SB 683, S.D. 2: PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION

SB 686, S.D. 2: RELATING TO EDUCATION FUNDING

Senate Bill No. 683, S.D. 2, proposes to amend the Constitution of the State of Hawaii to authorize the Legislature to establish a surcharge on residential investment property and visitor accommodations in order to fund public education. To implement the constitutional amendments, Senate Bill No. 686, S.D. 2, amends Chapter 302A, HRS, and establishes an education surcharge on residential investment property and visitor accommodations, specifies the uses of the surcharge for public education, sets the amount of the surcharge to be collected by the counties, and establishes the Education Special Fund.

The Department of Budget and Finance offers the following comments on these bills. Under the Hawaii Constitution, the State has total responsibility for many functions that are performed by or shared by local governments in most other parts of the United

States. These include the public school system, libraries, public welfare, and jails, etc. The counties' major areas of responsibility and expenditure are for primarily property-related services, such as police and fire protection, waste disposal, water and sewer facilities, streets and parks.

Because of this division of responsibilities, the Hawaii Constitution appropriately assigns to the counties the exclusive use of real property taxation. Using the property tax to fund a State function as proposed in these bills represents a fundamental departure from the current constitutional structure of functions and revenue sources.

Thank you for your consideration of our testimony.

**TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY**

PERSON TESTIFYING: Lynn Hammonds for the HTSB

DATE: Wednesday, March 22, 2017

TIME: 2:00 pm

LOCATION: State Capitol Conference Room 325

TITLE OF BILL: SB 683, SD2, PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION.

PURPOSE OF BILL: Proposes amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a public education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations. (SD2)

Chair Nishimoto, Vice Chair San Buenaventura, and Members of the Committee on Judiciary:

The Hawaii Teacher Standards Board (HTSB) supports SB683, SD2, to create additional funding for Hawaii's public schools by amending the Constitution of the State of Hawaii so the Legislature may establish a surcharge on residential investment property and visitor accommodations. Hawaii's public schools, and ultimately children, families and all citizens will benefit from a stronger public school system in need of properly trained and licensed teachers, lower class sizes, a comprehensive curriculum including adequate support for students with special needs and the arts for all children, and Career and Technical Education. The question, "What is needed to support and improve public schools?" is asked every year. The answer is "Full funding for programs that support a comprehensive education for each child." Please support this amendment to the Constitution to provide the much needed funding to ensure public schools are able to provide Hawaii's Keiki with the education they deserve.

Thank you for the opportunity to testify.

STATE OF HAWAII  
DEPARTMENT OF EDUCATION  
P.O. BOX 2360  
HONOLULU, HAWAII 96804

**Date:** 03/22/2017  
**Time:** 02:00 PM  
**Location:** 325  
**Committee:** House Judiciary

**Department:** Education

**Person Testifying:** Kathryn S. Matayoshi, Superintendent of Education

**Title of Bill:** SB 0683, SD2 PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION.

**Purpose of Bill:** Proposes amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a public education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations. (SD2)

**Department's Position:**

The Department of Education (Department) offers comments on SB683 SD2. The Department has made every effort to wisely spend appropriations provided, but funding levels have not kept pace with 2008 funding levels, adjusted for inflation (as measured by the Consumer Price Index). Education is a good investment as we continue to see positive gains. A funding increase would provide additional supports for students, teachers and schools; additional innovations; ensure compliance with federal and state laws; contract or labor agreements; and support Board of Education policies, and Department priority strategies and strategic plan initiatives.

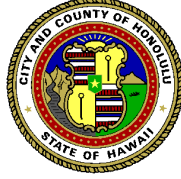

Thank you for your continued support of education and the opportunity to provide comments on SB683 SD2.

FROM: ROBERT O. MAGOTA, ASSISTANT ADMINISTRATOR  
CITY AND COUNTY OF HONOLULU

SUBJECT: COMMENTS ON S.B.683, SD2

The City and County of Honolulu (City) has serious concerns about S.B.683, SD2. This bill proposes amendments to Articles VII and X of the State Constitution to authorize the Legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

Article VII, section 3 of the State Constitution reserves to the State the power to tax, except all functions, powers and duties relating to the taxation of real property, which is to be exercised exclusively by the counties. Real property taxes and are the most significant source of revenue for the City. This measure encroaches into the City's only permanent taxing authority. The State, unlike the City, has a wide range of taxing authority and can impose other taxes to increase funding for public education. Under Article X of the State Constitution, the State is solely responsible for the education of Hawaii's students.

Thank you for your consideration of these concerns.

**TO: THE HONORABLE SCOTT Y. NISHIMOTO, CHAIR**  
**THE HONORABLE JOY A. SAN BUENAVENTURA, VICE CHAIR**  
**AND MEMBERS OF THE JUDICIARY COMMITTEE**

**FROM: STEVEN A. HUNT, REAL PROPERTY TAX MANAGER, COUNTY OF KAUAI**

**SUBJECT: TESTIMONY ON SB683 & SB686, RELATING TO AMENDMENT TO THE**  
**CONSTITUTIONAL OF THE STATE OF HAWAII TO AUTHORIZE SURCHARGE**  
**ON PROPERTY TAXES FOR THE DEPARTMENT OF EDUCATION**

The County of Kaua'i wishes to express its strong opposition to SB683, which proposes an amendment to the Hawai'i State Constitution to allow the State to add a real property tax surcharge for the purpose of providing additional funding for public education. While additional investment in our public school system is sorely needed, attaching a surcharge to property taxes is not the appropriate funding source. The prolonged cap on the counties' share of the transient accommodations tax (TAT) juxtaposed to the ever-increasing collective bargaining agreements, retirement "spiking" costs, mandated OPEB payments, and anticipated ERS rate hikes to the employer places an inordinate amount of pressure on real property taxes to balance our own annual budgets. Since FY12, the average real property tax rate for properties other than owner-occupied properties in Kaua'i County has increased approximately 34.5% which is compounded further when considering the net assessed value has also increased approximately 16% during this same period of time. As a result, the annual real property taxes have increased over 50% and now represents a whopping 82% of our general fund revenues in FY17. There is a limit to which property taxes can be pushed and we are likely near the breaking point for many property classes already.

We urge this committee not rely on third-party testimony that declares Hawai'i has the lowest effective property tax rates in the country, as those effective rates are strictly for owner-occupied properties not tax rates for other property classifications. And, while it may be true that the tax rates for owner-occupants is the lowest in the country, the same cannot be said about the assessed values nor the actual tax bills. Hawai'i has the highest assessed values and the homeowners' pay property taxes that are closer to the median when you combine the highest values with the lowest rates. This information can be independently verified quickly on the Tax Foundation's website "<https://taxfoundation.org>".

Visitor accommodation properties, which are represented by our Hotel & Resort and Vacation Rental tax classifications, are currently paying tax rates of \$10.85 and \$8.85, respectively. Residential investment properties, which we classify as Residential and Residential Investor, have respective tax rates of \$6.05

*An Equal Opportunity Employer*

and \$7.05. The tax rates for these four classifications are already near the upper end of the spectrum statewide. Moreover, it is precisely these four tax classifications that have seen the largest tax rates increases in recent years. In the most extreme cases, the tax rate increase has been over 115% for vacation rental properties that were formerly classified as Residential based on zoning but reclassified as Vacation Rentals based on use.

Any proposed surcharge will likely be an added cost that will undoubtedly be passed along to tenants, including those renting affordable units. With the ongoing housing crisis and lack of modestly priced rental units, is adding another barrier to entry really in the best interests of our local citizens just trying to make ends meet?

The proposed authority for the State to add a surcharge on county property taxes will seemingly ameliorate or otherwise supersede the County Council's authority and obligation to set tax rates based on the amount of taxes to be raised by each tax category. Furthermore, the current assessment and billing software utilized by the County of Kaua'i is not configured for a tiered tax rate structure for residential investment properties, as proposed under SB686, nor are we equipped to handle daily fees for visitor accommodation units, the latter of which really seems to be a fixed fee that would be added to the variable TAT taxes imposed. Since the proposed visitor accommodation fee is based on the daily room rates being charged and not tied to property values, it should not be administered by Real Property Assessment but rather would best fall under the auspices of the Department of Taxation. The counties are not setup to monitor nor collect such additional fees as our payments are based on taxes being submit annually or semiannually.

Moreover, the collection and distribution of the monies generated by the proposed surcharge will certainly add to the current duties of our Real Property Collections staff as well as require system modifications, especially to accommodate the tiered tax rates being suggested. We have not had the opportunity to analyze the financial impact of accommodating this request, therefore cannot be certain that the suggested five percent administrative will be sufficient to cover the actual added costs.

Finally, the surcharge amounts being proposed in SB686, which is running concurrently with SB683, would literally be doubling many of the current property tax rates for residential investor properties. This will not only cause extreme hardship for many existing property owners, but it will also likely impact investment capital coming into Hawai'i. These proposed millage rates combined with our state's high assessed values will severely limit the counties own ability to respond to budgetary issues, such as increased ERS payments or new debt service, as existing taxpayers are already complaining that it typically takes 2 months (or more) of rental income just to cover the current level of property taxes. Please consider that value and income generation are not always directly correlated, especially for those properties that are classified Residential but where the property is either vacant land or under-improved. Also, it is commonplace for residential rents to plateau as values increase making it more difficult to recover property taxes for higher valued homes. Increasing the tax burden will certainly put a lot of financial strain on those properties that simply cannot afford the increase.

For the aforementioned reasons, the County of Kaua'i does not support this proposed constitutional amendment giving the State authority to add a surcharge or otherwise affect the millage tax rates for real property taxes.

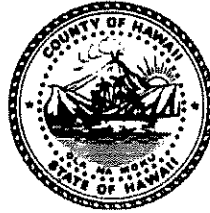

Respectfully,

Steven A. Hunt

Rep. Scott Y. Nishimoto, Chair  
Committee on Judiciary  
Hawai'i State Capitol  
Honolulu, HI 96813

Dear Chair Nishimoto and Members:

**RE: SB 683 SD 2**

**Proposing Amendments to Articles VII and X of the Constitution of  
the State of Hawai'i to Authorize the Legislature to Establish a  
Surcharge on Residential Investment Property and Visitor  
Accommodations to Increase Funding for Public Education**

As a former teacher myself, I fully appreciate the efforts of this Legislature to properly fund education. However, I cannot support SB 683, SD 2, and must speak against it.

Effect on Real property tax. The County of Hawaii, as is true of the other counties, has little or no control over its revenue except in one area, real property taxes, and the County relies overwhelmingly on real property taxes to fund its operations. The burden of that tax can be heavy for many residents, but since it is virtually the only tool we have, we use it the best we can.

A surcharge on residential investment properties would obviously limit County options and make it even more difficult to balance our budgets. Therefore, we have to jealously guard this taxing authority, and ask that you not breach this line of authority.

Effect on TAT. Given our County's limited resources, we are fortunate that the Legislature has seen fit to allow the counties to share in the TAT. That has been a great help, and we thank you for it.

However, this source of revenue is under constant pressure, and even this session the Legislature will be asked to increase the counties' share of TAT so that we

can better serve our constituents and visitors. The TAT pie can only be divided into so many pieces, and a surcharge on visitor accommodations, even for the most noble of purposes, will obviously limit what can be raised and spent elsewhere.

Please do not deprive the counties of this needed source of revenue, by dividing the pie even further.

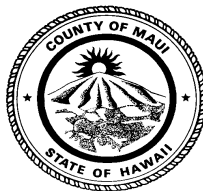

If this bill does pass, we would ask that the wording of the question posed to voters more clearly reflect the impact it would have on counties and real property taxes. Saying "Shall the legislature be authorized to establish, as provided by law, a surcharge on residential investment property and visitor accommodations to fund a public education for all of Hawaii's children?" skews the issue unfairly in favor of a "Yes" vote. Language explaining that counties will probably have to raise property taxes overall, to offset some or all of this earmark, would level the playing field.

Respectfully,

A handwritten signature in black ink, appearing to read "Harry Kim". The signature is fluid and cursive, with the first name "Harry" and the last name "Kim" clearly distinguishable.

Harry Kim  
Mayor

**OFFICE OF THE MAYOR**  
Ke`ena O Ka Meia  
COUNTY OF MAUI – Kalana O Maui

March 21, 2017

TESTIMONY OF ALAN M ARAKAWA  
MAYOR  
COUNTY OF MAUI

BEFORE THE HOUSE COMMITTEE ON JUDICIARY

Wednesday, March 22, 2017  
2:00 pm - Conference Room 325

SB 683, SD2 PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE  
CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE  
TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND  
VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION.

SB 686, SD2 RELATING TO EDUCATION FUNDING.

Honorable Scott Y. Nishimoto, Chair  
Honorable Joy A. San Buenaventura, Vice Chair  
Honorable Members of the House Committee on Judiciary

-----  
Thank you for this opportunity to testify in **OPPOSITION** of SB683, SD2, and SB686,  
SD2.

SB683 proposes to amend the State of Hawaii Constitution to authorize the legislature  
to establish a surcharge on residential investment property and visitor accommodations  
to fund quality public education. SB686 would implement the constitutional  
amendments by amending Chapter 302A, HRS.

While we all agree that quality education is extremely important, I do not believe that the  
State Constitution should be amended to obtain these funds.

It seems clear that the authors of Hawaii Constitution made a deliberate and calculated  
decision to divide the responsibilities between the state and counties. The State, unlike  
many other jurisdictions, has sole responsibility for our public education system (as well  
as prisons, libraries, etc.). The Counties were assigned the responsibilities for mostly  
property-related services such as fire and police protection, sewer, waste and water  
facilities.

Given the division of responsibilities the Constitution also divided the taxing authority. It provides the State a broad range of taxing authority and, as it relates to the matter at hand, gives the State the ability to consider imposing other taxes to increase funding for public education. The **only** taxing authority reserved for the Counties is the taxation of real property. Real property tax is the sole source of revenue which all four Counties can rely upon and have direct control over; and, any legislation that would allow the State to take from this would result in the Counties having less revenue and ability to responsibly run our operations.

Accordingly, as Mayor of Maui County, I humbly ask that the State Legislature not allow the State to use the only tax reserved for the Counties to fund a function solely reserved for the State. Such action would represent a major break from the structural foundation of our State Constitution, and would significantly impact the Counties' ability to manage operations and keep our residents and visitors safe.

Thank you for considering our testimony in opposition to SB683, SD2, and SB686, SD2.

Sincerely,

Alan M. Arakawa  
Mayor, County of Maui

SUBJECT: **HEARING OF MARCH 22, 2017; TESTIMONY IN OPPOSITION TO SB 683, SD 2, PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION**

Thank you for the opportunity to testify in **opposition** to this measure. The purpose of this bill is to propose amendments to the Constitution of the State of Hawaii to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to fund public education.

The Maui County Council has not had the opportunity to take a formal position on this measure. Therefore, I am providing this testimony in my capacity as an individual member of the Maui County Council.

I submit this testimony also in opposition to SB 686 SD 2, which establish the law to facilitate the establishment of the surcharge.

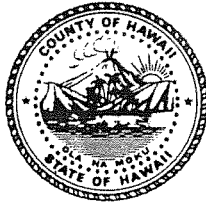

I **oppose** this measure for the following reasons:

1. Although the Department of Education receives almost 20 percent of the entire budget of the State of Hawaii, the administrators, teachers, students and advocates of this bill have legitimate reasons to demand more funding to provide quality education for our keiki. But the proposed measure before you is flawed, which is why I implore the legislature to defer this bill.
2. Real property taxes are counties' primary and largest source of revenue to fund county programs. The counties this year are anticipating substantial salary adjustments from all bargaining units, which we are obligated to fund regardless of our position. Raising property taxes is our only reasonable option to balance our budget.

3. Increasing costs of visitor-related programs like transportation, sewer and water, fire, police, and parks maintenance continue to be a challenge because the counties don't receive their fair share of the transient accommodations tax. To pay for these services, the residents will continue to be overly burdened and face potential increases in real property taxes.
4. In addition to the issues mentioned above, this measure is problematic because it applies to "residential investment properties" a definition which is unclear. There is no doubt that landlords will pass on the new tax to renters. This could not come at a worse time when many of our local residents are struggling to keep up with escalating housing costs amid a statewide decline in affordable housing inventory. The unintended consequences of this bill to our real estate industry are enormous and would serve as a disincentive for investors to invest in our state.
5. The bill mandates the counties to administer and collect the property surcharge for education without identifying how the counties are to fund this mandate. Have the proponents of this measure given any thought to how the new tax will be administered and who will bear those costs? Without a clear implementation plan and associated funding, the risk is that the burden will fall solely upon county residents. We urge you to defer this bill and consider the magnitude of its impact.
6. In many mainland communities, local real estate taxes are used to support local schools. The communities decide for themselves what they can afford and tax their residents accordingly. In Hawaii, funding and administration of schools are handled centrally by the state with little to no input from the counties or local residents. The premise of this bill that requires the counties to fund schools without having a greater say in the way that monies are spent ignores the importance of the community's right to guide education decisions and smacks of paternalism.

For the foregoing reasons, I **oppose** this measure.

From: Stanley A Sitko, Real Property Tax Administrator  
County of Hawai'i

Subject: Comments on SB683 and SB686, Relating to Education Funding

SB683 and SB686 attempts to establish an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education. We would like to humbly request that the Judiciary Committee not pass both bills.

There were good reasons many years ago when the state turned over jurisdiction for real property taxes to the counties. While under good intentions, these bills have too many unintended consequences and it is not practical to consider pursuing.

We cannot support, maintain or sustain this implementation. The cost to implement is too costly and the 5% proposed administrative fee the State is proposing the counties receive is too low. Furthermore, the amount of money the state is looking to collect for Department of Education based on these bills is not realistic as our own calculations revealed an amount much lower.

Our county was not consulted on this proposal and it is our strong belief that our data was utilized in a misleading manner for imposing this surcharge. Our office does not support this measure as is or in any amended form.

Sincerely,

A handwritten signature in black ink, appearing to read "Stanley A Sitko", is written over a horizontal line.

**TESTIMONY IN OPPOSITION OF SB683 TO ESTABLISH A SURCHARGE ON  
RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS  
TO INCREASE FUNDING FOR PUBLIC EDUCATION**

Aloha, my name is Pamela Tumpap and I am the President of the Maui Chamber of Commerce, serving in this role for over a decade. I am writing share our opposition to SB683.

While we strongly support public education, we don't believe adding a tax to residential investment property and visitor accommodations is the answer. One of our concerns with the tax on residential investment property is that it would likely be paid by resident renters. There is already a limited quantity of rental properties and rents are extremely high here. We fear that many local renters would not be able to afford the rent increase that could be caused by this additional tax and recognize that we have to balance solutions for all residents and recognize that renters make up over one-third of all Hawaii residents.

In regards to the tax on visitor accommodations, we believe there should not be another tax in addition to the transient accommodations tax that is already in place and considerable. This could greatly harm our visitor industry that has to compete with locations around the world and could drive Hawaii visitors to other markets. The visitor industry is not only very important to our state economy, it is critical to Maui's economy, especially with the recent closing of HC&S.

We appreciate the opportunity to testify on this matter and therefore ask that this bill be deferred.

Mahalo for your consideration of our testimony and we hope you will support a deferral.

Sincerely,

*Pamela Tumpap*

## TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY

RE: SB 683, SD 2 - RELATING TO EDUCATION FUNDING.

WEDNESDAY, MARCH 22, 2017

COREY ROSENLEE, PRESIDENT  
HAWAII STATE TEACHERS ASSOCIATION

Chair Nishimoto and Members of the Committee:

The Hawaii State Teachers Association **strongly supports SB 683, SD 2**, relating to education funding.

Hawai'i shortchanges its public schools. While our state's per-pupil spending of \$11,823 ranks 17th in the nation when compared to other states in raw dollars, comparison with school districts of similar size and demographics yields different results. Mainland districts with high costs of living are typically urban and averaged with with rural districts experiencing lower costs of living in statewide analyses. When comparing school districts of similar size, Hawai'i, the nation's only statewide school district, ranks 227th in per-pupil funding *before* adjusting for cost of living. A comparison of spending per pupil in America's largest school districts shows the following:

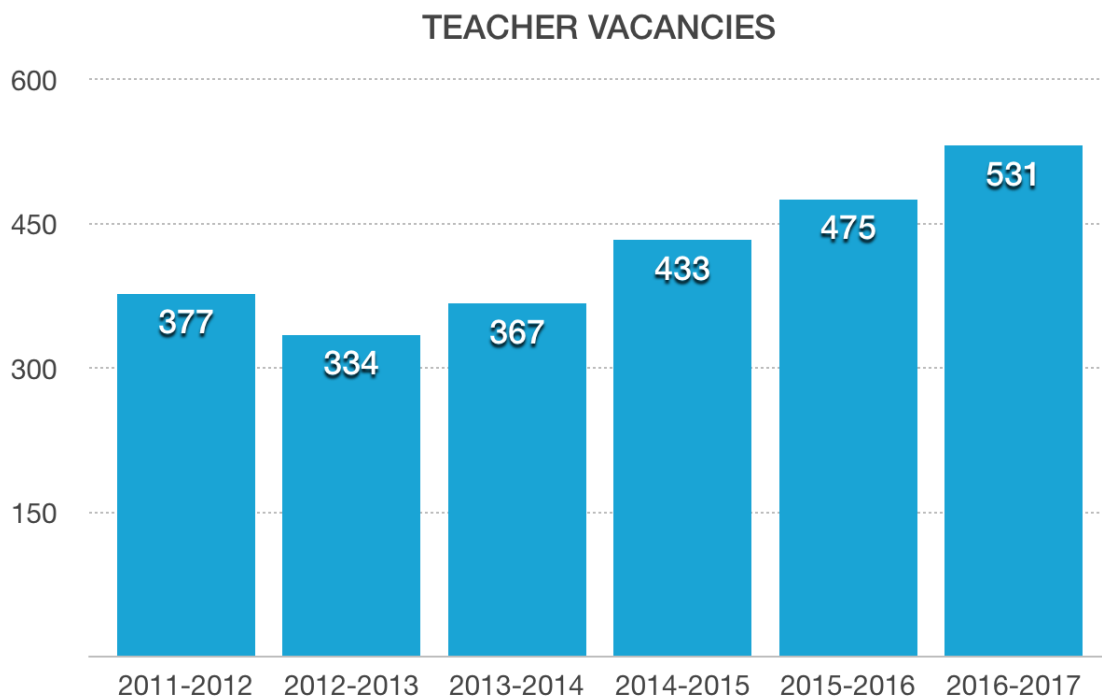

DISTRICT	Wash. D.C.	NewYork City, NY	Boston, MA	Pittsburgh , PA	Cincinnati , OH	Detroit, MI
AMOUNT	\$26,661	\$25,061	\$22,76 2	\$22,600	\$22,157	\$18,361

Hawaii's major private schools, on the other hand, average \$15,173 in per-pupil spending. When Catholic schools, subsidized by the Roman Catholic Diocese, are removed, private school spending jumps to nearly \$19,173 dollars per student, sans endowment funds that further boost private school baselines. As Punahou President Jim Scott revealed in 2014, "The real cost of our education per student is \$26,000,"

with the school's endowment standing then at \$235 million and fundraising operations generating an additional \$12-\$15 million each year.

At the same time, we are facing a teacher shortage crisis. Insufficient funding has led to a teacher shortage crisis. From 2011 to 2014, the DOE suffered an average of 359 unfilled vacancies per year. Yet, departmental data showed 531 vacancies for the 2016-2017 school year, a 45 percent increase from the 2013-14 school year.

While many factors influence teachers' decisions about whether or not to remain in their classrooms, low salaries are undoubtedly a primary driver of teacher turnover. In an analysis performed by HSTA, Hawai'i's beginning teacher salaries were found to be approximately \$4,000 lower than average, while our state's highest salaries are roughly \$15,000 lower than average. We found that the biggest salary disparity encapsulates teachers with 10 to 20 years of service, whose salaries are \$15,000 to \$20,000 lower than their counterparts in comparable districts. When comparing the

overall average of teacher salaries adjusted for cost of living, both nationwide and in comparable districts, Hawai'i teachers are the lowest paid in the nation.

By levying a surcharge on residential investment properties and visitor accommodations, we can raise over \$500 million each year for education without placing an unfair financial burden on local residents. We can create class sizes that allow teachers to connect with their students, expand whole child education to include career and technical education and the arts, increase resources for special needs students, and provide professional pay that reflects the value of our hardworking teachers.

At the same time, we can make Hawai'i more affordable. Over the past two decades, the pricing of housing in the islands has skyrocketed. Townhomes have increased nearly 400 percent since 2001, with the average cost of a single-family home now exceeding \$720,000. According to the Department of Business, Economic Development, and Tourism, foreign nationals pay roughly 64 percent more than Hawai'i residents for homes, with luxury apartment buildings being built in Kaka'ako advertising prices that, in some cases, average to over \$3 million per unit. Our state's high cost of housing and renting is driven by real estate speculators using the islands as their personal Monopoly board. In levying a surcharge on investment properties and incentivizing low-income rentals, we are not only advancing our children's future, but ensuring that they aren't priced out of paradise.

The time for talking about the problems in our school system is over. It is time to act. To build the schools our keiki deserve, the Hawaii State Teachers Association asks your committee to **support** this bill.

TO: Honorable Chair Nishimoto and Members of the Judiciary Committee

RE: SB 683 SD2 PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION.

Support for hearing on March 22

Americans for Democratic Action is an organization founded in the 1950s by leading supporters of the New Deal and led by Patsy Mink in the 1970s. We are devoted to the promotion of progressive public policies.

We support SB 683 SD2 as it would provide for a constitutional amendment to allow the establishment of a real estate surcharge. We hope these funds would be used for increasing the education budget.

Hawaii spends about \$8,000 per year on each of its regular ed. public school students. By contrast, top private schools spend more than three times as much - between \$24,000 and \$28,000 per student per year, without having to spend much on special needs students.

Hawaii's public education expenditures are down at the bottom, rivaling Mississippi and Louisiana for example, and we have costs of living that make our expenditures actually worse than those two states.

Our real estate taxes are the lowest in the nation. This not only means we are not using them to support education; it also means it encourages real estate speculation and concomitant housing problems.

Wallethub rated Hawaii the worst state for teachers: <https://wallethub.com/edu/best-and-worst-states-for-teachers/7159/> As a result, we have 1,600 vacancies. We had hundreds of positions last year that went without a qualified teacher.

Although areas other than education need funding , the current small pie forces education to compete with other needs for limited resources. The limits will always be there, this tax would make them less limited.

Thank you for your favorable consideration.

Sincerely,

John Bickel  
President

**RE: S.B. 683, PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION.**

**HEARING: Wednesday, March 22, 2017, at 2:00 p.m.**

Aloha Chair Nishimoto, Vice Chair San Buenaventura, and Members of the Committee.

I am Myoung Oh, Director of Government Affairs, testifying on behalf of the Hawai'i Association of REALTORS® ("HAR"), the voice of real estate in Hawai'i, and its 9,200 members. HAR **strongly opposes** S.B. 683, S.D.2 which proposes amendments to the Constitution of the State of Hawaii to establish a surcharge on residential investment property and visitor accommodations.

The bill proposes to create a revenue stream for the Department of Education based on assessing residential units used for rentals. The bill also proposes to assess visitors on a per person basis but does not state an amount necessary to address the current needs of the DOE, and thereby creates a revenue source for funding existing and future programs.

While we continue to recognize the importance of education, we are concerned that the responsibility in funding this effort will be shifted from the overall general tax paying public to those that own residential investment property and visitors to our State. **More importantly, there is no clear nexus between those that own additional residential property and Hawaii's visitors to education.**

According to the Department of Business, Economic Development and Tourism, Hawai'i had a homeownership rate of about 59% in 2015, which implies 41% are renters. Should an additional surcharge be placed on rental investment property, these additional costs may be passed on to renters and visitors. With rising housing costs, more homeowners today are purchasing an investment property so that their children have a place to call home or to plan

---

for retirement. With Hawaii's high cost of living and housing, this would further burden our working individuals and families.

Educational needs must be weighed against the priorities of the State as a whole through the budgeting process and **HAR does not support earmarking a new property tax surcharge on residential investment property and visitor accommodations specifically for an unrelated purposes.**

Mahalo for the opportunity to testify in opposition.

**TESTIMONY FOR SENATE BILL 683, SENATE DRAFT 1, PROPOSING  
AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE  
STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A  
SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR  
ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION**

**House Committee on Judiciary  
Hon. Scott Y. Nishimoto, Chair  
Hon. Joy A. San Buenaventura, Vice Chair**

**Wednesday, March 22, 2017, 2:00 PM  
State Capitol, Conference Room 325**

Honorable Chair Nishimoto and committee members:

I am Kris Coffield, representing IMUAlliance, a nonpartisan political advocacy organization that currently boasts over 350 members. On behalf of our members, we offer this testimony in strong support of Senate Bill 683, SD 2, proposing amendments to Articles VII and X of the Constitution of the State of Hawai'i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

In comparison to school districts of similar size and demographic composition, Hawai'i, ranks 227th in per-pupil funding *before* adjusting for cost of living, at \$11,823 per child. Washington D.C., New York City, Boston, Pittsburgh, and Cincinnati school districts, for example, spend nearly twice as much as Hawai'i per pupil, at well over \$22,000 to over \$26,000 per student. Similarly, local private schools, discounting Catholic institutions, spend nearly \$19,173 dollars per student, with Punahou President Jim Scott revealing, in 2014, "The real cost of our education per student is \$26,000," owing to the school's then-total endowment of \$235 million and fundraising operations of \$12-\$15 million annually.

Moreover, at the beginning of the 2015-2016 school year, media outlets widely reported that the DOE faced 625 vacant teaching positions. While the Department of Education currently includes the percentage of teaching positions filled on the first day of school as a statewide indicator in its strategic plan, this statistic does not detail the quality or competency of the teachers filling vacant positions. The number of new teachers hired who have not completed a teacher education program has increased from 125 for the 2011-2012 school year to 241 for the 2015-2016

school year. Over the same period, the number of teacher resignations has increased from 624 in 2011-2012 to 781 in 2015-2016, while the total number of voluntary teacher separations has increased from 934 in 2011-2012 to 1,075 in 2015-2016. In short, hundreds of teachers are leaving the workforce each year at an accelerating pace, while the DOE does not have enough trained and licensed teachers in waiting to fill the holes they leave. Accordingly, we must raise Hawai'i's last-in-the-nation cost of living adjusted teacher pay as a means of addressing the problem. Studies have shown that as teacher pay increases, so, too, does student achievement. A Stanford University study found that "raising teacher wages by 10 percent reduces high school dropout rates by 3 percent to 4 percent," while a study of Florida showed that pay raises reduced teacher attrition by as much as 25 percent for hard-to-fill subject areas, with children's learning growth gaining from more exposure to experienced educators. Recently, the Hawai'i State Teachers Association performed a study of teacher compensation in comparison with mainland peer districts. HSTA found that teachers' wages are \$4,000 to \$20,000 below that of their mainland peers *before* adjusting for cost of living. Put simply, to reduce teacher turnover, we must pay educators what they're worth.

We are especially heartened by this measure's possibilities for making Hawai'i more affordable. Hawai'i residents face the highest housing costs in the nation, at more than twice the national average. According to the National Low Income Housing Coalition's *Out of Reach 2016* report, a full time worker would need to earn \$34.22/hour to afford a two-bedroom apartment at fair market value in our state, with Honolulu experiencing a 67 percent increase in fair market rent between 2005 and 2015. Average rent for a two-bedroom unit surpassed \$2,100 in 2015, with average rent for a 900-square-foot exceeding \$2,200 in 2016. In the past three years alone, Honolulu rent has increased 23.5 percent. While 47 percent of Hawai'i residents are renters (a number that does not include individuals and families renting outside of the regulated rental market), they earn an average wage of \$14.49/hour, scarcely enough to meet their basic needs. One out of every four households in Hawai'i report that they are "doubling up" or are three paychecks or less away from being homeless, according to the Hawai'i Appleseed Center for Law and Economic Justice. Moreover, 54 percent of households are cost-burdened, meaning that they pay more than 30 percent of their income for housing costs.

We are in the midst of an affordable housing crisis. For context, our state's cost of housing has skyrocketed over the last decade, leaving many families searching for affordable alternatives, in shelters, or on the streets. The median price of condominiums on O'ahu increased 8.3 percent in 2016 to \$390,000, while the median price for single-family homes increased by 6.5 percent to \$735,000, according to the Honolulu Board of Realtors. The cost of a four-bedroom home in urban Honolulu now exceeds \$1.1 million. At least 40 percent of residences in Hawai'i are owner unoccupied, according to the Hawai'i Housing Finance and Development Corporation, meaning that nearly 50 percent—and by some estimates well over half—of Hawai'i homes are investment properties. Many of those properties are owned by mainland and foreign buyers, whose real estate market speculation is a prime driver of Hawai'i's highest-in-the-nation cost of housing.

Housing costs are driven largely by real estate speculators, who use Hawai'i as their personal luxury row. We must ask ourselves: do we want to continue catering to people who live outside of Hawai'i, but have the resources to maintain a home here, too? Or do we want to create a first-rate education system for our children? According to a study released in May of 2016 by the Hawai'i Department of Business, Economic Development, and Tourism, there are "clear distinctions" between the average price of homes bought by local residents, mainlanders, and foreigners. Analyzing purchases made between 2008 and 2015, DBEDT found: "The average sale price was highest among foreign buyers. The average sale price of the total of 5,775 homes sold to foreign buyers from 2008 to 2015 was \$786,186, 28.3 percent higher than the average sale price to the mainlanders (\$612,770) and 64.7 percent higher than the average sale price to local buyers (\$477,460)." Thus, this constitutional amendment directly impacts real estate speculators driving up housing and, in turn, rental prices in Hawai'i, i.e. those most responsible for pricing families keiki out of paradise.

All children deserve a chance at a brilliant future. Mahalo for the opportunity to testify in support of this bill.

Sincerely,  
Kris Coffield

Comments: PROGRESSIVE DEMOCRATS OF HAWAII supports this proposed Constitutional Amendment. Funding for Hawaii's public schools has been grossly insufficient for decades, and it is long past time for the State to fundamentally change the funding structure for public education. Currently, Hawaii's public schools are funded at about one third of the level of its private schools on a per student basis - about \$8,000 vs \$24,000 per student per year. And our public schools must pay disproportionate amounts for special education students that the private schools are free to ignore. To those critics who are not happy with the details of the proposals of SB 683, we say the burden should be on YOU to suggest better proposals. Thank you very much for the opportunity to testify on this long-overdue remedial legislation.

Please note that testimony submitted less than 24 hours prior to the hearing, improperly identified, or directed to the incorrect office, may not be posted online or distributed to the committee prior to the convening of the public hearing.

Committee on Judiciary  
Representative Scott Nishimoto, Chair  
Representative Joy San Buenaventura, Vice Chair

March 22, 2017

Dear Chair Nishimoto, Vice Chair San Buenaventura and Committee Members,

We support both SB683 SD2 and SB686 SD2 proposing a constitutional amendment to allow the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for education, and the implementation of the surcharge.

Hui for Excellence in Education, or "HE'E," is a statewide coalition of diverse stakeholders committed to working collaboratively to identify opportunities to improve public education in Hawai'i. HE'E seeks to be the nexus for community and parent engagement while serving as a public resource for educational policy.

The Coalition was formed in May 2010 by parents and community members who stood up and said "no" to school furloughs and "yes" to re-establishing education as a public priority. We have been following public education policy at the Board of Education (BOE) and the Hawaii State Legislature consistently since our inception. We are thankful to the legislature for its support of public education; however, we also know that the current funding for education is insufficient to cover the needs of our students, teachers, administrators and schools. An alternative revenue stream dedicated to education is needed.

The BOE recently approved an update of the BOE/DOE Strategic Plan, which puts a focus on the state's achievement gap that has persisted over the years. We agree that help is most needed for our struggling students. We are concerned for specified groups that need particular attention - students with disabilities, students who do not speak the language of instruction, students with socio-economic challenges, and racial and ethnic groups that have historically not succeeded in our schools relative to others. We feel that the education surcharge would benefit these students.

Thank you for the opportunity to testify. Our support of these bills represents a 75% consensus or more of our voting membership.

Sincerely,

Cheri Nakamura  
HE'E Coalition Director

## Coalition for Equal Taxation

SB 686, SD2 Education Funding  
SB 683, SD2 Amendment to Constitution

House Committee on Judiciary  
Wednesday, March, 22, 2017  
2:00 p.m.

Dear Chair Nishimoto and Vice Chair San Buenaventura and Committee Members:

On behalf of the Coalition for Equal Taxation we **OPPOSE** SB686,SD2 and SB683,SD2 and respectfully request that you defer both Bills .

The creation of a new revenue stream of taxation should be **studied PRIOR to being approved.** The long term consequences of this systemic change should be carefully considered by agencies with the expertise to study and report to the legislature what the impact to the larger economy and resulting future tax constraints will be.

Last year the legislature proposed a study of property tax issues by the Economic Research Organization at the University of Hawaii and Department of Business, Economic Development and Tourism, however, they each lacked funding to study the issues.

Unfortunately, and inexplicitly, this year SB686 and SB683 moved forward ***without ANY professional economic impact study.***

The State of Hawaii has the fourteenth (14th) highest State and Local Tax Burden as compared to all 50 states. Most economists would find this a rather fragile ratio for an economy built upon primarily one form of commerce, i.e. tourism. When Hawaii had its last downturn in tourism on 7/1/10 the transient accommodation tax was raised to 9.25% to buffer the shortfall the State was experiencing. That tax remains at that level today, rather than reverting back as originally intended. While the TAT increase was utilized and implemented to help the State weather the last economic downturn, it leaves the State with less flexibility to weather future downturns. The risk is positioning Hawaii to be less and less competitive as a tourism destination when it becomes unable to compete in pricing for the tourist dollar.

Hawaii is now proposing a \$3 surcharge for room \$150 and under and \$5 for rooms \$150 and above. Hawaii is again looking to transient accommodation tax for funding, even though as a State it is not in a financial crisis as in 2010. Does this make sound fiscal policy?

Does it make sound fiscal policy to increase property tax that will ultimately take away a source of revenue to the counties? DBEDT's wrote on 3/16/16: "Real property tax contributed 36.1% of all the county government revenues in Hawaii, higher than the national average of 25.9%." On the same date, University of Hawaii Economics Research Organization (UHERO) stated: "UHERO supports high quality studies on the economic effects of property taxes in Hawaii. **RIGOROUS RESEARCH IS ESSENTIAL IN POLICY-MAKING.**

We respectfully request that this Bill be deferred until qualified experts have studied the longer term effects of these changes. The consequences are too significant to not take the proper steps of analysis before policy making.

Thank you for the opportunity to testify.

## Education Matters: Invest in Learning for Economic Prosperity April 29, 2015

**Federal investments in education are crucial so that students are prepared for success in a 21st Century global society and workforce.**

Investing in education is crucial to ensuring the future health of our economy and country's global competitiveness. Many students are not prepared for success in our 21st Century society and to fill current and future jobs. A robust federal investment in education is necessary to equip schools with the resources – personnel, facilities, technology – to position students to acquire the skills and knowledge needed for college and career success.

### **Invest in education to:**

- Prepare our high school and college graduates for the jobs of today and tomorrow.
  - By 2018, 63% of all jobs in the United States will require some sort of post-secondary education, yet nearly 30% of U.S. students do not finish high school, and only 42% of young people who enroll in college complete a bachelor's degree by the age of 26, and just 12% complete an associate's degree.<sup>1</sup>
  - The U.S. economy's largest and fastest growing sectors – business services, finance, healthcare, and education – are service sectors that have been clamoring for more educated workers and powering the dramatic upskilling of America's occupational structure.<sup>2</sup>
  - American students rank well behind those in economically competitive countries on international tests: 17th in reading, 20th in science, and 27th in mathematics among the 34 Organisation for Economic Co-Operation and Development (OECD).<sup>3</sup>
  - The transition from an industrial to a post-industrial economy has resulted in a shift from an economy rooted in high school-level skills to an economy anchored in postsecondary education and training.<sup>4</sup>
- Ensure the future health of our economy, including productivity, earnings, and tax revenues.
  - Nearly nine out of 10 graduate degree-holders work as managers or professionals, while seven out of 10 high school dropouts work in low-skill occupations.
  - The college wage premium – the difference between the average wages of college- and high school-educated workers – has spiked since 1973, rising from 37 percent to 82 percent by 2007.<sup>5</sup>
  - The earnings of four-year, college-educated workers remain nearly twice those of high school-educated workers.<sup>6</sup>
  - If U.S. students matched OECD average PISA scores, the GDP would increase by \$678 billion by 2050 and cumulative GDP growth would be \$2.5 trillion.<sup>7</sup>

## Maui Hotel & Lodging

ASSOCIATION

Testimony of

**Lisa H. Paulson**

Executive Director

Maui Hotel & Lodging Association

on

**SB683 SD2**

PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO  
AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND  
VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION.

### COMMITTEE ON JUDICIARY

**Wednesday, March 22, 2017, 2:00 pm**

**Conference Room 325**

Dear Chair Nishimoto, Vice Chair San Buenaventura, and Members of the Committee,

The Maui Hotel & Lodging Association (MHLA) is the legislative arm of the visitor industry. Our membership includes over 175 property and allied business members in Maui County – all of whom have an interest in the visitor industry. Collectively, MHLA's membership employs over 25,000 residents and represents over 19,000 rooms. The visitor industry is the economic driver for Maui County. We are the largest employer of residents on the Island - directly employing approximately 40% of all residents (indirectly, the percentage increases to 75%).

MHLA **opposes SB683 SD2**, which proposes amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a public education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations.

Keeping our costs level is critical to our ability to compete against other sun destinations, especially now when we are seeing an increased amount of competition with new resort locations and other destinations' deeply discounted air/hotel packages. The State permanently raised the Transient Accommodations Tax where guests now pay a TAT of 9.25 percent. Coupled with the General Excise Tax, guests pay a 13.41 percent tax on the Neighbor Islands and 13.96 percent on O'ahu. Hawai'i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, both domestically and internationally.

Last year's (2016) visitor spending brought in \$15.6 billion to the State, with the state's tax take equaling \$1.82 billion. Of that sum, TAT revenues alone accounted for nearly \$447 million for the state's general fund last fiscal year. The hospitality industry should not be seen as an infinitely taxable entity. While the TAT was originally established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended.

Maui Hotel & Lodging Association is opposed to raising taxes and leveraging extra fees on the visitor industry.

Thank you for the opportunity to testify.

**LATE**

Testimony of

Mufi Hannemann  
President & CEO  
Hawai'i Lodging & Tourism Association

House Committee on Judiciary

Senate Bill 683, SD2: Proposing Amendments to articles VII and X of the Constitution of the State of Hawai'i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

Chair Nishimoto, Vice Chair San Buenaventura and members of the Committee, mahalo for the opportunity to offer this testimony on behalf of the more than 700 members of the Hawai'i Lodging & Tourism Association.

HLTA opposes Senate Bill 683 SD2, which proposes amendments to articles VII and X of the Constitution of the State of Hawai'i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education. As much as we support improving upon our state's education system we must take into consideration the tax burden our visitor industry already bears.

Our respectful opposition is based on the following reasons:

**Higher Taxes/Fees Hurt our Ability to Compete.** In recent years, the state permanently raised the Transient Accommodations Tax, to the point where guests now pay a TAT of 9.25 percent. Coupled with the General Excise Tax, guests pay a 13.41 percent tax on the Neighbor Islands and 13.96 percent on O'ahu. Hawai'i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, both domestically and internationally.

**Tourism Already Is the State's Revenue Producer.** In its most recent report, the Hawai'i Tourism Authority stated, "Tourism is the largest single source of private capital for Hawai'i's economy." The HTA went on to note that tourism accounted for 190,000 jobs, that visitor spending last year totaled \$15.6 billion, a new high, and that the state's tax take was \$1.82 billion. Of that sum, TAT revenues alone accounted for nearly \$447 million for the state's coffers last fiscal year.

But the hospitality industry is not an infinitely prosperous, infinitely taxable entity. Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai'i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.

**HAWAI'I LODGING & TOURISM**  
**A S S O C I A T I O N**

**TAT Revenue to the General Fund.** More than half of Transient Accommodations Tax revenue now goes to the General Fund. While the TAT was established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended. We would surmise that public education may be already receiving a share of TAT revenue through its General Fund budget allocations.

**Uncollected Revenue.** The state government is not collecting Transient Accommodation and General Excise taxes on transient vacation rentals. The Hawai'i Lodging & Tourism Association has gone on record as supporting legislation that would ensure a level playing field for all visitor accommodations, from the traditional hospitality businesses to the alternative accommodations offered online. There are an estimated 25,000 alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding our 9.25 percent Transient Accommodations and General Excise taxes. Rather than outlaw these transient vacation units, or raise the TAT, the state government should collect the millions of dollars in taxes now being avoided.

For these reasons, the Hawai'i Lodging & Tourism Association continues to oppose proposals to raise taxes and leverage extra fees on the visitor industry.

Mahalo for the opportunity to testify.

Testimony for JUD on Mar 22, 2017 14:00PM in Conference Room 325

Submitted By	Organization	Testifier Position	Present at Hearing
Leslie Baunach	Hawaii Association of School Psychologists	Support	No

Comments: Aloha Chair Nishimoto and representatives: The Hawai'i Association of School Psychologists supports SB686 and SB683 to better fund public education. Our children are our future. When educators work with students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society. Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking educators. Our National Association of School Psychologists (NASP) is member of the Committee for Education Funding, which has compiled research to demonstrate the impact of funding education (see attached). Please visit their website for more information: <https://cef.org>. To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo. Thank you, Leslie Baunach, NCSP HASP Past President

**Wednesday, March 22, 2017, 2:00 p.m., Conference Room 325**

The Honorable Scott Y. Nishimoto, Chair

The Honorable Joy A. San Buenaventura, Vice Chair

Committee on Judiciary

Dear Chair, Vice Chair, and Members of the Committee:

The subject bill proposes a constitutional amendment that would allow the legislature to impose a real property tax surcharge on "residential investment property" and "visitor accommodations" in order to raise funds for public education.

Individuals with disabilities who are unable to live independently often reside with family or friends because acceptable alternatives are scarce or not available at all. In many cases, the property owner who cares for the individual creates a special needs trust to hold title to the property so that the person may continue living there after the owner dies. Those arrangements serve the disabled by allowing them to stay at home, and they serve the public by avoiding expenses the state would otherwise incur.

Concern arises because the City and County of Honolulu taxes investment property at a higher rate and "owner occupied" property at a lower rate, but it provides that the lower rate applies to trust property "where the settlor of the trust dies and a beneficiary entitled to live in the home under the terms of the trust document occupies the property as the beneficiary's principal home." ROH § 8-10.4(a) (last paragraph). Other counties lack a similar provision, and all county codes are subject to change. An explicit exemption for special needs trusts should

therefore be included in the amendment so that it cannot be interpreted in a way that subjects such trusts to the surcharge.

The amendment proposed by this bill to Article X, section 1 of the Constitution of the State of Hawaii should be changed to read as follows:

"The legislature may establish, as provided by law, a surcharge on residential investment property and visitor accommodations to fund a public education for all of Hawaii's children, provided, however, that no residential property occupied by an individual with disabilities pursuant to the terms of a special needs trust shall be subject to the surcharge."

Thank you for the opportunity to testify.

**Hawaii State Capitol, , Room 325, March 22, 2017, 2:00 PM**

---

**On behalf of Hawaii Children's Action Network (HCAN), we are writing to support SB 683 SD 2 – Relating to Proposing Amendments To Articles Vii And X Of The Constitution Of The State Of Hawaii To Authorize The Legislature To Establish A Surcharge On Residential Investment Property And Visitor Accommodations To Increase Funding For Public Education.**

As one of the lowest rated school districts for spending per student, Hawaii needs to find new ways to increase funding for education. This bill provides an option to increase funding without increasing the tax burden on Hawaii residents. This additional funding for education can lead to better results in test scores, school completion, college attendance, and job opportunities for students.

**For these reasons, HCAN respectfully requests that the committee pass this bill.**

HCAN is committed to building a unified voice advocating for Hawaii's children by improving their safety, health, and education. Last fall, HCAN convened input in person and online from more than 50 organizations and individuals that came forward to support or express interest for a number of issues affecting children and families in our state that resulted in the compilation of 2017 Hawaii Children's Policy Agenda, which can be accessed at <http://www.hawaii-can.org/2017policyagenda>.

Comments: A few days ago, I read the new American Education Act of 2017 that was introduced into the Congress (House) last week. If some version of that Act eventually passes, Hawai'i Department of Education will need more funding sources just to maintain any current programs and obligations. Most states have taxes for public education tied to property taxes of some kind.

Parents for Public Schools of Hawai'i has received comments from families whose children are in public schools across our State about what they love about their schools and their concerns. The message is clear that what they appreciate most is their child's teacher. And yet, our State does not adequately compensate teachers for the hard work that they do. Teachers are education's greatest resource, and families acknowledge that teachers are the key to our children's success. We must be able to recruit and retain teachers who are caring, well prepared, and hold high expectations for all children. Teachers are professionals and should not need to work second jobs and live paycheck to paycheck. If we would like to attract the best teachers and retain them in the profession, they need to be adequately compensated.

Our members would like educators to refocus education on the whole child. Families value music, the arts, dance, languages, and Hawaiian and Polynesian studies. These are subjects that are crucial for the healthy and creative development of children that are currently missing in public education. All children deserve an education that nurtures every facet of their life, one that engages them in interesting curriculum that exposes them to new, exciting and creative arenas.

We believe Hawaii public schools are underfunded and our teachers are underpaid. It is time to invest in our children's education and their future. We support SB 686 establishing education surcharges on residential investment property and visitor accommodations to increase funding for public schools with surcharges used for:

1. Recruiting and retaining public school teachers.
2. Lowering public school class sizes;
3. Improving special education staffing and resources; and
4. Offering additional instruction in career and technical education, visual arts, music, theatre, dance, Hawaiian and Polynesian studies, and Hawaiian language.

We support SB 683 proposing an Amendment to the State Constitution to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education. **Let the public vote on this issue.**

This is our greatest opportunity to support and promote education of all Hawai'i's keiki in ways that will significantly influence their lives. These bills can positively affect the lives of thousands of children and their families in our State for many generations to come. Thank you for your time and consideration.

Aloha,

Lois Yamauchi, PhD

SB683 PROPOSING AMENDMENTS TO THE CONSTITUTION OF THE  
STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO  
INCREASE FUNDING FOR PUBLIC EDUCATION

**Submitted on Behalf of the Democratic Party of Hawaii**

The Democratic Party of Hawai'i supports SB683 "Proposing Amendments To Articles Vii And X Of The Constitution Of The State Of Hawaii To Authorize The Legislature To Establish A Surcharge On Residential Investment Property And Visitor Accommodations To Increase Funding For Public Education", which is designed to provide dedicated funding for the education of our children. **The intent of this legislation is one of the Democratic Party of Hawai'i's legislative priorities for the 2017 legislative session.**

As this Committee is well-aware, public education is the cornerstone of our democracy. In order for our form of representative government to survive, we must have an informed and educated electorate. That starts with treating our teachers with the respect they deserve, and providing them the tools they need to do their job. As the party of public education, of school lunch and Head Start, we urge you to make a commitment to improving school funding and the recruitment and retention of teachers.

# Chamber of Commerce HAWAII

*The Voice of Business*

**Testimony to the House Committee on Judiciary  
Wednesday, March 22, 2017 at 2:00 P.M.  
Conference Room 325, State Capitol**

**RE: SENATE BILL 683 SD2 PROPOSING AMENDMENTS TO ARTICLES VII AND  
X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE  
LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT  
PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR  
PUBLIC EDUCATION  
AND  
SENATE BILL 686 SD2 RELATING TO EDUCATION FUNDING**

Chair Nishimoto, Vice Chair San Buenaventura, and Members of the Committees:

The Chamber of Commerce Hawaii ("The Chamber") **strongly opposes** SB 683 SD2, which proposes amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a public education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations.

The Chamber also **strongly opposes** SB 686 SD2, which establishes an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education.

The Chamber is Hawaii's leading statewide business advocacy organization, representing about 1,600+ businesses. Approximately 80% of our members are small businesses with less than 20 employees. As the "Voice of Business" in Hawaii, the organization works on behalf of members and the entire business community to improve the state's economic climate and to foster positive action on issues of common concern.

The package of bills proposes to implement a constitutional amendment permitting the legislature to establish a surcharge on visitor accommodations and residential investment properties to fund the department of education, and then a statutory mechanism to implement the program. The statutory bill proposes two new taxes, one on residential investment property and one to assess visitor stay on a per day basis.

While we strongly support the efforts to provide quality public education in our state, we are concerned that there is no clear amount designated as a sufficient amount of funds for education. We are also concerned with the approach to create new assessments, or taxes on activities with no nexus to the end user or, worse, taxes one group of residents and not others. On taxing residential investment property, the resident renter will likely pay the tax. Hawaii has approximately a 55%+ homeowner rate. That would suggest that about **40-45% of all residents**

# Chamber of Commerce HAWAII

*The Voice of Business*

**living in the state are renting.** This would create an **unfair tax burden on local residents who are renters** and increase the cost of housing for these residents, which this bill in part tries to address for teachers. This appears to be an unfair targeted tax and could create a further economic divide between homeowners and renters. A renter in a \$400,000 valued residential property could be affected by this tax to the amount of an additional **\$1,400 per year**. For someone renting the average home value or \$760,000 the tax could be over **\$4,100 per year**. Even though there are exemptions for certain types of residential units, it could skew the marketplace and adversely affect the rental market.

It is also unclear on a practical level how these exemptions will be monitored and enforced. We are not sure the Superintendent is the best lead enforcement person even with the help of the state and county director of finance. In addition, the resources by the state and county to administer and enforce this new law are not addressed in the bill. Furthermore, the new administrative burden by homeowners may again negatively affect the marketplace.

For the tax on tourism, there is already a 13.75% tax rate on transient accommodations. We think the per-day tax could hurt tourism and damage further investment by transient accommodation owners into Hawaii's properties. It will also place an additional and complicated burden on transient accommodation operators as they will have to track and report on two different types of accommodation taxes. Transient accommodation companies already provide huge tax revenues to the state in TAT, GE and the income taxes for the thousands of jobs that they provide in our state.

We also have other issues with the bill. It does not guarantee (nor can any language) that the additional tax revenues will be used only for the department of education. As you know, the Legislature of today cannot bind future Legislatures, especially in how they appropriate funds.

The bill does not state what the projected \$500 million in additional taxes will accomplish. Lastly, we have concerns on the larger issue of raising taxes to fund a specific department and an employee class of salaries. As we mentioned there are many important programs that the state funds, but doing this could set a dangerous precedent for other programs with constituencies to come in for further tax increases.

We ask these bills be deferred. We appreciate the opportunity to provide our input on this important legislation.

Please support the listed bills to provide  
Hawaii's children with properly funded  
education. Over a hundred years after  
the overthrow and economic dominance  
of the Big Five our youth still feel  
the effects of oppression as being  
America's most underfunded education  
system. As a mother and Teacher of at  
Hawaiian immersion charter, I hope  
all language in education bills  
specifically and explicitly states  
equal treatment and benefits for charter  
schools. Mohala H.

- Funding schools = more educational opportunities for a well-rounded student
- Smaller class sizes = more chances for 1-to-1 relationship-building/bonding.
- Solve chronic teacher shortages by investing in the ~~the~~ local teachers, i.e. salary increase for teachers, instead of paying for housing & stipends for mainland teachers to come to Hawaii.
- simply believe in teachers to give the public a better "view".

Some things to remember:

- teachers use hundreds if not thousands of their own money to fill the needs of their classrooms.
- teachers work overtime to meet deadlines or to create rich, meaningful activities for their keiki.
- cost of living, health insurance are rising and teachers are struggling to take care of their own families.

There needs to be funding that is reliable. If society wants a civil and productive society that is economically sound, it needs to invest in its communities and have an educated workforce. Education is my second career and in my previous employ, I was always provided the needed supplies and resources. Not so in education. I end up spending my own money, thousands of dollars, which are not considered tax deductible. I have 2 jobs to make this happen. How unfortunate if you want to be a great teacher - you have to spend your own money. C >>

I live and work in Keanu on the Big Island.  
Students we teach and live among struggle  
with being able to rise above poverty level. Many  
of my students are qualified for additional support  
due to family situations. These students have  
trouble trusting and developing relationships with  
people. We need to support teachers so they  
can afford to remain teachers-financially and  
emotionally. Please support these bills.

Honorable Congressmen,

I humbly ask you to consider supporting our students with approving the bills to enact a Constitutional Amendment. Here are things I have had to buy this month alone for my students: food, notebooks, pencils, paper towels, 'easy reader' books for my most impaired special education students, valentines (because I love all my kids!), slippers, scissors, online worksheets and curriculum, new markers and more. We love and find our kids - but I want to do that with the abundant tourism funds rather than with my diminishing paycheck.

Aloha Legislators,

Please help provide our keiki  
a well-funded education system  
by joining the other 49 states  
which have already property taxes  
which support education as  
foundational to property values.

Our counties benefit immeasurably from  
a better educated workforce! QAnderson

A first year teacher at our school is having a great year teaching and inspiring her students. She is a natural born educator. talented, smart, caring and genuine.

However, she is contemplating returning next year because the pay is not enough to support her and her baby. ~~It~~ It will be horrific to lose her.

A few months ago, I read in West Hawaii Today that a BOE member's suggestion to solve the teacher shortage was to recruit teachers from other countries, Ridiculous!

We need a long term solution that will improve our Hawaii education system - not stop gap temporary measures. This proposal would address many areas ~~that are needed~~ and will create a stronger education system for our keiki. They are the future of Hawaii and they deserve better.

Our schools desperately need more financial support. Funds are in such short supply, as a Kindergarten teacher, I buy many basic needed supplies w/ my own \$: Paper towels, pencils, erasers, Kleenex, markers, and even wipes, to help disinfect tables when students are sick. Please support our public schools!

Being away from Hawaii for  
9 years teaching in a private  
I.B. School, I noticed a huge  
diservice to our Keiki in Hawaii.  
It's so sad to see the things  
that our Keiki are without in  
the classroom, especially when  
it comes to qualified teachers.  
I came back as a sub. even  
though I am a licensed teacher  
and there were still, in October, so  
many vacancies, that's kids without  
qualified teachers. We need more  
money for the DOE. That's It. Mahalo!

For what teachers get paid is way under paid & have been getting paid has always been well below the norm, or of similar mainland states with similar cost of living. Teachers don't stay in Hawaii because they cannot afford to live here without at least one second job. This makes it hard on teachers & on students. Students cannot get hold of their teachers since they leave school to go directly to the second job. This is wrong... We need \$10,000+ per year increase to come close to mainland,

- A 1% raise is a joke.  
(It doesn't account for cost of living ↑)
- A lump sum raise is a joke.  
(So much is taken out for taxes that it's an insult.)
- We need incentives in order to STAY. Why shouldn't I leave to get paid more in another state? Yet I'm a local to the Big Island.

I'm out of my office substituting  
for a teacher since they could  
not find one to teach the  
Deaf. - I thought they'd find  
someone by now - Feb. - but I'll  
be in this position all year -  
not enough pay to attract teachers.

Many of Hawaii's young adults do  
not want to pursue teaching  
careers. <sup>Better</sup> funding of education  
may help with this. <sup>Also,</sup> constantly  
pouring funds to entice mainland  
teachers to our state creates  
an endless cycle of -mostly-  
"vacationers" to our education  
system. as they usually, then  
stay for their short-term commitment, leave.

Hawaii's keiki deserve better schools  
with well-rounded curriculum that  
provides meaningful content that  
addresses not only reading -  
writing - math - science - social studies  
but also physical education; music,  
art (visual - theatre - dance - etc.)  
Our children deserve to exit  
schools career or college  
ready - some don't go for university!

Teacher turn-over is  
arguably the biggest reason  
the Public Education System is not  
solving our leiki like it should be.  
People want to teach in Hawaii, but  
can't stay/afford it due to low  
salaries. There are several hundred  
vacancies in the DOE this year alone.  
These positions are being filled by  
unqualified/untrained people to be teachers.  
We need to attract and retain  
talented people who will teach in  
Hawaii for 20-30+ years. The way to do  
this is pay higher salaries. This is the  
way it works in the business world  
and it is no different in education.

We have a 30% vacancy  
projection for next School Year  
2017-2018. None of these teachers  
are retiring. They are leaving because  
they can't afford to live on our  
meager salaries. Last year's  
shortages at end of year and beginning  
of SY 2016-17 did not get filled with  
highly qualified teachers. We need  
more money!!!

Please support our Keiki by working to decrease teacher turnover. We need to retain quality teachers. Students who have veteran and well trained teachers are much more likely to have a greater & more positive impact on student learning.

In order to retain quality teachers it is vital that teacher salary and health care package is one that ~~with a salary~~ ~~that makes it affordable~~ we can live on and raise our families on.

Substitute teachers can not = certified dedicated teachers.

Mahalo,

Adrienne Hale

I give everything I have to being an effective educator, working 8-10 hour days and multiple hours on the weekends. Our severe teacher shortages (that I see every day) and the basic law of Supply and demand show that teachers like me must be honored with a fair, professional, living wage. If the problem is not addressed, good teachers will continue to find other locations and outlets for their service.

Teaching has been the hardest and underpaid profession I have been a part of. Every day I spend countless hours planning for my students, volunteer coaching my elementary school track & field team and other unpaid hours. I spend money out of my pockets to put shoes on their feet and pencils in their hands. I do this because I love them and believe in their potential to make the world a better place.

However, ~~I~~ I can't go on like this and the schools can't either.

I am in support of SB683, SB686,  
HB180 and HB182. There needs to be  
a fair and equitable education for all  
students and teachers in Hawaii.

I support using current ~~residential~~  
residential investment property, I do not  
support increasing property taxes to  
supplement this fund education. I do  
think a portion of visitor accommodation  
surcharges be used for education.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hm, Ht 96835

1403 Honokua of.

Dorotea Heiracy!

you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: ""Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawai'i's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: ""Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

REP. Beth Kikano

(To locate your senator and representative go to [openstates.org](http://openstates.org))

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "I shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

(To locate your senator and representative go to [openstates.org](http://openstates.org))

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

I am a UH graduate with a degree in teaching and student debt (fed loans) that have no chance of being forgiven as my school no longer qualifies as a title 1 school. I'm a lisenced professional with zero credit card debt and I have a hard time making ends meet. My dream is simply to be able to purchase a small house or condo, for security and well being. Please HELP US! The stress level and lack of time to plan and complete EES is just not worth level of value our state places on us.

As a struggling teacher, <sup>trying</sup> to continue  
to do what I love in a place ~~I~~ love,  
I fully support this Amendment.  
I find less time to spend with my family  
and focus on my students because I  
need to supplement my pay. This gives  
me reason to reconsider my position  
as a teacher. We have seen far too  
many excellent teachers leave for these  
very reasons. We need to find a way  
to make it affordable for teachers to stay.

All these hopes for the future will do no good if the children who will control our future are not given a proper education. We need the funding to give them that.

Our schools will fall  
apart without proper funding.

Teachers are already leaving.

It will only get worse, unless  
we support our schools properly!

I support SB 683, SB 684,  
HB 180, and HB 182. The passage of  
these bills can help in making  
classroom sizes manageable  
and teachers also need to have  
an special Ed. Inclusion teacher  
for all academic subjects.  
Please help our kids and  
educators.

I also think we need restructuring of how the funds are spent.

Too much on ~~that~~ admin of coaches etc. instead of using funds to increase teacher salary.

Please, in the name of Jesus Christ,  
do whatever it takes to ensure  
that moneys are invested in all  
aspects of education / educators -  
How can we compromise the quality of  
education when it is the bridge to  
all other careers, professions like  
lawyers, doctors, who are revered in  
many ways, including pay. Bottom Line:  
"High Morale, High Productivity" -  
Honor that which is vital for Hawaii's  
people & ALL Teachers / Learners, Community.

Senator English

I Strongly urge you to support these bills to increase funding to Hawaii's public schools. Rampant speculation has ~~the~~ driven the cost of housing on Maui through the roof. As a teacher with a Master's Degree, my rent accounts for over 50% of my net income. Please take a stand to support Hawaii's students & teachers.

Aloha,

I have recently returned to my childhood home after 15 years in education on the mainland. I have returned to the classroom after working as a teacher coach, school administrator, and education consultant.

Happy to be home + teaching again, but absolutely "appalled" that my current paycheck is smaller than it was in my first year of teaching in California in the year 2000. Auwē! Rana Boone

- We need to help teachers with salary increase, help to retain teachers (new & soon to retire):
- ~~help~~ train teachers to be better teachers (mentorship) instead of continuous evaluations (EES) which takes away ~~the~~ fun from teaching.
- Tax foreign investors, hotels & non-residents to support our economy of Maui County
- Slow down the growth since the closing of HCS, see increase in outsiders, social problems, etc. transient community.

I am a high school teacher  
in my third year. Hawaii students  
are the most respectful group I  
have had the pleasure to work with  
in my career. Yet, when I look to the  
future, I do not see myself EVER  
being able to own a home in Hawaii.  
I barely make ends meet & pay my bills.  
Students suffer the most, though, due to  
underfunding. Please support our students & teachers.

Coming from the Northeast, I know exactly how low our property taxes are. I also know how tight the market has become. The rental market as well as ownership market is slowly squeezing everyone. While I am aware of the benefits of part time owners who don't make demands on the county/state resources, there is very little left for people who want to live and work in Hawaii.

The brain drain will only worsen unless something is done.

We are being priced out of the housing market -- rental and ownership. In the 22 years I've taught on Maui, I've seen new teachers arrive in June and leave in July because they couldn't find affordable housing on a starting salary. I've seen leave, reluctantly, because they could pay rent or daycare or student loans.

It's unsustainable -- and not just for teachers.

#1 Can teachers with children have an additional 12 days of "family leave" that can be used to stay home to care for sick kids?

⊕ We can provide a doctors note to prove that the kid is sick.

Parents use All their sick days just to take care of their sick children. This would really show support of families in the community.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Please consider this  
bill as it is a win-win.  
Doesn't negatively effect  
any of your constituents and  
could make a real and lasting  
difference for schools here  
in Maui.

We need a  
Kihei High School!

Mahalo for your support of  
these bills. I am not only a teacher  
at Lahainauna HS, I'm also a graduate.  
As a lifetime member of the community,  
I have seen teachers come + go and  
the common thread that ties all those  
who leave is the low pay + lack of  
support at the school + classroom level.  
I have seen the impact + felt the impact  
this revolving door of teachers has on  
students.... reinforcing the negative feeling of  
how unimportant stability is for learning. Please help with  
your support of these bills.

It is such a struggle to maintain residency in Hawaii with low pay, minimal resources, and lack of support for teachers across the state. Retention is already an issue and is continuing to be a struggle - especially for special education. Special Education is on the lowest rank on the totem pole in my school -- there are vacancies still and our school took a long term sub away from Special Ed. in grades K-2 to favor a part time P.E. position. We are forced to increase workload and are spread so thin! Please support us teachers in Hawaii!

I have been teaching in Hawaii for 23 years  
& gone through many negotiations where  
teachers are asking for a raise. I am  
always disappointed in how the state  
disrespects teachers & their value in  
society by offering less than cost of living  
increases let alone an "actual" raise.  
I have seen dozens of excellent teachers  
leave Hawaii because they could not  
make ends meet on their salary w/ the  
cost of living in HI. No matter how much  
support we provide them at the school level,  
we can not change their salary, rent or  
cost of insurance, food & utilities - so they  
leave the islands. Don't our Kaiki deserve the best  
possible teachers ~~that~~ who don't have to work a second job to <sup>make</sup> ~~ends~~ <sup>meet</sup>?

Mahalo for your support of these bills.

I'm not only a teacher at Lahainaluna HS,

I'm a graduate + the daughter of a graduate.  
Students, families, + community benefit from  
teachers who build relationships + grow deep  
roots. As a student + as teacher, I have

seen the negative impact that a revolving  
door of teachers that come + go - sometimes mid-year -  
has in the classroom + with student learning.

Why do I stay? I'm lucky. My spouse will take  
over the lease of his father's Hawaiian Homestead land.  
Without this support, we might have also left - as my  
brother + his wife did, unable to afford the cost of  
living on Hawaii. Again, Mahalo for your support

- After 11 years teaching in Hawaii, I still make \$10,000 less per year than when I left So Cal in 2003!
- If I were in my 11<sup>th</sup> year now at my old district, I would be making \$80,000/yr compared to my current \$50,000 at HDOE
- I am not compensated for both of my master's degrees even though I am a school librarian & my 1<sup>st</sup> masters is in education & my 2<sup>nd</sup> is in library science. My old district compensates for all relevant degrees, as do most U.S. districts.

Why stay in Hawaii? Would you?

I strongly support a state property tax  
to fund schools. I am concerned that  
these funds will not make it to the  
schools. I also worry that lower valued  
homes will be taxed too much.

As a 4<sup>th</sup> generation Maui resident  
I feel that the state is failing  
~~the state~~ at supporting local families.  
STOP GIVING NON-RESIDENTS the  
right to tax privileges, land use  
privileges, etc.

I want to help Maui kids, and I  
cannot do it at this rate of pay much  
longer. I just can't afford rent, bills,  
etc. and already work 2+ jobs.

DO WHAT IS RIGHT <sup>Mahalo</sup> FOR THE LOCAL FAMILIES.

I am a Dr. in the Hawaii Public school system and implore you to assist the Public Schools as I have benefitted tremendously from attending public schools. The teachers, the experiences and learning I gained stands up to any private school experience and as they serve the general population is deserving of such funding.

Our students need & deserve more  
from our state. They are falling behind  
and as teachers, we are trying our best  
to help them. It is so difficult when  
we don't have enough resources for them.  
Our state is failing our students and  
they are suffering. Please help us  
raise our students up so they can  
be productive & confident members of  
society. Thank you so much for  
your consideration.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: ""Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Senator English

I Strongly urge you to support these bills to increase funding to Hawaii's public schools. Rampant speculation has ~~the~~ driven the cost of housing on Maui through the roof. As a teacher with a Master's Degree, my rent accounts for over 50% of my net income. Please take a stand to support Hawaii's students & teachers.

Aloha,

I have recently returned to my childhood home after 15 years in education on the mainland. I have returned to the classroom after working as a teacher coach, school administrator, and education consultant.

Happy to be home + teaching again, but absolutely "appalled" that my current paycheck is smaller than it was in my first year of teaching in California in the year 2000. Auwē! Rana Boone

- We need to help teachers with salary increase, help to retain teachers (new & soon to retire):
- ~~help~~ train teachers to be better teachers (mentorship) instead of continuous evaluations (EES) which takes away ~~the~~ fun from teaching.
- Tax foreign investors, hotels & non-residents to support our economy of Maui County
- Slow down the growth since the closing of HCS, see increase in outsiders, social problems, etc. transient community.

I am a high school teacher  
in my third year. Hawaii students  
are the most respectful group I  
have had the pleasure to work with  
in my career. Yet, when I look to the  
future, I do not see myself EVER  
being able to own a home in Hawaii.  
I barely make ends meet & pay my bills.  
Students suffer the most, though, due to  
underfunding. Please support our students & teachers.

Coming from the Northeast, I know exactly how low our property taxes are. I also know how tight the market has become. The rental market as well as ownership market is slowly squeezing everyone. While I am aware of the benefits of part time owners who don't make demands on the county/state resources, there is very little left for people who want to live and work in Hawaii.

The brain drain will only worsen unless something is done.

I have taught at Kikei Elementary School for over 20 years. Within the past 5 years, <sup>as a single person, I</sup> ~~it~~ have been struggling to care for my <sup>elderly</sup> ~~elderly~~ mother. As a result, I haven't been able to do hands on projects and experiments with my students, because I can't spend my own money and my school gives ~~ed~~ a set amount of money that must be spent within a month and which doesn't cover costs for stores not on approved lists.

I am struggling personally to find a way to meet the needs of my students.

We are being priced out of the housing market -- rental and ownership. In the 22 years I've taught on Maui, I've seen new teachers arrive in June and leave in July because they couldn't find affordable housing on a starting salary. I've seen leave, reluctantly, because they could pay rent or daycare or student loans.

It's unsustainable -- and not just for teachers.

#1 Can teachers with children have an additional 12 days of "family leave" that can be used to stay home to care for sick kids?

⊕ We can provide a doctors note to prove that the kid is sick.

Parents use All their sick days just to take care of their sick children. This would really show support of families in the community.

Mahalo for your support of  
these bills. I am not only a teacher  
at Lahainauna HS, I'm also a graduate.  
As a lifetime member of the community,  
I have seen teachers come + go and  
the common thread that ties all those  
who leave is the low pay + lack of  
support at the school + classroom level.  
I have seen the impact + felt the impact  
this revolving door of teachers has on  
students.... reinforcing the negative feeling of  
how unimportant stability is for learning. Please help with  
your support of these bills.

It is such a struggle to maintain residency in Hawaii with low pay, minimal resources, and lack of support for teachers across the state. Retention is already an issue and is continuing to be a struggle - especially for special education. Special Education is on the lowest rank on the totem pole in my school -- there are vacancies still and our school took a long term sub away from Special Ed. in grades K-2 to favor a part time P.E. position. We are forced to increase workload and are spread so thin! Please support us teachers in Hawaii!

I have been teaching in Hawaii for 23 years  
& gone through many negotiations where  
teachers are asking for a raise. I am  
always disappointed in how the state  
disrespects teachers & their value in  
society by offering less than cost of living  
increases let alone an "actual" raise.  
I have seen dozens of excellent teachers  
leave Hawaii because they could not  
make ends meet on their salary w/ the  
cost of living in HI. No matter how much  
support we provide them at the school level,  
we can not change their salary, rent or  
cost of insurance, food & utilities - so they  
leave the islands. Don't our Kaiki deserve the best  
possible teachers ~~that~~ who don't have to work a second job to <sup>make</sup> ~~ends~~ <sup>meet</sup>?

Mahalo for your support of these bills.

I'm not only a teacher at Lahainaluna HS,

I'm a graduate + the daughter of a graduate.  
Students, families, + community benefit from  
teachers who build relationships + grow deep  
roots. As a student + as teacher, I have

seen the negative impact that a revolving  
door of teachers that come + go - sometimes mid-year -  
has in the classroom + with student learning.

Why do I stay? I'm lucky. My spouse will take  
over the lease of his father's Hawaiian Homestead land.  
Without this support, we might have also left - as my  
brother + his wife did, unable to afford the cost of  
living on Hawaii. Again, Mahalo for your support

- After 11 years teaching in Hawaii, I still make \$10,000 less per year than when I left So Cal in 2003!
- If I were in my 11<sup>th</sup> year now at my old district, I would be making \$80,000/yr compared to my current \$50,000 at HDOE
- I am not compensated for both of my master's degrees even though I am a school librarian & my 1<sup>st</sup> masters is in education & my 2<sup>nd</sup> is in library science. My old district compensates for all relevant degrees, as do most U.S. districts.

Why stay in Hawaii? Would you?

As a 4<sup>th</sup> generation Maui resident  
I feel that the state is failing  
~~the state~~ at supporting local families.  
STOP GIVING NON-RESIDENTS the  
right to tax privileges, land use  
privileges, etc.

I want to help Maui kids, and I  
cannot do it at this rate of pay much  
longer. I just can't afford rent, bills,  
etc. and already work 2+ jobs.

DO WHAT IS RIGHT <sup>Mahalo</sup> FOR THE LOCAL FAMILIES.

Let the CITIZENS decide!  
We all have to live with the  
consequences of poor education  
funding; we cannot afford to  
underfund schools. Those who  
face a future that will either  
be peopled by citizens well educated  
or poorly educated have a vested  
interest in school funding.

Please support teachers  
by offering a fair contract  
that compensates teachers  
for the work we do.

Fifty percent of new teachers  
leave the profession and  
students deserve highly  
trained teachers instead of  
substitutes.

RE: SB683 - PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION

***Comments Only***

Dear Chair and Committee Members:

The Grassroot Institute of Hawaii would like to offer its comments on SB683 SD2, which would propose an amendment to the state constitution for the purpose of levying a tax specifically intended to fund public education.

The problem of how to improve Hawaii's schools is one that is certainly worthy of public discussion. And the extent to which increased funding might help is one element of that debate. But to forestall that political question by enshrining a direct funding source directly in the Hawaii Constitution creates a troubling precedent.

Nowhere is it suggested that education funding in the state is at such a crisis that extraordinary measures are called for. The Department of Education will receive \$1.6 billion from the General Fund this year, giving it one of the largest operating budgets of all state agencies. According to the U.S. Census, per-pupil spending in Hawaii is approximately \$12,458—well above the national average of \$11,009.<sup>1</sup> In short, there is no reason why the legislature should reach outside of its taxing power in order to create a special funding source within the State Constitution.

---

<sup>1</sup> U.S. Census Bureau. Annual Survey of School System Finances 2014. Available at <http://www.census.gov/govs/school/>

To do so not only limits the flexibility of the legislature in balancing the spending needs and budgets of state agencies, but encourages other agencies to seek similar treatment. For agencies with substantial union membership (including the Department of Education), the repercussions on collective bargaining may be severe.

Moreover, there is also the question of how this proposed tax will affect the state in general. The counties have already objected to the infringement on their taxing powers—taxes used to fund police and fire departments—for the purpose of creating a special fund for education. Others have pointed out that the tax will have an adverse effect on the price and availability of rental housing, could threaten investment, and may even decrease our competitiveness as a tourist destination. Thus, in one stroke, the legislature could create a budget crisis for the counties, worsen the housing situation, and harm one of the state’s most important sources of revenue.

Finally, the language of the amendment raises the worrying possibility that there will be no real limits on the surcharge. Though it is being sold to the public on the promise that it will only target high-end property (the current proposed threshold is property valued at \$2 million), there is no reason why the legislature couldn’t expand the tax to apply to everyone.

While it may be tempting to pass the question of a tax increase to the voters via a Constitutional amendment, this is not a sustainable way to govern a state. There are better ways to help teachers than through a tax hike and better ways to raise taxes than through the Constitution.

Thank you for your consideration of our comments.

Sincerely,  
Joe Kent  
Vice President of Research  
Grassroot Institute of Hawaii

Chair Nishimoto and Members of the Committee:

My Name is Ken Farm and I stand in support of SB683 to increase funding for public schools. And subsequent Enabling Bill SB686.

Our children are our future and education is our societies great equalizer. Quality education leads to better outcomes and less reliance on government assistance and other social safety net programs. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for the lower and working class of Hawai'i, it allows for smaller sizes classes which allow teachers to connect with their students and, because of smaller classes sizes teachers can focus a child's whole education. In addition, voting yes will help Hawai'i students become more adept with STEM classes. However, must never forget the importance of the arts and Hawaiian studies. All integral in creating a whole person, traits such as, critical thinking skills and, creativity beyond classroom academics.

Furthermore, this bill will increase available monetary resources for special needs students that are under the protections of the federal IDEA law or any other type of designation. Finally, the following bills will address the issue of professional pay that reflects the value of our hardworking teachers and educational support staff but also address the issue of personnel retention particularly with teachers.

Our keiki deserve the best we can provide and by voting in support you are fulfilling the promise of the social contract Mahalo.

Ken Farm , Oahu

Sent: Tuesday, March 21, 2017 6:03 AM  
To: JUDtestimony  
Subject: Testimony re. SB 683 and SB 686 RELATING TO EDUCATION.

Dear Chair Nishimoto and Members of the Committee:

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

My name is Adrienne Hale. I am a teacher from Kona on Hawai'i Island. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

I am most concerned about drawing and retaining teachers to our state. Year after year I have seen us hire teachers who struggle to afford to stay on our current salary. Teachers who can build their careers here become experienced and teachers who can grow in their profession to better serve our keiki.

We need additional funding for our public schools, and we all thank you for supporting us in this endeavor.

Sincerely,

Adrienne Hale

TESTIMONY BEFORE THE **HOUSE COMMITTEE ON JUDICIARY**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 22, 2017

2 p.m.

Chair Nishimoto and Members of the Committee:

My name is Brittney Basilio. I am a teacher from the central district on Oahu. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because our keiki deserve high quality education. In order to achieve high quality education, appropriate funding is needed. As a first year teacher I am enthusiastic, passionate, yet uncertain of what the future holds for education. My love and passion for this career is what I hope will keep me persevering, even when it is difficult at times. I think it is crucial to maintain young, passionate, and enthusiastic teachers, however, without the appropriate funding, that will be very difficult.

As a science teacher, one of the many struggles I've faced within the first year was walking into my classroom that is not fully equipped to teach the subjects of physics and biology. The textbooks provided were the same exact textbooks that I used as a SOPHOMORE in high school (2006). That text is definitely out dated and simple things like an outdated textbook will take away from high quality education.

Aside from an unequipped classroom, the most difficult part for me was taking funds out of my own pocket to attain the appropriate material for my students to complete projects and labs. As a first year teacher coming straight out of college, I cannot afford to do that, but providing my students with greater opportunities to achieve high quality education is my first priority.

To deliver the schools our keiki deserve, please support these bills. We need your help.

Mahalo.

Brittney Basilio, Central District, Oahu

TESTIMONY BEFORE THE **HOUSE COMMITTEE ON JUDICIARY**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 22, 2017 2 p.m.

To: Chair Scott Y. Nishimoto, Vice-Chair Joy San Buenaventura and Members of the Committee

From: Dr. Carrie Sato, DOE State Office Teacher

I wish to express my **STRONG** support of SB 683 and SB 686 to increase funding for the public schools. As a teacher in the public school teacher since 1975 in the Central and Honolulu districts, I have witnessed the balancing act between facilities, programs, and resources that sacrifice opportunity for our students.

Our children are our future. What is not spent in educating our young people today will be spent on more costly rehabilitative programs in the future. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will enable the public schools to meet the challenges of the 21<sup>st</sup> century by providing lower class sizes that allow teachers to connect with their students, by providing whole child education that includes the arts and culture, by providing resources and services for students with special needs, and by providing professional pay to retain teachers and reinforce our hardworking teachers.

Our public education system needs a consistent, reliable source of funding for our public schools that is focused on the classrooms, *not the bureaucracy*. As a teacher, there was never enough money for supplies and equipment. It was not unusual or me to spend thousands of dollars of personal funds to provide students with supplies and equipment for project-based learning and simulations that foster “real-life” “authentic learning” (best practices in education). As a department chairperson, providing

textbooks and computers required at least a 3-year replacement plan for each grade level. “Small ratio” classes, such as advanced placement or lab classes, were often sacrificed to the budget and deprived those who could benefit from a different learning environment.

Although great teaching occurs in the public schools, so many in our community view public education as sub-par to private school education as they witness the statewide poor condition of dilapidated facilities, realize that the low teacher pay creates teacher shortage, and understand that outdated resources limits opportunities for our public school students.

There needs to be a change. We need to deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo for allowing me to present testimony to the committee.

**RE: SB 683 and SB 686 RELATING TO EDUCATION.**

WEDNESDAY, MARCH 22, 2017

[2 p.m.](#)

Chair Nishimoto and Members of the Committee:

I am DIANA SEPPELFRICK at WAIANAE HIGH SCHOOL/LEEWARD DISTRICT. I have been a teacher/tennis coach/VP/teacher for 29 fulfilling years. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes Career and Technical Education (CTE), the arts and Hawaiian studies, resources for special needs students, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because without the resources needed for our public school students, our future citizens livelihoods will be bleak. Many times I have been taking out funds from my personal account, to deliver the necessary resources that our KEIKI deserve, to become the 21st Century leaders for tomorrow.

Furthermore, as the daughter of Hawaii public school educators, I believe in our PUBLIC SCHOOL SYSTEM. I am the second generation of teachers in my family, and I am extremely proud to be an American Public School teacher. Because of my families strong belief in education, the future generations in my family have had a chance to become doctors, lawyers, pilots, and all the realm of other possible careers that Americans strive for. This is all because of TEACHERS.

Teachers deserve to be paid accordingly. As college educated professionals, we strive to instill what we learned for our future generations! Many qualified individuals are leaving the teaching profession because they cannot survive Hawaii's high cost of living. This hurts our students! We trust our elected officials to do the right thing for our future generations. Please help Hawaii's Public School System and support these bills. I believe in our judiciary system and I am a very dedicated and concerned constituent who believes in our Educational and Political System. Imua! I am a PUBLIC SCHOOL TEACHER!

Sincerely,

DIANA SEPPELFRICK, WAIANAE HIGH SCHOOL/LEEWARD DISTRICT  
OAHU

Subject: Public School Funding Increase

Chair Nishimoto and Members of the Committee:

My name is Elise Anderson. I am a teacher from Central District on O'ahu. I am submitting testimony **in support of SB 683 and SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and **professional pay that reflects the value of our hardworking teachers.**

**We need additional funding for our public schools because I am second year teacher that came to Hawai'i to become a school teacher! I received a Masters degree in elementary education from HPU in May of 2015. Shortly after that, I was hired by the DOE as a first grade general education teacher in the Central District.**

**Currently, I am strongly debating applying for jobs on the mainland because I cannot afford to live here. I am 26, went to 6 years of college to impact the lives of children, to change the lives for our keiki, AND I AM VERY CLOSE TO BEING UNABLE TO SUPPORT MYSELF as an unmarried, independent living here. Please tell me how that works?**

**I cannot express how much I enjoy working with the kids, parents, community members, teaches at the school I current am employed at. If I had my way I would stay at this school until I was of age to retire. Don't take that away from me or from the kids because I cannot afford to pay my rent, student loans, car payment, insurance. For some reason I thought 6 years of a college education and teaching our future would allow me to feel financially stable. But I was wrong.**

**To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.**

**Elise Anderson, Central District, O'ahu**

Sent from my iPhone

Chair Nishimoto and Members of the Committee:

My name is Isabella Noelani Spencer. I am a teacher from East Hawaii on the Big Island. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because many teachers have to subsidize our income. We have to take second jobs to keep up with our ever rising cost of living and our salaries are not enough to make it especially if we are single parents. Shouldn't our focus be on our keiki and with second jobs we just getting by. With one job we can focus all our concerns and efforts on our students.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Subject: SB 683 and SB 686 Relating to Education

Chair Nishimoto and Members of the Committee:

My name is Julia Fernandez. I am a teacher from Central District on Oahu. I am submitting testimony **in support of SB 683 and SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because it is very difficult and frustrating to see how I can help my students but the funding isn't there. So far I received \$300 for this school year. I need \$300 per month to implement the fun educational learning activities. I need the money to teach social and emotional learning so my students learn life long skills to keep them engaged in their lives. I'm tired of dealing with problem behaviors. It takes me away from creating engaging lessons that are rich with literacy. This should be the focus so it prevents students from acting out or disengaging in learning.

The low pay for teachers is driving me to think of a career change. My husband is planning to get a second job just so we can have fun money once we buy a house. I can't even buy a house without the help of my mother-in-law who I eventually will live with. Hawaii needs to step up their game and compete with other successful states. We need to copy them and make it work for us. Please help support this bill. We all know Trumps budget cuts aren't going to help us. We need to help ourselves and invest in our students.

To deliver the schools our keiki deserve, please support these bills. We, teachers and students, need your help. Mahalo.

Julia Fernandez, Central District, Oahu.

Cc: Mitzie Higa  
Subject: Testimony in favor of SB 683 and SB 686

Chair Nishimoto and Members of the Committee:

My name is Kathryn Au and I am a registered voter in District 20 on O‘ahu. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

I have worked as an educator in Hawai‘i for over 40 years, starting as a teacher and eventually becoming the first person to hold an endowed chair in education at the University of Hawai‘i at Manoa. My experience has given me a broad overview of our P-20 education system. I have had the privilege of working on school improvement with teams from over 125 K-12 public schools throughout our state.

The key lesson I have learned is that schools need consistent support to stay the course over a period of years. This is the only way schools get better. One-year, flash-in-the-pan quick fixes will never do the job.

Positive change is starting to take hold in our public schools. For example, we have the good news that more of our graduating seniors are proceeding to college, better prepared than ever.

Now the challenge is to keep the momentum going!

What is needed is a steady stream of funding to support our public schools in the implementation of multi-year improvement efforts. SB 683 and SB 686 offer viable options for giving our public schools the necessary funding – first to catch up with the rest of the nation and then to become models of excellence.

Please support these bills to give our public school students – and our state – a brighter future.

Kathryn H. Au, Ph.D.

District 20, O‘ahu

**TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY RE: SB 683 and SB 686 RELATING TO EDUCATION.**

WEDNESDAY, MARCH 22, 2017 2 p.m.

Chair Nishimoto and Members of the Committee:

My name is Laura Buller. I am a teacher from Maui Canoe Complex on Molokai . I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools. Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society. Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers. We need additional funding for our public schools, because the weighted student formula is inadequate in fully funding school. Students at Molokai High are using textbooks that are over ten years old. Our school has not been able to fund any curriculum or supplies for the majority of the past ten years. Teachers have been allotted on average \$300.00 per year that funding has been available for curriculum and supplies. Over the past 10 years there has been more years without a curriculum and supply budget than there has been funding available. This lack of funding puts the students graduating from Molokai High at a disadvantage to students from other districts. Over the past 10 years we have had to cut teaching positions which impacts the students in two ways. The first is larger class sizes and the other is fewer electives to choose from. In a community's where there are few professional jobs we need to be able to offer skilled training to our students in technical and trades.

To deliver the schools our keiki deserve, please support these bills. We need your help.

Mahalo,

Laura Buller, Maui Canoe Complex, Molokai

TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY

RE: SB 683 and SB 686 RELATING TO EDUCATION.

WEDNESDAY, MARCH 22, 2017

2:00 PM

Chair Nishimoto and Members of the Committee:

I'm Laverne Fernandes Moore, a special education teacher at McKinley High School, serving as the President of the Honolulu Chapter of HSTA, representing 3,325 teachers. I am a long time resident of Hawaii Kai and submitting testimony in support of SB 683 and SB 686 to increase a steady flow of funding for public schools.

As a teacher at McKinley High School, developers are turning our community into a multi-million dollar exclusive neighborhood for the rich and powerful without having them pay impact fees. They are receiving tax breaks when they should be paying their fair share for infrastructure which in my opinion impacts the education of our students. They are forcing our families into homelessness or leaving the district which is depriving our students of a first class education.

Passing SB 683 and SB 686 is a vote for lower class size which affords our teachers the ability to connect with their students, provide whole child education that includes the arts, physical education, music, community based education, multiple selection of languages, providing resources and services for students with special needs and equitable pay to recruit and retain qualified teachers for our statewide public school system.

Mahalo for the opportunity to submit written testimony. Your support in investing in our children's education is appreciated.

Laverne Fernandes Moore, House District 18, Oahu

Dear Legislators:

Please do not pass SBs 686/683. Please seek another way forward—one that involves everyone, not solely people who have no say. I would be pleased to support alternatives to funding schools in the manner proposed by SB 686/683. Example: taxing a fair tax on the homeowners who have rental real estate, and who have children in these schools. Why are you excluding these people entirely? Additionally, changing the State Constitution to enact a property tax for education is just plain wrong, and represents legislative overkill of the worst sort. Think carefully about the precedent you are setting.

I think these measures grant arbitrary political influence to special, highly represented groups. It could be any organized group. The local counties should ONLY have the power to assess property tax increases, which would include locally owned rental housing. The bill is unfair to off-island home owners, represents an arbitrary tax (without representation), and will increase costs to renters seeking quality housing in Hawaii. We are a middle-class family, who is fortunate enough to own a modest home in Diamond Head. We presently rent it out long-term, but plan to live there someday (when we can afford it). Our property tax will more than double if SB 686/683 passes. This will necessitate substantially raising rent – and targeting a diffuse group of off-island real estate owners.

Thank you for your kind consideration of this matter.

TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY

RE: SB 683 and SB 686

RELATING TO EDUCATION.

WEDNESDAY, MARCH 22, 2017 2 p.m.

Chair Nishimoto and Members of the Committee:

My name is Lynn Otaguro, from Honolulu on Oahu. I am first grade teacher at Lincoln School. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

The importance of our public schools has never been so apparent. With recent events, we see that an informed and educated electorate is fundamental to the functioning of our democracy. Although I teach young ones, my hope is that I am able to help provide them with the foundations for what they need to think, speak, and act on behalf of themselves and others to make our community a better place. I want my students, and all children, to have access to the kind of education and opportunities that will enable them to succeed.

Fully funding our public schools is an important step to ensuring this. These bills can help us with teacher recruitment and retention, class size, special education resources, and programs to provide our children with experiences and instruction to help them grow their many talents.

I have read earlier testimony for and against these bills and understand that there is concern about additional taxes. However, these bills are borne out of the concern that there is a need to find an additional source of income to fund our schools. And if we truly want to provide more for our students in Hawaii, we need to make choices to support them. Please support SB 683 and SB 686 to provide our children with the schools they deserve.

Thank you,  
Lynn Otaguro

TESTIMONY BEFORE THE **HOUSE COMMITTEE ON JUDICIARY**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 22, 2017

2 p.m.

Chair Nishimoto and Members of the Committee:

My name is Mark Fontaine. I am a teacher from the Keaau-Kau-Pahoa Complex on Hawaii Island. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because the lack of funding makes it impossible to hire enough staff and train them to meet the needs of students. This is particularly the case at my present placement, Na Wai Ola Public Charter School. Statistics show the population that Na Wai Ola serves is among the most challenged in socio-economic indicators when compared across the entire state. This translates directly to increased issues socially and with academics for many students. Some problems cannot be solved with just money, but if the money were available to hire enough trained staff, many of the problems would be solved. I have worked with similar populations on Oahu and on Hawaii Island, and this is consistent.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

**RE: SB 683 and SB 686 RELATING TO EDUCATION.**

WEDNESDAY, MARCH 22, 2017

2 p.m.

Chair Nishimoto and Members of the Committee:

My name is Marla Domingo . I am a teacher from the island of Kauai. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because many of our classrooms are overcrowded and under staffed. I've been a teacher on Kauai for 14 years and am seriously looking at early retirement from the profession. It pains me every day to know that, as hard as I work, and no matter how many 10 hour days I put in, I can't do enough to overcome my overflowing work load. If I spent all of this time prepping for enriched teaching for the children in my room instead of pushing papers and documenting federally mandated assessments (that honestly don't make me a better teacher and don't move my student forward), I know their progress would be more rich, more fulfilling and more developmentally appropriate.

To deliver the schools our keiki deserve, please support these bills. We need your help.

Mahalo.

Subject: Testimony Re: SB 683 and SB 686 Relating to Education

Chair Nishimoto and Members of the Committee:

My name is Mike Landes. I am a teacher from Lahainaluna High School on Maui. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because we shouldn't have to just "make do". This is our children's future we're talking about. Our schools are woefully underfunded, in a state of disrepair, with inadequate resources. How can we give them the education they deserve, how can we prepare them for their future aspirations, how can we truly say we value public education, if we aren't willing to properly fund our schools? These bills will provide a funding mechanism to create a quality public education system in Hawaii. And, by helping to limit property speculation, they will help to control the rising cost of living that negatively impacts so many working families in our state, including the families of most of our students.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Mike Landes, Kihei, Maui

Chair Nishimoto and Members of the Committee:

My name is Romeo Eleno and I'm a teacher at Lana'i High & Elementary School. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generation of successful young adults in our society.

Every dollar invested in our community's public schools will help our keiki to thrive in the 21st Century; therefore, your support for education will be detrimental for the future of Hawaii's next generation.

By supporting SB 683 & 686, it will allow for lower class sizes as well as teaching the "whole child" with quality education in the arts and Hawaiian studies. In addition, it will provide resources and services for students with special needs and also provide professional pay that reflects the value of our hardworking teachers.

Teaching on an isolated Island such as Lana'i brings a lot of difficult conditions when it comes to providing our students an education similar to the other schools throughout Hawaii. The weighted student formula doesn't work for Lana'i High & Elementary School as we receive less funding than most schools per pupil; yet, we still have to pay for custodians to keep our campus clean, pay our cafeteria workers to feed our students, and pay our educational assistants to provide educational services. We need just as much funding as big schools. Unfortunately, the weighted student formula is used as a "One size fits all" philosophy.

Please do the right thing and support these bills.

Mahalo,  
Romeo Eleno,

Subject: TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY RE: SB 683 and SB 686  
RELATING TO EDUCATION. WEDNESDAY, MARCH 22, 2017 2 p.m.

Chair Nishimoto and esteemed members of the judiciary committee, my name is Alan Isbell. I teach fourth grade at Wailuku Elementary on Maui. I also serve as president of HSTA, Maui Chapter.

Poetic justice is a surcharge on real estate speculation to create new revenue for public education.

Consider that it is property speculation that has sent housing skyward in the first place, making Hawaii unaffordable for teachers.

Heard about shark trouble on Maui? It may not be what you think. Land sharks have been circling there, gobbling up housing by the mouthful. Realtors there will tell you that most single family housing units sold on Maui the past year have been to speculators and wealthy, off-island part-timers. Often, the sale price did not reflect the price asked by the owner. Rather, the price acted as chum, starting a feeding frenzy that ended with the highest bid, far in excess of the asking price. The result is the debacle billionaire Gensiro Kawamoto wrought on Maui and in Kahala a decade or two ago, when the last real estate boom imploded.

Ask yourselves who this property surcharge would really cost. Might your conclusion be that it would cost land sharks and those who could well afford it? If watching Hawaii bought and sold to the wealthy is unsettling, why not at least make them pay for what they are doing, and use that money to lift Hawaii's public schools out of poverty?

Mahalo for your consideration.

TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY

RE: SB 683 and SB 686 RELATING TO EDUCATION

WEDNESDAY, MARCH 22, 2017

2 p.m.

Chair Nishimoto and Members of the Committee:

My name is Candace Chun and I've been a teacher for 35 years with the Hawaii Department of Education. I am from the Central District on Oahu. Please pass SB 683 and SB 686 to increase funding for public schools.

Every dollar invested in our community's public schools supports the work we are doing to prepare our youth for meeting the needs of our community and being successful in the 21st century. For instance, I teach the health professions, and it is crucial for us to have knowledgeable instructors in order for students to receive the best education so that they can pursue those careers. Currently, we have a critical shortage of teachers. I've seen this problem grow worse over the years, and there just are not enough qualified teachers in our classrooms. Ask the students and they are not considering a career in teaching. Just within our school, the turnover rate is so high, many are being recruited from the mainland or lack any experience. Many are uncertified, so our students are being very shortchanged with their education.

A positive vote will help reduce class sizes, which have gotten larger, especially in the high schools, where they are packing 36 students or more in advanced classes. Some of this is due to offering seven periods, and not hiring enough teachers, so our load is greater. Unbelievably, I started off last year with 210 students and 204 this year at Mililani High School. This lessens the time I can give to every student; rather, I am struggling to get grading, lesson planning, and actually I looking carefully at student work. Many teachers are so frustrated with their current workload, expectations, and stress, including myself.

A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, see how we can assist them with their learning needs, and provide resources to be effective with learning activities. It's frustrating that when we need supplies there is so much red tape that teachers are forced to use personal funds to buy the things they need. That is very unfair.

Most importantly, funding our schools will provide professional pay, which recognizes the hard work our educators are providing. In all my years of teaching, I can't believe how undervalued our teachers are. I used to do a lot as a culinary teacher, but with instructional time added, decided it wasn't worth doing anymore, because it took hours to do shopping for 180+ students every week. I even decided to give up advising our nationally-affiliated HOSA organization, because after doing that for so many years and no additional recognition or compensation, decided it wasn't worth it anymore. It's unfortunate, because we were taking home numerous national medals and top ten winners, along with having so many state officers and Hawaii's first national officer for any Career Technical Student Organization, many of which I poured personal resources so I could chaperone

my students for a week during my summer break. The raises have never made up for the strike, furloughs, loss of medical contributions taken away, or no increase in salary years.

More funding would also help teachers with medical coverage, after all, this is a high-stress job, and we catch infections the students pass along. At the high school level, it is even more stressful, as there are the difficult ones who even their parents don't know how to control.

We need additional funding for our public schools, because we are losing too many talented, dedicated, and promising educators due to the fact that our state simply is too cheap to pay us REAL professional salary. I have stuck with teaching, even though I have seen everyone burning out and having to work multiple jobs to make ends meet. Why? Because I just don't know who will teach our students anymore. It has never made sense to me that teachers are forced to work multiple jobs when they could have concentrated on preparing or revising lessons or doing the multitude of things required of teachers. It has also become very frustrating to many teachers that they have left the profession for better paying jobs. For example, we have lost some very talented people such as our graphics arts teacher, who is now earning more as a stevedore. When he was teaching, his students were consistently winning national awards. Also, it is discouraging to see many teachers leave today past ten years...sometimes only within a couple of years. Many teachers I speak with say they are burnt out and want to retire, and they only have about 10 years on average.

It's time to take this seriously, because I already see the frightening trend that many teachers are retiring as soon as they can just so they don't have to take all the crap being shoved down their throats. Funding should go to classroom teachers, not the bureaucrats who tell us what to do. We are the ones who work in the trenches for our youth and funding is key to making education a top priority. To deliver the schools our keiki deserve, please support these bills.

Respectfully,

Candace Chun, Mililani High School, Oahu

TESTIMONY BEFORE THE **HOUSE COMMITTEE ON JUDICIARY**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 22, 2017

2 p.m.

Chair Nishimoto and Members of the Committee:

My name is Christy Chadwick. I am a teacher from in Maui County on Maui. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because, it is greatly hurting the way our students learn. As a Teacher of the Deaf, in a low incidence population, I have seen firsthand the impact low funding has on these children. Not only are the students unable to grasp the material in class due to low reading levels, but they are unable to access most of what happens in class due to a limited number of sign language interpreters and Teachers of the Deaf available to them. Deaf education is a specialized field, yet categorized under a huge umbrella of "special education."

Due to this classification, students are not getting the proper education they deserve. (Of course, that matter is for another time and place).

This bill is a start in helping to increase funds available to the education system so that students are provided adequate support through teachers, interpreters, educational assistants, as well as materials needed to help access education in the mainstream.

This was my first year of teaching and due to low wages as well as a lack of support for my students in providing them with the help they need I have resigned from my position as a teacher and will not be returning for a second year. It is my hope that Hawaii will be able to bring and keep highly qualified teachers so that the students get every opportunity to learn.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

My name is Heather Ramiro. I am a teacher from Central District on O'ahu. I am submitting testimony **in support of SB 683 and SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because many of our students come from single parent homes and need after school supports. With more funding we could offer our after school tutoring and enrichment clubs (like robotics, STEM, drama, cooking, coding) to more students. Right now we can only offer two clubs at a time (per quarter) and many of our teachers who help run these use their own money to keep them running for our students.

To continue to go above and beyond for our students and to deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

We need additional funding for our public schools, because when my children were in school – they did not have enough books to have their own text to study at home. They did not have a GT program for my daughter to rise to her best level of performance and accomplishment. Our children deserve to have facilities and class sizes comparable to the rich kids who go to Punahou and Iolani. EVERY child deserves the best education. My children were astonished when they took their SAT test off site and found the desks were not broken and there was AC and carpeting in the classrooms at Iolani. They felt second rate; they are treated second rate.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY  
WEDNESDAY, MARCH 22, 2017 2 p.m.

Aloha, Chair Nishimoto and Members of the Committee:

My name is Justin Hughey. I am a second grade Special Education Teacher at King Kamehameha III Elementary on Maui.

**I am testifying in support of SB683 and SB686.**

I want to address the problem of approximately 1,600 teacher vacancies that was projected for the start of this current school year and is the same projection for next year.

In 2005 I was finishing up my Masters in Special Education while working as a server at an Italian Steakhouse Restaurant in Batavia, Illinois. A man sitting in my section said, "If you want to be a teacher, you can do that anywhere. You have to move to Maui. It is a progressive state, Hawaii, a place where kids still respect their elders, and it is paradise." Nice story.

I moved here with about 40,000 dollars in student loan debt for my two degrees. I never put a penny on a credit card because I didn't believe in having one. My rent was 1,200 dollars a month and I was being paid about 1,100 every two weeks after taxes. Immediately I had to put 5,000 dollars on a credit card in the first six months to just purchase groceries.

Six months later I obtained a second job at a fine dinning restaurant in Kapalua, Maui. General Manager said we will give you three shifts and you let us know if it is too much or too little. We respect teachers. That General Manager left and the new one told me I had to be available every day of the week and we could care less that you are a teacher. It's about the corporation.

That GM had me working upwards of five days a week, 19 hour Fridays. I was dependent on the second job like 40% of all teachers in Hawaii. This meant that I could not take courses to move myself up the payroll.

First, the DOE does not pay teachers enough to fulfill the job requirements during contractual hours and teachers are exempt from obtaining overtime. No teacher can do a great job when they leave at three, work another job till eleven, get home [at midnight](#), only obtaining six hours or less of sleep, and wake up the next day and do it all over again.

I can't express what it feels like to wake up, sore, tired, and just try to make it through another day.

I don't think it is a coincidence that my body is currently giving out. Last August I picked up a case of paper and it gave me a severe bulging disc. I am only forty years old and I may never be able to go for a jog again. I am still receiving therapy for my injury. If I didn't share the bills with my fiancée I would have had to move.

Teachers don't want to teach here because when the cost of living is factored in, they are paid one of the worst salaries in the country. Whenever I have lobbied legislators they have always agreed more money needs to go to education so where would you take from, the kapuna? So last year HSTA proposed a raise in the GET. That was unsuccessful. This year we proposed raising taxes primarily on non residents. We are not asking you to raise taxes, just please let the people decide by voting on a constitutional amendment by passing this proposal.

Until this state finds a significant increase in a dedicated educational funding stream you will continue to start the school year with more than 1,600 vacancies, hoping enough high school graduates can fill the positions. The teaching profession is a career not a second job. If this state offered competitive salaries, teachers would be coming in droves

form the mainland and better yet more of our own members in our community would have the desire to become a teacher.

I never gave up hope. Teachers educate all other professions. The economy suffers when we do not offer a quality public education to every child. All I ask is if you vote against this proposed funding mechanism, that you will come up with a better way to add 500 million more dollars annually, for education, so that this state can one day offer a quality public education, an education the keiki deserve.

Mahalo for your consideration.

Justin Hughey

2nd Grade Special Education Teacher

Aloha no Chair Nishimoto and Members of the Committee:

My name is Ann Keeler (Herkes). I am a teacher at Wilcox Elementary on the island of Kaua'i. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Na Keiki are our future. When teachers instruct their students, they build the foundation for equality, prosperity, and Aloha for [tomorrow](#)'s generations. Every dollar invested in our community's public schools yields exponential returns for our economy and even more important for the promise of a more open and democratic society filled with Lokahi and Aloha; With citizens who embrace their Kuleana and Kōkua and know how to Hō'oponopono.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because we see great teachers leave for states where not only is pay higher, living expenses are lower. We are losing a valued kindergarten teacher to Oregon because his family will do better economically giving his two children better choices for their future. As a parent with a child in college I need a house mate and am looking for a second job. I know teachers who have three jobs so their families can live decently. Teaching is beyond a full time job all by itself and it takes away from focusing on this job, educating our future, when teachers must find second and third jobs to live decently. We need adequate pay and compensation so that we can focus on one job only, creating the leaders who will create the best future possible, the one in which we will retire.

To deliver the schools our keiki deserve, please support these bills. We need your help. Māhalo e Mālama Pono!

Chair Nishimoto and Members of the Committee:

My name is Laura Burton. I am a teacher from the East Complex on Kauai. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because teachers can no longer afford to live in Hawaii with the lack of pay increase and the constant increases in Health Insurance costs. For the third year in a row, our health insurance is rising, in addition to other cost of living increases. Many of our teachers already work second jobs to make ends meet, this upcoming "pay reduction" is going to break many of them, including myself.

Our keiki deserve teachers who are solely focused on the students. They deserve teachers who are rested and who feel appreciated in their profession. Right now, teachers feel very much unappreciated and are feeling strapped financially. We must find funding, to at least maintain current pay rates...if not increase pay. I, myself, a "Highly Qualified" and "Distinguished" rated teacher, am now looking to possibly return to the mainland, as I may not be able to survive another pay loss. We already are having trouble recruiting new teachers to the profession in Hawaii...Do we now also want to lose the many "highly qualified", talented, and experienced teachers that we do have? Hawaii's keiki and families deserve more!

While making technology and modern tools/materials available to our keiki should be a priority, a higher priority should be having competent, experienced, caring teachers to guide the students toward a successful future. Emergency hires and long-term, inexperienced substitute teachers should not be the standard expected to serve our students.

I love teaching in Hawaii. The organized and professional expectations of our DOE are appreciated, but without a viable income, many of us cannot continue to serve our keiki.

To deliver the schools our keiki deserve, please support these bills. We need your help.

Mahalo.

To: JUDtestimony  
Subject: Testimony in Support of SB 683/686

Testimony for: House Judiciary Committee  
SB 683 and SB 686 - RELATING TO EDUCATION

Aloha, Members of the House Judiciary Committee:

I am Andy Jones, a teacher at Radford High School. I have been at Radford for a decade; previously I taught English as a Foreign Language in Taiwan 1993-2006. I am writing to ask that you please pass SB 683 and SB 686 to increase funding for public schools.

Valid arguments for increased funding are legion. The following are among the most exigent:

1. *Teacher retention and recruitment.* When cost of living is taken into account, the average public school teacher in Hawaii earns more than \$10,000 less per year than the next lowest-paying American states for teachers. That is to say, it is not just that we are ranked last, but that there is in addition a significant gap between Hawaii teachers and the other low-paying states. For many teachers, this gap spells non-affordability. This is the primary reason why the average Hi teacher spends less than five years in the classroom, and why we have the nation's most serious teacher shortage overall. Students suffer individually and collectively when too many of their teachers are inexperienced or under-qualified. I believe that improving teacher retention and recruitment is beyond question the single most effective way of improving public education in our state.
2. *Unfavorable teacher to student ratios.* Teachers throughout the state are overburdened with too many students. This year at my high school, one of my first-year Language Arts colleagues has over 210 students distributed among his six classes. That's almost 40 students per class. Not only are 40 students far too many for effective teaching and learning; the sheer number of students that this teacher is responsible for seriously limits how much time the teacher can spend devoting important individualized attention to particular students. In short, not only do teachers need to be paid more in order for them to stay beyond five years; more teachers need to be hired in order to effect more favorable teacher to student ratios.
3. *Teachers need more preparation time.* This third point is inextricably woven with the second point. The annual information gathered by the Organization for Economic Cooperation and Development (OECD) provides substantial evidence that, of approximately three dozen nations that participate in the extensive reports on education, teachers in the United States are the second-most overworked teachers in the world after Chile, spending an approximate 1100 hours in front of students per year in comparison to the international average of around 600. Most American teachers experience significant challenges in implementing educational "best practices" because they are given so little time to developing the highest quality curriculum, instruction and assessment. Public education in Hawai'i as in the rest of the United States is unlikely to improve significantly until efforts are made to decrease the number of students teachers are responsible for each year and to build more non-

teaching time into the teacher work day. Once again, this will require hiring far more teachers than we currently have.

To deliver the schools that our keiki deserve, I ask you to please support these bills.

Mahalo.

Subject: testimony in support of SB 683 and SB 686 relating to education

Aloha Chair Nishimoto, Vice-Chair San Buenaventura, my own representative Della Au Bellati, and Other Members of the House Judiciary Committee,

RE: Senate Bills 683 and 686 Relating to Education

I write in support of Senate Bills 683 and 686. I submitted testimony earlier this legislative session to your committee on House Bills 180 and 182. I stand by my reasons for requesting a constitutional amendment be put before Hawai'i citizens to allow a vote on this proposed new revenue stream for public education in Hawai'i. I would also like to add more information in support of the senate measures.

Ten years into teaching in the Hawai'i public schools, I make 72% of what I would make in Seattle, Washington or Encinitas, California, and 81% of what I would make in Portland, Oregon. There is a simple reason for this; the Hawaii State Teachers Association (HSTA) must negotiate all step increases for teachers, and in ten years, there have been only two step increases. What is especially troubling is that fully two thirds of HSTA members are women. There are many other public employee unions in this state that receive automatic step increases rather than negotiated step increases. Correcting this inequity and single greatest cause of pay disparity compared to other school districts will be expensive. Hawai'i public schools are already underfunded, as clearly put forth in both SB 683 and 686. We need to ensure an adequate revenue stream for public schools to support our ambitious blueprint for the future and even to maintain mediocrity. We do not want to slip to the bottom of the ranks again after such steady progress.

As I mentioned in testimony to the House Education Committee this session, in 2009, I patiently attended community meetings about the state budget offered by Representative Marcus Oshiro to learn why the legislature felt it was necessary to cut from the education budget. I understood the difficult position our representatives in government found themselves in after the 2008 financial crisis. However, nearly ten years has passed since that crisis and we still have not fixed the structural problems in our revenue stream and state budget that forced the difficult decision of cuts in the form of Furlough Fridays. We need to be proactive and secure steady funding for such a vital public good as education.

A member of this committee (for whom I hold deep respect) told me once that teacher salaries may be lower in Hawai'i, but we live in "Paradise." Statistics from the 2016-2017 school year debunk the notion that Hawai'i may attract an endless supply of educators, who will be happy to take a pay cut to live in this wonderful place. Last year, word of the teacher shortage in Hawai'i went viral on the internet, reaching a worldwide audience. The department had to hire additional staff to field inquiries about positions from places as far-flung as Ireland and India. Even with such attention on HDOE job postings, in August of 2016, there were still 1600 unfilled positions out of 13,500, and 531 remained vacant.

If a new property tax is not the right future for Hawai'i, citizens may vote against the amendment. Please ensure we all have the opportunity to decide this important question in 2018.

Thank you,

Claire Gearen

TESTIMONY BEFORE THE **HOUSE COMMITTEE ON JUDICIARY**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 22, 2017

2 p.m.

Chair Nishimoto and Members of the Committee:

My name is [Michelle Santos ]. I am a teacher from [The leeward district ] on [Oahu]. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because... *If you don't take care of the teachers, we can't take care of our students. Not having qualified teachers teaching these Leuko and giving them the education they deserve is unacceptable. It's unfair for a teacher to have to give less efforts to teaching due to having to hold second and third jobs to survive. I'd hate for my daughter to have to be taught by a long term substitute because they are unable to find qualified teachers ! I don't blame the lack of teachers, look how we're treated? I'm not sure how much longer I can afford to commit myself to being a teacher.....I've been here for 13 years! It's the love of students and desire to teach that kept me around this long but I'm not sure how much longer I can financially make it!*

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

[Michelle Santos, Leeward, Oahu ]

TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY RE: SB 683 and SB 686 RELATING TO EDUCATION.

[WEDNESDAY, MARCH 22, 2017 2 p.m.](#)

Chair Nishimoto and Members of the Committee:

My name is Natasha Taketa. I am a teacher from McKinley High school on Oahu. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools. Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society. Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers. We need additional funding for our public schools, because the current funding is not enough for all schools across the state. Our children deserve the best possible education to become responsible adults and global citizens to help improve the future of Hawaii, the nation, and the world. It is our kuleana to ensure they had the best education and care as possible.

To deliver the schools our keiki deserve, please support these bills. We need your help.

Subject: SB 683 and SB 686 RELATING TO EDUCATIO

TESTIMONY BEFORE THE **HOUSE COMMITTEE ON JUDICIARY**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 22, 2017

2 p.m.

Chair Nishimoto and Members of the Committee:

My name is Shannon Kaaa. I am a teacher from District 33 on Oahu. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because we need to attract and retain teachers. The state should invest in education by paying teachers better. Teacher education programs are not able to attract high quality candidates, because the teaching is not a well paying profession. And many of the best teachers already in the field are leaving for more lucrative careers. There may be short term schemes to addressing the teachers shortage, but the best answer is paying teachers better.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

TESTIMONY BEFORE THE **HOUSE COMMITTEE ON JUDICIARY**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 22, 2017

2 p.m.

Chair Nishimoto and Members of the Committee:

My name is Stephanie Gross. I am a teacher from the Windward District on Oahu. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because our children need experiential learning. In order to do so, my classroom needs more supplies, resources, and manipulatives. My husband (a DOE counselor) and I (a DOE teacher), both Masters by degree, need to have additional part time jobs to pay for the cost of living in Hawaii and supplement our classroom and office. These additional jobs take away time from our growing family as well as opportunity to learn through PD.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Stephanie Gross, Windward, Oahu

March 21, 2017

Rebecca Kapolei Kiili  
PO Box 322  
Wailuku, HI 96793

Aloha Chairman Nishimoto and Members of the Committee:

My name is Rebecca Kapolei Kiili and I am a teacher at King Kekaulike High School on Maui. I have been a teacher for thirteen years in the Hawaiian Language Immersion Program. I am writing to express my support and urge your support to pass SB 683 and SB 686 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will propel Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, resources for special needs students, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because Hawai'i deserves future leaders who are ready to engage in their communities in ways that will keep them home in Hawai'i. Too often we lose our best and brightest to the allure of the mainland life as the affordability to live and work at home is bleak because of the cost of living. Investing in our public schools is vital to Hawai'i's sustainability in all levels of our lives, both public and private, personal, and professional. We want students to feel that their public education experiences have prepared them to meet the challenges and opportunities of the 21st century with confidence, conviction, and compassion. Your support of these bills will be a testament to these ends.

Funding our schools and committing to excellence is not only what our children deserve, but what our communities, and our whole state deserves. Thank you for your service, time, and commitment to public education in Hawai'i.

Me ke aloha no,

**TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY**

**RE: SB 683 and SB 686 RELATING TO EDUCATION.**

WEDNESDAY, MARCH 22, 2017

2 p.m.

Chair Nishimoto and Members of the Committee:

Hi, my name is Stephanie Takashima and I am a school counselor at Henry J. Kaiser High School on the island of Oahu. I have been a school counselor for nine years. I am asking you to show your support of Hawaii educators and students by passing SB 683 and SB 686 to increase funding for public schools.

Our children are our future. When teachers instruct and counselors counsel their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawaii's schools into the 21<sup>st</sup> Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, resources for special needs students, and professional pay that reflects the value of our hardworking counselors and teachers.

We need additional funding for our public schools, because all too often, school educators pay out of their own pockets for school supplies and resources that are used in teaching their students. Without adequate funding, schools often have a challenging time providing the level of instruction necessary to reach each student at their needs and learning levels. Class sizes are large with 32-35+ students per class. These students have varying levels of need, different learning styles, and different life circumstances that often serve as obstacles in their education. As educators we are also often tasked with many different roles within the school, that it takes us out of the job we were initially hired to do. Quite often we lack adequate funding to hire the necessary personnel in the areas of need, thus teachers and counselors serve various roles within the school, such as custodial workers, security, cafeteria workers, substitute teachers during our non-teaching/prep periods. When this happens, it becomes a disservice to our students because we have a limited amount of time to focus on what we have a passion for, which is teaching and counseling our students to navigate the global world we live in and be productive, responsible, and caring citizens who can make a difference. It quite often leaves the educator burnt out, especially our new teachers, and the end result is that we can't service our students or provide them with the quality education they deserve.

I am asking you to support these bills to show your support for education and the future of our students.

Thank you for your time and consideration.

Sincerely,

Stephanie Takashima  
Henry J. Kaiser High School  
Oahu

**Chair Nishimoto and Members of the Committee:**

My name is Valerie Harmon. I am a teacher from the Honolulu District on Oahu. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

Our children are our future. Teachers salaries must be raise, now. Many qualified teachers ar leaving the profession, as they can make more money as secretaries or other positions in the work force that do not aide Hawaii's children. By hoping to import a few teachers from the mainland for a couple of years is not only a waste of money, but continues to treat teachers and their students as if they are not essential.

Support proposals that will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers. This is very harmful to our state, our future, and our present.

To deliver the schools our keiki deserve, please support raise in teacher salary NOW and please, support these bills. We need your help. Mahalo.

We need additional funding for our public schools, because our keiki deserve MORE. They deserve more than burnt out teachers, struggling to make ends meet, who are spending more time at a second job than focusing on lesson planning and how to best meet their students' needs. Our keiki deserve classrooms that don't smell like mold and mildew and are infested with termites. It is our kuleana to show Hawaii's keiki that they deserve more; because right now we are failing them.

Catherine Silva, Leeward District, Oahu

House Judiciary Committee  
RE: SB 683 and SB 686  
3/22/17

Chari Nishimoto and members of the House Judiciary Committee:

I am Marcia Linville speaking in support of SB 683 and SB 686, as the Education Caucus DPH, SCC member.

The DOE has long been underfunded in both libraries and Schools. Results of that underfunding in limitations in both services and personnel have had profound adverse impacts on the children and the economy of the state. Hawaii schools presently lack approximately 1600 qualified teachers. 70 % of children on the big island have never had a formal library experience, according to testimony at the BOE.

The last available Smarter Balance test showed 53% of 4th graders incompetent in reading. The past years have shown many efforts in redressing these problems, but staff shortages continue, school maintenance suffers, classrooms remain overheated and populations remain unable to access library services. There is simply not enough money to redress these problems without seriously impacting other services of the state. New requirements on the DOE resulting from the ESSA. Strategic Plan, and the Governors Innovation project will require new sources of funding.

The proposals of both SB 686 and SB683 would resolve these problems. They would provide significant additional revenues without seriously impacting Hawaii's working and limited income population.

I ask your support for SB 686 and SB 683 for the children and the future of the State.  
Thank you for the opportunity to testify on this very important matter.

Marcia Linville 536-4466

Subject: SB 683 and SB 686 RELATING TO EDUCATION

**Testimony for: House Judiciary Committee  
SB 683 and SB 686 - RELATING TO EDUCATION**

Dear Chair Nishimoto and House Judiciary Committee Members:

Here are the facts:

There is a teacher shortage crisis. We are the lowest paid teachers in the country when you factor in the cost of living. We have the worst teaching conditions for teachers in the country. More than 10,000 public school children go to school every day and don't have a qualified teacher in their classrooms. One in seven Special Education teachers are not qualified. For many years, our keiki have been harmed because of these factors. It is time to stop this!!!

I truly believe that you want Hawai'i to shine in our country for its education system and for our students to make great gains. It is time to act! It is time to show that you really care and support our keiki, teachers and schools.

HSTA has spent a lot of time and money to research and formulate these bills. They are based on data and propose real solutions. It is time to trust our HSTA teachers who have helped put forth these bills, as the ones who are in the trenches, who know our schools and know what we need.

I am a Special Education teacher with over 18 years of experience in the DOE. I have two masters degrees and have been National Board Certified since 2003. I am currently teaching at Kilauea School on Kaua'i and have seen the negative effects on our students. When there wasn't a Special Education teacher to hire a few years ago, a full-time sub was hired. However, I was asked to be in charge of the 15 students' IEP's, testing, meetings, and help the sub through out the year all in addition to being in charge of all of my Special Education preschoolers. It was impossible to juggle it all. The sub didn't have the necessary skills to manage her class and ultimately, all of the students were impacted negatively. This is but one example and similar horror stories happen all of the time and it has to stop once and for all. We need to retain teachers, the best teachers and have a qualified teacher in every class.

I ask that you pass SB683 and SB 686 and take a bold step toward improving our schools. Make us proud!!!!!!!!!!!!!! Don't let us and our keiki down!!!

**Mahalo.**

Comments: While funding education is an important issue in Hawaii, the community as a whole must participate in that endeavor. Targeting only certain segments of our population for such funding is patently unfair. In my particular case, if SB683 and SB686 are passed I will be forced to sell a property that has been in my family for over 100 years because the taxes imposed by the surcharge would double my property tax bill. I currently use the property as a vacation rental to cover the expenses of ownership. Doubling my property tax bill would cause the taxes due to exceed the rental income I receive or can reasonably expect to receive. Please find another way to fund this effort!

SB683, SD2, and SB686, SD2  
Support Statement by Michelle Foyt  
House Housing Committee Hearing  
Wednesday, 3/22/2017, 2 pm, Conference Room 325

Thanks to the Chair, Vice Chair and other committee members for this opportunity to testify.

I support SB683 to establish a surcharge on residential investment property and visitor accommodations and SB686 both of which create funds supporting education. I believe that the key to getting everyone involved in furthering our children's education is by having everyone financially support that education. Hawaii's children are our state's future. Hawaii's residential and commercial population should all support Hawaii schools because education is a necessity for Hawaii's future sustainability -- economically and strategically. To be able to meet the needs of our future society, children must receive a good education. The children who will benefit most from good public education are the less advantaged, like those in families living in affordable housing, etc. Like everyone else, parents need to buy into their children's future. That way, they are not passive recipients, but instead can have a strong and needed voice in the building of their children's education -- its funding, quality and content. If families have less income, they should pay less for education. At the other end of the scale, the rich will benefit from a revitalized economy and way of life.

The poor quality of Hawaii public education is the direct result of inadequate funding. U.S. education statistics show Hawaii at the bottom of state comparison charts. If funding doesn't come from property tax, it must come from some other broad based, consistent source. It should be applied as a necessity to the future of our State and Country, not like some sort of luxury tax. It's also important to realize that Hawaii can never ever hope to move beyond a service based economy without better educating our students.

Please help keep Hawaii and our Country free and strong by supporting the educational needs of our students -- good teachers, learning practices and conditions. Please make the support of education a broad-based mandate where people pay according to their means. Please pass SB683, SD2, and SB686, SD2.

Michelle Foyt, a retired public services librarian

Chair Nishimoto and Members of the Committee:

My name is Jaclyn Wills. I am a teacher from MAKAHA ELEMENTARY on Oahu. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because as teachers we are constantly putting out from our own pockets needed supplies that our students deserve. I am considering retirement, as my income would be as good as working in the field of education. I would prefer to stay working in the schools, but that would not make sense being the way things are. Teachers who are recruited from off island stay "vacationing" for around 3 years, then go back home after their families have visited and vacationed here in Hawaii. They state that they go back because of the high cost of living and of the resources allowed to them as teachers. Working in impoverished schools in Hawaii, they are able to make a lot more when they get back home, allowing them to come and vacation back here in the islands. Local teachers who have lived here still live at home with their parents, or like many seasoned teachers, live in a multigenerational home working a variety of after school jobs in other sectors. My daughter who works in construction makes as much as I do, a teacher of 20+ years. Substitutes who are long term or even day to day are often trying their best to carry on the requirements of a classroom teacher, however, they are not certified teachers with degrees, experience and educational knowledge. We need your help as I know many of my fellow peers are ready to throw in the towel! .....Mahalo.

TESTIMONY BEFORE THE HOUSE JUDICIARY COMMITTEE

**LATE**

RE: SB 683 and SB 686 SD1 RELATING TO EDUCATION.

POSITION: STRONGLY SUPPORT

WEDNESDAY, MARCH 22, 2017, 2:00 P.m.

Chair Nishimoto and Members of the Committee:

My name is Mireille Ellsworth, an English and Drama Teacher at Waiakea High School in Hilo. I would like to ask that you pass and advance SB 683 & SB 686 for increased funding for public education. We need to put this on the ballot and give our taxpayers the right to vote on this. I regret that I am unable to afford to come to Oahu to testify in person today, so I humbly ask that you read this testimony to understand a classroom teacher's perspective.

Allow me to give you the reality as to how funding affects my students, especially in the elective classes that I teach. Waiakea High School prides itself on its Smaller Learning Communities framed around career academies, and I teach two sections of drama. However, this program is crippled in the scope of how far I can take my students in the performing arts. Our school of nearly 1200 students does not have a theater. We don't even have a "multi-purpose room" like many other schools have. The major fundraiser for our student activities program is our annual Variety Show, but annually, we must hire professional lighting and sound companies to help us set up a make-shift performance space in the gym. This eats into the money students could use for their extra-curricular activities. Our local Waiakea Lions Club donated a platform which serves as a make-shift stage in our cafeteria, but there is no "backstage" nor theatrical lighting available nor is there even a curtain.

In order to teach the acting classes and put on productions, the school's head custodian and I jerry-rigged the only "curtain" I could afford given my budget of less than \$300 the year we put it up in the classroom I use. We installed a cable that crosses the room about 12 feet high, and I literally used rolls of black plastic from Home Depot which is used to cover floors when painting, taped the panels of plastic together with black Gorilla duct tape, and punched holes and used black zip ties as curtain hooks. I must train the student actors to stop saying lines when other actors are entering and exiting the stage because of the loud plastic rustling of the "curtain." We have a few theatrical stage lights, but no lighting board, so students sit below each light and turn it on and off using a switch on a power bar. If we turn on more than four stage lights simultaneously, the whole building's circuit breakers trip, powering down two other classrooms. In fact, our class has inadvertently set off the school's fire alarm when we tried to use a smoke machine for special effects because the room is not meant to be a theater.

I have students taking acting more than one year in their high school experience, some even for all four years of high school. There have been amazing productions, many

student-written and student-directed. Autistic students have miraculously come out of their shell and found theater their niche in high school. Students who have disabilities have blossomed in this program. One example is a student with a writing disability who realized the importance and significance of punctuation when he heard his peers doing a "cold reading" of his script that he had written. He was so motivated to learn the details of writing mechanics after that revelation! The head of the Performing Arts Department at the University of Hawaii at Hilo, Jackie Pualani Johnson, has even nominated our humble drama program to travel to Edinburgh, Scotland to participate in the Fringe Festival, but I had to turn down this incredible opportunity because of a lack of funding. I'm almost embarrassed to bring students to such a prestigious event because my students do not know anything about stagecraft or building sets under our present restrictions. It is shameful and much less than the students deserve.

This school year alone, I have spent over \$400 of my own personal funds purchasing props and even a piece of used furniture off Craigslist because of the odd things we need for play productions. Two of my seniors have written and are now directing their original productions and need certain items to make their dream and vision come true! If you want to see the ultimate in student-centered learning and peers leading peers, you ought to visit one of my acting classes' rehearsals. It is exciting and an incredible cooperative and creative student-led learning experience.

Personally, the lack of funding for teacher salaries has affected me and made me question whether or not I can stay teaching in Hawai'i. I am a very thrifty person, and as a single person, I cannot afford to buy a house. I have excellent credit, and the only way I have been able to stay teaching here is to take out personal loans and juggle credit card debt. Any travel to see my two kids and my granddaughter has been subsidized by other members of my family. In fact, I haven't been able to afford to see them for two years now. It's shameful that as a working professional who holds a master's degree (that DOE does not pay me for) at over 50 years old, I depend on family to donate mileage to be able to see them. At present, I own a 2003 vehicle which I can barely afford to keep on the road with repair and maintenance bills, and I'm \$40,000 in debt just affording the basic necessities like food and rent. I still have student loan debt as well. I have no savings and struggle to help my adult kids cover their power bill once or twice a year since they are part of the working poor living in Los Angeles. My two sons live together and share a car working different shifts. I want to cry thinking about how well they did in high school, yet as a single parent, the cost of finishing college was prohibitive for us as a family, even if they only went to school one at a time.

Furthermore, I have not recovered from the reduction in salary I experienced under Furlough Fridays. What made my situation worse was that shortly after that, I was diagnosed with breast cancer which forced me to go further into debt. Since my treatment was only available on Oahu and I live on the Big Island, I had to pay for over a month's worth of hotel accommodations which were not covered by my medical insurance. Without family in Hawaii, I got help from a friend willing to drop everything and nurse me on Oahu, but of course, I had to provide for her expenses. It is sad to think that

teachers like me are only one major illness or serious accident away from financial ruin, even with health insurance.

I have a hard time promoting college to students whose socio-economic status is the same or worse than mine because sadly, as much as I love teaching and feel it is the most rewarding profession there is, I know affording college is such a struggle. It would be compromising my personal integrity to encourage young people to choose teaching as a career choice as I myself feel I am in a dead-end job. Teaching salaries in Hawai'i not only do not keep up with inflation, this salary is putting me further into debt and making my prospects for any possibility of retiring comfortably actually impossible. There will be a breaking point, and if teachers' salaries remain stagnant, I will be forced to leave.

Funding for education in Hawai'i is critical. This community has been polled and is willing to provide the types of schools our keiki deserve. It is now in the hands of our decision makers to follow the will of the people to keep qualified, passionate teachers in our classrooms and provide the support for programs that excite kids about learning and keep them motivated in their more challenging subjects.

Thank you for your time and attention,

Mireille Ellsworth,

Comments: It is unfair for homeowners to pay for educational needs of the entire state when others who do not own property do not share in funding those needs and have children attending schools. Many homeowners are seniors on fixed income and not using the educational system.

Comments: Chair San Buenaventura, and Members of the Committee, I write in support of S.B.683. We must fairly distribute the burden of educational expenses, which real estate investors have been able to avoid. This is a critical time for the State of Hawaii to assert control over its future and recover declining revenues. We strongly need to disincentivize our housing crisis-oriented development model. We are at a critical juncton for renters and homeowners, who are losing their foothold in the middle class. Please, pass S.B.683!

Sent: Tuesday, March 21, 2017 7:02 PM  
To: JUDtestimony  
Subject: In support of SB 683 and SB 686

Chair Nishimoto and Members of the Judiciary Committee:

My name is Carol Bushey. I am a teacher from Canoe Complex on the serene island of Lana'i. I am submitting testimony **in support of SB 683 and SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because our students deserve the best. I am in my 18th year of teaching on Lana'i. Housing is a dilemma for many in the state. How could teachers possibly stay when they are priced out of living arrangements? I am not a mercenary, I teach because I have a calling. We who teach should not be taken for granted because we have an eye toward the future via teaching our young ones--our most valuable resource.

There should be more respect shown to those who become teachers. We appreciate the consideration of providing us with Institute Day. Periodically, Lana'i teachers have shared the experience of Institute Day on Maui. One year, three of us carpooling had to decide which of our cars was most likely to make it to the harbor. This backdrop further illustrates the lack of personal as well as professional resources allowed teachers. We are not on an equal playing field with technological resources or the training to optimize the use of such resources.

I am fully aware that there are many petitioning for monies from the budget. I realize these competitors have valid needs as well. I do not envy your position in this matter. At best I can hope

that my words will move you to be more considerate of your teachers. Please support us so we can best meet the needs of our students.

To deliver the schools our keiki deserve, please support these bills. We need your help.

Mahalo.

**TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY**

**RE: SB 683 and SB 686 RELATING TO EDUCATION.**

**WEDNESDAY, MARCH 22, 2017**

**2 p.m.**

**Chair Nishimoto and Members of the Committee:**

My name is Grace A. Tanuvasa from the 1st District on Oahu. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because I am a product of a failed public school system. It wasn't until private school college that I learned how to properly write research papers with the correct grammar rules and sentences. And it wasn't until college that I fell in love with history and began to read textbooks with ease. In addition, I feel that the teaching material when I was in highschool was/is very outdated and lacking in substance. Kids aren't taught the necessary and basic knowledge to survive in today's world.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Grace A. Tanuvasa, 1st District, Oahu

Sent: Tuesday, March 21, 2017 4:57 PM  
To: JUDtestimony  
Subject: Testimony on SB 683 and SB 686 RELATING TO EDUCATION

Testimony Before House Committee on Judiciary  
RE: SB 683 and SB 686 Relating to Education  
Wednesday, March 22, 2017 @ 2pm

To: Chair Nishimoto and Members of the Committee:

I am Deborah Bond-Upson from Kailua, Oahu. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

I have worked in education for almost 40 years and all four of my children have gone graduated from public schools. I have seen the difference when students have qualified teachers versus students in schools that rely on substitutes, schools with fast teacher turnover rates.

It is proved that given the complexity of the job and the diversity of the students, most teachers get to their highest skill level at 7 years. But in Hawaii, we have classrooms with only substitutes all year and even for permanent teachers, the average length of tenure is 5 years.

Given our high cost of living it is clear schools would be challenged to retain teachers. But added to that our salaries are lower than most states. The disparity grows over the career so that a longtime teacher does far better financially in another state or another profession. Indeed, many of our teachers work more than one job in order to make ends meet and too many of our teachers are forced to leave the profession.

Luckily many of our teachers stay in the profession because they love their jobs and know they are doing the most important work in our society. Preparing the next generation for a world less predictable than ever is more important than ever.

We need to have qualified teacher in every classroom. To accomplish that, we need to show respect for the profession commensurate with the challenges and the importance to our society.

It has become clear over the past few years that improving the pay scale of public school teachers in Hawaii requires a different mode of funding. That is why I support, and every one I know — from Parents for Public Schools-Hawaii where I have served on the board for 6 years— and from my social and church connections.

Supporting these proposals will not only lift Hawai'i's schools through raising the respect and compensation for teachers, but also will bring our schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs.

Please support our future in Hawaii by supporting these bills to support our schools and especially the teachers who devote their lives to our keiki.

TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY

RE: SB 683 and SB 686 - RELATING TO EDUCATION.

Wednesday, March 22, 2017, 2 p.m.

March 22, 2017

Chair Nishimoto and Members of the Committee:

We apologize for the delay in this testimony but Clare is traveling with limited access to email.

We are Clare Hanusz and Nevzat Soguk. Clare is a mother, attorney, and a Parents for Public Schools Hawaii board member. Nevzat is a father and tenured professor at the University of Hawaii. We reside with our two children, Ali (15) and Derya (13) in Hawaii Kai. Both of our kids attend public schools.

We strongly urge you to pass SB 683 and SB 686 to increase funding Hawaii's public schools.

Our education system has been in crisis for so long that crisis has been normalized. It should not be! Overcrowded hot classrooms, crumbling infrastructure, a lack of qualified teachers for our over-tested stressed out kids. These quasi-third world conditions are the reality of what kids and teachers face in Hawaii's public schools. These issues represent the reasons that many who can choose to abandon public school education for their kids, either from the start or later in the middle school or high school years. They take their social and economic capital and political clout elsewhere. That makes our challenge harder, and we need to raise our voices louder, again.

Our kids were born in Hawaii and attended Honolulu public schools until we moved to Australia for 18 months in 2012. Exhausted and somewhat traumatized from the furlough Friday battle, we were thrilled to find ourselves living in a place with a vibrant, healthy public education system. Only a small percentage of parents where we lived in Melbourne choose private schools for their kids, where the education system was much more robustly funded. Teachers were paid well, respected, and happy. The opportunity to live abroad highlighted again for us the shameful lack of resources devoted in Hawaii to our public school kids and teachers.

Every person we've spoken to – those with kids in public schools, or private schools, or without children, support the idea of paying more in taxes for better schools. The time is now- our kids have waited far too long. We owe them better. Supporting these bills is an important start.

Thank you for your commitment to Hawaii and our kids.

Clare Hanusz, 808-384-9682, [chanusz@gmail.com](mailto:chanusz@gmail.com)

**Subject: Fwd: Call to action: Email testimony ASAP for ConAm proposal's Wednesday House Judiciary hearing**

Hi Vera and Mom,

Would you consider using the letter template and submitting a letter to the legislature stating you support a bill that would generate more revenue by taxing those who have more than a few homes; the revenue would go to fund schools and teachers. Thanks,

Love,  
Debs

**HAWAII STATE TEACHERS ASSOCIATION**

## **Call to action: We need your testimony for Wednesday's House Judiciary hearing on constitutional amendment**

Aloha teachers:

Our proposed Constitutional Amendment (SB 683) to create an additional revenue source to fund our public schools and its enabling legislation (SB 686), have passed the full Senate, crossed over into the House, passed the Education Committee, now they will be up again in the Judiciary Committee!!

**On Wednesday, March 22, our proposed Constitutional Amendment, and its enabling legislation, will be heard by the House Judiciary Committee (JUD).**

Note: If you have submitted testimony before, just change the chair and committee names, make sure the bill numbers are SB 683 and SB 686, and send to the appropriate email address for this next committee.

Here is sample starter testimony for this Wednesday's hearing. Thank you!! (In the Senate the bill #s are SB 683 and SB 686.)

TESTIMONY BEFORE THE **HOUSE COMMITTEE ON JUDICIARY**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 22, 2017

2 p.m.

Chair Nishimoto and Members of the Committee:

My name is [INSERT NAME]. I am a teacher from [INSERT DISTRICT] on [INSERT ISLAND]. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because... ***[OPTIONAL: INSERT a paragraph or two, tell your personal story or specific anecdotes about how lack of funding affects your students, how low pay and a lack of resources are driving***

***teachers out of the profession, how teachers have to hold second and third jobs, etc. Make sure to emphasize how these situations are harmful to students.]***

To deliver the schools our keiki deserve, please support these bills. We need your help.  
Mahalo.

[INSERT NAME, DISTRICT, ISLAND]

You can [submit testimony on the Hawaii Capitol website](#) or email directly to [JUDtestimony@capitol.hawaii.gov](mailto:JUDtestimony@capitol.hawaii.gov)

**Please submit before 2 p.m. on Tuesday, March 19, if you are able.**

Thank you!! Please share widely!!

Mahalo for your time and your collective action.

### **Comments on Funding for Public Education Improvements**

We must not raise additional funding for public education programs because we must first transform our public education system from a centralized, top-down, one-size-fits-all to a decentralized local school empowerment of the principal, teachers, students, parents, and community business leaders. In addition, spending more money is not the primary issue as we spend one of the highest amounts per student in the nation and the world of developed countries at about \$12,000 per student per year.

Primary focus must be on identifying each student's passion, strength and weaknesses and tailor the curriculum to better match the student's needs and not just lecture our students on a mass scale like on an assembly line, since our current 124-year old education model was conceived during the Industrial Age for training our factory assembly-line workers. We are currently in the technology-based Information and Knowledge Age where our students must be able to compete in a global technologically-driven economy.

Best education model was discussed by William Doyle on education in Finland, "Finland's education system might be worth emulating," Honolulu Star-Advertiser, March 23, 2016 and a Letter to the Editor, same subject on March 25, 2016 by Andy Jones, Language Arts Teacher, McCully, who wrote, "Teachers in Hawaii and across the country are gradually waking up to the fact that American education has been hijacked by educational corporations, with the help of governmental forces complicit with their agenda. We have also become aware of countries where this has not happened, where educators have successfully kept businessmen and politicians out of the classroom.

The state Department of Education officials would do well to educate themselves on the dramatic divergences that have come about between American education and education in the top-performing countries. Only then may we begin dismantling the corporate-backed 'accountability regime' - a bureaucracy based on pseudoscientific conceptions of data and standards - that currently determines what happens in our schools."

Both William Doyle and Andy Jones provided well-written and easy-to-understand articles concerning why our public education system requires significant transformation out of the Industrial Age education model to a more competitive Information and Knowledge Age education model based on the latest technologies where our future leaders are expected to compete in a global, technologically-driven economy.

In addition, we need to transform our public education organizational structure that is too top-heavy with administrators and focus on our core teachers that should reduce funding for administrative staff and increase funding for teachers during the transformation from a centralized top-down, one-size-fits-all to a decentralized local school empowerment of principals and teachers.

HOUSE OF REPRESENTATIVES  
THE TWENTY-NINTH LEGISLATURE  
REGULAR SESSION OF 2017

COMMITTEE ON JUDICIARY  
Representative Scott Nishimoto, Chair

3/22/2017  
Rm. 325, 2:00 PM

SB 683, SD 2  
Relating to Education Funding

Chair Nishimoto, and Members of this Committee, my name is Max Sword, here on behalf of Outrigger Hotels Hawaii, in opposition of SB 683, SD 2.

While I will let others who are more knowledgeable than I to debate the fine points on why using the Constitution, in SB 683, SD 2, is not the venue to raise taxes, I will only say from a common sense point of view that using the Constitution for the purposes of raising taxes hampers Government in making adjustments if the economy has a down turn.

Outrigger Hotels Hawaii supports education, but assessing a surcharge on visitor accommodations, is a burden that should not only be carried by the visitor industry. We believe the goal of funding education is not exclusively one for the visitor industry to address; it is an effort that needs to be shared with the community. If any visitor industry taxes were utilized directly for these or any other worthwhile community effort, we believe it should come from that portion of the Transient Accommodations Tax (TAT) allocated to the state general fund.

I believe also that Hawaii has the second highest visitor accommodation taxes after New York City and here is the big BUT, New York is a business centric destination, while Hawaii is a discretionary destination. In other words, people need to go to New York, where coming to Hawaii is a choice people can take it or leave it.

The visitor industry is the top revenue generator for the State; so don't kill the goose that lays the golden egg by raising the taxes on visitor accommodations.

We urge the deference of both bills and mahalo for allowing us to testify.

Chair Nishimoto and Members of the Committee:

My name is Yahna Kawa'a. I am a teacher from the Windward District on O'ahu. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but also for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because our school will not be able to fund and support teaching and administrative positions next year. Our school will lose a special education teaching position and a vice-principal position. However, the work load and responsibilities remain and must be placed on teachers and the principal, creating stressful work environment. This is unacceptable.

Our principal has worked hard to improve our school in many ways to provide educational opportunities that enrich the lives of students by providing students with teachers trained in art, music and physical education. These classes afford creative outlets for children and a balanced and well-rounded educational experience, classes for which their private school peers are undoubtedly provided without question. These three positions have created "time" within the day for teachers to meet, review and discuss data, curriculum, fieldtrips and share ideas. Without appropriate funding, these positions and collaboration time would disappear – and everyone loses!

Our principal was able to secure \$200 for each teacher this year, most of which went to replenishing office and student supplies – staples, glue, rubber bands, envelopes, labels, folders, expo pens, construction paper and play sand. I also needed a lockable filing cabinet for confidential files, but did not have enough money for that. I found a rusty one on Craigslist for \$10, but ended up with a

second-hand one from my colleague. The bottom drawer sticks, making a racket when I open it, but my roommates are so nice and never complain.

I work in the Head Start program, as a special education teacher (DOE) supporting students with disabilities in the inclusion setting. Funding for special education is so important because the student population is very needy. Money not only pays for teachers, but materials, and special education support positions and services (e.g., assistants, therapists) for children who need it most. However, the remaining students in our classroom (Head Start only) come from low-income families. Parents are struggling which creates a stressful home environment for children. As a result, Head Start and the Department of Education provide educational opportunities and supports for children and their families - those who need it most. Aren't they worth every penny?

Fortunately, there are alternatives to a lack of financial support. A dear friend and colleague at Waimanalo Elementary introduced me to DonorsChoose, an online site that connects teachers with donors interested in funding classroom projects. Through the site (and the generous support 4 donors, of a former parent, colleague, high school classmate and retired teacher who lived in Hawaii), we now have 2 new Silver Rider tricycles. The total cost was \$402.28. This exceeded my budget. The children love riding the bikes because our campus is relatively flat. Each day, children rush to add their names to the sign-up sheet and wait for a turn, which as we know, for preschoolers, is a challenge. There are usually 7-10 names on the list and with the limits on time many don't have a chance to ride, resulting in tears, frowns and long faces. With appropriate funding, we can build our fleet to 18 tricycles so the children can ride to and from breakfast and lunch everyday thereby supporting their physical development and emotional well-being. With your kokua, our schools will receive much needed financial support.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Aloha,

Yahna Kawa'a, Windward District, O'ahu

**TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY**

**RE: SB 683 and SB 686 RELATING TO EDUCATION.**

Chair Nishimoto and Members of the Committee:

My name is Theresa Haberstroh. I am a teacher from Haiku Elementary School on Maui. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts, physical education, and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because teaching should not be a philanthropic, second income job. Teachers should be compensated fairly for the amazingly difficult work they do. Fortunately, I am able to teach because of my family's dual income status. However, if I were a single person trying to make it alone on my salary, not to mention being a mother of two children, there is no way I could make it with teaching as my only job.

The teacher turnover as well as the "I've had it" retirement of long time educators is very concerning to me and most others in our profession. Please, come spend a day in the lives of the school children, the school environment, and with teachers to see all the kinds of things we do to keep our day running as smoothly as possible despite all the hurdles and obstacles that come our way.

To deliver the schools our keiki deserve, please support these bills. We need your help.

Mahalo for your support and consideration.

Sincerely,

Theresa A. Haberstroh

Subject: SB 683 and SB 686 RELATING TO EDUCATION

Aloha,

In regards to this bill. Unless it increases pay for educators, I don't care about it. Either the pay is increased substantially, or Hawaii will loose many educators. While the DOE posts jobs in several other states, says one doesn't even need a teaching degree and pays for moving costs, this only increases the low morale and deprivation of education throughout the state.

Teachers are at the forefront and need to be paid accordingly.

TESTIMONY BEFORE THE **HOUSE COMMITTEE ON JUDICIARY**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 22, 2017

Dear Chair Nishimoto and Members of the Committee:

My name is Sandra Yoshikawa. I am a teacher from South Kona on Hawai'i island. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools because lack of sufficient resources are impacting our children's lives. Lower class sizes will improve learning for all students, along with providing education in the arts, physical education, foreign languages and Hawaiian Studies. Low pay has forced me to take a part time job after school along with hundreds of other teachers holding second and sometimes third jobs just to make ends meet. These situations are not in the best interest of our children and not in the best interests for our teachers.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo!

Sincerely,

Sandra Yoshikawa

South Kona District, Hawai'i Island

From: Andrew Jones <jonesbaron23@gmail.com>  
Sent: Tuesday, March 21, 2017 1:04 PM  
To: JUDtestimony  
Subject: Testimony in Support of SB 683/686

Testimony for: House Judiciary Committee  
SB 683 and SB 686 - RELATING TO EDUCATION

Aloha, Members of the House Judiciary Committee:

I am Andy Jones, a teacher at Radford High School. I have been at Radford for a decade; previously I taught English as a Foreign Language in Taiwan 1993-2006. I am writing to ask that you please pass SB 683 and SB 686 to increase funding for public schools.

Valid arguments for increased funding are legion. The following are among the most exigent:

1. *Teacher retention and recruitment.* When cost of living is taken into account, the average public school teacher in Hawaii earns more than \$10,000 less per year than the next lowest-paying American states for teachers. That is to say, it is not just that we are ranked last, but that there is in addition a significant gap between Hawaii teachers and the other low-paying states. For many teachers, this gap spells non-affordability. This is the primary reason why the average Hi teacher spends less than five years in the classroom, and why we have the nation's most serious teacher shortage overall. Students suffer individually and collectively when too many of their teachers are inexperienced or under-qualified. I believe that improving teacher retention and recruitment is beyond question the single most effective way of improving public education in our state.

2. *Unfavorable teacher to student ratios.* Teachers throughout the state are overburdened with too many students. This year at my high school, one of my first-year Language Arts colleagues has over 210 students distributed among his six classes. That's almost 40 students per class. Not only are 40 students far too many for effective teaching and learning; the sheer number of students that this teacher is responsible for seriously limits how much time the teacher can spend devoting important individualized attention to particular students. In short, not only do teachers need to be paid more in order for them to stay beyond five years; more teachers need to be hired in order to effect more favorable teacher to student ratios.

3. *Teachers need more preparation time.* This third point is inextricably woven with the second point. The annual information gathered by the Organization for Economic Cooperation and Development (OECD) provides substantial evidence that, of approximately three dozen nations that participate in the extensive reports on education, teachers in the United States are the second-most overworked teachers in the world after Chile, spending an approximate 1100 hours in front of students per year in comparison to the international average of around 600. Most American teachers experience significant challenges in implementing educational "best practices" because they are given so little time to developing the highest quality curriculum, instruction and assessment. Public education in Hawai'i as in the rest of the United States is unlikely to improve significantly until efforts are made to decrease the number of students teachers are responsible for each year and to build more non-

teaching time into the teacher work day. Once again, this will require hiring far more teachers than we currently have.

To deliver the schools that our keiki deserve, I ask you to please support these bills.

Mahalo.

TESTIMONY BEFORE THE HOUSE JUDICARY COMMITTEE

Testimony from: Louise Cayetano, 1<sup>st</sup> grade teacher  
Mayor Joseph J. Fern Elementary

Date : WEDNESDAY, March 22, 2017

RE: SB 683 SD 2 and SB 686 SD2 RELATING TO EDUCATION  
TESTIMONY IN SUPPORT

Aloha, Chair Nishimoto and Members of the Committee:

My name is Louise Cayetano. I am a teacher from the Honolulu District. I am submitting testimony in support of SB 683 SD 2 and SB 686 SD 2, which would create an additional funding source for our public schools here in Hawai'i.

Your support on both bills will make it possible to lower class sizes providing precious time for teachers to work with students of special needs such as our English second language learners and those in special education.

Your support on both bills will make teaching in Hawai'i's public schools enticing. We will be able to retain teachers for longer periods of time and make the teaching profession attractive once again.

Providing qualified teachers to teach physical education, arts and the humanities for is long overdue. We should be providing a well-rounded education for all of our children. Placing highly-qualified and certified teachers to teach our core content areas is what our students deserve rather than adults who teach long term, and are unqualified to teach in the content area they are assigned to as a substitute teacher.

I ask for your support of SB 683 SD 2 and SB 686 SD 2, which are steps in the right direction for public education in Hawai'i.

Thank you in advance for your consideration.

Chair Nishimoto and Members of the Committee:

My name is Laura Burton. I am a teacher from the East Complex on Kauai. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because teachers can no longer afford to live in Hawaii with the lack of pay increase and the constant increases in Health Insurance costs. For the third year in a row, our health insurance is rising, in addition to other cost of living increases. Many of our teachers already work second jobs to make ends meet, this upcoming "pay reduction" is going to break many of them, including myself.

Our keiki deserve teachers who are solely focused on the students. They deserve teachers who are rested and who feel appreciated in their profession. Right now, teachers feel very much unappreciated and are feeling strapped financially. We must find funding, to at least maintain current pay rates...if not increase pay. I, myself, a "Highly Qualified" and "Distinguished" rated teacher, am now looking to possibly return to the mainland, as I may not be able to survive another pay loss. We already are having trouble recruiting new teachers to the profession in Hawaii...Do we now also want to lose the many "highly qualified", talented, and experienced teachers that we do have? Hawaii's keiki and families deserve more!

While making technology and modern tools/materials available to our keiki should be a priority, a higher priority should be having competent, experienced, caring teachers to guide the students toward a successful future. Emergency hires and long-term, inexperienced substitute teachers should not be the standard expected to serve our students.

I love teaching in Hawaii. The organized and professional expectations of our DOE are appreciated, but without a viable income, many of us cannot continue to serve our keiki.

To deliver the schools our keiki deserve, please support these bills. We need your help.

Mahalo.

Na Keiki are our future. When teachers instruct their students, they build the foundation for equality, prosperity, and Aloha for [tomorrow](#)'s generations. Every dollar invested in our community's public schools yields exponential returns for our economy and even more important for the promise of a more open and democratic society filled with Lokahi and Aloha; With citizens who embrace their Kuleana and Kōkua and know how to Hō'oponopono.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because we see great teachers leave for states where not only is pay higher, living expenses are lower. We are losing a valued kindergarten teacher to Oregon because his family will do better economically giving his two children better choices for their future. As a parent with a child in college I need a house mate and am looking for a second job. I know teachers who have three jobs so their families can live decently. Teaching is beyond a full time job all by itself and it takes away from focusing on this job, educating our future, when teachers must find second and third jobs to live decently. We need adequate pay and compensation so that we can focus on one job only, creating the leaders who will create the best future possible, the one in which we will retire.

To deliver the schools our keiki deserve, please support these bills. We need your help. Māhalo e Mālama Pono!
