# A BILL FOR AN ACT

RELATING TO ACTUARIAL COSTS OF SEPARATION OF PUBLIC EMPLOYEES  
FROM SERVICE.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The purpose of this Act is to require payment  
2 to the employees' retirement system of the State of Hawaii of  
3 the actuarial cost of the loss of members when the State or a  
4 county separates a significant number of employees from service,  
5 including by transferring facilities or services to an entity  
6 other than an employer whose employees are entitled to  
7 membership in the employees' retirement system.

8           The legislature finds that the elimination of State and  
9 county employee positions, through privatization or closure of  
10 State or county facilities or through workforce restructuring,  
11 can have an adverse impact on the funded status and  
12 sustainability of the employees' retirement system. Currently,  
13 contributions by State and county employers to the employees'  
14 retirement system are based on a percentage of each employer's  
15 payroll and include payments toward the system's accrued pension  
16 liability. If an employer reduces the employer's payroll by  
17 eliminating employee positions, the employer's contributions to

1 the system are reduced, including payments towards the accrued  
2 pension liability. The reduction in the payments towards the  
3 accrued pension liability would impede the reduction of the  
4 system's unfunded accrued liability. In order to prevent  
5 extension of the funding period for the system's unfunded  
6 liability, contributions to the system by all State and county  
7 employers would have to be increased.

8 The purpose of this bill is to ensure that an employer, who  
9 separates a significant number of employees from public service,  
10 bears the economic responsibility to the employees' retirement  
11 system for the consequences of such action.

12 SECTION 2. Chapter 88, Hawaii Revised Statutes, is amended  
13 by adding a new section to be appropriately designated and to  
14 read as follows:

15 "§88- Payment of actuarial costs of separating a  
16 significant number of members from service. (a) If an  
17 employing agency separates a significant number of employees  
18 from service, the employing agency shall pay to the system an  
19 amount equal to the actuarial cost to the system resulting from  
20 the separation from service and the associated fees for the  
21 determination by the system's actuary of the actuarial cost to  
22 the system resulting from the separation from service. Payment  
23 shall be made before October 1 of the second fiscal year

1 following the separation from service; provided that the board  
2 may, on such terms as the board deems reasonable, extend the  
3 time for payment and permit payment in installments. The system  
4 may also charge an employing agency for, and the employing  
5 agency shall pay to the system, the associated fees for the  
6 preparation of any estimates provided by the system to the  
7 employing agency of the actuarial cost to the system of any  
8 proposed separation from service of a significant number of the  
9 employing agency's employees.

10 (b) The actuarial cost to the system resulting from the  
11 separation of employees from service shall include:

12 (1) The expected payments towards the unfunded actuarial  
13 accrued liability over the period described in  
14 paragraph (1) of subsection (c) below; and

15 (2) The present value of any actuarial liability loss,  
16 measured using the actuarial assumptions in paragraph  
17 (2) of subsection (c) below.

18 (c) The actuarial cost shall be determined by the system's  
19 actuary as of July 1 of the fiscal year following separation:

20 (1) Based on an amortization period equal to the shorter  
21 of twenty-five years or the remainder of the  
22 amortization period used for the current employer  
23 contribution rate under section 88-122; and

S.B. NO. 931

1       (2) The actuarial assumptions in effect for the valuation  
2       of the system as of the end of the fiscal year during  
3       which the separation from service occurred; provided  
4       that the investment return assumption shall be reduced  
5       by one percentage point.

6       (d) For the purposes of this section:

7       "Employing agency" means a department of the State, the  
8       Hawaii health systems corporation, the University of Hawaii, the  
9       office of Hawaiian affairs, a department of a county, and any  
10       administrative agencies, boards, and commissions attached to a  
11       State or county department for administrative purposes.

12       "Separation from service" means to cause an individual's  
13       employment to be terminated by abolishing the position held by  
14       the employee, including the transfer of all or a portion of an  
15       employing agency's functions, services, or facilities to a  
16       private entity or the closure of a facility operated by an  
17       employing agency or by terminating the inclusion in the system  
18       of an employing agency's employees.

19       "Significant number" means a number equal to or greater  
20       than the lesser of (1) the number of employees equal to one per  
21       cent of all active members of the system as of the end of the  
22       fiscal year immediately prior to the fiscal year during which  
23       the positions are abolished; or (2) the number of employees

S.B. NO. 931

1 equal to five per cent of the positions to which the employing  
2 agency was entitled at the end of the fiscal year immediately  
3 prior to the fiscal year during which the positions are  
4 abolished."

5 SECTION 3. New statutory material is underscored.

6 SECTION 4. This Act shall take effect upon its approval.

**Report Title:**

Employees' Retirement System; separation from service of public employees

**Description:**

Requires payment to the Employees' Retirement System of any actuarial loss incurred due to separation from service of a significant number of an agency's employees.

*The summary description of legislation appearing on this page is for informational purposes only and is not legislation or evidence of legislative intent.*

JUSTIFICATION SHEET

DEPARTMENT: Budget and Finance

TITLE: A BILL FOR AN ACT RELATING TO ACTUARIAL COSTS OF SEPARATION OF PUBLIC EMPLOYEES FROM SERVICE.

PURPOSE: To require payment by the employer to the ERS of the actuarial cost of the loss of members when the State or a county separates a significant number of employees from service.

MEANS: New section of the Hawaii Revised Statutes.

JUSTIFICATION: As of June 30, 2015, the ERS had a funded ratio of 62.2 percent and an unfunded liability of \$8.7 billion. The current funding period is 26 years. With the HHSC Maui disaffiliation due to Act 103/2015, the expected ERS unfunded liability will increase to \$10.6 billion with a 48 year funding period. As the ERS is a cost-sharing plan, in which all employers contribute, the loss of contributions from one employer must be covered by all other remaining ERS employers.

This bill will ensure that an employer, who separates a significant number of employees from public service, bears the economic responsibility to the ERS for the consequences of such action.

Impact on the public: None.

Impact on the department and other agencies: State and county agencies and departments who wish to separate a significant number of employees from the ERS will have to consider the cost of funding the associated loss of employer and employee contributions caused by facility closures, employee transfer, privatization or workforce restructuring.

GENERAL FUND: See the above.

OTHER FUNDS: See the above.

PPBS PROGRAM  
DESIGNATION: BUF-141/Retirement.

OTHER AFFECTED  
AGENCIES: All State and county public employers.

EFFECTIVE DATE: Upon approval.
