# A BILL FOR AN ACT

RELATING TO NATUROPATHIC MEDICINE.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1       SECTION 1. The legislature finds that naturopathic  
2 physicians provide skilled and quality care to patients  
3 throughout the State. Naturopathic physicians also work to  
4 promote integrated health care, such as the use and application  
5 of hormone therapy. Although naturopathic physicians in Hawaii  
6 have some prescriptive authority, they are unable to prescribe  
7 controlled substances. For instance, testosterone is an example  
8 of a controlled substance that is consistent with the practice  
9 of naturopathic medicine, but is prohibited from being  
10 prescribed by naturopathic physicians in Hawaii.

11       The legislature further finds that naturopathic physicians  
12 are known for their expertise in bio-identical hormone  
13 replacement therapy, including the use of estrogens,  
14 progesterone, and testosterone. The legislature also finds that  
15 licensed naturopathic physicians in Hawaii should have  
16 prescriptive authority for testosterone, as it is a controlled  
17 substance that is consistent with the practice of naturopathic

1 medicine. The legislature notes that the prescription of  
2 certain other controlled substances, such as narcotic drugs, are  
3 not considered consistent with naturopathic practice and should  
4 not be included in the naturopathic formulary. The legislature  
5 also notes that controlled substances have been included in the  
6 prescriptive authority for naturopathic physicians in other  
7 states, such as Arizona, California, Oregon, and Washington.

8 The purpose of this Act is to authorize a naturopathic  
9 physician to prescribe and administer testosterone consistent  
10 with naturopathic medical practice.

11 SECTION 2. Chapter 455, Hawaii Revised Statutes, is  
12 amended by adding a new section to be appropriately designated  
13 and to read as follows:

14 "§455- Testosterone; authorization. Subject to any  
15 requirements imposed by the department of public safety and the  
16 federal Drug Enforcement Administration, a naturopathic  
17 physician may register with the department of public safety  
18 pursuant to section 329-33 and may obtain a current federal Drug  
19 Enforcement Administration registration to prescribe and  
20 administer testosterone."

1       SECTION 3.   Section 329-1, Hawaii Revised Statutes, is  
2   amended by amending the definition of "practitioner" to read as  
3   follows:

4       ""Practitioner" means:

5       (1)   A physician, dentist, veterinarian, scientific  
6           investigator, or other person licensed and registered

20           professional practice or research in this State[-];

21       and

1       (4) A naturopathic physician licensed pursuant to chapter  
2       455 who is licensed and registered under section 329-

14 supplements, botanical medicines, homeopathic medicines,  
15 hormones, and those legend drugs and testosterone consistent

2 the board shall have the power to deny, revoke, suspend, or  
3 refuse to renew any license to practice naturopathic medicine

7 following:
