Every year I watch students sit in classes with long-term subs and learn little to nothing. Those vacancies are increasing every year. We must invest in our future and give all students an opportunity to receive quality education. Our good teachers are leaving because they can't afford to stay. Our students are suffering! Please support!

Let the citizens decide!
We all have to live with the consequences of poor education funding; we cannot afford to underfund schools. Those who face a future that will either be peopled by citizens well educated or poorly educated have a vested interest in school funding.

As a 4th generation Maui resident, I feel that the state is failing at supporting local families. STOP GIVING NON-RESIDENTS the right to tax privileges, land use privileges, etc.

I want to help Maui kids, and I cannot do it at this rate of pay much longer. I just can't afford rent, bills, etc. and already work 2+ jobs.

Mahalo

DO WHAT IS RIGHT FOR THE LOCAL FAMILIES.

Mahalo for your support of these bills. I am not only a teacher at Lahainaluna HS, I'm also a graduate. As a lifetime member of the community, I have seen teachers come + go and the common thread that ties all those who leave is the low pay + lack of support at the school + classroom level. I have seen the impact + felt the impact this revolving door of teachers has on students.... reinforcing the negative feeling of how unimportant stability is for learning. Please help with your support of these bills.

It is such a struggle to maintain residency in Hawaii with low pay, minimal resources, and lack of support for teachers across the state. Retention is already an issue and is continuing to be a struggle - especially for special education. Special Education is on the lowest rank on the totem pole in my school -- there are vacancies still and our school took a long term sub away from Special Ed. in grades K-2 to favor a part time P.E. position. We are forced to increase workload and are spread so thin! Please support us teachers in Hawaii!

I have been teaching in Hawaii for 23 years & gone through many negotiations where teachers are asking for a raise. I am always disappointed in how the state disrespects teachers & their value in society by offering less than cost of living increase let alone an "actual" raise. I have seen dozens of excellent teachers leave Hawaii because they could not make ends meet on their salary w/ the cost of living in HI. No matter how much support we provide them at the school level we can not change their salary, rent or cost of insurance, food & utilities - so they leave the islands. Don't our Keiki deserve the best possible teachers [redacted] who don't have to work a second job to make ends meet?

Mahalo for your support of these bills.
I'm not only a teacher at Lahainaluna HS,
I'm a graduate + the daughter of a graduate.
Students, families, + community benefit from
teachers who build relationships + grow deep
roots. As a student + as teacher, I have
seen the negative impact that a revolving
door of teachers that come + go – sometimes mid-year –
has in the classroom + with student learning.
Why do I stay? I'm lucky. My spouse will take
over the lease of his father's Hawaiian Homestead land.
Without this support, we might have also left – as my
brother + his wife did, unable to afford the cost of
living on Hawaii. Again, Mahalo for your support

I would like to see qualified teachers finically encouraged to work in Hawaii!

Please find ways to increase teacher salaries.

As a parent of public school students and a public school teacher, I ask you to support these bills:

SB683
SB686
HB180
HB182

Thank you

- After 11 years teaching in Hawaii, I still make $10,000 less per year than when I left So Cal in 2003!
- If I were in my 11th year now at my old district, I would be making $80,000/yr compared to my current $50,000 at HIDOE
- I am not compensated for both of my masters degrees even though I am a school librarian & my 1st masters is in education & my 2nd is in library science. My old district compensates for all relevant degrees, as do most U.S. districts.

Why stay in Hawaii? Would you?

Senator English,

I Strongly urge you to support these bills to increase funding to Hawaii's public schools. Rampant speculation has driven the cost of housing on Maui through the roof. As a teacher with a Master's Degree, my rent accounts for over 50% of my net income. Please take a stand to support Hawaii's students & teachers.

Aloha,

I have recently returned to my childhood home after 15 years in education on the mainland. I have returned to the classroom after working as a teacher coach, school administrator, and education consultant. Happy to be home + teaching again, but absolutely "appalled" that my current paycheck is smaller than it was in my first year of teaching in California in the year 2000. Auwē! Rana Boone

- We need to help teachers with salary increase, help to retain teachers (new & soon to retire).
- ~~help~~ train teachers to be better teachers (mentorship) instead of continuous evaluations (EES) which takes away the fun from teaching.
- Tax foreign investors, hotels & non-residents to support our economy
- Slow down the growth of Maui County since the closing of HC&S see increase in outsiders, social problems, etc. transient community.

I am a high school teacher in my third year. Hawaii students are the most respectful group I have had the pleasure to work with in my career. Yet, when I look to the future, I do not see myself EVER being able to own a home in Hawaii. I barely make ends meet & pay my bills. Students suffer the most, though, due to underfunding. Please support our students & teachers.

Coming from the Northeast, I know exactly how low our property taxes are. I also know how tight the market has become. The rental market as well as ownership market is slowly squeezing everyone. While I am aware of the benefits of part time owners who don't make demands on the county/state resources, there is very little left for people who want to live and work in Hawaii.

The brain drain will only worsen unless something is done.

I have taught at Kidd Elementary School for over 20 years. Within the past 5 years, I as a single person, I have been struggling to care for my ~~elderly~~ mother. As a result, I haven't been able to do hands on projects and experiments with my students, because I can't spend my own money and my school gives ~~me~~ a set amount of money that must be spent within a month and which doesn't cover costs for stores not on approved lists.

I am personally struggling financially to meet the needs of my students.

We are being priced out of the housing market -- rental and ownership. In the 22 years I've taught on Maui, I've seen new teachers arrive in June and leave in July because they couldn't find affordable housing on a starting salary. I've seen leave, reluctantly, because they could pay rent or daycare or student loans.

It's unsustainable - and not just for teachers.

#1 Can teachers with children have an additional 12 days of "family leave" that can be used to stay home to care for sick kids?
① We can provide a doctors note to prove that the kid is sick. Parents use All their sick days just to take care of their sick children. This would really show support of families in the community.

I am a 26 year old, Special education teacher of 4 years. I want to help our students who need extra supports. But this is difficult for a young teacher who is trying to get by with low pay.

Please Help!

Please support teachers by offering a fair contract that compensates teachers for the work we do. Fifty percent of new teachers leave the profession and students deserve highly trained teachers instead of substitutes.

Aloha Rep. DeCoitte and Sen. English,

I teach 2nd grade at Kaunakakai Elementary School. I also volunteer after school teaching music classes to students and community members.

The furniture in my classroom is falling apart. The computers in my room are over 10 years old. Please help fund our schools!

Respectfully,

Robert Underwood

Hawaii is behind in education results nationally and our children deserve better. We are also behind the curve in funding education. California invests over double the amount Hawaii does per pupil. Utilizing the highest taxes in the nation and shuffling this to fund education makes sense. Please invest in our Keiki - let's use our resources to take our keiki into the 21st century prepared! Mahalo Nui!!!

Mahalo for your support of these bills. I am not only a teacher at Lahainaluna HS, I'm also a graduate. As a lifetime member of the community, I have seen teachers come + go and the common thread that ties all those who leave is the low pay + lack of support at the school + classroom level. I have seen the impact + felt the impact this revolving door of teachers has on students.... reinforcing the negative feeling of how unimportant stability is for learning. Please help with your support of these bills.

It is such a struggle to maintain residency in Hawaii with low pay, minimal resources, and lack of support for teachers across the state. Retention is already an issue and is continuing to be a struggle - especially for special education. Special Education is on the lowest rank on the totem pole in my school -- there are vacancies still and our school took a long term sub away from Special Ed. in grades K-2 to favor a part time P.E. position. We are forced to increase workload and are spread so thin! Please support us teachers in Hawaii!

I am a f.t. teacher in Lahaina and had to walk away from having insurance (and pay the penalty → still cheaper than the premium payments) as well as work a second job at night just to pay rent and bills. This is unacceptable and highly disrespectful toward my profession of education. The best way to cure ~~this~~ is to raise salaries. (pretty basic Logic) ** teacher retention problem **

I have been teaching in Hawaii for 23 years & gone through many negotiations where teachers are asking for a raise. I am always disappointed in how the state disrespects teachers & their value in society by offering less than cost of living increase let alone an "actual" raise. I have seen dozens of excellent teachers leave Hawaii because they could not make ends meet on their salary w/ the cost of living in HI. No matter how much support we provide them at the school level we can not change their salary, rent or cost of insurance, food & utilities - so they leave the islands. Don't our Keiki deserve the best possible teachers [redacted] who don't have to work a second job to make ends meet?

Mahalo for your support of these bills.
I'm not only a teacher at Lahainaluna HS,
I'm a graduate + the daughter of a graduate.
Students, families, + community benefit from
teachers who build relationships + grow deep
roots. As a student + as teacher, I have
seen the negative impact that a revolving
door of teachers that come + go – sometimes mid-year –
has in the classroom + with student learning.
Why do I stay? I'm lucky. My spouse will take
over the lease of his father's Hawaiian Homestead land.
Without this support, we might have also left – as my
brother + his wife did, unable to afford the cost of
living on Hawaii. Again, Mahalo for your support

- After 11 years teaching in Hawaii, I still make $10,000 less per year than when I left So Cal in 2003!
- If I were in my 11th year now at my old district, I would be making $80,000/yr compared to my current $50,000 at HIDOE
- I am not compensated for both of my masters degrees even though I am a school librarian & my 1st masters is in education & my 2nd is in library science. My old district compensates for all relevant degrees, as do most U.S. districts.

Why stay in Hawaii? Would you?

I strongly support a state property tax to fund schools. I am concerned that these funds will not make it to the schools. I also worry that lower valued homes will be taxed too much.

As a 4th generation Maui resident, I feel that the state is failing at supporting local families. STOP GIVING NON-RESIDENTS the right to tax privileges, land use privileges, etc.

I want to help Maui kids, and I cannot do it at this rate of pay much longer. I just can't afford rent, bills, etc. and already work 2+ jobs.

Mahalo

- We need to help teachers with salary increase, help to retain teachers (new & soon to retire).
- ~~help~~ train teachers to be better teachers (mentorship) instead of continuous evaluations (EES) which takes away the fun from teaching.
- Tax foreign investors, hotels & non-residents to support our economy
- Slow down the growth of Maui County since the closing of HC&S see increase in outsiders, social problems, etc. transient community.

I am a high school teacher in my third year. Hawaii students are the most respectful group I have had the pleasure to work with in my career. Yet, when I look to the future, I do not see myself EVER being able to own a home in Hawaii. I barely make ends meet & pay my bills. Students suffer the most, though, due to underfunding. Please support our students & teachers.

Coming from the Northeast, I know exactly how low our property taxes are. I also know how tight the market has become. The rental market as well as ownership market is slowly squeezing everyone. While I am aware of the benefits of part time owners who don't make demands on the county/state resources, there is very little left for people who want to live and work in Hawaii.

The brain drain will only worsen unless something is done.

I have taught at Kidd Elementary School for over 20 years. Within the past 5 years, I as a single person, I have been struggling to care for my ~~elderly~~ mother. As a result, I haven't been able to do hands on projects and experiments with my students, because I can't spend my own money and my school gives ~~me~~ a set amount of money that must be spent within a month and which doesn't cover costs for stores not on approved lists.

I am personally struggling financially to meet the needs of my students.

We are being priced out of the housing market -- rental and ownership. In the 22 years I've taught on Maui, I've seen new teachers arrive in June and leave in July because they couldn't find affordable housing on a starting salary. I've seen leave, reluctantly, because they could pay rent or daycare or student loans.

It's unsustainable - and not just for teachers.

#1 Can teachers with children have an additional 12 days of "family leave" that can be used to stay home to care for sick kids?
① We can provide a doctors note to prove that the kid is sick. Parents use All their sick days just to take care of their sick children. This would really show support of families in the community.

One day, I want to own a home too! I have been a teacher since 2008, and, at this rate, even being able to rent a home in Maui in the future will be challenging. I love teaching so much, & I want to be able to stay in the profession & get better! Please help pass this amendment. There is a reason every other state finds ways through property tax!

Please consider this
bill as it is a win-win.
Doesn't negatively effect
any of your constituents and
could make a real and lasting
difference for schools here
in Maui.

We need a
Kihei High School!

Please, in the name of Jesus Christ, do whatever it takes to ensure that moneys are invested in all aspects of education / educators - How can we compromise the quality of education when it is the bridge to all other careers, professions like lawyers, doctors, who are revered in many ways, including pay. Bottom Line: "High Morale, High Productivity" - Honor that which is vital for Hawaii's People & ALL Teachers / Learners, Community!

Senator English,

I Strongly urge you to support these bills to increase funding to Hawaii's public schools. Rampant speculation has driven the cost of housing on Maui through the roof. As a teacher with a Master's Degree, my rent accounts for over 50% of my net income. Please take a stand to support Hawaii's students & teachers.

Aloha,

I have recently returned to my childhood home after 15 years in education on the mainland. I have returned to the classroom after working as a teacher coach, school administrator, and education consultant. Happy to be home + teaching again, but absolutely "appalled" that my current paycheck is smaller than it was in my first year of teaching in California in the year 2000. Auwē! Rana Boone

Please fund quality public education;
I don't want to leave my home,
but I might need to go teach
where I can earn an income
that pays off my student debt.

I am a UH graduate with a degree in teaching and student debt (fed loans) that have no chance of being forgiven as my school no longer qualifies as a title 1 school. I'm a lisenced professional with zero credit card debt and I have a hard time making ends meet. My dream is simply to be able to purchase a small house or condo, for security and well being. Please HELP US! The stress level and lack of time to plan and complete EES is just not worth level of value our state places on us.

As a struggling teacher, trying to continue to do what I love in a place I love, I fully support this Amendment.

I find less time to spend with my family and focus on my students because I need to supplement my pay. This gives me reason to reconsider my position as a teacher. We have seen far too many excellent teachers leave for these very reasons. We need to find a way to make it affordable for teachers to stay.

Please support our keiki by working to decrease teacher turnover. We need to retain quality teachers. Students who have veteran and well trained teachers are much more likely to have a greater + more positive impact on student learning. In order to retain quality teachers it is vital that teacher salary and health care package is one that ~~with~~ we can ~~live~~ live on and raise our families on. Substitute teachers can not = certified dedicated teachers.

I give everything I have to being an effective educator, working 8-10 hour days and multiple hours on the weekends. Our severe teacher shortages (that I see every day) and the basic law of supply and demand show that teachers like me must be honored with a fair, professional, living wage. If the problem is not addressed, good teachers will continue to find other locations and outlets for their service.

Teaching has been the hardest and underpaid profession I have been a part of. Every day I spend countless hours planning for my students, volunteer coaching my elementary school track & field team and other unpaid hours. I spend money out of my pockets to put shoes on their feet and pencils in their hands. I do this because I love them and believe in their potential to make the world a better place. However, I can't go on like this and the schools can't either.

Being away from Hawaii for 9 years teaching in a private I.B. School, I noticed a huge diservice to our keiki in Hawaii. It's so sad to see the things that our keiki are without in the classroom, especially when it comes to qualified teachers. I came back as a sub. even though I am a licensed teacher and there were still, in October, so many vacancies, that's kids without qualified teachers. We need more money for the DOE. That's it. Mahalo!

For what teachers get paid is way under paid & have been getting paid has always been well below the norm. or of simular mainland states with simular cost of living. Teachers don't stay in Hawaii because they cannot afford to live here without at least one second job. This makes it hard on teachers & on students. Students cannot get hold of their teachers since they leave school to go directly to the second job. This is wrong... We need a 10,000+ per year increase to come close to mainland.

- A 1% raise is a joke. (It doesn't account for cost of living ↑)
- A lump sum raise is a joke. (So much is taken out for taxes that it's an insult.)
- We need incentives in order to STAY. Why shouldn't I leave to get paid more in another state? Yet I'm a local to the Big Island.

Many of Hawaii's young adults do not want to pursue teaching careers. Better funding of education may help with this. Also, constantly pouring funds to entice mainland teachers to our state creates an endless cycle of mostly "vacationers" to our education system. as they usually stay for their short-term commitment, then leave

Teacher turn-over is arguably the biggest reason the Public Education System is not serving our keiki like it should be. People want to teach in Hawaii, but can't stay / afford it due to low salaries. There are several hundred vacancies in the DOE this year alone. These positions are being filled by unqualified / untrained people to be teachers. We need to attract and retain talented people who will teach in Hawaii for 20-30+ years. The way to do this is pay higher salaries. This is the way it works in the business world and it is no different in education.

It's not EVEN fathomable with our teacher shortage, + the mindset to "import" teachers (because of pay: cost of living is ONE of the lowest in the nation) we are NOT retaining our best and brightest. -?

He → Teachers coming from elsewhere are not staying. The attrition in the 1st five years is (50+% crazy high!!) teachers

↗ are professionals with 5-8 additional years of college education, all alone at all as such!!!

Please support the listed bills to provide Hawaii's children with properly funded education. Over a hundred years after the overthrow and economic dominance of the Big Five our youth still feel the effects of oppression as being America's most underfunded education system. As a mother and teacher of a Hawaiian immersion charter, I hope all language in education bills specifically and explicitly states equal treatment and benefits for charter

- Funding schools = more educational opportunities for a well-rounded student
- Smaller class sizes = more chances for 1-to-1 relationship-building/bonding.
- Solve chronic teacher shortages by investing in the ~~$~~ local teachers. i.e. salary increase for teachers, instead of paying for housing & stipends for mainland teachers to come to Hawai'i.
- simply believe in teachers to give the public a better "view"!

Some things to remember:
- teachers use hundreds if not thousands of their own money to fill the needs of their classrooms.
- teachers work overtime to meet deadlines or to create rich, meaningful activities for their keiki.
- cost of living, health insurance are rising and teachers are struggling to take care of their own families.

There needs to be funding that is reliable. If society wants a civil and productive society that is economically sound, it needs to invest in its communities and have an educated workforce. Education is my second career and in my previous employ, I was always provided the needed supplies and resources. Not so in education. I end up spending my own money, thousands of dollars, which are not considered tax deductible! I have 2 jobs to make this happen. How unfortunate if you want to be a great teacher - you have to spend your own money. ☹

Honorable Congressmen,

I humbly ask you to consider supporting our students via approving the bills to enact a Constitutional Amendment. Here are things I have had to buy this month alone for my students: food, notebooks, pencils, paper towels, 'easy reader' books for my most impaired special education students, valentines (because I love all my kids!), slippers, scissors, online worksheets and curriculum, new markers and more. We love and fund our kids - but I want to do that with the abundant tourism funds rather than with my diminishing paycheck.

A first year teacher at our school is having a great year teaching and inspiring her students. She is a natural born educator. talented, smart, caring and genuine.
However, she is contemplating returning next year because the pay is not enough to support her and her baby. It will be horrific to lose her.

A few months ago, I read in West Hawaii Today that a BOE member's suggestion to solve the teacher shortage was to recruit teachers from other countries. Ridiculous!

We need a long term solution that will improve our Hawaii education system - not stop gap temporary measures. This proposal would address many areas ~~that needed~~ and will create a stronger education system for our keiki. They are the future of Hawaii and they deserve better.

Our schools desperately need more financial support. Funds are in such short supply, as a Kindergarten teacher, I buy many basic needed supplies w/ my own $: Paper towels, pencils, erasers, Kleenex, markers, and even wipes to help disenfect tables when students are sick. Please support our public schools!

A first year teacher at our school is having a great year teaching and inspiring her students. She is a natural born educator. talented, smart, caring and genuine.
However, she is contemplating returning next year because the pay is not enough to support her and her baby. It will be horrific to lose her.

A few months ago, I read in West Hawaii Today that a BOE member's suggestion to solve the teacher shortage was to recruit teachers from other countries. Ridiculous!

We need a long term solution that will improve our Hawaii education system - not stop gap temporary measures. This proposal would address many areas ~~that needed~~ and will create a stronger education system for our keiki. They are the future of Hawaii and they deserve better.

Our schools desperately need more financial support. Funds are in such short supply, as a Kindergarten teacher, I buy many basic needed supplies w/ my own $: Paper towels, pencils, erasers, Kleenex, markers, and even wipes to help disenfect tables when students are sick. Please support our public schools!

THE HONORABLE TY J.K. CULLEN, VICE CHAIR
AND MEMBERS OF THE COMMITTEE ON FINANCE

FROM: ROBERT O. MAGOTA, ASSISTANT ADMINISTRATOR
CITY AND COUNTY OF HONOLULU

SUBJECT: COMMENTS ON S.B.683, SD2, HD1

The City and County of Honolulu (City) has serious concerns about S.B.683, SD2. This bill proposes amendments to Articles VII and X of the State Constitution to authorize the Legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

Article VII, section 3 of the State Constitution reserves to the State the power to tax, except all functions, powers and duties relating to the taxation of real property, which is to be exercised exclusively by the counties. Real property taxes and are the most significant source of revenue for the City. This measure encroaches into the City's only permanent taxing authority. The State, unlike the City, has a wide range of taxing authority and can impose other taxes to increase funding for public education. Under Article X of the State Constitution, the State is solely responsible for the education of Hawaii's students.

Thank you for your consideration of these concerns.

Honorable Sylvia Luke, Chair
House Committee on Finance

RE: Senate Bill 683 SD2 HD1: Proposing Amendments to articles VII and X of the Constitution of the State of Hawai'i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

Aloha Chair Luke, Vice Chair Cullen and members of the House Committee on Finance:

I am Denise Wardlow, General Manager of The Westin Princeville Ocean Resort Villas. I am testifying on behalf of The Westin Princeville in opposition to SB683 SD2 HD1 which proposes amendments to articles VII and X of the Constitution of the State of Hawai'i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education. As much as we support improving upon our state's education system we must take into consideration the tax burden our visitor industry already bears.

Higher Taxes/Fees Hurt our Ability to Compete. In recent years, the state permanently raised the Transient Accommodations Tax, to the point where guests now pay a TAT of 9.25 percent. Coupled with the General Excise Tax, guests pay a 13.41 percent tax on Kaua'i. Hawai'i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, both domestically and internationally.

Tourism Already Is the State's Revenue Producer. Tourism continues to be the largest single source of private capital for Hawai'i's economy. Recent reports have noted that tourism accounted for 190,000 jobs, that visitor spending last year totaled $15.6 billion, a new high, and that the state's tax take was $1.82 billion. Of that sum, TAT revenues alone accounted for nearly $447 million for the state's coffers last fiscal year.

The Westin Princeville Ocean Resort Villas is operated by Vistana™ Signature Experiences, Inc., under license issued by Westin Hotel Management L.P.

But the hospitality industry in not an infinitely prosperous, infinitely taxable entity. Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai'i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.

TAT Revenue to the General Fund. More than half of Transient Accommodations Tax revenue now goes to the General Fund. While the TAT was established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended. We would surmise that public education may be already receiving a share of TAT revenue through its General Fund budget allocations.

Uncollected Revenue. The state government is not collecting Transient Accommodation and General Excise taxes on transient vacation rentals. The industry has gone on record as supporting legislation that would ensure a level playing field for all visitor accommodations, from the traditional hospitality businesses to the alternative accommodations offered online. There are tens of thousands alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding our 9.25 percent Transient Accommodations and General Excise taxes. Rather than outlaw these transient vacation units, or raise the TAT, the state government should collect the millions of dollars in taxes now being avoided.

For these reasons, I oppose raising taxes and leveraging extra fees on the visitor industry and we respectfully urge you to delete the surcharge directed at the visitor industry.

I appreciate the opportunity to testify.

Mahalo,

Denise Wardlow

General Manager

DENISE
WARDLOW

LATE

To: House Finance Committee
From: Deborah Bond-Upson
Date: February 27, 2017
Re: SB 683 and SB 686

This testimony is in strong support of SB683 and SB686.

I have spent decades in support of public education and working in the education sector in education innovation for non-profit and for-profit education networks of schools, publishers, teacher professional development curriculum solutions.

For the past seven years I have lived in Kailua and have been active as a board member of Parents for Public Schools Hawaii. With PPS-HI, I have visited many schools and helped to deliver evening "Transition Night" sessions with parents, principals, teachers and community members. Several years ago, I developed a US DOE i3 grant proposal for Hawaii schools with the National Board for Professional Teaching Standards with support of then Governor Abercrombie, HSTA, and HI DOE innovation department. We did not receive the grant, but the work gave me more insight into Hawaii school needs.

Classrooms without permanent teachers or substitute teachers certified or even familiar with their subject are alarming for parents and students through out the state. This urgent situation is caused by Hawaii teacher salaries near the bottom of U.S. state rates at the same time our state has higher cost of living. As a result teachers are unable to continue teaching in Hawaii or are forced to take on additional jobs.

Teaching is a demanding and complex task—especially with students of diverse languages and cultures. Educators know that teachers reach experienced quality teaching in their 7 th year of teaching. Yet our Hawaii teachers average 5 years in the job due to salary and working condition issues.

In addition to underpay, teachers and students must attempt learning in schools with safety issues and classrooms without air-conditioning. Teachers and students have fainted and in some cases had to go to the hospital.

Our aim is to nurture lifelong learning skills for students, the motivation to stay in Hawaii, and mastery of academics, career and college readiness. To achieve economic stability and growth, we must develop and group new businesses in Hawaii, providing the education needed to staff those industries of today and tomorrow.

Of course it is difficult for Hawaii residents to endure increases in taxes. But the tax increases suggested are the most bearable. Further, enacting this surcharge tax will enable success of students and retention of teachers and success of students, which will raise the quality of life in Hawaii and ensure a sustainable future.

For these reasons and more, I urge you to act on behalf of our keiki, our teachers, and the economic health of our state—by passing SB 683 and SB 686.

I thank you for considering my comments. Mahalo.

Testimony of

Mufi Hannemann
President & CEO
Hawai'i Lodging & Tourism Association

House Committee on Finance

Senate Bill 683, SD2 HD1: Proposing Amendments to articles VII and X of the Constitution of the State of Hawai'i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

Chair Luke, Vice Chair Cullen and members of the Committee, mahalo for the opportunity to offer this testimony on behalf of the more than 700 members of the Hawai'i Lodging & Tourism Association.

HLTA opposes Senate Bill 683 SD2 HD1, which proposes amendments to articles VII and X of the Constitution of the State of Hawai'i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education. As much as we support improving upon our state's education system we must take into consideration the tax burden our visitor industry already bears.

Our respectful opposition is based on the following reasons:

Higher Taxes/Fees Hurt our Ability to Compete. In recent years, the state permanently raised the Transient Accommodations Tax, to the point where guests now pay a TAT of 9.25 percent. Coupled with the General Excise Tax, guests pay a 13.41 percent tax on the Neighbor Islands and 13.96 percent on O'ahu. Hawai'i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, both domestically and internationally.

Tourism Already Is the State's Revenue Producer. Tourism continues to be the largest single source of private capital for Hawai'i's economy. Recent reports have noted that tourism accounted for 190,000 jobs, that visitor spending last year totaled $15.6 billion, a new high, and that the state's tax take was $1.82 billion. Of that sum, TAT revenues alone accounted for nearly $447 million for the state's coffers last fiscal year.

But the hospitality industry in not an infinitely prosperous, infinitely taxable entity. Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai'i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.

Comments: Aloha Chair Luke, Vice Chair Cullen and members, We rank low as a state in a number of metrics with respect to our public schools, Per-capita dollars on pupils and teacher retention to name two. Although everyone seems to say that they support public education, too many in the business community, the anti-tax groups and the general public are unwilling to pony up the dollars necessary to actually improve the situation. How short-sighted. Where are business going to get quality employees in the future? What will happen to entire communities that fall farther into poverty as a direct result of lack of education? What kind of citizens will we have with substandard education? The Women's Coalition has always been in support of better funding for our public schools and better pay for our teachers. In our small state with its equally small tax base, this seems to me to be our best hope for a way to get the necessary funds to our public schools, It has the added benefit of buy-in by the public since we would be the ones to approve. Mahalo, Ann S. Freed Co-Chair Hawaii Women's Coalition

Testimony for: House Finance Committee
SB 683 and SB 686 - RELATING TO EDUCATION
Hearing on Tuesday, April 4, 2017

Aloha,

My name is Michał Nowicki and I am a teacher at the University Laboratory School. I have been teaching in Hawaii Public Schools for 9 years. I am writing in strong support of SB 683 and SB 686 to increase funding for public schools.

Hawai'i public schools have ranked at the bottom of our nation's schools for too long. Our children deserve better opportunities, facilities, and teachers. The state entrusts teachers with care for our youth, yet, year after year, has fallen short in supporting us in our profession.

I and many teachers have made a considerable effort to share our concerns with the Department of Education and the Board of Education over the course of the last two years, however, very little meaningful action has been taken to avert a dangerous course on which we have stayed for far too long. Somehow, we always hear that there simply is not enough money for our public schools. The proposed SB 683 and SB 686 provide a means to address this critical issue.

Over the course of the last two years, I saw 6 of my teacher friends leave public schools. They now work for private schools, in the private sector, or have left the state for good. Those were all highly educated, and effective teachers, who each gave almost 10 years to the public classrooms. They, like many of us in our 30's, are forced to seriously consider the extent of the sacrifice we have made to provide our services to the public.

And although our hearts are in public education, when our wallets are empty, when we know that we won't be able to afford a mortgage, when confronted with the fact that we just gave 10 years of our lives, sweating in hot and overcrowded classrooms, and have nothing to show for it as evidenced by our empty bank accounts, it is hard for us not to reconsider our commitments.

One of my friends received a $15,000 raise when she moved to work at a private school. She is now responsible for a total of only 80 students, about a half of the 150 she taught in the public setting. She also enjoys better benefits, more preparation time, air conditioning, and does not have to worry about buying her own supplies.

Her departure, like so many others, is a huge loss for the public school community that in the current climate will struggle to replace her with a qualified teacher. Ironically, this is a win for the community of the wealthy and privileged, whose children will now greatly benefit from this amazing teacher joining their private school.

How can public schools fight to retain their teachers if we are taking massive pay cuts to work for the Hawai'i DOE? The disparity in pay is especially striking for more experienced teachers – teachers that our public schools and thousands of children desperately need.

Our public schools are facing a crisis. Unless we create a working source of funding for our schools, we will see a revolving door of under-qualified educators replacing our highly effective teachers who leave classrooms in order to pursue opportunities that won't require them to give up their financial stability.

And, ultimately, if the state cannot pick up the tab, all of our kids will pay in a currency that can never be matched in dollars.

Michal Nowicki

Testimony to the House Committee on Finance
Submitted by Cuyler Otsuka
In strong support for SB 683, SD 2, HD 1 & SB 686, SD 2

Chair Sylvia Luke and Members of the House Committee on Finance:

My name is Cuyler Otsuka. I was born and raised on the Waianae Coast and I am a special education teacher at Waianae Elementary School. I write to you in **strong support** of both SB 683, SD 2, HD 1 and SB 686, SD 2.

I have worked for two public schools on the Waianae Coast over the past three years. Although the bills highlight many of the shortfalls our public schools experience, I want to share some programs at public schools along the Waianae Coast that inspire my passion for education:

- In 2010, the Nanakuli–Waianae Complex received funding for a one-to-one device program for all of the public schools within the complex;[1]
- At Waianae Elementary School and Kamaile Academy, students receive arts instruction from world-renowned artists and local organizations such as Jack Johnson, Jake Shimabukuro, Paula Fuga, and Honolulu Theatre for Youth[2, 3, 4] through President Obama's Turnaround Arts Initiative;
- Waianae High School's innovative, renowned multimedia production group Searider Productions, led by Waianae High School students, has been named a Distinguished Program by Apple[5] and has won accolades in contests nationwide;[6]
- Nanaikapono Elementary School is home to the first and only community-focused museum established in a Hawaii public school. The museum, established in 1970,[7] houses invaluable Native Hawaiian artifacts and treasures gifted by community residents and kupuna;[8]

[8] http://www.hawaiiancouncil.org/members/nanaikapono-community-school-museum/

- Waianae Intermediate School's school-based health center, opened in 2016, helps to combat health problems and keeps students in school;[9]
- The Nanakuli High and Intermediate School Performing Arts Center, founded in 1991,[10] is a creative, inclusive group that students are proud to call "Nanakuli's 'best-kept secret.'"[11]

These programs are exciting and innovative. But all of them are impossible without financial support, hard work and long hours. The House Finance Committee has the power to allocate resources within the State Budget. As members of the Finance Committee, I am certain you are acutely aware of our state's budget constraints on the spending-side. However, I would like to offer the perspective that our state cannot afford to ignore the revenue-side for the sake of political expediency or ideology.

A. <u>Federal austerity increases pressure on state and local budgets.</u>

The present reality is that, with Donald Trump as the current President and Betsy DeVos as the current Secretary of Education, the current administration's agenda is to devolve social programs and services to the states:

- On health care, House Speaker Paul Ryan proudly proclaimed: "We are de-federalizing an entitlement, bloc granting it back to the states, and capping its growth rate. That's never been done before."[12]
- President Trump's pick for the Secretary of the Environmental Protection Agency, Scott Pruitt, once said that "the EPA was never intended to be our nation's foremost environmental regulator,"[13] arguing instead that states should be tasked with environmental protection.[14]
- President Trump's proposed budget also "de-federalizes" programs like Meals on Wheels and disaster mitigation.[15] Office of Management and Budget Director Mick Mulvaney argued that states should be responsible for funding: "that's a state decision to fund that particular portion";[16]

[16] https://www.usatoday.com/story/news/politics/2017/03/18/meal-on-wheels-trump-budget-proposal-cuts/99308928/#

- President Trump's proposed budget also eliminates entirely the National Endowment for the Arts,[17] which—along with the Department of Education and other local and partners—provides funding for invaluable experiences like the Turnaround Arts Program,[18] which has provided my students and colleagues an unforgettable experience.

This administration's unprecedented plan would shift the responsibility of Medicare, Medicaid, education, environmental protection, disaster mitigation, and other social programs onto the backs of state governments. Given President Trump's vision of devolving fiscal responsibilities to state legislatures, Hawaii will experience increased expenditure demands trying to fill the void left by the current administration's fiscal austerity.

Unprecedented federal cuts to spending on local programs means that local governments will need to find unprecedented means to offset those cuts.

B. <u>Investment properties and tourism are gentrifying Hawaii, creating negative externalities.</u>

The cost of living is increasing in Hawaii due to gentrification and the drastic increase in housing costs.[19] As written, SB 686, SD 2 taxes investment property as a surcharge of $1,000 for properties valued above $2 million. Therefore, this tax is narrowly tailored toward wealthy investors who use luxury properties to earn a quick profit—not to live in permanently. It is only fair that we ask the wealthy to pay their share for doing business and making a handsome profit in the State of Hawaii.

By far, the largest negative externality from gentrification combined with a severe shortage in truly affordable housing is homelessness.[20] A 2013 New York Times article found that, in gentrifying neighborhoods like Bedford–Stuyvesant and Brownsville, the average rent increased by 22 percent over a span of five years and effectively priced out low-income renters, sending generations-long community members into nearby homeless shelters. "The poor are not simply competing with wealthier newcomers for limited housing; the poor are competing with one another."[21]

In a civil society, it is the government's responsibility to limit the effects of negative externalities on its citizens. By tailoring taxes to ultra-wealthy investors whose projects drive up the cost of precious land, SB 686, SD 2 fulfills that responsibility.

C. <u>The Legislature has the power to transform our public education system for the better.</u>

The Constitution of the State of Hawaii mandates that the State provide a "statewide system of public schools," making education spending mandatory.[22] Yet, many of our public schools' needs remained ignored over the years, leading to overheated,[23] overcrowded[24] and understaffed[25, 26] schools—especially for our highest-need populations: Title I schools and special education classrooms. Impermanence, instability, large student-to-teacher ratios, and deteriorating campus facilities are among the largest obstacles to our students, faculty, and staff at schools across the state. The proposed constitutional amendment would address these systemic obstacles and more.

The Legislature has a constitutional obligation to fund public education. But the Legislature also has the power to ensure that our public education system will have the funding it needs to become among the best in the nation.

The State <u>can</u> sustainably and cost-effectively keep up with the ever-increasing demand for public services. But it can do so only through generating revenue without pricing out our residents. SB 683, SD 2, HD 1 and SB 686, SD 2 together will enable the State to tap into two increasingly lucrative markets—investment property and tourism—in order to fund the education that our keiki truly deserve.

Mahalo for your consideration.

Cuyler Otsuka,
Proud public school teacher and community member of the Waianae Coast.

Hawaii Public Charter Schools Network

April 4, 2017

To: Honorable Sylvia Luke, Chair
Honorable Ty J.K. Cullen, Vice Chair
House Committee on Education

From: Jeannine Souki, Executive Director
Hawaii Public Charter Schools Network

Re: SB683 SD2 HD1 – PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE STATE CONSTITUTION TO AUTHORIZE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE SUPPORT FOR PUBLIC EDUCATION– Support

SB686 SD2 – RELATING TO EDUCATION FUNDING – Support

Conference Room 308 – Hawaii State Capitol – April 4, 2017, 3:00 P.M.

On behalf of the Hawaii Public Charter School Network (HPCSN), please find our testimony in support of SB683 SD2, HD1, Relating to Education Funding, and SB686 SD2, Proposing Amendments to Articles VII and X of the Constitution of the State of Hawaii to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

In tandem, these bills establish an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education. We support public education in both charter schools and traditional schools as one of the highest purposes of the state.

Here are top 10 reasons why we are calling for this investment:
10. An educated population is the cornerstone of democracy. This nation's well-being depends on the decisions of its educated, informed citizens.

9. Education reduces costs to taxpayers. For every dollar spent to keep a child in school, the future costs of welfare, prison, and intervention services are reduced. It can cost less to educate a child now than to support a teenage parent or a repeat offender in the future. Education monies help to secure the future of all citizens.

8. Public schools are the only schools that must meet the needs of all students. They do not turn children or families away. Public schools serve children with physical, emotional, and mental disabilities, those who are extremely gifted and those who are learning challenged, right along with children without special needs.

7. Public schools foster interactions and understanding among people of different ethnic, religious, and socioeconomic backgrounds.

6. "Education is the best provision for old age"-- Aristotle. The future support of our aging population depends on strong public schools. In 1954, there were 17 workers to pay the Social Security cost for each retiree. By 1995, there will be only three for each retiree. It is likely that the productivity of these three workers per retiree will depend on the strength of our public school systems.

5. More than 95 percent of our future jobs will require at least a high school education. There is no question about the need for an educated work force.

4. The nation pays a high price for poorly educated workers. When retraining and remediation are needed to prepare a worker to do even simple tasks, the cost is paid by both employers and consumers. This process raises the price of American products and makes it more difficult for this nation to compete in the world marketplace.

3. The cost of dropouts affects us all. This nation loses more than $240 billion per year in earnings and taxes that dropouts would have generated over their lifetimes.
Well-supported public schools can engage all students in learning and graduate productive and competent citizens.

2. Children are our nation's future. Their development affects all of us. Good education is not cheap, but ignorance costs far more.

And the Number One reason to support public education. . .
1. Public education is a worthy investment for public funds. We can invest now, or we can pay later.
HPCSN works to support Hawaii's public charter schools and to be a voice for children and families that seek choice in an independent public school setting.

HPCSN works to support public charter schools in Hawaii and to be a voice for children and families that seek choice in an independent public school setting. We appreciate your favorable consideration of these bills.

Deborah Matthews
Student Services Coordinator, Pahoa Elementary School

Chair Luke and Members of the Committee:

My name is Debbie Matthews. I am a teacher and Student Services Coordinator at Pahoa Elementary School in Hawai`i District on the Big Island. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers, who often must leave the profession to provide for their own families.

We need additional funding for our public schools, because we reside in one of the poorest areas in the State, in one of the smaller schools. A consistent funding source will provide the best chance to plan for and provide the educational resources (personnel, programs, and facilities) keiki need.

We teachers are not alone in trying to provide a safe and educationally rich environment for our keiki. The parents here want the best for their children, as you do for yours. It has been substantiated through many avenues that the earning gap is huge between those who are well educated and those who are not. These parents work hard, and deserve to have their children provided the best springboard possible to a future brighter than that of precarious subsistence.

To deliver the schools our keiki deserve, please support these bills.

We need your help. Mahalo.

Debbie Matthews, Hawai`i District, Pahoa Elementary School

LATE

Testimony for: House Finance Committee
SB 683 and SB 686 - RELATING TO EDUCATION
Hearing on Tuesday, April 4, 2017

Aloha,

My name is Michał Nowicki and I am a teacher at the University Laboratory School. I have been teaching in Hawaii Public Schools for 9 years. I am writing in strong support of SB 683 and SB 686 to increase funding for public schools.

Hawai'i public schools have ranked at the bottom of our nation's schools for too long. Our children deserve better opportunities, facilities, and teachers. The state entrusts teachers with care for our youth, yet, year after year, has fallen short in supporting us in our profession.

I and many teachers have made a considerable effort to share our concerns with the Department of Education and the Board of Education over the course of the last two years, however, very little meaningful action has been taken to avert a dangerous course on which we have stayed for far too long. Somehow, we always hear that there simply is not enough money for our public schools. The proposed SB 683 and SB 686 provide a means to address this critical issue.

Over the course of the last two years, I saw 6 of my teacher friends leave public schools. They now work for private schools, in the private sector, or have left the state for good. Those were all highly educated, and effective teachers, who each gave almost 10 years to the public classrooms. They, like many of us in our 30's, are forced to seriously consider the extent of the sacrifice we have made to provide our services to the public.

And although our hearts are in public education, when our wallets are empty, when we know that we won't be able to afford a mortgage, when confronted with the fact that we just gave 10 years of our lives, sweating in hot and overcrowded classrooms, and have nothing to show for it as evidenced by our empty bank accounts, it is hard for us not to reconsider our commitments.

One of my friends received a $15,000 raise when she moved to work at a private school. She is now responsible for a total of only 80 students, about a half of the 150 she taught in the public setting. She also enjoys better benefits, more preparation time, air conditioning, and does not have to worry about buying her own supplies.

Her departure, like so many others, is a huge loss for the public school community that in the current climate will struggle to replace her with a qualified teacher. Ironically, this is a win for the community of the wealthy and privileged, whose children will now greatly benefit from this amazing teacher joining their private school.

How can public schools fight to retain their teachers if we are taking massive pay cuts to work for the Hawai'i DOE? The disparity in pay is especially striking for more experienced teachers – teachers that our public schools and thousands of children desperately need.

Our public schools are facing a crisis. Unless we create a working source of funding for our schools, we will see a revolving door of under-qualified educators replacing our highly effective teachers who leave classrooms in order to pursue opportunities that won't require them to give up their financial stability.

And, ultimately, if the state cannot pick up the tab, all of our kids will pay in a currency that can never be matched in dollars.

AQUA-ASTON
HOSPITALITY

LATE

April 4, 2017

Committee on Finance
Representative Sylvia Luke, Chair
Representative Ty J.K. Cullen, Vice Chair

Re: SB 683, SD2, HD1 Proposing Amendments to Articles of the Constitution to Establish a Surcharge on Residential Investment Property and Visitor Accommodations to Increase Funding for Public Education

Dear Representatives Luke and Cullen:

My name is Kelvin Bloom. I am the Manager and CEO of Aqua-Aston Hospitality, LLC ("Aqua-Aston"), which manages and operates many hotels and condominium hotels in the State of Hawaii. Aqua-Aston strongly opposes Senate Bill 683, SDS2, HD1 which proposes amendments to Articles VII and X of the Constitution of the State of Hawaii to authorize the Legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education. Levying additional fees on visitor accommodations is not justifiable.

Yes, the hospitality industry has enjoyed growth; however, the visitor industry cannot be viewed as the sole source of endless wealth for the government if Honolulu wishes to retain its status as a prime visitor destination for years to come. Hawaii consistently ranks among the jurisdictions with the highest tax rates for lodging accommodations. We currently have the nation's highest lodging tax at 13.75% combining our general excise tax and transient accommodation taxes. The hospitality industry, which competes nationally and internationally against lower-priced and easier to reach destinations, cannot continue to pass on tax increases to our visitors who also have to deal with the State's high cost of living and the ever-increasing cost of airfare.

As hotel managers, we are keenly aware of Hawaii's tenuous position in the visitor market and the significant cost that a guest must incur to make a Hawaii vacation a reality. Any force which adversely impacts our ability to compete, including having to pass along additional fees, will negatively impact Hawaii's appeal as a visitor destination, the availability of money to invest in new hotel properties or renovate existing properties, and employment within the hospitality industry and related travel businesses. Recently, the City Council of Honolulu considered a bill which would place hotel and resort properties at the highest real property tax bracket in the County. The negative impact on the visitor industry from any additional levies will have a ripple down effect throughout our entire community that will be difficult to reverse.

2155 Kalakaua Avenue, 5th Floor | Honolulu, HI 96815
P 808.931.1400 F 808.931.1534 | aqua-aston.com

As the number one private sector employer in the State, as well as one of the highest taxed economic sectors, the hospitality industry is not able to withstand further levies. The cost of doing business in Hawaii is already making it difficult for companies to turn an equitable profit. Increased taxes would force our hotels and resorts to cut operational costs, reduce our workforce and curtail incentives.

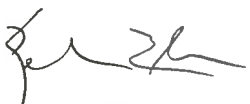
Last year, transient accommodation tax revenue totaled approximately $447 million. From that amount, more than half of the tax revenue was funneled into the General Fund despite the fact that the transient accommodation tax was established to fund the promotion and marketing of the visitor industry. In the same manner that the transient accommodation tax is no longer fulfilling its purpose, how can we even be certain that the proposed surcharge will be used to fulfill its purpose of supporting public education?

As a member of the visitor industry, Aqua-Aston contributes greatly to community charities including the Aloha United Way and the Visitor Industry Charity Walk in order to support worthy causes. Through our contributions, the visitor industry has greatly assisted the government in tackling community issues such as providing school supplies to children, and feeding and housing the homeless. If the legislature continues to impose additional levies on the visitor industry, we will not only lose our spot as a prime visitor destination, but our ability to assist in funding such charitable causes will also have to be curtailed.

Finally, the State is already missing out on millions of dollars of transient accommodation and general excise taxes as a result of its inability to enforce and collect from illegal vacation rentals in the State. There are tens of thousands of alternative accommodations in the islands competing with legitimate hotels, resorts, timeshares and vacation rentals. Does the State believe that imposing an additional levy will assist it in collecting the millions of dollars of tax revenue that it is already not collecting?

For the foregoing reasons, Aqua-Aston strongly opposes Senate Bill 683, SD 2, HD1. Thank you for the opportunity to testify.

Sincerely,



Kelvin Bloom
Manager and CEO

Hilton

LATE

Testimony of

Jerry Gibson
Area Vice President
Hilton

House Committee on Finance

Senate Bill 683, SD2 HD1: Proposing Amendments to articles VII and X of the Constitution of the State of Hawai‘i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

Chair Luke, Vice Chair Cullen and members of the Committee, mahalo for the opportunity to offer this testimony on behalf of the more than 4,000 Hilton team members in Hawaii.

We oppose Senate Bill 683 SD2 HD1, which proposes amendments to articles VII and X of the Constitution of the State of Hawai‘i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education. As much as we support improving upon our state's education system we must take into consideration the tax burden our visitor industry already bears.

Our respectful opposition is based on the following reasons:

Higher Taxes/Fees Hurt our Ability to Compete. In recent years, the state permanently raised the Transient Accommodations Tax, to the point where guests now pay a TAT of 9.25 percent. Coupled with the General Excise Tax, guests pay a 13.41 percent tax on the Neighbor Islands and 13.96 percent on O‘ahu. Hawai‘i has reached the point where high business costs and tax rates make it increasingly difficult for business to be competitive, both domestically and internationally.

Tourism Already Is the State's Revenue Producer. Tourism continues to be the largest single source of private capital for Hawai‘i's economy. Recent reports have noted that tourism accounted for 190,000 jobs, that visitor spending last year totaled $15.6 billion, a new high, and that the state's tax take was $1.82 billion. Of that sum, TAT revenues alone accounted for nearly $447 million for the state's coffers last fiscal year.

But the hospitality industry in not an infinitely prosperous, infinitely taxable entity. Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai‘i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.

TAT Revenue to the General Fund. More than half of Transient Accommodations Tax revenue now goes to the General Fund. While the TAT was established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended. **We do not disagree that our Hawaii public school system is underfunded.** However, public education is already receiving a share of TAT revenue through its General Fund budget allocations.

Uncollected Revenue. The state government is not collecting Transient Accommodation and General Excise taxes on transient vacation rentals. We support legislation that would ensure a level playing field for all visitor accommodations, from the traditional hospitality businesses to the alternative accommodations offered online. There are tens of thousands alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding our 9.25 percent Transient Accommodations and General Excise taxes. Rather than outlaw these transient vacation units, or raise the TAT, the state government should collect the millions of dollars in taxes now being avoided.

For these reasons, Hilton continues to oppose raising taxes and leveraging extra fees on the visitor industry and we respectfully urge you to delete the surcharge directed at the visitor industry.

Mahalo for the opportunity to testify.

House Committee on Finance

Senate Bill 683, SD2 HD1: Proposing Amendments to articles VII and X of the Constitution of the State of Hawai'i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

Chair Luke, Vice Chair Cullen and members of the Committee, mahalo for the opportunity to offer this testimony.

I oppose Senate Bill 683 SD2 HD1, which proposes amendments to articles VII and X of the Constitution of the State of Hawai'i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education. As much as I support improving upon our state's education system, consideration must be given to the tax burden our visitor industry already bears.

My respectful opposition is based on the following reasons:

Higher Taxes/Fees Hurt our Ability to Compete. In recent years, the state permanently raised the Transient Accommodations Tax, to the point where guests now pay a TAT of 9.25 percent. Coupled with the General Excise Tax, guests pay a 13.41 percent tax on the Neighbor Islands and 13.96 percent on O'ahu. Hawai'i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, both domestically and internationally.

Tourism Already Is the State's Revenue Producer. Tourism continues to be the largest single source of private capital for Hawai'i's economy. Recent reports have noted that tourism accounted for 190,000 jobs, that visitor spending last year totaled $15.6 billion, a new high, and that the state's tax take was $1.82 billion. Of that sum, TAT revenues alone accounted for nearly $447 million for the state's coffers last fiscal year.

But the hospitality industry is not an infinitely prosperous, infinitely taxable entity. Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai'i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.

TEL +1 808 921-6679 FAX +1 808 457-3540 EMAIL barbara.campbell@outrigger.com

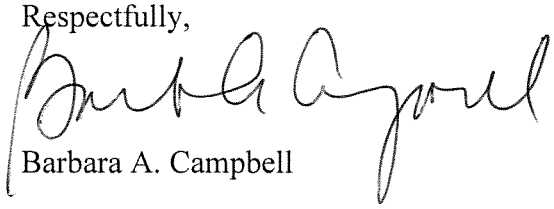
TAT Revenue to the General Fund. More than half of Transient Accommodations Tax revenue now goes to the General Fund. While the TAT was established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended. I would surmise that public education may be already receiving a share of TAT revenue through its General Fund budget allocations.

Uncollected Revenue. The state government is not collecting Transient Accommodation and General Excise taxes on transient vacation rentals. There are tens of thousands alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding our 9.25 percent Transient Accommodations and General Excise taxes. Rather than outlaw these transient vacation units, or raise the TAT, the state government should collect the millions of dollars in taxes now being avoided.

For these reasons, I continue to oppose raising taxes and leveraging extra fees on the visitor industry and respectfully urge you to delete the surcharge directed at the visitor industry.

Mahalo for the opportunity to testify.

Respectfully,



Barbara A. Campbell

LATE

To: FINTestimony;

My name is Arlyn Sagadraca. I am a teacher at Salt Lake Elementary School in the Central District on Oahu. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because teachers don't get paid enough to support themselves and their families and deserve a better pay. We work hard as any other professionals and our children deserve to have the education they need to be prepared for their future. To deliver the schools our keiki deserve, please support these bills.

We need your help. Mahalo.

But the hospitality industry in not an infinitely prosperous, infinitely taxable entity. Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai'i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.

TAT Revenue to the General Fund. More than half of Transient Accommodations Tax revenue now goes to the General Fund. While the TAT was established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended. We would surmise that public education may be already receiving a share of TAT revenue through its General Fund budget allocations.

Uncollected Revenue. The state government is not collecting Transient Accommodation and General Excise taxes on transient vacation rentals. Hilton Hawaii has gone on record as supporting legislation that would ensure a level playing field for all visitor accommodations, from the traditional hospitality businesses to the alternative accommodations offered online. There are tens of thousands alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding our 9.25 percent Transient Accommodations and General Excise taxes. Rather than outlaw these transient vacation units, or raise the TAT, the state government should collect the millions of dollars in taxes now being avoided.

For these reasons, Hilton Hawaii continues to oppose raising taxes and leveraging extra fees on the visitor industry and we respectfully urge you to delete the surcharge directed at the visitor industry.

Mahalo for the opportunity to testify.

Waikiki RESORT HOTEL

LATE

Testimony of
Glenn Vergara
General Manager, Waikiki Resort Hotel
Second Vice Chair, Hawaii Lodging & Tourism Association

IN OPPOSITION OF Senate Bill 683, SD2 HD1: Proposing Amendments to articles VII and X of the Constitution of the State of Hawaii to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

Chair Luke, Vice Chair Cullen and members of the Committee, thank you for allowing me to offer testimony on behalf of Waikiki Resort Hotel and fellow members who comprise the Hawaii Lodging & Tourism Association.

While we support funding for the state's public educational system, we believe it unfairly targets the one industry that represents the state's number one source of revenue, one that is already burdened with a high tax burden and one that is responsible for almost 200 thousand jobs in the state and $1.82 billion in taxes.

Excluding District of Columbia and Connecticut, Hawaii hotels bear the highest tax rate in the nation. Furthermore, we have one of the highest, if not the highest, hotel rates in the nation. By adding a surcharge, "regardless of occupancy," the bill is essentially an added property tax; a tax which Oahu properties already bear a disproportionate unfair burden. Therefore increasingly we are providing more impetus for travelers to seek other destinations that are far less expensive. Already our long time repeat visitor base and our industry partners are telling us our rates are "too high."

Waikiki Resort Hotel is a 275 room midscale property that employs about 125 employees and is governed by a collective bargaining agreement (Local 5) making its labor costs proportionately high relative its revenue base. The collateral cost potentially, particularly over a down cycle, would be a necessary reduction in our labor workforce if that represents the best alternative to offset the added cost of doing business because of an added surcharge.

We'd rather the state focus its efforts in its ability to collect taxes from the thousands of vacation and "airbnb" rentals that are not paying their fair share. We strongly oppose raising taxes and adding further fees on the visitor industry and we respectfully urge you to delete the surcharge directed on this industry.

Mahalo for the opportunity to testify.

We need additional funding for our public schools because as professionals, teachers should be compensated for their constant hard work. From my own experience, I could not afford to live as a single parent on my own. Which is disheartening due to the high standards that are placed upon teachers. I have over $40,000 in student loans to be able to even be "highly qualified" teacher in Hawaii. The debt is overwhelming, and the amount of pay does not cover for what teachers are expected to be and do in the profession. In order to have highly qualified teachers that our keiki deserve, teachers also need to feel like they are worthy and can afford to continue in pursuing their passion in teaching.

Investing in our schools and the children's' education means investing in Hawaii's future. To deliver the schools our keiki deserve, please support these bills.

We need your help!

We need additional funding for our public schools because as professionals, teachers should be compensated for their constant hard work. I once had a sixth grade student ask me why doctors get paid so much more than teachers. The student continued on to say that the teachers are the ones who teach doctors what they are supposed to do so teachers should get paid the most! It becomes extremely stressful when you break down the amount of hours actually worked versus the amount a teacher gets paid. Many believe that teachers are lucky because they "get the summer off". However, many teachers continue to work year round!

Investing in our schools and the children's' education means investing in Hawaii's future. To deliver the schools our keiki deserve, please support these bills.

Senate Bill 683, Senate Draft 2, House Draft 1, Proposing Amendments to Articles VII and X of the Constitution of the State of Hawaii to Authorize the Legislature to Establish a Surcharge on Residential Investment Property and Visitor Accommodations to Increase Funding for Public Education

Dear Chair Luke, Vice Chair Cullen, and Members of the Committee:

The Board of Education ("Board") voted to testify in support of Senate Bill 683, Senate Draft 2, House Draft 1, which would propose amendments to the Constitution that would authorize the Legislature to establish a surcharge on residential investment property and visitor accommodations to advance the State's goal of providing public education.

The Board supports any increase in funding that will support educational programs at our public schools, and this measure gives voters an opportunity to provide support as well.

Thank you for this opportunity to testify on behalf of the Board.

Very truly yours,

Lance A. Mizumoto
