8 hydroelectricity is a type of hydroelectric energy storage used
9 by electric power systems for load balancing. The legislature
10 finds that the agribusiness development corporation recently
11 approved a lease to the Kauai Island Utility Cooperative for a
12 hydropower project in Kekaha. The legislature further finds
13 that Lake Wilson dam also has the potential to mass-produce
14 hydroelectric energy.

15 The purpose of this Act is to appropriate funds to the
16 agribusiness development corporation for a study to be conducted

 12 dam and developing pumped-storage hydroelectricity; provided
 13 that no funds shall be made available under this Act unless

 15 for the purpose for which the sums are appropriated.

16 The sums appropriated shall be expended by the agribusiness
