# A BILL FOR AN ACT

RELATING TO THE AGRIBUSINESS DEVELOPMENT CORPORATION.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that the quality of local  
2 papaya needs improvement to flourish as an export. While the  
3 flavor and texture of local papaya is highly desired, shelf life  
4 is too short to export in high quantities. Major factors that  
5 may contribute to the poor quality of local papaya include the  
6 transportation of the product, treatment for fruit fly control,  
7 and handling, shipping, and storage of the product prior to  
8 distribution.

9           The legislature further finds that developing and  
10 establishing protocols to enhance the marketability of the  
11 Hawaiian solo papaya can help grow the market. The  
12 establishment of a market standard will provide local farmers  
13 with good practices when growing and harvesting papaya.

14           The purpose of this Act is to appropriate funds to the  
15 agribusiness development corporation to:

16           (1) Identify factors that affect the quality of local  
17           papayas; and

1 (2) Develop and establish protocols to enhance the  
2 marketability of the Hawaiian solo papaya.

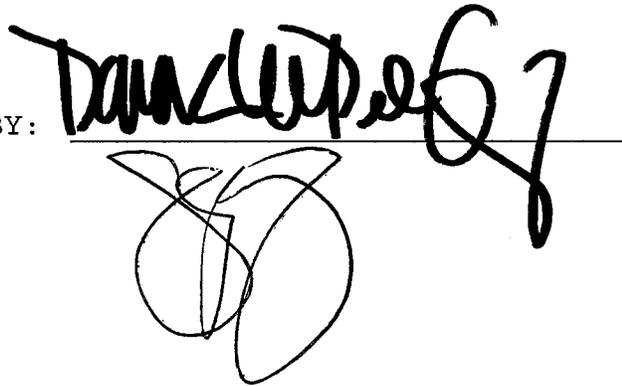

3 SECTION 2. There is appropriated out of the general  
4 revenues of the State of Hawaii the sum of \$ or so  
5 much thereof as may be necessary for fiscal year 2018-2019 to  
6 identify factors that affect the quality of local papayas and to  
7 develop and establish protocols to enhance the marketability of  
8 the Hawaiian solo papaya.

9 The sum appropriated shall be expended by the agribusiness  
10 development corporation for the purposes of this Act.

11 SECTION 3. This Act shall take effect on July 1, 2018.

12

INTRODUCED BY:

# S.B. NO. 3087

**Report Title:**

Agribusiness Development Corporation; Papaya; Appropriation

**Description:**

Appropriates funds to the agribusiness development corporation to identify factors that affect the quality of local papaya and to develop and establish protocols to enhance the marketability of the Hawaiian solo papaya.
