#### THE SENATE TWENTY-NINTH LEGISLATURE, 2018 STATE OF HAWAII

#### S.B. NO. <sup>2662</sup> S.D. 1

# A BILL FOR AN ACT

RELATING TO SUSTAINABLE DEVELOPMENT GOALS.

#### BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds, as declared in the World 2 Conservation Congress Hawai'i Commitments of 2016, that "[w]e 3 must undertake profound transformations in how human societies 4 live on Earth, with particular attention to making our patterns 5 of production and consumption more sustainable. We must 6 recognize that human health and wellbeing depend on healthy 7 ecosystems. We must recognize that every form of life has value - regardless of its worth to humans." Hawai'i has been a leader 8 9 in conservation efforts for decades, through its commitment to 10 environmental and sustainability policies. In the 1970s, the 11 State enacted the State Environmental Policy, chapter 344, 12 Hawaii Revised Statutes, as a mechanism to set environmental 13 goals. While comprehensive, it lacked measurable indicators and 14 enforcement means. Our understanding of the challenges facing our natural environment worldwide have changed remarkably since 15 16 the 1970s and the laws enacted in Hawai'i in recent decades have 17 served as a starlight for other jurisdictions and set a global

1 example on how to adopt policies on sustainability. More recently, several approaches to sustainability have emerged in 2 Hawai'i, including the Aloha+ Challenge, the governor's 3 4 Sustainable Hawai'i Initiative, and other initiatives inspired by 5 the Mālama Honua Worldwide Voyage and Mālama Hawai'i. 6 In July of 2014, the State launched the Aloha+ Challenge: 7 He Nohona 'Ae'oia, A Culture of Sustainability, a statewide commitment to sustainability, with the leadership of the 8 9 governor, four county mayors, Office of Hawaiian Affairs, 10 legislature, and Hawai'i Green Growth public-private partners 11 across the State. The Aloha+ Challenge builds on the State's history of systems thinking, Hawaiian culture and values, and 12 13 successful track record on sustainability to outline six 14 ambitious goals to be achieved by 2030: 15 Clean energy: Achieve seventy per cent clean energy, (1) 16 with forty per cent from renewables and thirty per 17 cent from efficiency; 18 (2) Local food: At least double local food production for 19 local consumption; 20 (3) Natural resource management: Reverse the trend of

natural resource loss mauka to makai by increasing

1		freshwater security, watershed protection, community-
2		based marine management, invasive species control, and
3		restoration of native species;
4	(4)	Waste reduction: Reduce the solid waste stream prior
5		to disposal by seventy per cent through source
6		reduction, recycling, bioconversion, and landfill
7		diversion methods;
8	(5)	Smart sustainable communities: Increase livability
9		and resilience in the built environment through
10		planning and implementation at the state and county
11		levels; and
12	(6)	Green workforce and education: Increase local green
13		jobs and education to implement these goals.
14	To i	ncrease the efforts of the Aloha+ Challenge, the
15	governor	launched the Sustainable Hawaiʻi Initiative in 2016,
16	which inc	ludes five goals:
17	(1)	Double local food production by 2020;
18	(2)	Implement Hawaiʻi's interagency biosecurity plan by
19		2027;
20	(3)	Protect thirty per cent of the highest priority
21		watersheds by 2030;

(4) Manage thirty per cent of nearshore ocean waters by
 2030; and

3 (5) Achieve one hundred per cent renewable energy in
4 electricity by 2045.

5 In May of 2014, Hōkūle'a began a three-year voyage across 6 the world's oceans carrying the message of Mālama Honua - to 7 care for the Earth. Building on the legacy of the Polynesian 8 way finders, the Hōkūle'a Worldwide Voyage inspired actions of 9 conservation across the Hawaiian islands and beyond, resulting 10 in the connection of a lei of aloha around the globe.

At the global level, the United Nations Sustainable 11 12 Development Goals, the World Conservation Congress Hawai'i 13 Commitments of 2016, and the Paris Climate Agreement have been adopted to guide global efforts. The Sustainable Development 14 15 Goals (SDGs), otherwise known as the 2030 Agenda for Sustainable 16 Development, were born at the United Nations Conference on 17 Sustainable Development in Rio de Janeiro in 2012, came into force in 2015, and are a universal call to action to end 18 19 poverty, protect the planet, and ensure that all people enjoy 20 peace and prosperity. The seventeen SDGs are interconnected and work in the spirit of partnership and pragmatism to make the 21

right choices now to improve life, in a sustainable way, for
future generations. They provide a clear framework for action
to guide countries in accordance with their own priorities and
the environmental challenges of the world at large. They tackle
the root causes of poverty and unite us to make a positive
change for both people and planet.

7 Dealing with the threat of climate change impacts how we 8 manage our fragile natural resources, achieving gender equality 9 and better health helps eradicate poverty, and fostering peace 10 and inclusive societies will reduce inequalities and help 11 economies prosper. The SDGs are voluntary commitments to make 12 the world a better and more prosperous place.

13 During September 2016, over ten thousand leaders from government, civil society, indigenous communities, faith and 14 spiritual traditions, the private sector, and academia gathered 15 in Hawai'i for a meeting of the International Union for 16 17 Conservation of Nature World Conservation Congress. Delegates 18 to the Congress adopted the World Conservation Congress Hawai'i 19 Commitments to achieve the transformation required to promote a 20 "Culture of Conservation". The Hawai'i Commitments consist of seven identified challenges and proposed solutions, including: 21

### 2018-1180 SB2662 SD1 SMA.doc

S.B. NO. <sup>2662</sup> S.D. 1

1 (1)Linking spirituality, religion, culture, and 2 conservation; 3 (2)Engaging and empowering youth; 4 The challenge of sustaining the global food supply and (3)5 conserving nature; 6 (4)The challenge of preserving the health of the world 7 ocean; 8 (5) The challenge of ending wildlife trafficking; 9 (6) The challenge of engaging with the private sector; and 10 The challenge of climate change. (7)11 The Hawai'i Commitments build on the Paris Climate Agreement and 12 the SDGs to allow different global voices to come together and 13 find common ground in the spirit of partnership, collaboration, 14 and sustainability. 15 In order for Hawai'i to continue to serve as a starlight for 16 the rest of the world in setting policies on sustainability and 17 to serve as a global leader on issues of conservation and 18 sustainability, it is essential that the State demonstrate its 19 full commitment to its own policies and goals as well as the 20 goals set on the international stage at United Nations conferences and summits on sustainability. 21

#### S.B. NO. <sup>2662</sup> S.D. 1

1	Therefore, the purpose of this Act is to codify the State's		
2	commitment to conservation and sustainability by including goal		
3	one, no poverty, of the seventeen United Nations SDGs and		
4	indicators, with references to existing state sustainability		
5	programs, in the Hawaii Revised Statutes.		
6	SECTION 2. Chapter 226, Hawaii Revised Statutes, is		
7	amended by adding a new section to be appropriately designated		
8	and to read as follows:		
9	" <u>§226-</u> Sustainable development goals; no poverty. In		
10	pursuance of the State's sustainability goals, and		
11	notwithstanding any law to the contrary, all agencies shall,		
12	insofar as practicable, take action to assist the State in		
13	achieving the sustainable development goal of ending poverty in		
14	all its forms everywhere by 2030 by:		
15	(1) Eradicating extreme poverty for all people in Hawaiʻi,		
16	currently measured as a family of four living on less		
17	than \$89 a day;		
18	(2) Reducing at least by half the number of men, women,		
19	and children of all ages living below the federal		
20	poverty level;		

S.B. NO. <sup>2662</sup> S.D. 1

1	(3)	Implementing appropriate social protection systems and
2		measures for all, including floors, and achieving
3		substantial coverage of the poor and the vulnerable;
4	(4)	Ensuring that all individuals, in particular the poor
5		and the vulnerable, have equal rights to economic
6		resources, as well as access to basic services,
7		ownership and control over property, inheritance,
8		natural resources, appropriate new technology, and
9		financial services, including microfinance; and
10	(5)	Building the resilience of the poor and those in
11		vulnerable situations and reducing their exposure and
12		vulnerability to climate-related extreme events and
13		other economic, social, and environmental shocks and
14		disasters."
15	SECT	ION 3. New statutory material is underscored.
16	SECT	ION 4. This Act shall take effect upon its approval.
