

HB2384 HD1

Measure Title:	RELATING TO THE UNIFORM CONTROLLED SUBSTANCES ACT.
Report Title:	Uniform Controlled Substances Act; Withdrawal; Detoxification; Maintenance
Description:	Updates Uniform Controlled Substances Act for consistency with federal law. Allows prescription of drugs to patients undergoing medically managed withdrawal, also known as detoxification treatment and maintenance treatment, by practitioners who are properly registered. (HB2384 HD1)
Companion:	SB2811
Package:	Governor
Current Referral:	CPH, JDC
Introducer(s):	SAIKI (Introduced by request of another party)

**Testimony in SUPPORT of HB 2384 HD 1
RELATING TO THE UNIFORM CONTROLLED SUBSTANCES ACT**

SENATOR ROSALYN H. BAKER, CHAIR
SENATE COMMITTEE ON COMMERCE, CONSUMER PROTECTION, AND HEALTH

Hearing Date: March 15, 2018

Room Number: 229

1 **Fiscal Implications:** None

2 **Department Testimony:** The Department of Health (DOH) strongly supports this bill to clarify
3 how practitioners as defined under the State Uniform Controlled Substances Act may administer,
4 dispense and prescribe schedule III, IV or V narcotic drugs approved by the U.S. Food and Drug
5 Administration for use in maintenance or detoxification treatment, provided the practitioner
6 meets federal and state criteria for a narcotic treatment program. The DOH is aware that the
7 Department of Public Safety (PSD) has introduced language to update Chapter 329, Hawaii
8 Revised Statutes (HRS), to be consistent with federal law by allowing prescribing authorization
9 of drugs including buprenorphine to patients undergoing “medically managed withdrawal”, also
10 known as “detoxification treatment” and “maintenance treatment”, by practitioners who are
11 properly registered. The DOH defers to the PSD on the regulation and implementation of the
12 Uniform Controlled Substances Act and respectfully offers the following comments:

13 The DOH, Alcohol and Drug Abuse Division (ADAD) notes that the practice of
14 prescribing, administering and dispensing medications such as suboxone are critical components
15 of the treatment continuum for persons suffering from opioid use disorders. We also note that
16 the U.S. Substance Abuse and Mental Health Services Administration strongly supports the use
17 of these medications as important components of opioid treatment.

18 This measure is another example of how both the PSD and the DOH are working together
19 on a coordinated and balanced public safety/public health approach to address narcotic addiction.
20 The PSD has been an important and active partner in the development and implementation of the

1 Hawaii Opioid Action Plan. HB 2384 HD1 and its companion SB 2811 SD1 aligns with Plan
2 Objective 1-3: “By December 2018, increase the number of prescribers licensed to prescribe and
3 administer medication-assisted treatment (MAT) such as buprenorphine and suboxone by 25
4 percent.” The full Plan is available at: [https://health.hawaii.gov/substance-](https://health.hawaii.gov/substance-abuse/files/2013/05/The-Hawaii-Opioid-Initiative.pdf)
5 [abuse/files/2013/05/The-Hawaii-Opioid-Initiative.pdf](https://health.hawaii.gov/substance-abuse/files/2013/05/The-Hawaii-Opioid-Initiative.pdf).

6 Thank you for the opportunity to provide testimony.

TESTIMONY ON HOUSE BILL 2384, HOUSE DRAFT 1
RELATING TO THE UNIFORM CONTROLLED SUBSTANCES ACT
by
Nolan P. Espinda, Director

Senate Committee on Commerce, Consumer Protection, and Health
Senator Rosalyn H. Baker, Chair
Senator Jill N. Tokuda, Vice Chair

Thursday, March 15, 2018; 9:30 a.m.
State Capitol, Conference Room 229

Chair Baker, Vice Chair Tokuda, and Members of the Committee:

The Department of Public Safety (PSD) **supports** House Bill (HB) 2384, House Draft (HD) 1, which proposes to amend Hawaii's controlled substances act to clarify state law and mirror federal regulations which permit qualified practitioners to administer, dispense, and prescribe controlled substances for use as medically managed withdrawal treatment, provided that the practitioner complies with specific requirements which mirror federal regulations.

First, HB 2384, HD 1 clarifies that a prescription may not be issued for medically managed withdrawal treatment unless the practitioner complies with Title 21 of the Code of Federal Regulations (CFR) section 1301.28, the registration and any requirements of section 329-32(e), HRS, and "any other federal or state regulatory standard relating to the treatment qualification, security, records, and unsupervised use of drugs."

Second, HB 2384, HD 1 also clarifies that a practitioner who holds a separate Drug Enforcement Administration (DEA) registration as a narcotic treatment program and is in compliance with DEA regulations regarding treatment qualifications, security, records, and unsupervised use of drugs pursuant to this chapter, may administer or dispense directly (but not prescribe) a narcotic drug listed in any schedule for the purpose of medically managed withdrawal.

Third, HB 2384, HD 1 clarifies two additional situations which are referenced in Title 21, CFR, section 1306.07. This bill allows a physician to treat a person to relieve acute withdrawal symptoms for not more than three days without renewal or extension. Also, this bill clarifies the situation wherein a physician or authorized hospital staff may administer or dispense narcotic drugs in a hospital to maintain or detoxify a person as an incidental adjunct to medical or surgical treatment in limited situations.

Fourth, HB2384, HD 1 clarifies that practitioners who are in compliance with federal and state registration requirements related to medically managed withdrawal treatment, and who are also in compliance with federal and state regulatory standards relating to treatment qualification, security, records, and unsupervised drugs may administer, dispense, **and prescribe** any schedule III, IV, or V narcotic drug approved by the United States Food and Drug Administration (FDA) for use in medically managed withdrawal treatment to a narcotic dependent person.

Finally, the exclusionary wording on page 1, lines 10-14, mirrors the wording in Title 21, CFR, section 1308.12. This wording specifically excludes the drug “naloxone” from scheduling as a controlled substance. This allows Naloxone to be administered, dispensed or prescribed without the regulatory controls of a scheduled controlled substance.

Thank you for the opportunity to testify on this measure.

HB2384 HD1 (S) Allows Prescription Drugs for Medical Withdrawal – Buprenorphine

COMMITTEE ON COMMERCE, CONSUMER PROTECTION, AND HEALTH:

- Senator Rosalyn Baker, Chair; Senator Jill Tokuda, Vice Chair

- Conference Room 229

Hawaii Substance Abuse Coalition Supports HB2384 HD1:

GOOD MORNING CHAIR, VICE CHAIR AND DISTINGUISHED COMMITTEE MEMBERS. My name is Alan Johnson. I am the current chair of the Hawaii Substance Abuse Coalition (HSAC), a statewide organization of almost 40 alcohol and drug treatment and prevention agencies.

Buprenorphine, naltrexone, vivitrol, and naloxone are FDA approved and supported by the federal funding agency: Substance Abuse Mental Health Services Administration (SAMHSA) for the treatment for alcohol, methamphetamine and opioid use disorders.

They are essential evidenced-based practices for “Medication-Assisted Treatment.”

While these medications don’t replace counseling or formal addiction treatment, they improve outcomes for receptive or clinically appropriate patients.

We appreciate the opportunity to provide testimony and are available for questions.

The Coalition for a Drug-Free Hawaii Supports HB2384 HD1

ALOHA CHAIR, VICE CHAIR AND DISTINGUISHED COMMITTEE MEMBERS. My name is Greg Tjapkes (chap-kes), and I am the Executive Director of the Coalition for a Drug-Free Hawaii CDFH, a private, non-profit, 501(c) 3 organization that provides innovative programs and services that help keep Hawai'i's children and families healthy, strong, and resilient against drug and alcohol abuse.

CDFH supports evidenced-based practices such as *Medication-Assisted Treatment (MAT)* that utilizes buprenorphine, naltrexone, vivitrol and naloxone. These medications are FDA approved, and are essential to the Substance Abuse Mental Health Services Administration (SAMHSA) supported MAT for the treatment for alcohol, methamphetamine and opioid use disorders.

Thank you for the opportunity to voice our support.

Aloha,

Greg Tjapkes
Executive Director
