RE: S.B. No. 1034
S.D. 1

Honorable Ronald D. Kouchi
President of the Senate
Thirtieth State Legislature
Regular Session of 2019
State of Hawaii

Sir:

Your Committee on Commerce, Consumer Protection, and Health,
to which was referred S.B. No. 1034 entitled:

"A BILL FOR AN ACT RELATING TO INSURANCE,"

begs leave to report as follows:

The purpose and intent of this measure is to clarify that the existing health insurance mandate for coverage of low-dose mammography includes coverage for digital mammography and breast tomosynthesis.

Your Committee received testimony in support of this measure from the Hawai'i State Commission of the Status of Women, Planned Parenthood Votes Northwest and Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Association of Health Plans. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that breast cancer is one of the most common kinds of cancer in women. Nearly one in eight women born today in the United States will get breast cancer sometime during her life. Digital mammography provides images of the breast in many different angles, providing greater accuracy in finding abnormalities and determining which abnormalities seem potentially worrisome. Women who undergo screening with a combination of

three-dimensional and two-dimensional mammography are less likely to be called back for more testing due to suspicious findings that turn out not to be cancer. Digital mammography and breast tomosynthesis are technologies that have been shown to be more effective for patients with dense breast tissue and those that are at higher risk of breast cancer.

Your Committee notes that coverage for low-dose mammography is not a new benefit that would be subject to an impact assessment report. Breast tomosynthesis is simply an advancing technology within the existing mammography mandate that should also be covered under the same benefit. Your Committee believes it is inappropriate to require an impact assessment whenever a new technology comes out to modernize an existing covered benefit. Such attempts to delay action pose a risk to the health of patients who would benefit from advancing technologies or methodologies.

Your Committee has amended this measure by:

- (1) Inserting a repeal date of June 30, 2024; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1034, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1034, S.D. 1, and be referred to your Committee on Ways and Means.

Respectfully submitted on
behalf of the members of the
Committee on Commerce, Consumer
Protection, and Health,

ROSALYN H. BAKER, Chair

The Senate
Thirtieth Legislature
State of Hawai'i
