SENATE CONCURRENT RESOLUTION

REQUESTING THE AUDITOR TO CONDUCT A STUDY TO ASSESS THE IMPACT
OF MEDICAL BILL REVIEW COSTS ON THE STATE'S WORKERS'
COMPENSATION SYSTEM.

1 WHEREAS, although workers' compensation premiums in Hawaii
2 have dropped significantly since the reforms in the mid-1990s,
3 it is important to understand the impact of medical bill review
4 costs, which include pharmacy benefit manager and third party
5 administrator costs, on the State's workers' compensation
6 system; and
7

8 WHEREAS, much effort has been devoted to studying the
9 impact of many other costs involved in the State's workers'
10 compensation system, little has been done to review the impact
11 of medical bill review costs; and
12

13 WHEREAS, spending too much money on medical bill review
14 costs ultimately takes money away from injured workers; and
15

16 WHEREAS, claims administrators should be transparent with
17 their medical bill review fees and should disclose any fees
18 charged to the claim file for their medical bill audit process;
19 and
20

21 WHEREAS, medical bill review service fees are typically
22 charged outside of the contracted fixed claim administration
23 fees, and, according to a July 2015 article by the Risk Advisory
24 Practice of Wells Fargo Insurance, the fees may represent up to
25 fifty percent of the total per claim handling fees, depending on
26 the pricing structure that the claim service provider uses; and
27

28 WHEREAS, unfortunately, because medical bill review fees
29 are applied as allocated expenses against the claim files, they

1 are often not considered when comparing total provider service
2 costs; and
3

4 WHEREAS, the manner in which the claim service provider
5 structures these fees can result in a considerable fee
6 differential and cost to the State; and
7

8 WHEREAS, it is crucial that the State understand the fine
9 print of the various fee structures and the implications on
10 their total medical bill review costs; and
11

12 WHEREAS, studying the pricing of medical bill review will
13 help control the cost of the State's workers' compensation
14 system; and
15

16 WHEREAS, it is important that the State look at ways to
17 prevent medical bill review costs from becoming an unreasonable
18 cost driver of health care in workers' compensation claims,
19 while ensuring the same standard of service and care intended
20 for injured employees under the workers' compensation law; now,
21 therefore,
22

23 BE IT RESOLVED by the Senate of the Twenty-ninth
24 Legislature of the State of Hawaii, Regular Session of 2018, the
25 House of Representatives concurring, that the Auditor is
26 requested to study and assess the impact of medical bill review
27 costs on the State's workers' compensation system; and
28

29 BE IT FURTHER RESOLVED that the Auditor complete the study
30 by November 30, 2018, and submit the study and its findings to
31 the Legislature no later than twenty days prior to the convening
32 of the regular session of 2019; and
33

34 BE IT FURTHER RESOLVED that certified copies of this
35 Concurrent Resolution be transmitted to the Auditor, Director of
36 Labor and Industrial Relations, and Director of Human Resources
37 Development.
