

JAN 19 2018

A BILL FOR AN ACT

RELATING TO SENIOR CITIZENS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the promotion of
2 mental health for our kupuna, or senior citizens, is an
3 important part of overall public health. The legislature
4 further finds that the U.S. Center for Disease Control and the
5 Alzheimer's Association have stated that Alzheimer's disease and
6 other forms of dementia, which disproportionately impact senior
7 citizens, have become a global public health crisis. According
8 to the Alzheimer's Association, there were an estimated twenty-
9 seven thousand people in the State of Hawaii aged sixty-five
10 years and older living with Alzheimer's in 2017; a figure
11 expected to grow to thirty-five thousand by 2025.

12 The legislature additionally finds that the senior citizen
13 population is experiencing dramatic growth, which will
14 exacerbate this public health crisis. The number of Americans
15 sixty-five years and older will grow from 40.3 million in 2010
16 to a projected 74.1 million in 2030, according to the Federal
17 Interagency Forum on Aging-Related Statistics's 2016 report.

1 Similarly, the number of Hawaii residents sixty years and older
2 will grow from 277.4 thousand in 2010 to a projected 448.71
3 thousand in 2030, as stated in the 2011-15 Hawaii State Plan on
4 Aging.

5 While there is no cure for Alzheimer's, several studies and
6 publications, including Jean Carper's book, "100 Simple Things
7 You Can Do to Prevent Alzheimer's and Age Related Memory Loss,"
8 provide evidence that continuing education may delay the onset
9 of Alzheimer's symptoms. The legislature acknowledges that
10 there are several existing programs aimed at promoting mental
11 health for Hawaii's senior citizens through formal education.
12 The university of Hawaii at Manoa's Senior Citizen Visitor
13 Program/Na Kupuna Program allows approximately three hundred
14 Hawaii senior citizens to attend college courses free of charge
15 without receiving university credit. These programs promote
16 lifelong learning for senior citizens while adding senior
17 citizen wisdom and experience to the classroom setting.

18 Therefore, the purpose of this Act is to establish a five-
19 year pilot program at the university of Hawaii at Hilo that
20 allows senior citizens to attend college classes free of charge

1 for no credit and allows senior citizens to receive a reduced
2 tuition for college classes they enroll in for credit.

3 SECTION 2. The university of Hawaii shall establish a
4 five-year senior citizen higher education access pilot program
5 at the university of Hawaii at Hilo. The pilot program shall:

6 (1) Allow individuals aged sixty years or older to attend
7 college classes free of tuition and for no credit;

8 (2) Reduce applicable tuition cost by per cent for
9 individuals aged sixty years or older enrolled in
10 college classes for credit; and

11 (3) Begin in the fall of 2019.

12 SECTION 3. The university of Hawaii shall submit a written
13 report on the progress of the senior citizen higher education
14 access pilot program, including any proposed legislation, to the
15 legislature no later than twenty days prior to the convening of
16 the regular session of 2024. The report shall address but shall
17 not be limited to:

18 (1) The number of pilot program participants who attended
19 college classes for no credit per semester;

20 (2) The number of pilot program participants enrolled in
21 college classes for credit per semester;

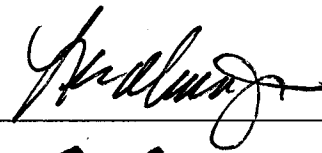

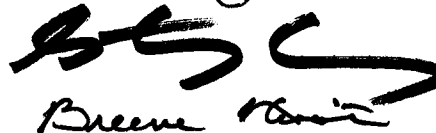

S.B. NO. 2596

- (3) The amount of foregone tuition revenue per semester;
and
(4) The number of degrees attained in part or in whole
because of the pilot program.

SECTION 4. This Act shall take effect on July 1, 2018, and
shall be repealed on June 30, 2024.
