### A BILL FOR AN ACT

RELATING TO AFFORDABLE HOUSING.

#### BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the need for 2 affordable housing must be carefully weighed against the impacts 3 it may have on Hawaii's environment. Near conservation, 4 agriculture, and other non-urban areas, care must be taken to 5 ensure any impact from development will not cause significant 6 harm to natural resources and the environment. However, in the 7 urban core, where impacts to the environment may be 8 inconsequential due to the existing development and population, 9 additional impact statements and studies do not provide 10 additional safequards to the environment.

11 The legislature further finds that one of the triggers for 12 environmental assessments and environmental impact statements is 13 the use of state or county funds for the project, while 14 privately financed projects do not similarly trigger 15 environmental assessments or environmental impact statements. 16 To streamline the process within the urban core to build 17 affordable housing projects, affordable housing projects
