
HOUSE RESOLUTION

URGING THE UNITED STATES CONGRESS TO CONTINUE TO PROTECT
HAWAII'S OCEANS AND WATER RESOURCES BY KEEPING THE
PROTECTIONS UNDER THE 2015 "CLEAN WATER RULE" ISSUED BY THE
ENVIRONMENTAL PROTECTION AGENCY PURSUANT TO THE 1972 CLEAN
WATER ACT.

1 WHEREAS, the Waters of the United States Rule, known as the
2 "Clean Water Rule", issued in 2015 under the authority of the
3 1972 Clean Water Act, was designed to limit pollution in about
4 60 percent of the nation's bodies of water; and

5
6 WHEREAS, the clean water protections under the "Clean Water
7 Rule" are vital to protecting the environment and providing
8 quality water to the residents of Hawaii; and

9
10 WHEREAS, the "Clean Water Rule" was put forth by the
11 Environmental Protection Agency (EPA) and the Army Corps of
12 Engineers and aimed to extend existing federal protections over
13 large bodies of water, such as the Chesapeake Bay and Puget
14 Sound, to smaller bodies that flow into them, such as small
15 waterways and wetlands; and

16
17 WHEREAS, by expanding the EPA's jurisdiction to smaller
18 bodies of water, the "Clean Water Rule" allowed the EPA to limit
19 pollution in many more areas in the nation; and

20
21 WHEREAS, the "Clean Water Rule" has not yet taken effect
22 and in 2017 the current President of the United States issued an
23 order directing the EPA to file the documents needed to suspend
24 the effective date of the Rule for two additional years, as it
25 prepares to later roll out its own less stringent water quality
26 control rules; and

27
28 WHEREAS, proponents of the "Clean Water Rule" argue that
29 suspending the Rule will make it too easy for farmers, ranchers,

H.R. NO. 160

1 real-estate developers, and other industries to pollute waters;
2 and

3
4 WHEREAS, the "Clean Water Rule's" protections help ensure
5 that over 100,000,000 Americans have access to clean and safe
6 drinking water, which is a human right; and

7
8 WHEREAS, a senior attorney representing the Natural
9 Resources Defense Council told the New York Times on February 1,
10 2018, that the "Clean Water Rule" protects bodies of water that
11 feed the drinking water supply for one in three Americans, and
12 suspending the "Clean Water Rule" will "deny protections for our
13 public health and safety"; and

14
15 WHEREAS, Hawaii has encountered water security and
16 pollution issues that have heightened the need for stringent
17 environmental protections to ensure its citizens access to clean
18 water; and

19
20 WHEREAS, the Navy's Red Hill Bulk Fuel Storage Facility has
21 experienced leaks, as recently as January 2014, which continue
22 to pose a risk of contaminating drinking water in Oahu's
23 underground aquifers; and

24
25 WHEREAS, in February of this year, a sewage spill due to
26 heavy rain released over 9,000,000 gallons of untreated sewage
27 into Windward Oahu waters; and

28
29 WHEREAS, enforcement of the "Clean Water Rule" would create
30 substantially cleaner waterways and with them, healthier
31 habitats for threatened species of wildlife; and

32
33 WHEREAS, the "Clean Water Rule" aligns with and enables
34 Hawaii's commitment to preserving the State's precious water and
35 environmental resources; now, therefore,

36
37 BE IT RESOLVED by the House of Representatives of the
38 Twenty-ninth Legislature of the State of Hawaii, Regular Session
39 of 2018, that the United States Congress is urged to continue to
40 protect Hawaii's oceans and water resources by keeping the
41 protections under the federal "Clean Water Rule" intact; and

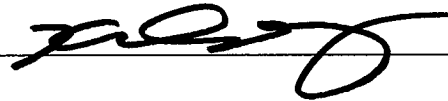

H.R. NO. 160

1 BE IT FURTHER RESOLVED that the State of Hawaii will, in
2 the absence of any federal regulations, continue to support the
3 protection of water resources outlined in the "Clean Water
4 Rule"; and

5
6 BE IT FURTHER RESOLVED that certified copies of this
7 Resolution be transmitted to the President of the United States,
8 Speaker of the United States House of Representatives, President
9 Pro Tempore of the United States Senate, Director of the
10 Environmental Protection Agency, Governor, Chairperson of the
11 Board of Land and Natural Resources, and Director of the Office
12 of Environmental Quality Control.
