debt limit to be
exceeded at the time of issuance.

1 SECTION 2. The legislature finds the bases for the
2 declaration of findings set forth in this Act are reasonable.
3 The assumptions set forth in this Act with respect to the
4 principal amount of general obligation bonds that will be
5 issued, the amount of principal and interest on reimbursable
6 general obligation bonds that are assumed to be excludable, and
7 the assumed maturity structure shall not be deemed to be
8 binding, it being the understanding of the legislature that such
9 matters must remain subject to substantial flexibility.

10 SECTION 3. Authorization for issuance of general
11 obligation bonds. General obligation bonds may be issued as
12 provided by law in an amount that may be necessary to finance
13 projects authorized in House Bill No. 1900, H.D. 1, S.D. 2, C.D.
14 1 (the Supplemental Appropriations Act of 2018) and Senate Bill
15 No. 2150, S.D. 2, H.D. 1, C.D. 1 (the Judiciary Supplemental
16 Appropriations Act of 2018); passed by the legislature during
17 this regular session of 2018 and designated to be financed from
18 the general obligation bond fund and from the general obligation
19 bond fund with debt service cost to be paid from special funds;
20 provided that the sum total of general obligation bonds so
21 issued shall not exceed \$717,809,000.

Any law to the contrary notwithstanding, general obligation bonds may be issued from time to time in accordance with section 39-16, Hawaii Revised Statutes, in such principal amount as may be required to refund any general obligation bonds of the State of Hawaii heretofore or hereafter issued pursuant to law.

PART II

SECTION 4. House Bill No. 1900, House Draft 1, Senate Draft 2, Conference Draft 1, Regular Session of 2018, is amended by amending section 5 as follows:

1. By amending the titles and descriptions of items B.12.01., to B.12.21., to read:

"12.01. BOY SCOUTS OF AMERICA, ALOHA COUNCIL

PLANS, LAND ACQUISITION, DESIGN,
CONSTRUCTION, AND EQUIPMENT FOR
RENOVATIONS AT CAMP HONOKAIA AND CAMP
ALAN FAYE. THIS PROJECT QUALIFIES AS A
GRANT, PURSUANT TO CHAPTER 42F, HRS.

9

10 SECTION 5. Nothing in this part shall be construed to
11 amend the provisions of House Bill No. 1900, House Draft 1,
12 Senate Draft 2, Conference Draft 1, Regular Session of 2018, in
13 a manner that appropriates any additional funds, authorizes the
14 issuance of any additional general obligation bonds or allocates
15 the revenues derived thereof, or adds any additional debt for
16 the projects listed in section 4 of this Act.

17 PART III

18 SECTION 6. The provisions of this Act are declared to be
19 severable and if any portion thereof is held to be invalid for
20 any reason, the validity of the remainder of this Act shall not
21 be affected.

22 SECTION 7. In printing this Act, the revisor of statutes
23 shall substitute in sections 1, 3, 4, and 5 the corresponding
24 act numbers for bills identified therein.

1 SECTION 8. Statutory material to be repealed is bracketed
2 and stricken. New statutory material is underscored.

3 SECTION 9. This Act shall take effect upon its approval.

Report Title:

State Bonds; State Budget; CIP

Description:

Authorizes issuance of general obligation bonds. Makes findings required by Article VII, Section 13, of the State Constitution to declare that the issuance of authorized bonds will not cause the debt limit to be exceeded. Amends the titles and descriptions of certain capital improvement projects of executive branch agencies and programs that are established in the Supplemental Appropriations Act of 2018. (CD1)
