A BILL FOR AN ACT

RELATING TO LICENSING.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that under existing law,
2 audiologists must be licensed as an audiologist under chapter
3 468E, Hawaii Revised Statutes, and as a hearing aid dealer and
4 fitter, pursuant to chapter 451A, Hawaii Revised Statutes.

5 However, the legislature notes that an applicant for an
6 audiologist license must meet education, examination, and
7 training requirements that far surpass the licensing
8 requirements for a hearing aid dealer and fitter. The
9 legislature further finds that requiring audiologists to hold
10 dual licensure as an audiologist and a hearing aid dealer and
11 fitter is redundant and burdensome, as audiologist licensing
12 requirements are more stringent than hearing aid dealer and
13 fitter licensing requirements.

14 Accordingly, the purpose of this Act is to clarify that the
15 licensing requirements for hearing aid dealers and fitters shall
16 not apply to audiologists licensed pursuant to chapter 468E,
17 Hawaii Revised Statutes.

1 SECTION 2. Section 451A-2, Hawaii Revised Statutes, is
2 amended to read as follows:

3 "§451A-2 License required. [~~It~~] (a) Except as otherwise
4 provided in this chapter, it shall be unlawful for any person
5 not licensed under this chapter to engage in the sale or
6 practice of dealing and fitting of hearing aids or to use any
7 sign, card, or device to indicate that the person is licensed.

8 (b) Any person wishing to obtain a license or a license by
9 endorsement shall apply on a form prescribed by the director and
10 shall furnish to the director:

11 (1) Satisfactory proof that the person is a high school
12 graduate; and

13 (2) Satisfactory proof that the person has fulfilled all
14 of the requirements for a license.

15 (c) An applicant shall be required to pass a licensing
16 examination."

17 SECTION 3. Section 451A-18, Hawaii Revised Statutes, is
18 amended to read as follows:

19 "§451A-18 Persons and practices not affected. This
20 chapter is not intended to:

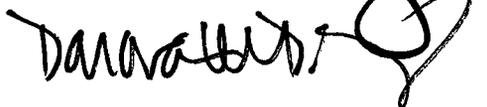

- 1 (1) Prohibit any person from engaging in the practice of
2 measuring human hearing for the purpose of selection
3 of hearing aids; provided the person or the
4 organization employing the person does not sell
5 hearing aids or accessories;
- 6 (2) Prohibit a person in maintaining an established
7 business address from engaging in the business of
8 selling or offering for sale hearing aids at retail
9 without a license; provided that it employs persons
10 licensed under this chapter responsible for the
11 fitting and direct sale of such products; [~~and~~]
- 12 (3) Apply to a person who is a physician licensed to
13 practice in Hawaii[-]; or
- 14 (4) Apply to a person who is licensed as an audiologist
15 pursuant to chapter 468E."

16 SECTION 4. Statutory material to be repealed is bracketed
17 and stricken. New statutory material is underscored.

18 SECTION 5. This Act shall take effect upon its approval.
